

1-Day Children Summer WS 2020 report

17 children, 10 parents, 5 young adults and 2 Grand-parents came together for a 1-Day Children WS on July 11th 2020 in Chamarande Training Center in the south of Paris.

The theme of the WS was "Sun to the Sunflower, God is my power".

The day started with an interactive introduction to the theme and then adapted guidance to 2 different age groups (Group 1: 6 years old and less, Group 2: 7 years old and more).

Then the children had creative activities like cookie baking and origami assisted by parents and elder blessed children who came to help.

After the morning the families had a wonderful pic-nic before a service project in the garden of the training center. The brothers started with the service project of cutting down old trees, making bundles of sticks and building a play ground while the sisters were enjoying the swimming pool. After 1h they switched roles.

After a re-energizing snack the children played many different games and sports for about 3h before enjoying grilled sausages, marshmallows and singing songs around a campfire to the end the day.

It was great to gather 3 generations to experience a glimpse of CIG at this short yet wonderful Children WS.
