November 22, 2017

True Mother continued her visits to the Japanese prefectures, speaking to an audience of 10,000 people for the Hyojeong Family Festival in Osaka on November 21. Following the Kanagawa and Nagoya Hyojeong Festivals, True Mother returned to Japan because the Unificationists of Japan were yet again able to amass 10,000 people to listen to True Mother's important words.

The program began with a beautiful display of worship, as thousands of Japanese voices filled the arena with the voice of God. Men and women of Japan from various backgrounds and walks of life joined together to prepare the stage for True Mother.

FFWPU President of Japan, Eiji Tokuno, continued the atmosphere of love and unity with welcoming remarks. After expressing thanks to everyone in the audience, he emphasized the importance of family values in the quest for world peace.

Sun Jin Moon, International President of FFWPU, then took the stage to explain to those in the audience who were unfamiliar with the Unificationist movement the significance of True Mother to humankind. With an honest heart and deep appreciation for her mother, Sun Jin Moon conveyed the ceaseless, relentless dedication of True Mother in bringing joy to God and peace to the world.

After a loving introduction from her daughter, True Mother stood in front of 10,000 people to highlight Japan's role in fulfilling the Kingdom of God on Earth and in Heaven. While explaining the history of Japan from God's perspective, she ultimately encouraged the people of Japan to live and act with love and selfless—to live with the heart of God.

The rest of the program showcased the culture of Japan through entertainment and music, as the people in the audience left with a desire to unite not just with each other, but with the rest of the world.
