Mother of Peace, Hyo Jeong Kids Edition - Book 1: Preface

I am happy to share with you the news about the new series of children's books created by Women's Federation for World Peace USA. This first book is a shortened adaptation of the preface of "Mother of Peace", a memoir by Dr Hak Ja Han Moon.

I purchased this little book to read with my children (2, 12, 15, 17 years old) and they liked it. The language is simple and child friendly, the illustrations are colourful and charming, the size is just right to carry it around to enjoy it on the ride. We used it for our family's evening reading and the questions at the back made our discussion meaningful and motivating.

"You want us to know You as our Heavenly Parent, the One who is the love of Heavenly Father and Heavenly Mother. The world has not understood who you are as a Parent with the love of both Mommy and Daddy. You want our families to be just like you so that we can make your dream come true..."

What can we do to help make Heavenly Parent's dream come true? We hope you and your family will find peace and inspiration as you read this book together."

I personally look forward to reading more books from this book series with my children and I highly recommend it to all parents. I hope you and your family will find peace and inspiration as you read this book together, which is perfect for children aged 2-10 years old.
