

National Leadership Inheritance Ceremony

On November 27, 2022, the entire Italian Family Federation community gathered at the Orio al Serio (BG) Multipurpose Center for a truly remarkable occasion.

The event began with the Sunday service led by presenter Elena Chirulli, Family Pledge 7, Cheon Il Guk anthem with vocal arrangement, and an opening prayer offered by Sonjin D'Adda.

The sermon was led by EUME Regional President Mike Balcomb and was entitled "Treasures of Heaven" tracing the importance of our identity as children of filial piety to True Parents. Recurring theme also recurred in the account of the meeting with True Mother in which it had been explained that the mission of a child of filial piety is to make their parents proud, even if they are advanced in age, and work to fulfill their desire.

Next, Giuseppe and Elisabetta Cali reviewed the highlights of their 28 years as national leaders. Some videos were shown of True Parents being in Italy in 1995 until True Father's last tour in 2011. Truly unforgettable moments!

The next talk was given by Gukson Capone who recalled the key role of the second generation, in connecting the 1st and 3rd generations in following Providence, and remarked on the importance of moving forward steadily in achieving one's goals. Recent phrases from True Mother were read, asking for the cooperation of her children to realize a lasting world of peace and to move on quickly for Vision 2027.

A congratulatory song was offered by Debora Russo with accompaniment by Robin Chionna. A heartfelt message of congratulations was given by Vice Presidents Bogdan and Yoshiko Pammer.

After the cake cutting, there was a auspicious ritual by which all present prayed for the future couple and inviting Heaven in future decisions.

In attendance were 130 people who came from different parts of Italy and about 110 connections on zoom.

A day filled with hope and desire to all march together under our beloved True Parents.

MANSEI!
