

UPF USA: North Korea's new missiles webinar invitation - Feb 16, 2-3 PM EST

Michael Jenkins
February 14, 2021

Flashpoint Korea

Standoff on the Peninsula

TUESDAY, February 16 from 2-3 pm EST (New York time)

Dear Colleague,

In its second nighttime parade in three months, North Korea unveiled new ICBMs. Timed to sync with Biden's inauguration, the newer, bigger set of what looked like submarine-launched liquid-propellant missiles says to the world, we can hit anything, anywhere.

Nukes are one thing; global delivery capability is another. We invite you to join a group of the most informed and influential thinkers on Northeast Asia to discuss North Korea's nuclear breakout, US-ROK alliance response, and prospects for denuclearization of the Korean Peninsula and US-DPRK normalization under the Biden administration.
