

94 Graduate from stimulating, new, live Advanced Divine Principle Webinars

D. Michael Hentrich
April 23, 2018

Dr. Michael Hentrich during a webinar session

The unique, stimulating, and new live Advanced Divine Principle Webinars being offered by Dr. Michael Hentrich have seen 94 graduates so far from 9 countries. The twelve-class series covers key topics from the Principle and takes participants deeply into each topic with critical analysis, True Parents' words, personal testimonies, leaders' insights, etc. It intentionally challenges participants to think. The theme and approach is especially keyed to youthful audiences but offers meaty content for everyone, and some content that is seldom taught in traditional DP seminars.

Aside from the highly acclaimed content, what also makes these webinars so special is that they are timed to fit different time zones around the world. Besides the webinars offered for members in North America, other webinars were timed for members in the Philippines and in central Europe. It has worked especially well for those who could not easily attend workshops at the IPEC in Las Vegas for reasons of work or school, etc., and also for those who live in remote areas of other countries where workshops and seminars are not so available to the members there.

"You did a great job conveying the main points and making it personal so that folks can really get it and identify with it."

"I usually get bored and become tired watching DP lectures on the internet, but I couldn't wait for 9PM every night. It refreshed my mind every day. The lectures helped me to understand more about "conscience vs original mind", the meaning of Indemnity, and the Importance of the traditions."

"Due to work commitments and money etc., I am not able to go to LV. I thought it wonderful to get such quality of presentations brought into my living room. A good presenter can make you laugh, cry and repent. I felt you hit all three! The presentations really made me think about my life of faith and how urgent this time and God is to restore the world. I can't thank you enough."

Dr. Hentrich will offer a 5th live Advanced DP Webinar from May 1-12 from 9-10:30 pm each of the 12 nights. There will also be one offered to members in the Central European and Central African time zone from May 7-18th, again from 9-10:30 pm in their time zone. Those interested in participating can contact Dr. Hentrich at: mikhentrik@aol.com for the Zoom registration link for either of these two upcoming webinars. There is no fee or cost involved, and recordings of sessions are made available to participants who cannot attend all of the nights.
