PRAYER & HOONDOKHAE

“We are living in an age where we cannot look at things with humanistic eyes.

If we look with the eyes of God’s providence, we see that we are living in the most important and serious time in all of human history.

It is the greatest transition point humankind has ever faced, a watershed moment.”

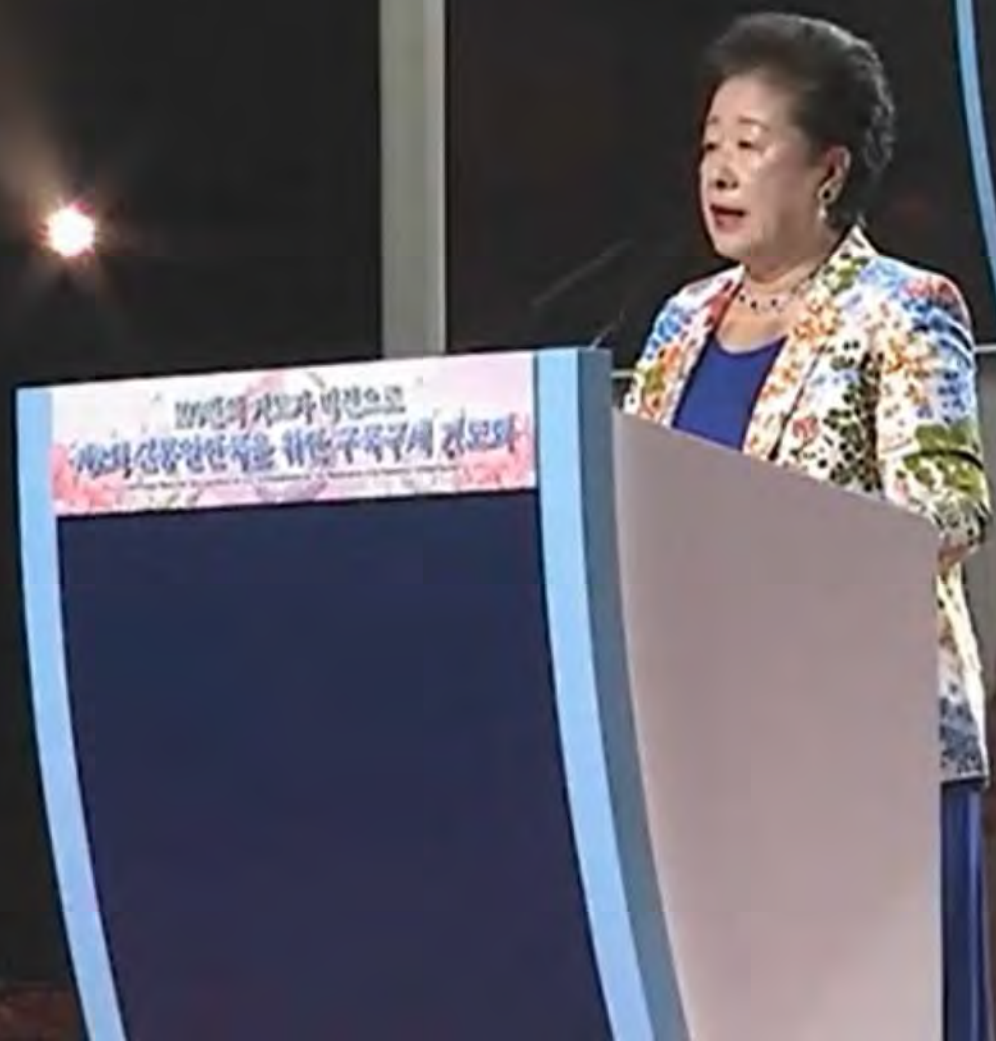

True Father, Sun Myung Moon, July 7 2009

The reality that you are breathing the same air with me is the golden season of your life. It is an extraordinarily blessed position and opportunity that you can be proud of in front of Heaven. You can be proud in front of Heaven about your efforts and your fruits... A farmer that can't harvest during the harvesting season is a very sad farmer. You're supposed to bear a lot of fruit. That's how you have a future; that is why, at this time in the era of Cheon I'll Guk, as we are firmly establishing Cheon Il Guk at this moment, no one is retiring — men, women, old and young— everyone. I bless everyone to have a huge fruit in the golden season of their life.

The year of the black tiger means a tiger that is moving dynamically. It's a brave tiger, a wise tiger — and tigers are the best of the animal kingdom; even humans can't go against them.

We should proudly let people know about the Parents, in this time when our True Mother the only begotten Daughter is together with us in this season. In this period, during this year, we should all come together and make this Korean people a heavenly unified Korea and this world a heavenly unified world which is blessed. Let's make our best effort.
