True Parents's of HEH, the 66 years after Your Holy Wedding has been a path of Victory of Tears, Sweat and Blood to realize the Dream of Heavenly Parent here on earth.

When we think of how True Parents overcame countless trial, living up to that great Providential victory and great emotion and gratitude, with it we realize once again that following that we see True Mother unwavering in difficulty looking only toward the Will... Indeed the victory has already been won by the Victorious True Parents.

Upon that foundation of victory, we advance with confidence no matter what the environment, without fear and frailty that would waver. When Jesus looked at Jesus walking on the waters and then because of the wind began to sink when walking toward Him.

Heavenly Parent please have mercy on us. When we look to True Parents to Whom we are connected by Lineage, we will not be swept away by rumors... Please do not let our hearts to be stolen by passing winds but stay with HMM True Parents Who have already triumphed, not with doubt or fear but with faith and hyojeong.

Heavenly Parent we realize that the most important test now is regardless of anything to realize with firm conviction that we are the children born of True Mother's Womb. Please guide us to the Great Epic Education and become one of the hearts with Your Heart, knowing victory is our own conviction, and to transform the world, pledging to fulfill as BF's and expanding the culture of true love, in any environment, we will not waver from looking toward the already victorious True Parents, advance with greater devotion and repaying You with substantial results.

Please protect the health and longevity of the HMM True Mother... on behalf of all BF's, Hori Masaichi who gratefully attends HMM

Good morning to everyone,

Our Beloved HMH, distinguished leaders, newly-Blessed couples, ladies and gentlemen...

With honor I am here to address for the 66th Anniversary of the True Parents Holy Wedding and the First Anniversary of the Entrance into the Cheonwon Gung, Cheonil Sanctum.

With The 1960 Marriage Supper of The Lamb, with Father Moon opening the way for millions of Marriage Blessings that followed. I'm grateful that I could take place and host many of these Blessings...

Family breakdown is the cause of all problems. I fully agree with Father Moon that Peace begins with me. With a spiritual and Divine perspective first, or else there is no way. A spiritual problem needs a spiritual solution.

Thank you for taking the vows to create our Heavenly Parent's faithful unions with a deeper purpose for

humanity on the path of peace and righteousness, with marriage the structure for a sustainable structure, the unity of a man and woman, each being distinct and necessary energies.

The masculine energy grounded in logic and leadership, and the feminine in nurturing and harmony

In this the ultimates of society are complementarily sustained, with partners recognized in alignment with the Creator and one's good ancestral guides.

While we may believe we know what we want the SW will guide, and each of us are brought into this world with a purpose to fulfill. Therefore, the person you choose must be aligned with your purpose that saves your destiny.

Last year, I was privileged to take part n t

HMH is going through a course that will yield great fruits very, very soon, labor pains to deliver a new Korea and a new world.

I said last time, 'Let us be on fire and testify about Her great accomplishments. The SW expects us to do just that. I heard She has been nominated for the Nobel

We of traditions, culture and nationalities need come together to harmonize our minds with each other as serves the peace of humankind. I would like to acknowledge HMH for this accomplishment... True Mother we love you very much.

I am Imboni who practices for spiritual awareness... When spiritually attuned, you can recognize Holy Mother Han without difficult. Throughout Their Lives, Rev. Sun Myung Moon and HMH together, They have made tremendous accomplishments of peace. In Africa we are so proud of Her. Only fools reject Her and the great achievements...

If Korea cannot recognize and appreciate Her, we will take Her to Africa. B and s, please wake up and be on fire.

The Holy Sanctum is God's Dwelling, a true masterpiece of God's Divinity. All cultures will come here, and True Mother is making us one human family under God.

Happy celebrations and my wife and I wish all the families here to unite and stand, not divided to fall. Leaders of different faiths stand together. HMH, we are with You.

Bishop Nancy Rosario will give the second message...

It's a beautiful day. You all look beautiful...

I've been married with 8 children, and every one of you have truly brought joy to True Mother's Heart, knowing that Her mission is going on, and remember this day forever.

This Day of historical significance... You have that to follow and the Entrance, so you know to remember this day forever, not merely a commemoration but a Divine milestone of the Heavenly Parent... Who has longed to dwell with Heavenly Parent's children, and thought history is marked with struggle, Heavenly Parent continued with patient endurance and has always worked through Heavenly Parent's children.

We honor One Who has been called the OBD and trusted for the assignment of Her tiem, that began to take form in 1960, not merely a Marriage but a Providential Covenant for restoring humanity back to the Heart of God and opening the way for couples and families to walk in the way of true love, and that Blessing has gone forth to many, many nations including the previous speaker where True Mother performed it for over 200,000...

This Blessing is calling families into conformity with God and for generations to come. So today, we honor True Mother Hak Ja Han, Who's Life has walked by Faith, Endurance and unwavering Devotion to God's Will, with bold clarity proclaiming Cheon Il Guk and calling humanity beyond the boundaries of nation and culture into a unity and even now as we are all here in the face of opposition and hardship, Her Call is consistent. She speaks of not division but alignment with God's Heaven on earth, and not just a moment observe but for each of you to understand.

Some of us study Abraham and now is a new commitment to study the history of the Han family with discernment and that is your duty from this moment on, and the reason is so that we may recognize the Movement of God in our time, in your time and your children time to align with.

Now is the new era of the Entrance, not marking just a Place but a reality that Heavenly Parent is Dwelling among His people. The Heaven Realm is not distant, it is here and we stay as not just witnesses but as participants.

So, we align with the call and the unity of one family under God. Praise the Lord. On this historical occasion, we especially honor True Mother as in the Book of Esther who came for such a time as this, as She has come.

We recognize our True Mother Han as the entrusted One in this generation, a Chosen Vessel to advance Heaven's Will on earth, now your responsibility.

Her Call has gone across the nation and that call is, 'Come, all who are divided be made one, all scattered be gathers, come, all who are searching be restored as sons and daughters of the Most High.

Today we are not only celebrating but re-committing to lives of true love, that objectivity to pass on to your children, the Legacy of Mother Han's Calling for unity and with all of you we will

lift up a prayer of a prophetic intercession acknowledging this appointed time of Your Fulfillment awakening to the reality that the Gates are open and what is spoken according to Your Will is brought to reality. We speak it and boldly proclaim that the Era of Cheon Il Guk is not coming. It is here, not distant. It is unfolding right before our very eyes.

And to True Mother when She sees this, we say Thank You for Your unwavering faith and victorious love carrying H's burden, You have walked H's earth and brought the new season for humanity and let all hear it... (tearful)

So congratulations " "... on this occasion... Anniversary of the 66th Anniversary of the Holy Wedding of True Parents and the First Anniversary of the Cheonwon Gung, Cheonil Sanctum Entrance, which is God dwelling within us.

Thank you for making Mother's Heart uplifted and joyful today.

(Wow! She's so strong to proclaim about Mother's Identity and Value and Providence)

For me, the Entrance Ceremony felt less like a conclusion and more like a beginning. As one of the younger generation, I felt that this day forward is for us to truly fulfill the Dream for a world where all humanity lives as one family, the Heaven realm on earth. The moment became a turning point--one that moved us to think more of the future and ask ourselves in earnest 'How do we actually build Cheon Il Guk

Do not worry about Me, pray for yourselves your families and to fulfill God's Wil. Pour all your devotion into that... BFs, I love you.

While I, Holy Mother, Wang Omma are still on the earth, I hope you will come together, become such beautiful and good children, fulfilling your duties as filial sons and daughter and loyal citizens before Heavenly Parent

Moon Shin-heung

You know that True Mother said--'Labor pains will always pass. I came to understand this firsthand while helping with childbirth. You never know when the birth pain will end (he he he). In that moment it feels like it will last forever. But it does end. And at the end of it, how as many of you would know--how joyful it is when the child is finally born. That is why I believe that at the end of all pain, there is hope.

But if we remain weighed down in that pain and discouragements, won't we only drain each other's strength?

Shin chul nim

Throughout Their Lives, the True Parents accomplished so much, together with the leaders who stood beside Them.

What matters now is how we, who have inherited that legacy, move it forward. Whether the Path the True Parents walked is remembered as one of service to the world depends on us. This is our responsibility. I will never give up. And neither will the many in the younger generations around me.

Because we have conviction on the Path that our seniors and True Parents have walked, I believe the day will come, 100, 200 years from now, when that path becomes one all the world admires and longs to follow. That is what I want to leave you with.

Commemorative Message

Director General Ken Doo of World Mission HQ

(what we must do to carry out the mission)

Beloved b and s, it is good to see you (He bows) Today is indeed very meaningful, and let us all think of Mother's Heart at the DC, and do not just hear my words but my heart out to you.

True Mother's Autobiography, Mother of Peace who wipes away the tears of humanity.

'True Mother: Spring brings life out of the cold winter and awakens dreams, making a new start. God's Providential history has opened a new door wide. From walking on thin ice between life and death became the day of God's greatest joy.

Respected BFs around the world this...

both deeply meaningful and profoundly poignant for all of us. True Father Who was always by our side, is in the SW, and True Mother at this very moment is unable to be here with us physically. It is as if, while the Parents are far away, the children must decide important matters of the house hold and take R themselves.

I believe this is a time of rigorous training to go beyond just being protected by True Parents, and pioneer the future on our own. The more we long for Them, the stronger our life of faith must become.

I want to share my personal realization of True Mother's Personal Position. In July 1997 in Brazil, True Father said, 'If C had united with Me immediately after WWII, the Blessing would not have taken so many years, but the curse of suffering began by having lost everything.

As these Words indicate, True Father's Course was a Path of thorns and True Mother bore that with Him. Until True Father's Seonghwa, She was 100% united with Him and did not reveal Her own Position. It was not created suddenly after True Father's Seonghwa but was a H Lineage from Birth. But True Mother lived as if existing on earth but not existing.

So not to repeat the Course of Jesus, She erased Herself for the sake of the path of the Messiah. But many had seemed still confined by the events of the past, seeing True Mother Marry as True Father's Wife.

I confess that I too had such unclear eyes. On Jan 4 2017, when True Mother arrived She appointed me but I boldly told my assistance that if it is True Mother's Blessing, I cannot accept this mission. This person was taken aback and said at least pray about it before deciding. I began to offer 3 days of fasting and midnight on the final day, my gaze was still fixed only on True Father, but at that moment I heard a voice strike my mind (tears)

If True Father gave you the same command, would you still question and make excuses... In the past True Father's decision was accepted and otherwise would be unacceptable with the leaders. At that moment, some said Why? Why? is Mother doing this or that as we would never have asked Father.

I felt as if H and earth were tearing apart. Mother had always been behind True Father, not in an equal position. I could not stop my tears of repentance as a result. I heard the clock striking midnight and noticing that the hands of the clock were overlapped and hearing the chime, and I noticed that the second hand, minute hand and hour hand were all aligned, and watching them overlap and hearing the harmonious chime, I came to the realization: If the second hand represents Jesus and the minute hand represents True Father, then the hour hand represents that the Providential time of this age is True Mother.

So, Jesus and True Father in the SW as the second and minute hands are supporting Mother Who is the hour hand. Only then did I realize that the Providential timeline was now composed of True Mother.

We learn in the Principle that God is a Being of harmonized Masculine and Feminine Characteristics. So, the proclamation of True Mother by Heavenly Parent on 2013 on FD, is the Substantial Fulfillment of that Teaching.

If Jesus and True Father came to complete God's Masculine Aspect, and as Mother said that Father found and discovered the Divine Principle, isn't Mother now perfecting that Principle?

applause

So, if Jesus and True Father came to complete God's Masculine Aspect, then True Mother, the OBD has come to complete God's Feminine Aspect. With True Mother's Perfect Support, True Father could proclaim:

'It is finished. I have completed it. And True Father could move on to the SW. Then Who must now support True Mother, Who remains alone and must establish the Position of God's Feminine Aspect?'

Before entering the DC, True Mother said to me, 'I am already 83 years old, and time passes quickly, and I do not have much time left. Those Words pierced my heart. We must not make the same mistake that Christianity made in failing to attend True Father.

The children of the Cain realm centering on True Mother have come to support True Father's mission. So, who is there to support True Mother? It is the children who must help establish True Mother's Position as H Mother.

True Mother does not regard us as adopted or Cain-type children... True Mother said, of course the children I bore from my Womb are my children, but BTs are also my children. We must attend True Mother and become Her partners in fulfilling Her Mission, particularly when Father is not with Her and Mother has only Her children left.

So, when the H Mother is perfected through True Mother and the Position of H Mother is established, HF and HM will Manifest on earth as H Parent and will dwell here eternally together with True Parents.

applause

While in Hawaii, I once said to True Mother that I hope that in the Age of Cheon Il Guk that both the 1st and 2nd generations can enter Canaan together. Then Mother with a somber expression replied, 'Yes, I wish that too. But there's still people who do not believe in Me'.

Moses sought to lead all the Israelites into Canaan, but due to lingering disbelief they wandered in the wilderness, and finally Moses and the first generation were not able to enter Canaan. However, brothers and sisters, now is the time of urgency in which the Providence must be completed. The Mission of the OBS has been fulfilled. Now, after 6,000 years, the OBD must complete it. We are in the best situation in which we must enter it without fail.

I recall a senior during a Workshop saying that True Father shared a story about an apple tree that was the last one. True Father asked what we thought True Father would do with that one apple. Many expected that He would carefully protect that precious apple to remain. But Father said He would shake the tree very vigorously to see if that last apple would remain on that tree. He said if only that one apple remained, He would take that fruit and begin the Providence anew.

I recall a senior during a Workshop saying that

Respected elders and first gen members, I sincerely hope that we can be the true fruits that True Parents long for and together with the 2nd gen attend True Mother and firmly settle Cheon Il Guk.

applause

Dear members, the current situation with True Mother may be a time of trial to check us, and separate the grain from the chaff. We must endure. So, on the day that True Mother returns to us, She can be able to expect a report, 'True Mother, we have prevailed as mature children and we are victorious.'

applause

Beloved members, once again I offer my

congratulations on this Commemoration

Especially at this meaningful time when we are beginning to hold the Blessing Ceremony, True Father and True Mother's absence is felt more deeply by all of us.
