

UPF Moscow, Russia's Moon Sun Myung 101 Festival the Embassy of Peace

Jack Corley
April 25, 2021

The "Moon Sun Myung 101" festival was held at the Embassy of Peace in Moscow. The festival became an offering in honor of the 101st anniversary of the birth of the True Father, the 31st anniversary of the True Parents' visit to Russia, and the 61st anniversary of the Holy Wedding.

Approximately 300 members and 40 guests (including ambassadors for peace) attended. The concert at the beginning of the festival creatively described the main milestones in the life of True Parents.

The exhibition of 32 posters detailed the journey of the True Father from a small Korean village to world events. Experienced guides warmly described events from the life of the True Father. The participants had the opportunity to try to lift the 40 kg bag that True Father carried in Hungnam and taste the salted radish leaf soup ...

During the excursion, the children had an entertaining task in which they had to answer questions during the excursion and, as a result, receive a sweet prize.

Also during the festival, there was a Korean cafe, organized by teenagers of the 2nd generation.

There was a photo zone with a full-height True Parents cardboard cutout.

A meditation room was also organized, in which there was a photograph of the praying True Father and a new drawing of our sister with the praying True Mother. The prayer of the True Father sounded, and everyone could offer a prayer and realize the great path of True Parents.

Unfortunately, we could not adequately celebrate True Father's centenary last year. Therefore, for all members, this event became a moment of gratitude to True Parents for the path they have traveled.
