Opening prayer of gratitude

Most Honorable Heavenly Parent

True Parents HEH Who have triumphed through love

Yesterday was the Chuseok, the Korean Thanksgiving of cosmic liberation festival... It was the Chuseok of the full moon that True Mother always loved so much, but last night, Heavenly Parent too seemed so sorrowful. The constant rain fell without end, and we could not even see the moonlight... Throughout the night rain poured and the wind blew fiercely. Yet members came in small groups to the place where Mother is staying, and with aching hearts filled with longing, they consoled their sorrow through songs of praise and prayer.

From early morning until late at night, there were members who remained in their places, unceasingly offering devotion for True Mother. Even amid the warmth of the holiday when families gather and smiled together, the hearts of all Blessed families around the world were filled with yearning and longing for True Mother.

Heavenly Parent of Love, True Mother despite being in the most painful and difficult situation, is still thinking and worrying about the church and embracing hearts of each and every member. True Mother's Words are that we must be faithful to our original mission are not merely reminders but a clear direction for how we must live through this time.

Looking at True Mother Who Lives for You and comforts You more than anyone else, we too must wipe away our tears and in our respective homes, churches and regions, become one through Cheon Shim Won devotion, raising our voices to teach and testify to the Life and Teachings of True Parents. When the

voices that proclaim truth unite, we believe that True Mother will stand up firmly and return to us.

We will not let the path of suffering that True Mother has walked be in vein. Now that we have entered the era of settlement and Entrance into Cheon Il Guk Sanctum, please let us the children take responsibility and initiative, inheriting True Parents loyal and lofty ideals to become the children who make the future of Cheon Il Guk. Please work through us. Heavenly Parent, just as You worked in the October when True Father was liberated from Heungnam Prison, we believe that You will work in a way beyond the imagination in Your own Heavenly way, liberate True Mother from the difficulties of imprisonment.

If we as mature children can understand the Heart of True Parents, offer our hearts of HJ devotion as a complete condition before Heaven, we believe that Heaven will surely manifest Divine Power upon this earth. With that earnest faith and burning devotion and devotion, may this time become long life for True Mother and for the realization of H Unified Korea and H Unified world...

With this I pray with gratitude Kim Guy Yong attending HMH

CHANYANG

Video

representing all academy and Workshop trainees at the detention center

Here as we offer our devotion, we intend to spend the holiday together with True Mother... Beloved Wang Omma, our True Mother, we miss You and long for You so much... and although You said not to pray for You, I believe praying for You is praying for the world and I will testify about You

and the path You have walked for the sake of world peace...

Mother do you hear our prayers? You children who love You are here praying for You, so Mother please be strong. We love You very much... In this very moment by Your Side we cry out boldly before the world, 'I am a direct child of HMH True Mother'...

Mother, you alone in cold places and in sharp criticism have proclaimed Yourself as HMH and now we will proclaim You... We are always by Your side, when You're struggling and lonely always with You... Please do not be alone anymore, let us go together with you on this Providential path.

To represent all the members who cannot be there, they offer such prayer for all of us... applause and applause

Shin chul and Shin heung nim here also...

gratitude to all the seniors who left their hometowns and as missionaries testify to True Parents... Because of them, I am here... But I was away from True Parents and even denied Them, until I came to know the indescribable circumstances of True Parents... and realize how this Unification family has been built up through blood and tears.

On the hardest night of vigil prayer, I saw a vision when singing the fight song of the will and found myself on a boat steering it and there was a big man in a raincoat and suddenly the waves grew enormous and I was frightened and the man in front shouted in a thunderous voice, 'Speed up! Don't slow down.' I was startled and moved forward, even as a huge tsunami-like wave approached, His Voice was even more fearsome.

As I kept singing the fight song of the will, as I went forward, suddenly the sky became clear and calm and the scene changed to a sunset landscape like Alaska. I found myself staring at the man at the bow. Until that moment He had seemed so frightening, but now He gave me a strange feeling of longing. That man shouted, 'Come here. Sit next to me.' And I immediately sat beside Him. And I saw True Father. And Father said, why can't you speak the truth quickly? I didn't know what to say but felt I had to repent, so I muttered softly, saying 'I'm sorry. I'm sorry.'

Father barked again, 'Can't you speak louder?' And I began to repent loudly. Then Father suddenly handed me His fishing rod and told me to pull it up. It felt like a giant fish but it would not come up and the more repentance came automatically out of my mouth. Then suddenly something emerged... a fish the size of a pond. I was bewildered, but Father burst into hardy laughter " Ha Ha Ha... 'Next time do better' and after saying that, True Father disappeared.

When I came back to myself, the vigil was at the point of shouting 'Oeg Monsei'... I thought I must have dozed off for a moment and passed it off as nothing, but the next day the lecturer explained that Father is always seated at the bow of the boat. I realized that this was not just a dream. Through this vision, I was able to firmly believe that True Father is alive and working in the SW. And more than that I was led to testify before True Mother and directly hear Her Words about the needle and see Her Tears.

At that time, I felt I could come closer to True Mother's Heart... I was able to feel something as never before in this Workshop... the reality and activity of the SW, and I believed I could inherit the Heart of True Parents.... and there was someone who told me that there was a message True Father was giving to me.

"You are a treasure ship. A small boat loaded with treasures running to True Mother for the sake of Wang Omma" With that message in my heart, I decided to enter the military, immediately thinking with the heart of searching for treasures to offer True Mother. As soon as entering the barracks, I read the Exposition of Divine Principle for the first time, and the one next to me asked what book it was. At first I answered, 'This Book is too difficult for you to read.' Because of that answer, his curiosity grew and he brought other comrades to ask again.

I thought, if I refuse a third time, Father will scold me. So, I began to read and explain, after which their mouths were literally hanging open and soon rumors spread that there is a strange guy here telling interesting stories and many more gathered and in three days, I was having the amazing experience of

giving Divine Principle lectures 3 to 4 times a day in front of 20 people.

Then my greatest test came when the rumor reached to another barracks and a certain soldier came to see me. Touching his glasses, he asked, 'They say you prove God scientifically. And it turned out that his major was physics and I began to sweat. This was the final boss. I thought, 'Let's make him acknowledge and magnify Heavenly Parent even more.' And during every break, we debated so much that the barracks would shake. And of course, Heavenly Parent was victorious...

That soldier said that I explained about the pair system and all the other terms and he acknowledged never seeing a religion after studying all this time that explains God so scientifically. I felt during that time how great True Parents's Words are and I was grateful. There were many other works of Heaven. When I talked about our Movement, people accepted it positively. Even when I said our church is called a cult, or heresy, my comrades denied it for me saying, 'No, it's not' which was in itself a miracle.

applause... After finishing training camp, my mother told me that before I entered the military, she had already offered special liberation devotion for the ground of the Training Camp, and at that time, I didn't think much of it then, but now realize these things were not coincidence. Thought I could not immediately lead my comrades into the church after training, they have now become my closest younger brothers and next time I will surely witness to them.

applause... Over the past two years, many gracious events, including receiving the Blessing and in order to return to True Mother, I encountered an unexpected situation... When True Mother went to court, I was able to enter the detention center. When True Mother entered the court room, I wanted to say, Wang Omma, I worked hard for two years and have come back, I have returned, but there were police blocking the way... I skipped lunch and circled the area with holy salt (now he is tears) and prayed seven times around it for True Mother's protection... True Mother was in the vehicle right in front of me, but I could not hold Her Hand or console Her.

I waited a long time, believing that a dismissal order would come, but at the end, the news was like my internal organs and heart collapsing and around me was silence except for the sound of sobbing and unstoppable tears at the thought of how could it be that this happened to our True Mother and how to leave True Mother alone in the 7 square meter room dark and cold and tears just from looking at True Mother's portrait and when I saw the Inheritors missionaries, I was able to compose by the courage I saw in them and resolved to go forward for the sake of Heavenly Parent's Will. So, True Mother, please do not worry... There are times when I cannot swallow food, but I am living and eating well, more strong and determined and I have met many comrades and testifying about True Mother and believing True Mother would come back, I cleaned around the HJ Tree... and wiped the True Parents Seats every day...

The people of the world know far too little and wrongly about True Mother. When we attend spirituality Workshop, and the trainees were granted audience with True Mother, She shed tears for even a disloyal son like me who had left the church and returned, embracing me as Her own child and I still miss those tears and the cookies and... that True Mother gave me that day...

True Mother continues to walk this path and I will boldly testify to the world and bring victory and True

Mother I love You, please return to us safely...

'Let Us Not Fall Apart'

Kim Jin Ju Chun

Education Dept

Special Lecture

To be honest, I feel very guilty to be standing here... After the raid the weather became cold and I truly worry about True Mother's health, so old and many things She needs to take care of Her health and She cannot move well or freely... This freedom to come and go to attend Cheon Shim Won...that itself makes me sorry and I hope through this time, we can hope for True Mother's well-being and safe release...

We use the word 'vision' often... Vision 2020 and 2027 and many companies etc. set their own vision with efforts to accomplish and if last stage of the vision of the purpose of our life is Heaven, so title For the Vision of Heaven True Mother's Tribulation of the Cross...

As you know, we are living in an era of fulfilling the vision of Cheon Il Guk... final omega, golden era... and during this time, True Mother Who should not have walked such path of the cross is Her reality...

Sept 2025 'Do not worry about Me...

As I read this again, within the content, the Vision of Heaven is deeply embedded... These are words a normal person cannot speak... and during the time when persecutors were interrogating, True Mother spoke these words, 'In order to accomplish world peace, don't you think we need to attend Heaven? I put my entire life to work in the role of Mother of Peace. How can this Democratic nation treat Me like this?...

On the situation that Mother should not be in, She spoke boldly to prosecutors and I believe She spoke the same to the judges...

True Mother is related to the Vision of Heaven and She cannot help but say like this... We should be the ones that say like this, but She is walking this course because we did not do it...

'Do not worry about Me. The Truth will be revealed as time will pass...

These are the words that cannot be hidden and True Mother embracing such vision in Her Heart, just a matter of time, but Yeon ah nim also said, 'My body... It's very difficult to be here' From my understanding and time with True Mother, I barely ever heard this kind of thing from True Mother 'My Body is too hard to endure these things' How can we look at this and set our vision to move forward?

We must understand to find the original vision Genesis 1:28... True Father was able to reveal the Vision of Heavenly Parent and it was 3 Blessings and vast amount of knowledge and truth is in there, including H Parent, both formless and beings with form have some relationship with the 3 great blessing and they came court in Gen 1:28... this is the structure of heaven that we think of and if we go deeper into the 3 great blessings and core of Principle, we can think of it as follows, 4 criteria...

Because Heavenly Parent the first cause is Parent, the object should be human beings with forms and keeps the dream in Heavenly Parent's Heart and looking to fulfill it began Creation of laws and principle and waiting for the day of the ideal established the Cheon Il Guk (queen and kingdom on earth as in heaven)

I try to apply within our lives all those four different categories with myself... in various forms and situations, TV, news,, as if trying to solve a problem in math and through these 4 concepts, vision of Heaven can be formed, centered on absolute, unique, unchanging and eternal... unlike other visions...

A few of the contents are belief that the Creator is the First Cause and we are the Heavenly Parent's Holy Community attends that Creator and this community does not exist elsewhere in the cosmos. and True Parents as the ideal, perfected people, if we see the True Parents of humanity with Heavenly Parent achieving Oneness, True Parents taught us They are that Name...

We have the vision to become one with Heavenly Parent and True Parents and no other philosophers spoke of such concept... We strive for the Heaven others talk about but our idea is a world of peace and unification in both physical and spirit world and has 3 Great Blessing including Creation of all things...

With our ancestors and future beings, a cosmic vast community of true heart, words, life and lineage as not heard of before and not only that but also trying to live together centering on co-prosperity, righteousness and inter-religious, inter-racial and cultural as does not exist otherwise...

Absolute sex, staying pure until Blessing and not to violate ones heart and rights and not use public money as personal... Whether looking, no other part of the world has such vision, supposed to be fulfilled at time of Adam and Eve...

We have come to the final last days and something to understand is:

right now, throughout human history, this is final last day

especially centering on True Mother, a Golden Age never in past or again in the future

True Parents's status absolute, unique, unchanging and eternal and providence of True Parents will never be stopped and will move forward without ceasing and although the secular world does not understand

about True Mother...providence is ongoing until Heaven's Will is accomplished and so True Mother told us to pray for that...

Starting point Genesis 1:28 and we saw such vision and all of us entered this movement because of it... Many other visions could be given up... We all felt such great vision and realized that there is no such other vision like this and we form this community... blood, sweat and tears and sometimes we sold our blood to Satan because of this grand vision that correlates directly with True Parents's status and no matter what false accusations, True Mother cannot compromise to do what they want Her to do...

Many things correlate with the Vision of Heaven tied with Principle of Creation... Nobody can distort this vision or we call that denial it sin, act of evil and the fall... and True Parents's both spoke aligning with these concepts... Everything we do should be aligned with Vision of Heaven, never hindering

Jan 1 1974 True Father 'Forgive, Love and Become one' True Parents Words to America as a part of this vision to accomplish the Vision of Heaven... always with that goal that aligns with Heavenly Parent and True Parents...

Inheritors words also centered on this frame... Spoke to Shin chul for a long time and he is better than me, because he knows True Mother True Parents for a long time but many members do not understand this on their own...

No one can touch Principle of Creation, but for those who act accordingly, we can restore those people...

Act of fall cannot be forgiven, you will have to pay indemnity and repent and True Mother said we need to organize and liberate and fulfill responsibility...Because Adam and Eve could not and Abraham could not had to offer his son and Moses and Jewish failure... out to the wilderness and Jews had to suffer...

True Father: When Jesus said forgive the enemy, not the sin but the person... it is the sin that is hateful... sin itself cannot be forgiven because it violates H's Law and also knowingly committing the sin cannot be forgiven and in order to restore and save the people we forgive that person but not the action of the sin... If you forgive unconditionally, no need for the words, repent and be meek and humble, the person must take responsibility for the sin... and corresponds with what True Mother said and Inheritors same message, concept, idea...

We must understand True Parents's value and status, and all comes back to accomplishing the vision of Heaven as True Parents have walked... and divided them into 3 Great Blessings

True Father's Life practices true love with earnest, stubbornness, devotion, tears, sweat, prison torture, loneliness, everything to practice TL and Blessing and Words and HD and rituals and fishing and global conferences were life of devotion to accomplish and True Mother also absolute criteria, standard for this and offered devotion for the status of True Father... for True Father's status and value and to set the unchanging standard walking the path of sacrifice...

She is the first Coming... restoring Eve before the Fall...

only daughter with Heavenly Parent's Lineage that achieved Trinity with True Father and Heavenly Parent so Substantial HS and Her Life since birth, everything Holy, Holy Birth, Blessing, Community, centered on Holiness and Substantial Spirit and Truth Embodiment so that She can find the right standard to pursue...

She should not be in the detention center, arrested, because She is unchanging, unique and eternal status and position and when they find out, they will regret and we did not fulfill our responsibility and must organize our internal aspect...

In order to make the wagon role, we must define our identity and vision with trust, respect and communication and settle things down to protect ourself and because we're healthy, no problem can occur and then expand to the outside and naturally grow and make ourself bigger...

True Mother cannot retreat, so that is why She walks such course and we are supposed to be doing what True Mother is doing and all of us are not free from this... so, what can we do?

At first I thought of Genghis Khan or great figure to come out and fix this, but it has so complicated ties that one person cannot fulfill it, so we need the figure that works on behalf of True Mother to align everything and that is the Cheon Il Guk Constitution, when we settle it become the basic understanding that all agree with... True Mother proclaimed a year after FD 2014 and it is highest law and becomes the essence of Cheon Il Guk and unifies everyone and is open to the world... something to work well to keep us together

After this first and second editing... SunJN is the main director and leader to put and Yeon Ah Nim and I also am the member, and we debated and proclaimed and until 2018 worked on this and editing and 2020 on Anniversary after June 6 and Sept and Nove and Oct True Mother called me 4 times and long gave me directions because the providence has changed...so not 5 leaderships but two organization forms and said to educate the leaders about the contents, so I gave lectures and continued and reported to True Mother...

Last year Dec., True Mother gave me direction that we must accomplish and finish this by 2027 and spoke Sept 22 the day before True Mother was arrested called leaders and emphasized the Constitution...

March 16, 2022 up until Apr 22nd of solar calendar, True Mother told us to take the time sooner to proclaim the Constitution and went through the process of re-editing for 3 months and True Mother will make the final decision to proclaim hoping next year and AI allows study with vast data... so almost completed...

Reason why the Constitution is talking about global standard centering on true love, true life and its communication and procedures and specific responsibility and everyone can share the hardships

and questions about things and center is strictly said and on the first page it is set content so that such trial should not occur in the future...

Everything is embedded about True Mother OBD HMH True Parents and outside world cannot attack us if we set it and specific standard for the public leader and everything is set there and for the family and providential organizations... logically and specifically organized... So, every one has equal rights as BF's...

and now this rocket will be launching and as it goes through the sky, this will act as the conscience that we must follow to settle Cheon Il Guk and it will go through the universe, landing on the moon concept...

We're going to make everything transparent and respect each other, each one's character centering on True love, life and lineage and we cannot destroy the concept of Heaven, no matter how people may try politically, using the media, or any other way... That is why True Mother is not compromising with the judges... She must set the standard with the judges and everyone and we must understand True Mother's view and repent that we cannot do the work True Mother is doing...

Character is central... and become the experts to solve any problems that arise and that is the standard for public leaders and all of us must make the effort to become such people...

Conclusion... the six criteria about the status and value of True Mother... no one can steal or rob it and we should truly set a community that can be recognized throughout the world, healthy with true heart and love and words embedded... We have this potential to become such a leader and each one the precious and important one... one-heart resonance example...

Many good outcomes can come out from this and I believe all of us must bench mark this Cheon Shim Won to grow our church... become one with Cheon Shim Won or we cannot fulfill the Kingdom of Heaven and Queendom of Heaven, through heart, love and words... (to be absolutely one with True Mother, is what it means)

During this period and sensitive and difficult period when everyone must repent, with the status and value of vision of Heaven eternal, unique and absolute, think what is the future course to move forward and I hope we can reflect this as a community...

TYVM

applause

Break

Hoon Dok Hae

The Creator God is not only a masculine Creator God in relation to the world. There are both H Father and H Mother to bring to our standard of thinking... no longer being people of faith only one side. The human perfection and salvation cannot be without the H Mother and we must clearly know this... Know this Divine Essence and walk the path with God and if you do so, issues such as race and religion will no longer be problems...

As chosen people that H prepared foundation to send OBD, Korean people have revered Heaven, been knowledgeable in astronomy and cultivated agriculture, loved nature and disliked war.

At last the time came to find the marriage partner for the Marriage Supper of the Lamb as Jesus promised to come again for 2,000 years ago. And through the Christian foundation of Korea nation, just as God said 'This is My Son' 2,000 years ago, 'This is My Daughter' after 6,000 years...

The OBD was born... how joyful and grateful for this event shall we be?... Those who met Father 50 years ago have not brought about as much change as Father accomplished... However, when 2nd and 3rd gen hold onto these words and come to know the SW, they will become passionate beyond measure. When Korea turns around and America turns around, Father's earthly work will come to an end, and then in the SW, He will have to begin the second revolution.

Centering on the Adam and Eve, unfallen ancestors of lineage, in the Position of the Messiah, the Central Figure of all nations, there remains the responsibility to establish a new and greater tradition. Although we could not fulfill the duties of loyal child, filial subject and divine sons and daughters while attending God, we must now move forward to carry out a mission on earth before going to the SW. If we leave behind any incompleteness here, it must not follow us to that world.

Because there still remain many revolutionary tasks, we are in the position of having to hasten our steps. I do not know when I will go. When I go to the SW, I must find again and re-educate all those complicated matters and forgotten people.

I never forget the debt I owe to others. You may forget the things related to your own situation. But I will repay hundreds or even thousands of times the grace I have received.. Aju

Pres. Lee Gi-seong Message

1,407th Cheon Shim Won devotion

47,900 brother and sister gathered in one heart devotion

holidays and a number attending at churches are small but still coming...

After Chuseok, many more will come I'm sure...

16th day since Mother's detention and rain pouring and trainees are there offering devotion and North Geongi will be offering prayer on behalf of all of us...

and yesterday Oct 7 at 6pm, they walked and slept and walked and arrived at detention center and 3 days it was raining and despite that the Academy cadets offered such devotion applause

Sun/Moon University using this period 62 came applause and will be here for the next 2 days...

HJ Heaven and Earth Main Hall is full despite holidays...

video...

Spirituality Academy went there with desperate heart and day when no one can meet True Mother over holidays and hoping their voices can be heard they held desperate heart of devotion and thousands have watched through online and Spiritual Academy was not told to do it.. but they realize to attend True Mother rather than spend holiday with their family and some churches prepared food for our True Mother to celebrate with True Mother and brought it to the detention center to do it... applause

All the members around the world as we gather everyone's devotion, if we absolutely become one, all the spirits attacking will be liberated soon...

Song 'Speaking to the Rain' It wasn't familiar... She received music from Heaven...

Pak Bo Song Workshop trainee shared testimony...

True Mother didn't meet 4th Workshop trainees but She called all to the Hd room and audience with True Mother... I chose 5 people to give testimony... and I said I will not report general contents, but instead the trainees to share and True Mother shed a lot of tears... and She said 'Do you know who is the one I have been looking for as a needle is the child that understands My Heart and complimented the Workshop trainees and gave the Blessing to find five more and after the audience he had the experience with the military and instead of trying to hide Unification Church... (When I was president of... I tried to send the letters to all of our soldiers that had entered the military and they told me to stop so they wouldn't have trouble there, but this brother brought 20 people and showed he is Unification Church and I believe he attended vigil even during the time of service and has found a path to receive Blessing and they must know the military is their own mission field and then can witness well, living next to the person so closely, sleeping and living together...

He saw the great vision and could communicate with True Mother at most difficult time of vigil..

I met True Father spiritually right at that moment when most hard time and tired...

Title of sermon is 'What are you Doing there?' And he couldn't sleep and attended morning Hoon Dok Hae and his spirit came out from his body and upon looking at the spirit stuck on the ceiling and True Father saying, 'What are You Doing there?' As he deep-rooted his faith, he could not live the regular military life and knowing the M's Heart and joined spirituality Workshop immediately after ward...

During the vigil 'You joined the Workshop, but if you are acting like this, what can I find to say to the people?' And he said to Father in the dream, 'Find me the right wife or I cannot go and do the mission... kind of like Moses who kind of complained, God gave him the brother and special ability... You must pray and Heaven will show you the power to go and stand at such a position...

His name is one letter different from Pak Bo Hi... When we ask how you lived in the military must have a standard that you can boast and a foundation for the Workshop... 'What have you done when Mother living such a difficult life? We must have the good report...

39th song MODU 'Let us not Fall Apart' and how miraculous to find True Parents and if we fall apart from Them, we are basically dead... and the Korean Workshop trainees were able to resolve themselves through this song...and lecture on the topic of Vision of Heaven for our True Mother... True Mother prepared the constitution to prepare for our future to protect true family...

Kim Jin Chun, our brother said we were thinking the finish 2027, but Mother said we must accomplish sooner and centering on the Constitution and the Day has come to us... How importance True Parents are...

Creator is relation to all things and perfection of humankind not only by one aspect... You must clearly know the path of God to become one with God and you were able to realize this content.

... bullied for 5 years... suddenly at vigil the suicide person, she saw the moment of the suicide... and the water dropping in the bathtub and for 2 days... still saw that person dying... couldn't sleep... and smelling the blood and moved to special prayer room and screaming so loudly, kept in that suicide place and being

put into the cold water and feeling the fear greater than in reality...that person stuck in that moment until forever until liberated...and saw small figure of True Mother there and desperately shouted Mother! and She reached Her Hand out and has always been here and reached Her Hand, 'Come with Me' and not just me but the suicide person calling because of missing the Mother so much... and 130 days now living without a problem... the spirit and this sister found True Mother...

When you look at the Christians talking about Heaven, the young children their Heaven is not with the angel, but with their mom and the truest Mother of Heaven and earth is our True Mother... So, after such amazing things, someone who hated TC is changed and encouraging others to Cheon Shim Won, a precious Place not to lose...and so sorry to blame True Parents during the hardest time of my life and don't just let hearing this slip but realize that True Mother is amazing and there's a book of collective speeches...

Have you ever heard cows crying, so calling out Mother is like the cows crying and when you cry out crazily to Mother, that is the Place of Cheon Shim Won... not before did we call out Omoni is calling out prayer... Yoksa, yoksa work, work, but restoration can only be when True Father and True Mother's Love meets and we must call out both and at the last moment Father and Mother's Love comes into my heart and not just saying

everything is not easy, but everyone must believe that it is the guidance of Heaven and if you know the reality of the SW, those have not brought about so much works as Father, but be crazy passionate beyond measure, as you resonate with Heaven, crazily offer praise and okay if you cry out during the praise. Through that person, HyoJn and HeungJN is working and a big person crying out, the famous General I Su Ju is working. Singing the song 'I will Attend with My Life'... the spirit might come 'Did you really give your life?'

amid such weird incidents with spirits, and then the person suddenly shouting 'Abolji' and the spirit was knocked out...We must bring the work of Heaven out to us...and if you are crying, do not stop yourself, but let Heaven work through you and 'How have you been working?' even PL is giving words screaming on the stage, people complain... When you are the pastor, it is asking to except all the words as Heaven's words to receive and give and if you cannot listen to the message on earth, Heaven would teach you... The amazing work of spirit and truth, that is hope of Heavenly Parent and True Parents and True Mother told us many time to move forward with Spirit and Truth... and Cheon Shim Won and Cheonwon must become one...

Repeatedly True Mother told us and we need more and more people governed by Heaven will make life passion come out... Many churches cannot communicate with Heaven yet, but need churches to communicate with Heaven and I hope you make tonight a time to meet Heavenly Parent
