

## HPHC Las Vegas Shine City Project volunteers at the Pittman Wash

Ken Doo  
February 26, 2022

On February 26, 2022, Shine City Project volunteered at Pittman Wash!

Working with Project GREEN: Friends of Pittman Wash, our Shine City Project volunteers helped to remove plants from the wash, particularly palms and tamarisk.

We cut away these plants using small hand saws, and then afterwards, we moved these plants to the side to a more accessible location for further removal.

We had seven volunteers representing Shine City Project with one joining us for the first time!

Overall, it was hard work, but we felt a sense of accomplishment each time we were able to finally cut through a difficult palm or tamarisk.
