

Facing corrupt leaders in the Northeast Region (Part 3)

Please consider that the new regional president of the Northeast continent, Jin Hwa Chung and Jin Pal Chung who has been leading our Ukrainian Movement for many years, are both sons of the family which was appointed as National Messiah to the Ukraine and they have a similar attitude, otherwise the elder brother Jin Hwa would not have promoted his younger brother Jin Pal to become bloc leader over centrally important countries of the Northeast regions like Russia and Belarus, Ukraine and Moldova, as well as Georgia.

The attitude of Jin Pal Chung may be understood through the following summary of his remarks at recent meetings:

“Leaders need to promise that they will only communicate offline and remove all the online resources. No information is allowed to be spread via the Internet. This is a satanic technology. From now on, we only do offline communication, only through personal contact.”

God prepared the internet as tool to spread the truth of the Lord of the Second Advent and Satan works through people like the younger brother of the continental leader of the former Soviet Union, China and Mongolia, in order to prevent this valuable technology to get the news of God’s eternal truth to millions of people.

Imagine, Rev. Chung gave the order to close all the websites, including the official site of our Movement in Russia! How can anyone remain sitting quietly on his or her chair when you know that such outrageous things are happening in our Movement?

How far Jin Pal Chung has fallen may be easily understood when you listen to his statements like the following: *“I am a genius. I am smarter than you can imagine. I have studied and analysed the development of the Movement in all countries. The result is everywhere deplorable.*

I am directly connected to God and True Parents. No one has studied the Divine Principle in detail as I have. When I was in Korea, I was addressed like the True Children, with the honorary „Nim“ added to my name.”

Father told us that the Korean Elders, sent out to serve brothers and sisters in other nations, are in the archangel position. Here we have an example of an immensely arrogant person who like fallen Lucifer thinks that he is the greatest and destroys the work of God on a whole continent!

Einari and I spoke for about 5 hours with the National Messiah and national leader of Estonia, one of the Baltic countries. In that sharing he emphasized that he tells his members to go out into society and serve the people in Home Church because in this way God can show them many things.

On the other hand we have Rev. Chung who teaches the opposite: *“A person can not grow and develop until he separates from society! He needs to become a full-time member. Everyone should become a full-time member...”*

Jin Pal Chung says that only if husband and wife are full-time members they are considered to be a central Blessed family. Otherwise they are just a Blessed family. This understanding means for Europe that we have hardly any central Blessed family as there are only very few full-time members.

Listen to this: *“When husband and wife live together they interfere with each other in respect to doing the Will of God. Therefore it is better for husband and wife to live separately. In our life, we do not have to think about personal happiness, it should be for the sake of God’s will. What is the point of living together? You do not have to live together.”*

The bloc leader on the Northeast continent tells Blessed husbands and wives to live separately, contrary to God's providence of realizing the ideal centred on True Love in the family which can be fully realized at this time.

About the overall situation of our Movement Rev. Chung explained: *"Our church is currently on the verge of death. Therefore we cannot engage in dealing with problem families. Our Second generation is in a hopeless situation."*

These are the words of a person who has lost faith in God and puts himself into the centre – a fallen Lucifer-type person who is out to completely destroy our foundation on the Northeast Continent.

He tells members that they have never experienced parental love! *"Only in Korea, parents can love their children. Because members do not know the etiquette they must learn the etiquette from the example of Korean TV movies! From now on, we have to see Korean films and write a report about what we learned there."* According to Jin Pal Chung we should learn from the fallen Korean culture portrayed in the soap operas!

The continental director's younger brother explains: *"In our church, there is no concept of pastor." Only one person in Korea has received from the Father the status of pastor. Even the True Children do not have such status."*

From an internal viewpoint this means that in our church there are no pastors who fulfill the task of being a shepherd who care lovingly for their members. Jin Pal Chung advocates a cold church of absolute obedience to leaders where unwelcome members can easily be kicked out as love and care for people is not a priority but submission to the leader.

Rev. Chung told brothers and sisters: *"During my life I have not seen a happy family in our church. If in Korea, where Father taught members directly, there are no happy families, in Russia and other countries things are worse."*

What kind of person is that long-time leader who has never met a happy family? How has he been taking care of members? He has shown that he is completely unable to help brothers and sisters to create a good family! This proves what a miserable job he has done as leader in our church until now.

Listen to the following content: *"Second generation children in Russia cannot even compare to me, they are much worse, because I was educated directly by Father and the 36 couples."* How would you feel as a Blessed parent to hear your leader speak about your children in such a way?

Jin Pal Chung revealed the truth about himself: *"At the same time I have still desire to smoke, drink, take drugs and sexual desire. I'm a terrible guy, and your kids will be even worse, because they did not get the direct education from Father!"*

My dear brothers and sisters, can you call yourself a member of True Parents' extended family when you know that such a terrible person is an important leader in our Movement, destroying the foundation our True Parents, missionaries and members have established on the Northeast continent, and do nothing about it?

I have been fighting now for one decade against corruption in our movement? Who has supported such efforts? Now, after 10 years I have to report about terrible realities to you. Nobody can say that they did not know how evil our leaders are because Father called them all kinds of names including thieves and liars or bastards who behave like dogs. The reign of evil is growing in our own Movement but who cares about that tragedy?

What a completely unreliable person Rev. Chung is may be understood when you hear him say: *"I am a deeply spiritual person, I want you to give in-depth knowledge, but when you ask stupid questions, you disturb my connection with the spirit world and I cannot tell you such a deep knowledge as I would like to!"*

As an extremely arrogant person he has nothing else to do than putting others down in front of the members, even William Haines, who has been instrumental in writing the book *"My world and I"* and other educational materials which had been introduced to and used by thousands of schools on the territory of the former Soviet Union in the beginning of the 1990ies.

About William Haines who had recently given a seminar in Russia which was very well received and highly appreciated by the participants, the incredibly arrogant Mr. Chung told the members: *"You don't need to listen to what a man coming from the West says!"*

Rev. Chung conveyed his negative thinking: *"When there are even in the Korean culture, the Fatherland, such dismal results from the Second generation, then in all the other countries (like Russia, where the culture is much worse) reality will be even worse!"*

In Korea, only 1% of the Second generation children remained in the church as full members. (The rest of the Blessed children are not taken into account at all!). When we have now in Russia 600 Second generation children and the result has to be worse than in Korea, then we will have not even 1%, maybe only 2 children who will remain in the church as full-time members."

Indescribably poor content which has nothing to do with God's desire is being taught by leaders like Rev. Chung on the territory where in the past the godless leadership of the former Soviet Union reigned.

The World Peace centre in Riga, from where Einari and I were kicked out by the instigation of Rev. Chung, was once the Nazi Headquarters. It was later bought by our Movement and remodelled. Tragically the spirits of the Nazis are not only in that building fully alive and active, dominating the newly appointed Japanese leader to behave violently, treating members in very mean and degrading ways, but also in other places and that is manifested through leaders like Rev. Chung who looks down on Russian members, telling them things like: *"The Russian language is very poor, it cannot express concepts like shimjung. You have nothing to be proud of in Russia and the fact that you are Russian."*

Rev. Chung told members not to use Christian resource materials because they have no concept of purity of love! In this way this indescribably arrogant Second Generation is humiliating Jesus, saying that he did not leave a teaching of pure love here on earth!

As I mentioned, Rev. Chung says things like *"all psychologists are sitting in hell"* and that *"we do not need psychology and counselling."* He tells brothers and sisters that they should not invite such people in order to receive some help.

The here outlined statements show where the regional president of Russia, China, Mongolia and other countries of the Northeast region Jin Hwa Chung and his younger brother Jin Pal Chung stand spiritually and their level of emotional development - a reality which causes indescribably pain for our Heavenly Parent, a truly heart-breaking situation, which you will understand better when you read the upcoming reflections of this series.
