

Available Now: Japanese Language Version of Family Matching Handbook

Crescentia DeGoede

May 30, 2014

The National Blessing and Family Ministry is excited to announce the publication of the Japanese translation of the second edition of the Family Matching Handbook. This practical and detailed manual is designed to guide Matching candidates and their parents through the important steps of preparing for the Matching process, finding potential partners, communicating well and becoming a couple. It is not a rulebook or mandate, but is filled with practical tips, suggested questions and loads of resources for candidates, parents and couples. It also includes internal guidance from True Parents.

We encourage every candidate and parent to take advantage of this helpful resource. The handbook is not a one-time read, but a reliable tool to refer to throughout the months or years of any

Matching process. Many of its most valuable insights have been learned from the past mistakes and missteps of our families. We have received positive, hopeful feedback from young adults who have read the handbook after having difficult experiences with the Matching or Blessing.

The Japanese translation of the Family Matching Handbook is beautifully designed, easy to read, with lovely photos to introduce each section. They are available for \$10.00 each plus shipping, or 3 or more copies for \$8.00 each plus shipping. District and local churches can purchase one or more boxes of books with 72 books per box for \$430 (\$6 per book) plus shipping. Click here to order one or more handbooks: www.hsabooks.com/index.php?route=product/product&keyword=family%20matching&category_id=0&product_id=279 Fill out and submit your order and shipping details.
