

Jin Choon Kim: The Lord of the Second Advent should absolutely Fulfill God's Will in His Generation -- Part 2

My dear brothers and sisters,

The president of the Cheong Shim Graduate School of Theology said in his lecture "The Vision for the World after Foundation Day" at the European Leaders' Meeting in February 2012 (vimeo.com/37424913) that if we read Father's words spoken in 2001, 2002 and 2003 "we can see Father's strong conviction or expectation of 2012, but in reality we don't have that standard. That really makes True Parents sorrow[ful]."

Dr. Jin Choon Kim asked, "Who makes True Parents most sorrowful situation?" and he gave the clear answer: "To me, our members make True Parents' sorrow, more than Ambassadors for Peace, especially Blessed families, we make true Parents' sorrow[ful]. This is my basic understanding. Whenever I attend Hoon Dok Hae, I feel like that."

And what do we think about this? Is it true what this brother whom Father entrusted with the leadership of the Cheong Shim Graduate School of Theology said? Personally I am convinced that this is indeed God's point of view and accordingly we should deal with this reality and change fundamentally from being the ones who bring the most suffering to True Parents, more than outside people, to become those who make them happy.

What would all parents like to see? That their children love each other and grow up to become better than their father and mother. This is certainly the desire of True Father and True Mother for all of us.

Dr. Kim explained that especially after 2009 Father emphasized another 12 year course: "We should fulfill by 2024 when Father is 104, Father emphasized. In Tongil magazine, in April 2009 we see Father talked on February 26, and on March 27, in Las Vegas and also May 6, and 2009 August 16, and 2011 June 4th. I was there at that time at Hoon Dok Hae. Always I was looking for something in Father's message about 104 years old. So on that day, last year June 4th, I exactly heard with my own ears Father mention: 'I need to complete until my age is 104 years old. Another 12 years.'

And even when Father went to Nigeria last year Father mentioned, 'I will not go to spirit world until 120 years old.' Actually many times Father mentioned like that. And last year, September 12th, we should liberate from the individual, family, society, nation, to the whole world, even the dungeons of hell in the spirit world, before Father goes to spirit world, before Father goes to spirit world. This is to me very, very serious in Father's life at his time and even after Foundation Day.

We need to think about the meaning of the 12 year course. Until this year God's original plan was to fulfill or to establish substantial Cheon Il Guk. Father's original course was until 1952. If we fulfilled that original course then we did not need to go through the 40 years wilderness course and two times 7 year courses. Originally Cheon Il Guk should have started already in 1952. Then our life on earth and even in the spirit world would have changed already 60 years ago...

From 2001 we could not fulfill the 12 year course even though true Parents fulfilled their mission to formulate the basic structure or foundation for Cheon Il Guk. But we did not fulfill our portion of responsibility. From 2013, exactly the same day January 13, we need to start another 12 year course according to Father's speech. Today or this year is not just end of God's providence, next year is starting [point]. That's why it is defined Foundation Day. That is the starting point, the original point of substantial Cheon Il Guk. From there we need to fulfill true Parents' original mission by 2024 in Father's age 104."

Dr. Jin Choon Kim shared that from 2006 he had the chance to meet with an Ambassador for Peace who did not know Divine Principle and Father's teaching but he has been studying for many years the ancient Korean book of prophecy, Chung-gam-nok, and realized through studying this book of Heavenly revelation that by 2016 the message of the Lord of the Second Advent will be spread throughout the whole world. That is exactly formation stage of the 12 years course. (Formation stage is from 2013 to 2016, 2017 to 2020 is growth stage and 2021 to 2024 is completion stage).

The lecturer reported: "This Ambassador for Peace said, the message tells that 2023 is the completion of the providence centered on the Lord of the Second Advent and 2024 is the starting of a New World. I was very amazed. He does not know Divine Principle... He said this is very sure."

Then the president of the Cheong Shim Graduate School of Theology spoke shortly about another man who does not know Divine Principle but who knows very well I-ching. He knows many Chinese characters and has memorized all contents of the Book of Changes. "He asked me about Rev. Moon's Chinese characters and birthday and he analyzed in detail.

He said, 'Oh, Rev. Moon, from 93 years old, from next year for ten years until his age is 103 Rev. Moon has incredible Heavenly fortune. He has the fortune to work together with all potential people around the world. He has fortune. Whenever he needs, the prepared person will come to him and he will work.' He said, 'Rev. Moon will never die until 103 years old.' And he said, 'From 104 years old, for another 10 years, maybe some difficulties he may have.'"

Dr. Kim added, "Even though they don't know the Divine Principle but some similar conclusions they have." And he emphasized again: "What is Foundation Day? The origin and starting point of substantial Cheon Il Guk. That is Father's definition of D-day." What does this mean in the light of Father's premature ascension? That he could not harvest the fruits of his life-long labor because just before he could receive incredible fortune in the years between 2013 and 2024 he had to die on the cross due to our failure to fulfill our portion of responsibility to unite with the heart of the True Parents of Heaven, Earth and Humanity.

The lecturer presented a slide in which the vision for the world after Foundation Day stands at the center with 7 arrows pointing to it, referring to various viewpoints from which we need to think about the ideal world: From God's point of view and from the perspective of True Parents, from the perspective of True Love and of Cheon Il Guk, from the viewpoint of God's Word, the Three Great Blessings and the Cosmic Family.

Dr. Kim commented that these 7 perspectives are not all, but at least we must think of 7 perspectives because that is the essence of Principle. We cannot deny what will happen after Foundation Day. The vision for the ideal world should be centered on God completely, not only in Europe but in all countries. We must achieve that level after Foundation Day: "The vision for the world should be centered on the True Parents of Heaven and Earth, and the original substance of humankind. You cannot deny this fundamental fact. And also, the vision for the world should realize the ideal of Cheon Il Guk. And centered on True Love and God's Word and the Three Great Blessings and Cosmic Family we should realize that ideal..."

Then the president of the Cheong Shim Graduate School of Theology showed another slide in which God is at the top, True Parents in the middle, and at the bottom are three circles on a horizontal level vertically connected through a line with the position of True Parents. On the far right stands the name 'True Family', in the middle 'Blessed Families' and on the left 'Non Blessed Families'.

Dr. Kim explained: "After Foundation Day, including this year, we should restore this basic structure. Originally God -- Adam and Eve could not fulfill and also Jesus and the Holy Spirit – but with True Parents we can fulfill. So we have True Family here, Blessed families, and non-blessed families, all together. True Family is the center or Abel figure of Blessed families. And Blessed families should be central figure to non-blessed families. Altogether they must unite with True Parents..."

Just as it is not a given that Blessed families actually stand in an Abel position to non-blessed families it is clear that also the True Family is only in an Abel position to Blessed families if the True Children fulfill their responsibility as Elder brothers and sisters towards us as members of True Parents' extended family. From this clear principle understanding we need to realize that neither we nor True Children are automatically in an Abel position but only if we fulfill the qualification to be Abel.

In reality Father stated on this year's Day of Victory of Love that all Blessed couples/families are false. So how can false families be in the Abel position to non-blessed families? And we know that also some of the directs sons and daughters of True Parents have been showing a Cain-type, rather than an Abel-type attitude and therefore Father told everybody at the beginning of this year that we must raise them – our elder brothers and sisters – up and also their families.

We have not been doing this which enabled satanic forces to continue their work among members of True Parents' direct and extended family leading up to Father's death on the cross which was followed by numerous revelations of shocking situations which have been going on in our midst -- for which we are collectively responsible.

It is obvious that most members are not aware of how big a tragedy Father's premature ascension as the crucified Lord of the Second Advent is, which even increases the tragedy because Father's going to spirit world as an offering can only have meaning if we actually understand what was the reason and cause for this to happen, given Father had spoken about living to 104 years old and beyond.

We must remove the root cause of Father having to leave this earth as there was no longer a foundation for him to stand on, and as we did not unite with his true heart and the actual teaching he had given to us, but instead we accepted the false teachings of church leaders, who still insist they are in the Abel position, whilst they do nothing to follow Father's example. This will only lead to further tragedy.

True Parents showed already the model of a God-centered life. Their shedding blood, sweat and tears can only bear fruit if we learn from them and also become people who lead a God-like life as Father has asked of us already three decades ago in the Historical Children's Day speech.

Dr. Kim explained in his lecture: "The first 12 year course was for offering Cheon Il Guk, to make all foundation and format, or frame or structure to offer Cheon Il Guk to Heavenly Father and the second 12 year course is for substantial Cheon Il Guk, for substantializing in our daily lives from the individual level, family level, society level, to the nation level and cosmic level. In this sense this year is conclusion of first 12 year course and preparation for next 12 years course. Very serious turning point, like life or death devotion, very serious..."

Unfortunately this lecture was not taken to heart by the European leaders who heard it directly nor by our members around the world who should also have received this content but did not hear about it in most cases due to the irresponsible behavior of regional directors who concentrate only on their own regions instead of having the heart of being concerned for the wellbeing of all brothers and sisters on every continent. When will we realize our deep sin of having followed self- centered leaders while leaving True Parents alone on the cross?
