

True Mother's breakfast at East Garden with American Unificationist Leaders

Richard Buessing
December 21, 2017

This morning, True Mother shared breakfast at East Garden with national Unificationist representatives to express her heart and hopes for the future of the American movement. After detailing the continued history of humankind's failure to fulfill their responsibilities for God, she emphasized that this history of failure can continue no longer. Instead, a history in which people are remembered as filial sons and daughters must begin.

In order to become filial sons and daughters, True Mother explained, the people of the world must fulfill their responsibilities while their parents are alive. Her desperate desire for a world of happiness, in which all of humankind develops relationships of true love with God, radiated throughout the room in her encouragement to everyone in the audience: please fulfill your responsibilities while I am alive on this earth.

The responsibility of humankind, True Mother clarified, is to facilitate the rebirth of humankind by realizing God is the True Parent, receiving the Holy Marriage Blessing Ceremony to return people back to God, and to recognize True Mother as the only begotten daughter.

In her hopes to see Unificationists fulfill this responsibility, she has been restructuring the Unification movement, starting with Korea and Japan, and now in America. America will now be restructured into five groupings of districts -- stay tuned on familyfed.org to learn more.
