### Project "Our helping hand"

On August 16 YSP Moldova participated in the Peace Designer Program and presented its project "Our helping hand" among other 11 teams from various countries. And we were among the three winning team. So now we are working on putting announces in public schools of two districts and to mobilize about 15/30 young volunteers including the coordinators of the actions in two districts. Young will visit 10 aged people in each district and will give them emotional support and will help them with household chores.

### 3. Joint project "Caravan of nationalities"

YSP Moldova participates in the "Active Peace" program organized by Ecoviosio. Young people form teams of 3-4 people each and work on a peace project.

There are several nationalities in Moldova, but the relations between them are not so developed, due to stereotypes and discrimination against minorities. Through our project called "Caravan of Nations" we want to hold a common event for several ethnic groups of Moldova.

The purpose of this project is to learn about the culture of other nationalities, but also to have personal communication in order to make harmony and to destroy existing barriers. We want to show that besides the differences we also have a lot in common. Thus, 6 representatives of the Gagauz nationality (from Tomai village) will travel to a Bulgarian village (Taraclia), where each will represent their culture, will be able to interact through fun games and will be able to taste traditional dishes.

The project will be realized at the end of October and will include about 50 people.

## Report of Activity

A group of seven students learned valuable lessons when collecting litter at a local park in Barcelona.

YSP Spain organized a cleaning project on September the fifth. The goal was to put into practice the core values of the organization: respect, integrity, sincerity and empathy.

The young participants received an introduction lecture first and immediately after set out to Mount Carmel - place of the worldwide known 'Park Guell' - where they spent the rest of the afternoon.

The project was a success. Not only they spent a beautiful day in public service, but learned first hand the importance of caring for the environment. More importantly, they grew their confidence in their capacity to take action and they inspired each other to repeat similar experiences in the future.

IAYSP- Hungary organized their first event!

On 25<sup>th</sup> of september IAYSP Hungary held it's very first event, which became a painting experience that probably no one will forget.

We wanted to start with a small event where all our friends could come and connect with themselves and others through painting.

We asked a good friend, a special education student (Anna Pusztai) to help us with the content of the day so she led a powerful meditation and two painting sessions. Before that IAYSP co-president (Jaqueline Nanys) talked a little bit about IAYSP and what does it stand for, with all it's goals and values. At the end, the participants were all sitting in a circle and shared what the paintings meant to them.

There were 17 participants in total with a great mixture of characters and backgrounds. We are very grateful for all those participating and for the Peace Embassy in Budapest that gave space for our event. We did not expect that people would share so honestly and deeply or that we would create such a lovely atmosphere where people could freely interact with each other.

Michel Reymond, Mélanie Komagata et Chantal Chételat Komagata ont modéré la formation et les discussions et Ye-Bonne puis Mélanie ont fait la traduction français/anglais directement sur zoom.

Durant la journée, de nombreux participants se sont joints à la formation. Beaucoup avaient été invités par des Ambassadeurs de paix qui oeuvrent activement à propager des valeurs universelles et un enseignement pacifique à leurs amis. Plusieurs, ayant eu un cas de force majeure ou une interruption de la liaison Internet ont dû renoncer et attendent la prochaine formation.

IAYSP- Hungary organized its Inauguration.

The organization finally held, the inauguration of IAYSP!

The program was on the 9<sup>th</sup> of October, through an online zoom meeting, due to the pandemic. However it was a great success. There were 20 participants in total, who got to know the organization's background, values and goals, while talking about relationships as one of the most important aspects of life.

- The IAYSP European Leader (Jeong Hye Yeom) gave a speech about the foundation and purpose of IAYSP.
- Hungarian organization's co-president (Jaqueline Nanys) presented the Hungarian team and goals for this year.
- Furthermore IAYSP Regional Leader (Jonatan Makkonen) shared about relationships and the importance of nurturing and taking care of them.

After the lectures, in a World Cafe format the participants further talked about their view on this, in small groups. There were 3 categories: Relationship with our family, relationship with our friends, and relationship with one's partner. The event was held in English, as there were participants from multiple countries.

<Hungary>

We are working hard on the Peace Designer Project, that will be held annually in high schools, in Hungary. This year it is only a test run, but already 45 students registered for this educational program, making this the most successful project we are working on right now. In the future we are hoping to make it more and more professional, with the mentor program and a proper competition for the projects in the end, connecting it to S!NERGY. We also hope in the long run, we can cover our other expenses throughout the year with this program.

<Switzerland>

« la main tendue » is a swiss organization offering help on the telephone to people needing to talk to someone, for example when they are going through hard moments in life, or having suicidal thoughts. The « We care » project is a project we started in 2019 after the swiss peace designer workshop.
