

FFWPU Europe and Middle East: Congratulations to DONE 021 graduates!

Patrick Hanna
November 20, 2021

We are very pleased to announce that the first module of DONE 2021 has successfully concluded. Despite the ongoing uncertainties due to the pandemic, we are grateful we could run the programme in person. We want to congratulate the graduates once again for all their effort and achievements and thank everyone who was involved in supporting and contributing.

Every year, the group is different and the experience created is special and unique. This year we had participants and staff from Europe, America and Canada. There was a variety of lecturers and education, focused on studying the Divine Principle and how to apply the wisdom in our daily lives as well as dedicating the final week to Matching and Blessing content. A highlight of this year's programme was a trip to the mountains, which gave a unique opportunity for contemplation and inner connectedness with God.

We thank all graduates for investing in their growth and spiritual life, and their commitment to growing a deeper relationship with God and True Parents. As a community of Blessed Children, we were reminded of our potential, linked to our identity, our roots and our purpose in life. We believe each one of us has an important role to contribute to The Holy Community of Blessed families.

We also want to give special thanks to the educators, team leaders and other supporting staff who accompanied the participants and contributed to this significant experience for their lives. And we want to thank all of our friends, family members and wider connections, who also supported the programme and the participants throughout these past months.

We have already started the second module of DONE which will run online until Christmas and we look forward to continuing our journey together in 2022.

The ESGD team
