

FFWPU Europe and Middle East: Sun Myung Moon Centenary Exhibition Project

Sallyann Franklin

April 12, 2020

Hi Everyone!

My name is Sallyann. I am part of a multi-national team called Centenary Project, which our Regional Director of EUME Dr Michael Balcomb put together after the Centenary celebrations in February. It's a multi-national team creating on-line material about True Parents and our movement for everyone to use with their contacts, friends and newly-blessed couples and families. It's a basic point of reference for foundational information and education, featuring several different languages.

It begins at the website www.smm100.org mentioned last week at our Europe and Middle East (EUME) Zoom Prayer. This website operates as a kind of exhibition, allowing you to go into and use different parts to inform people about True Parents' life and work. It includes the Poster Exhibition created especially for True Father's Centenary and True Parents' 60th Wedding Anniversary.

In order to keep the material up-to-date and relevant, and to make sure it's being used, we need masses of feedback from users.

We need the answers to THREE QUESTIONS ONLY

1. Which parts of the material do you like and will you use? (Eg. I would use.... Please rank your answer, i.e. put your best first, your second -best second, your third-best third, and so on.)
2. Who will you use it for (contacts, myself, uni friends, members, blessing candidate couples – who exactly?)?
3. What do you NOT like about anything? What would you prefer instead? (State as clearly as possible what you would like to see there, and why? This will motivate creators/developers to improve. What you prefer is crucial for us to understand.)

We need your answers now! We need it from as many people as possible! Preferably about 500 answers. Just these three questions, answered quickly - from multiple members in a family if possible, too. Use of correct language skills is not important to us.

If you prefer, you don't need to give your name. But we do need some information, in order to evaluate the results correctly. It may be that some things don't speak to a certain age group or country, and we need to get that right. Your answers can also be from me, female, Hungary, 37 years'. (Please give those correctly: gender, country and age.)

Thanks for your help. Looking forward to hear what you think. God bless you.

Sallyann Franklin (female, UK, 70)
