### Opening prayer of gratitude

... In unfathomable pain, despite it, True Mother embraces the world and Heavenly Parent who comforts True Parents and 18 days since True Mother entered the detention center, such chaos... Please listen to our prayer of tears, our beloved True Mother, Mother of Humanity, True Mother of Peace,

After 6,000 years SHS and because we couldn't protect You... This reality of despair... Have you eaten well, are you sleeping peacefully? How is Your health... We want the answers, but cannot... having to bear alone this cross...

For nothing like this to happen in the future, please let us be reborn and yet True Mother is comforting us, 'Do not worry about Me. The Truth will show itself...' We are encouraged and every day, we offer prayers even rain and strong winds and our steps of marching forward never stop and through the words that our prayers are giving True Mother energy and will not stop our devotion and please mobilize the spirit world to break all the blocks...

Now You said to be one with the Inheritors and 4PF...reminded every day of what You laughed and the words to forgive, love and reconcile remind us of the love we need have as we advance and we will not more waver but do our best to complete our original mission and please work through us and we will spread the teachings of Heavenly Parent and True Parents and raise our voices with Truth...

Please awaken the people and with devotion and tears we off all to Heavenly Parent and True Parents

Testimony

—

(personal testimony unpublished).....

—

Let's do what we can in the trial... The media said something is suspicious because when True Father ascended, the journalists wanted to know most about the inheritance and all we could say was that He had nothing to inherit and the journalists gathered here asking, how did True Parents live and what accomplishments and why are They peace loving citizens and 3 nights and 4 days these journalists got education and PL and Lee Song Il gave education...

Until now the journalist would release according to their opinion but then made World Peace Journalist Association and most inspired that nothing here was made or is in the Name of our True Parents and Who are these people and came to the 70th Anniversary of the founding of our Federation and they would talk about what they thought was true that if false, they found out... and hard to decipher

And one of Korea's highest University's... it is said about True Parents, Rev. Moon is the only one Who is the highest respected throughout the world... and even President from Seoul University would share such opinions... They spent Their entire life teaching about peace and love and would give hope and encouragement to lives and the journalists could know all this...

The President of Seoul University, they asked, is he part of the Unification Movement... Also another person who testified, 'Who is this Man? He is like a gang leader of Korea, but listened to Divine Principle and wrote a book and the titles are very inspiring...

If you want to fight Communism, True Father said that you fight the heads... and True Father went after the attention seekers in Japan and wrote about it in the book and this person also wanted to receive the Blessing and brought others from Attention Seekers...

So, we can possibly witness to all these gangsters... and the Coronation Ceremony of True Parents manifestation and the True Parents Who established Heaven on earth are chapters of his book... and when this person died, this is our funeral for him... and you can see PL and Kwa Song Dong and many of our great members and leaders here...

Not once did True Father discriminate and our True Parents in S America, when Communism was spreading, He endlessly taught them about God and offered solutions and went to Moscow and said that Communism was wrong and journalists would come and question Him and toured with Pres. Bush in Japan and journalists were inspired that such high people agreed with the teachings of True Parents,

and when True Mother had a convention with 20,000 people, media would follow and question whether that many would come, but when they did, it inspired the journalists...

Another fact is that there's this Semal Movement of the presidents but True Father played a big part turns out... and when the person running it, Pres Pak Chung Hi sent someone to continue it... This land must not be in poverty as the chosen land of God and True Father made all the companies so that all could live prosperously... journalists inspired also about the ten billion won scholarship donation and living a life of not having personal possessions...

In Kuri, when we were about to buy some land, ten thousand pyungs, 1 billion won about but True Father gave this away, He gave it away, wanting the nation to live well and foreigners to come to Korea...

and True Father got a lot of land and made them prosperous for Korea... and True Father also donated a bunch of money for this bridge...

so the journalist don't get information on site mostly... they upload and repeat information mostly... and True Father would send Korean leaders to America, Alaska, Russian, China, Europe and Heaven and

earth know the accomplishments and how could Korea treat True Parents like this... and talked about the year 2000 Peace Park and all agreeing it would be a good idea and True Mother talking about it since 2015... and journalists knew this and wrote an article making... All the things True Parents wanted to do, making Peace Park and all else, this cannot be done within the limits of the Unification Church... and many leaders in America are worried about the protection of True Mother...

Newt Gingrich accused the Korean government of trying to persecute and attack True Mother and True Mother had a heart disease and the government tried to sort of kill Her, forcing Her to go to court... and things like this is America broadcasting station about taxes of the FF, tax evasion... about 600 or 500 dollars at the time and that was religious oppression and Father went to prison for that...

So, the Korean tunnel between Korea and Japan, and we didn't tell this to the journalists at all, but many welcoming it... didn't use this in the court... So, Mother with confidence said She said She did not make any illegal political transaction in front of the Korean government...

March 6th, leaders from religions of Korea, Buddhists, Confucianists gathered in Buddhist Temples and Catholic Churches... Why? They went because of politics... Religious leaders didn't go to politicians, so politicians would go to the religions...

This man received a letter of appointment and True Father, knowing this is a land that God chose and nurtured, and said God sent the 16 nations to protect this nation... and gave ten million dollars to the countries that helped protect and at one point they broadcasted this..

1988 Olympics during the war between the America and Soviet Union, questioning that 160 countries would come, but True Father said and to prepare presents for all 160 nations and gave about 13,000 premium Korean clothes to these nations, so in any way you cannot see these actions in a negative light and when the World Cup came, what place would Korea stand...

True Father said since we got 4th Place in the Olympics we would in the World Cup and it did... and True Father said it was a Blessing from God... and True Father was always with Heavenly Parent and a global citizen Who loves peace and set the standard and took action and supported the UPF and WPF supported by the UN and President Numuyon? no one knows about him...

True Father used the Washington Times and wrote about him and Pres. Bush to spread the news about Korea and interview of Secretary General Pyungi Moon and people said he could never be a Secretary General of the UN and True Father said Moon Ki-Bang backwards means reconciliation of Korea

Pres Kim Go Ju, during conferences talking about Unification Church improving the environment... talked about it at the conferences...

and True Father supported with 100 million won for Korean/Japanese dictionary and then again 500 million won more to support and the dictionary mentions True Father's support...

So they say that the source of the Korean Wave is True Parents because from the 1960's the world was inspired by Han Gul, the Korean language and people were moved about Father meeting Kim Il Sung and Gorbachev, done with His life on the line...

President would ask how the Unification Church is making such accomplishments... True Father gave advice don't bribe, don't exchange money with your enemy and trade and don't send messages to N Korea by word and if you have a message, have it recorded and sent it... philosophy of True Parents...

Pres Myon inspired by that... and 2005 brought about ten thousand to the DMZ and has supper there...So, True Father talked about all the sacrifice and that we need to give this land to descendants through peace and any organization our FF... Peace Road and American trapped in Korea, our senior members solved the situation...

and True Father brought families from North and South together, who were separated and would meet and shed tears at a gathering and people of North didn't know people of south living so prosperously... and article written of that...

1988 conducting a Blessing marriage in North Korea and Kim Il Sung approved, but our side not fully committed to carry that out...

True Parents went to America and to many leaders and journalists would curious about was the Washington Monument Rally... and journalist say they research True Parents Life for months and couldn't find a personal dollar in Their possession...

When crisis in Korean Peninsula, Father sent Carter to solve it... and what True Father said was done... and why does America respect and love True Father out of so many religious leader... our Washington Times Chu Dong Mun and Kim Jong Un Kim Il Sung and while this performance, they showed a picture of True Father and Kim Il Sung and

also the Little Angels had crucial role... Yeosu Expo was struggling and True Father sent Little Angels to have a performance there and they were the Expo performance and many gave commendation... and True Father said He cannot live with debt and taught not to get in debt and not in debt to this nation...

And when person escaped from N Korean and was in Japan, True Father got him to South Korea and he was working in the Asia Pacific and was kidnapped and about to die and Chairman Yang Shang Shik goes and saves him and two people beside this man died but not him, and he was grateful and above the authority of this nation, how is the authority of FF stronger...?

So, the hundredth year of True Father's Birth, many broadcasting stations talked about His Life with no negative reports and even a commercial about the OBD... We cannot advance alone but can accomplish together and the future doesn't wait... and journalist had conferences with True Mother and be touched and many reports were made from past ten, twenty years... and broadcast about Only Begotten Son and Daughter as True Parents..

And Japan touched about the story of True Mother and why is Korean government treating True Mother like this and with events in Europe would record and engrave the events of True Mother

Why is True Mother the OB Daughter... When True Mother was opening the Peace Summit for peace of Korea, True Mother asked me to broadcast it live online, and then as a recording so I thought this is what I can't do on my own and did Cheon Shim Won prayer... and I thought that this truly has value to share with the world and not being broadcasted is my fault and I did it once a week but ancestors said do at least 3 times a week and I did Mon, Wed, and Friday and then calling out prayers for names at broadcasting stations and suddenly the 30th day they would scold me to get it right, saying True Parents are Messiah and True Parents...

The next day I told the broadcasting stations that they are the Messiah and True Parents and then they said they would look over the event and then offered us a price... 40 million won... which is very cheap and said they would broadcast it live... and I thought I should have... but we broadcast all these events... which is like impossible but through endless prayers, but problem... I left the editing to them... and was told to cancel the whole thing because no message about Who is doing this and why...

So, I called and told them we would cancel...and they must put in True Parents Name and they laughed and hung up but 30 minutes later they agreed... but said cancel again because they must add at the end as well...and when praying Father said, 'Get this right. What can you do on your own?' and offered prayers and impossible without the grace of Cheon Shim Won...

They laughed and rejected me... but offered calling out and prayers and third time's the charm... and went back again... and said, 'I got a message from Heaven ' and on Saturday they said they would contact me on Monday but didn't, so I called them and result was it was broadcast live... Although it may take some time, Cheon Shim Won makes all things possible...

Commercial about the OBD.....

hundreds of AGSs appeared before me and offered me food... enjoy this and work harder... 4 HJ offering papers every month...one month only 2 and ancestors cursing me...

Then wanted to make a commercial promoting the OBD and I saw a vision... like this image and contents added more and more... and everyone accepted this and would get mad if we didn't give it to them... already knows the life of our True Parents... Korean media was on our side, but right now... what is the situation and actually still on our side and would sort of comfort us from time to time...

In Korean dictionary there was not word OBD on OB Son... so received ansu... Those spreading these false stories will repent... 1st and 2nd gen becoming one and these are True Mother's Word of Direction...

## **Break**

Those who recorded the HJ Report, keep it to yourself and do not spread it online

## **Hoon Dok Hae**

The Birth of True Parents...

Heavenly Parent Who has waited for so long, we are now living in a period where we can offer devotion before Heavenly Parent and True Parents and this is said to be the Golden Age most precious in our lives to remember for eternity... to take pride in the accomplishments of victory...

How long has Heavenly Parent waited for this moment... not merely 6,000 biblical years but much longer since the birth of the first human beings... and those who can understand and take full responsibility. Even carrying out the providence of salvation all that time, God has never once grown weary or ceased to work, not because of omnipotence but by walking the path of Love seeking after sons and daughters of Love.

That is why Love possesses tremendous power that can endure a thousand years as one day. Parents exist for the sake of children, day or night worrying lest their children suffer harm. They protect and defend them... To search for and connect oneself to that Parental Essence is to walk the path of Goodness and Love.

Goodness must always contain Love but not just any Love, Central Love, Love centered on Heaven's Presence. Please help us realize once again that we became lost and pitiful beings who can only lament for eternity except for Your grace and allow us to be Your children who will not neglect the preparation and fulfillment of loyalty and filial piety so that we may meet that one appointed time...

Let us fully understand our responsibility and mission to achieve victory on this battlefield as the final struggle is upon our shoulders, but we must move straight towards Your Will, and wherever Your children gather today, please be personally among them and light the flame of life and let us be those preserving the mission as all that is good in this world...

### **President Lee Gi-seong Message**

50,000 people here...

Becoming one with Inheritors and 4PF, becoming one with them can bring miraculous works... 17th day of True Mother at the detention center and about 150 people are gathered there...

Minister Sun bu Myun sent a message..

The unbearable longing for True Mother, nothing can stop, not wind, rain or the holidays...About 30 public leaders are here and 120 members and they are attending the 1,409th devotion... to send warmth to True Mother and hope we can be as one...

Tonight at a world scale...

Anhoyol as the standard... He prayed for 450 journalists calling out... and True Mother said offer until he dies and union leader of Chojung Town and educating Peace Ambassadors... Chairman Anhoyol applause

Oct 4th with Chairman Song Yong Sung, we had a chance to meet True Mother... Like Chairman Anhoyol told us today, the works this FF does, we must commercial this and send out to the world and

True Mother said this to Chairman Song Yong Sung and we must promote them every day through broadcasting, let the world be inspired and all the dark clouds around True Mother will wash away and journalists are calling me that these days will subside and do our best and we must encourage these journalists to stand again...

We should let them testify to True Mother and if they shout the voices of Truth, the people of Korea will attend our True Mother and those in the North and all leaders of the world will attend our True Mother... Right now, all of South Korea are showing the most interest in our FF and True Parents and this is the opportunity to shine, so for this we must testify to True Parents with all we have especially 2nd and 3rd gens, on the front line...

50 years ago, people who met True Father did not bring as much change as Him in the last 30 years but our 2nd gens can achieve accomplishments like crazy and they are growing and praying like crazy people... and praise like madness... and as a result that must change how Korea grows and after receiving the Workshop and in Angola, he gather 30 and 70 people to devotion and we also must gather all the people and let them attend devotion and put laptops in front of Father's eyes to check who is attending or not and all the churches of

Korea must flow coherently through the Cheon Shim Won devotion

and Japan must flow and America through Cheon Shim Won and then the works will be completed... and our spirituality spreading throughout the world is being shown through the European WSs... So, we must set a tradition of revelation... That is what True Mother said and we must go the way of learning and being filial children... Until now how unfilial and disobedient have we been and we must make another revelation and what is True Father doing in the SW. He is educating and after education we must pay back and the trials here will be Blessing over there...

True Father would find those in debt and educate them and send them to Heaven...

Oeg Monse

YU Mun Whi

Like Judge Yun who released True Father from prison years ago, endless grace in Heaven... Going through all this devotion for the eternal Heaven on earth and the spirits of SW will work through us the seniors dreams and youth see visions... let there be the works of Spirit and Truth and only then can the H unified Korean and world manifest... This is not trivial... We must experience Spirit and Truth and tomorrow is Friday... So, I hope twice as many members participate and then we can give energy to True Mother...
