

Monthly UK Providence Meeting: True Mother to speak in the UK in July 2020

The first of what we hope to be monthly UK Providence Meetings took place on Saturday 14th December. A number of short stories and testimonies were shared, including the wonderful experience of a UPF guest who attended the recent UK CheonBo.

Dr. Balcomb shared True Mother's vision and his own mission for the UK, as well as how he wishes to improve communication and show Europe and the world that the UK can lead the way. He wants

to show that we can achieve great things, that we can and will have a summit in the UK in 2020, which True Mother will attend.

"True Mother has already been invited and accepted the invitation!"

One thing Dr. Balcomb expressed was the desire for members not to be overburdened and stretched with the task of creating this summit, where the minimum number of attendees should be 10,000 people.

We were asked to find "Partners" and approach other organisations who could sponsor and help with the event, much like they are doing in America.

Dr. Balcomb also shared the story of a time he prayed to ask God to give us 40 new members. God replied to him: "No, I will not give you 40 new members. Not until you have shown me you can look after the ones you have."

However, this cannot be done by just one couple; we all need to help look after each other. As such, we were given the homework to:

Pray to God, our Heavenly Parent and ask: "Who do you want me to take care of?"

The following is a link to download the PowerPoint presentation that was given by Dr. Balcomb:

An aerial photograph of London, England, taken during the "golden hour" of sunset. The River Thames flows through the center of the image. On the left bank, the Elizabeth Tower (Big Ben) and Westminster Abbey are illuminated by the warm, low sun. On the right bank, the London Eye is a prominent feature, its white structure glowing against the sky. The city skyline is visible in the background, with various buildings and bridges. The sky is a mix of soft pinks, oranges, and blues, with some light clouds.
