

Rev. Paul An's Visit to Munich

Munich, Germany, 25. September 2016

By Robert Bentele

Munich FFWPU was lucky to have Rev. An giving the Sunday service sermon.

The HDH Reading was from Pyeonhwa Geong "In Search of the Origin of the Universe"

In his sermon Rev. An spoke much about the meaning of oneness. Here are some excerpts of his sermon (from unofficial notes of R. Bentele).

Koreans call God Hananim and the name of Koreans is Han.

Identity of God is 'one'. God is one, absolute, unique and unchanging.

God needs an object of love. God wants to have a physical form/body.

So Adam and Eve had to become one. God wanted to live in them. Oneness is the goal in all aspects of live and

creation. It means to have the same heart, the same will and work in same situation.

By practicing true love we can become one. Invest and forget, give and give and forget.

God invested all He had.

How to practice true love in daily live? Through the family life, through living sacrificial.

Mothers practice true love. Practice true love and then become one. Deny yourself. See the other's perspective. Always think of others.

Even concerning your health. Stay healthy for the sake of your parents, your spouse and your children.

Filial piety means .. live ... not die ... stay healthy!

When True Father went to spirit world, he didn't go to God directly.

He felt so sorry that he couldn't bring all humankind.

True Mother practiced a three years mourning period together with True Father.

After three years TM told to TF that he could go now to the glory of Heavenly Parent.

Inherit the heart of filial piety. God has been waiting for grand children.

The ancestors want to stay with us and share live eternally with us on earth

A prerequisite condition for sunghwa is the unity of parents and children.

Do HDH together as a family. Let's live together with God.

Inherit the tradition of filial piety of Korea. We are Koreans.
