

7-Day Hyojeong Divine Principle True Parents' Life Course Conference - Day 4

Richard Buessing
July 21, 2018

As the Hyojeong Divine Principle Conference continues, many participants from all around the country openly share the emotional experiences and revelations they have received through Rev. Soichiro Nakamura's profound and moving lectures.

Many have commented on Rev. Nakamura's detailed presentations which dive deep into the Divine Principle and have helped them understand and learn more than they have before. When asked what her purpose for attending the workshop was, Los Angeles Kodan leader Naoko Hiraki said, "This workshop is like a stepping stone. We have to first learn and educate ourselves and then go forward to the next level, which is to teach the Divine Principle to others." Naoko mentioned her admiration for Rev. Nakamura's love for Jesus and True Parents, saying, "I could really feel his love for them."

The purpose of this conference was to empower participants to become successful Tribal Messiahs through studying the Divine Principle, as well as to create a culture of Hyojeong. During the scheduled lunch break, a young Unificationist R. Arthur from Flushing, NY said, "I now truly understand what Hyojeong culture is all about and the parental heart of God."

In the following days, participants will join the Las Vegas Family Church for Sunday Service at Southpoint Casino and take some time to explore the city and the Cheon Hwa Gung before delving into True Parents' Life Course for the second half of the conference.
