True Mother walked the path to solve the problems that even nations could not resolve... Gently placing Her Hand over Her wounded Heart with patience again and again...

We saw Blessed children from 143 nations gathered... Inheritors with 600 praising songs.

Let us no longer hesitate but break through every shell that holds us back

Great Works... Oh True Mother bearing a life of pain and suffering so deep... Oh the day when Heavenly Parent's dream is fulfilled... You have realized the cherished Dream and the Gates are opened wide where all can now experience the works of Blessing...

Beloved HMH our True Mother, we confess that we have not yet cast away our fallen nature. You continue to bear the cross of suffering and as sinners of sinners, we re ashamed of our unfaithful hearts and deeds when True Mother lives each day as if a thousand years offering everything for H's Will...

You bore 14 children with Holy Body but wounded without repair... You told us to be strong and forgive, love and become one and pray and offer devotion for H's Will for us and our families and as we receive Hyo Jeong (HJ) offering ceremony, please stay strong and be restored in health and return in great victory...

PL We are those who believe in the absolute providence of Jehovah, our Heavenly Parent, who declared, 'I am the Alpha and the Omega, the First and the Last, the Beginning and the End.' And we believe that

this very word has been fulfilled through True Parents.

Through spirit and truth, we have deeply rooted our faith. Because of our faith stands upon the rock, the more it is tested, the stronger it becomes. Our faith will only grow stronger. Even if the cowardly hide their faces and flee, just as they did in the time of Jesus, the righteous ones prepared by Heaven will stand with us and give their support.

Now work will appear where rocks will shout. May our cries of sorrow become a mighty shout that opens the providential history

(Rev. Yong-cheon Song Pres. FFWP for H Korea).

Thunderous voice that judges all injustice... Now within True Mother's boundless love we will become one like molten iron in the furnace... UPA and other organizations were able to offer devotion safely under the protection of the spiritual realm of good ancestors...

Rev. Tanaka, Pres of H Japan and his wife with Rev. Beom-seok Lee, Cheon Shim Won President of H Japan, and his wife, attended the event and all one marking a new beginning...

Mother tears and sacrifice offered for Her children's salvation... True Father offer 1095 days offering devotion,...We children should have offered... being the model of devotion...

Cheon Shim Won is the office of True Father and the Womb of True Mother Who gives new life... standing as a precious gift of hope for all humanity... profound importance, the root of unwavering faith that you must experience for yourself for realizing one family under Heavenly Parent.

It is a call for True Father to go forward for the environment that we must broaden for Heavenly Parent, This is True Father's Wish and the hope of all humanity.

She holds the hands of Her children and gently urges them forward to fulfill the Dream of Heavenly Parent...The path for a world of nationalistic, self interest and be a shining light of hope... 120,000 participants shining the light of hope on this world... True Parents TY and we love You...

Welcoming Address

Secretary General of World Mission HQ

So Im Guk. He will introduce our dear Brother Prophet Samuel Radebe from Republic of South Africa.

Gratitude for we are gathered to pray. I sincere believe each of us is reaching Heaven...

Prophet Imome Samuel Radebe serves as the Chairman of the Inter-religious Association for Peace and Development IAPD in Africa. He carries the mission of uniting spiritual leaders, not only across the African Continent but also throughout the world.

He is the Founder of the Revelation Spiritual Home Movement based on the African Visionist Spirituality, leading more than 3.5 million followers across South Africa. He conveys the spiritual wisdom that Heavenly Parent has given to humankind and delivers the message through African tradition and faith that Heaven desires to unite all humanity as one.

What is most astonishing is that even before learning about Family Federation and UPF, Prophet Radebe had already met True Mother in a vision. He received a revelation that a woman from Asia would come to help Africa.

Later, during his visit to the US, he personally met True Mother and was deeply moved by Her Love and forgiveness with the vision of one family, then he began to follow Her whole-heartedly walking the path of Providence. True Mother appointed Prophet Radebe (PR) as the IAPD Chair, establishing him as a Providentially righteous leader to unite the religious leaders of the continent.

What especially remarkable is that in 2021, the family of PR was officially registered as a CheonBo family. This is not merely an honorary title, but a Heavenly recognition and confirmation that his entire life has been aligned with the Will of Heavenly Parent and within the lineage of True Parents..

As you all know, yesterday, PR personally visited True Mother in the Detention Center and testified at the peace prayer gathering as follows:

'As soon as I learned the news about True Mother, I laid everything down, because I remember the seed of love that HMMH planted in Africa. He testified that upon seeing True Mother's radiant face even in such difficult circumstances, he was deeply moved.

True Mother told him not to worry about Her, saying that Heavenly Parent is watching over Her and asked him to convey Heaven's Will to the Christians of Korea.' Having received this message, PR will deliver a special address tomorrow to Korean Christian pastors with the cooperation of Korean Villagers' Council...applause

As True Mother has said, this will be a historical moment in which Christians come to anew awaken to Heaven's Will. PR is also planning to invite the key leaders of his denomination to the Cheonwon Complex, so that they may directly learn True Parents's Words and personally experience the Holy Grounds established by True Parents.... applause...

This is not merely a visit. It marks the beginning of civilization's shift, centering on Heavenly Parent. True Mother has always said that a providentially righteous person is one who knows the will of Heavenly Parent and dedicates themselves for that Will, not simply a good person, but one who bears the suffering of the age, unites with True Parents and substantiates Heaven's Will on earth. In that sense, PR stands today as the true model of the Providentially righteous person spoken of by True Mother..... applause....

As we reflect on the footsteps of PR, we learn what kind of a truly righteous person Heaven is seeking. The more the crisis, the more we must become one, and our relationship with True Mother must grow ever deeper. Our devotion and prayer will never be in vein.

At this very moment, when our hearts unite as one, the vast spiritual energy will surely reach True Mother and move the work of Heaven. To all who gathered here today, all gathering to the vigil devotion from around the world, we offer our deepest gratitude. Your devotion is strengthening True Mother and giving

light around the world.

Just like PR, let us all stand as Providentially righteous people, who are people of peace. Make today's prayers and devotion become a great source of strength for realization of Heaven's Will, for True Mother's health and release and for the firm settlement of Cheon Il Guk. I conclude my address, TY.....

applause...

Prophet Radebe comes up to show his love, the truest son of Heavenly Parent and True Parents, True Father. Let us welcome... big, big applause....

TY TYVM Good evening to everyone. It is true, I left everything when I heard what is happening. applause... The sacrifices, the Blood and the Tears that True Mother has spent have created an investment in Africa. And I'm a product of that. That's why I dropped everything and immediately came here.

There are two kinds of sacrifices. There's an intentional sacrifice, and there is an unintentional sacrifice...Intentional is what we do, we fast, come to vigils at night. That's intentional. Unintentional sacrifice is when the True Parents and the spiritual world will allow us to go through something in order to make way for something great.

True Mother is passing through the unintentional sacrifice. There is something great that is coming. That is why She has to go through this. Something great is coming. When I met Her, I was worried about Her. When I was talking to Her about Her condition. She cut me. She said She loved me and She was worried about me and about my family. I was looking at Her and I said, 'This is an authentic leader, selfless, truly sacrificing Herself for others. She was on fire. I thought I would see Her down and out. She was on fire.

She was on fire, and She looked at me and said, 'Please go out. Tell Koreans. Tell Christian pastors and tell everyone, and make it short. Tell them to be on fire. And I'm here to tell you 'Be on fire' Yes, be on fire. Do not be down. Do not be sad. That is negative energy. That's going to make Her weak. You must be on fire. That is positive energy that is going to strengthen Her and give Her power and sustain Her there.

It was revealed to me that 2026 will be a year of fire energy. In the Arican spiritual calendar, we are already in 2026. So, I am telling you now, unification, have fire energy. Be on fire for the sake of True Mother. This is what She wants. She wants you to be on fire. big applause...

When the spirit world brings special people on earth to us, we have to make sure that we take care of them. We stand up and fight and protect them. If we do not, They will be taken away from us. True Mother was really concerned about Korea. So, I'm saying to you South Korea, 'If you are not on fire for True Mother, we will take True Mother to Africa.' So, be on fire. Stand up. Pray. Fight. Shout. Do everything. Do everything to show True Mother and the Heavenly Parent that you appreciate what Heavenly Parent has brought down for you.

If you do not, If you do not, She will be taken away from you. And we are waiting in Africa. We are waiting in Africa. So, from today, if you want to contribute to this situation, be on fire like never before. Be on fire. This is not the time to be weak. It's time to be strong. To be on fire, to give strength to Her. She will be out very soon, very soon. She will be out very soon, and great things will come after that.....

big big applause....

I'm not here to give a speech. I'm here to convey the message, and I've conveyed the message: 'Be on fire!'

big standing applause....

'All Creatures Shout out'

The reason live society criticizes us because they do not know the Truth. There's no sin in ignorance. That is why we must raise our voices

Shin Chul Nim:

'There's no sin in ignorance. That is why we must raise our voices...

In this empty world where there is no single hope, the one who has compassion for our weakness does not give up...

The darkness is split, and He appears with light. Our True Parents Who became our life, have fulfilled the hope'

Shin Chul Nim

'With our hearts filled with confidence before the world, let us offer praise...

'The one worthy to receive all praise and all glory, before that great love shall we kneel and offer worship. All the heavens and every living thing that breaths shout out.

The beautiful and great one. Praise the True Parents.

At this time, our hearts, with the determination to make known to this world. With that determination, let us offer praise. Death has been broken and hope has come. No wall can block the Parent's Love. Before that great grace, we come alive, and eternally in the True Parents' House, we will praise.

The one worthy to receive all praise and glory, before that great love, everyone shall kneel and offer worship. All the heaven and every living thing that breathes shout out. The beautiful and great One, Praise the True Parents.

'Rise Again'

Shin Heung Nim:

'My brothers and sisters, I believe, centering on this great work, our sincere devotions, prayer and praise will fill up this Place of Heavenly Parent's Sacred Ground, if we can fill this Place, the Holy Spirit's Work will come down to us, absolutely Heaven's work will come down and work through us.

So, at this moment, as we offer our praise, as we offer our prayer, when we desperately call out our desires, Heaven will look at that, look at our desires, look at our desperate hearts and those words of prayer, those desires that we offer will become our reality, our prayers will make Heaven work and our desperate prayer will lead our True Mother to be victorious. So, let us all stand and let us all in one heart together offer this praise only looking up at Heaven and let us offer this praise with all our hearts, with all our hearts, for Heaven to descend on us, for the work of the Holy Spirit to build the Sanctum of Heavenly Parent, let us offer praise!

Hoon Dok Hae

Heavenly Parent, eternal True Parents, True Teacher and True Owner

Human beings within the family of the 2nd Blessing become the embodiment of heart, oneness in body, oneness in thought with God. Through this unity, they can come to realize the ideals of freedom, happiness and peace.

At that time, humanity becomes the true subject of love welcomed and celebrated by all things in the universe. This is the third Blessing of God bestowed upon humankind. God is the eternal True Parent, eternal True Teacher and eternal True Owner.

If we are to become God's true sons and daughters, we must first become True Parents like God. We must also walk the path of True Teacher and finally become True Owners just as God is. This is the essence of the Three Great Subjects Thought, that has the ultimate model God.

You have probably heard the Divine Principle lecture dozens and even hundreds of times. Yet it is regrettable that many do not let it touch their hearts or translate it into action. Creating an environment was not something that happened only during the time of God's creation of heaven and earth, it also occurs throughout the process of restoration.

I have worked tirelessly to create an environment for the sake of future generations. How about your parents. Have they fulfilled their responsibility? Have they created the environment for you? Now you, the 2nd generation stand at the very center of the Unification Family. You must clearly understand your root and take responsibility for creating your own environment. It means witnessing, bringing people to God. That is the only way you will not be accused.

Even if you achieve fame or great success in this world, even if you live without compromise in the Will, if you leave behind any condition for accusation on earth, you will not be free in the spirit world. You

must understand this truth.

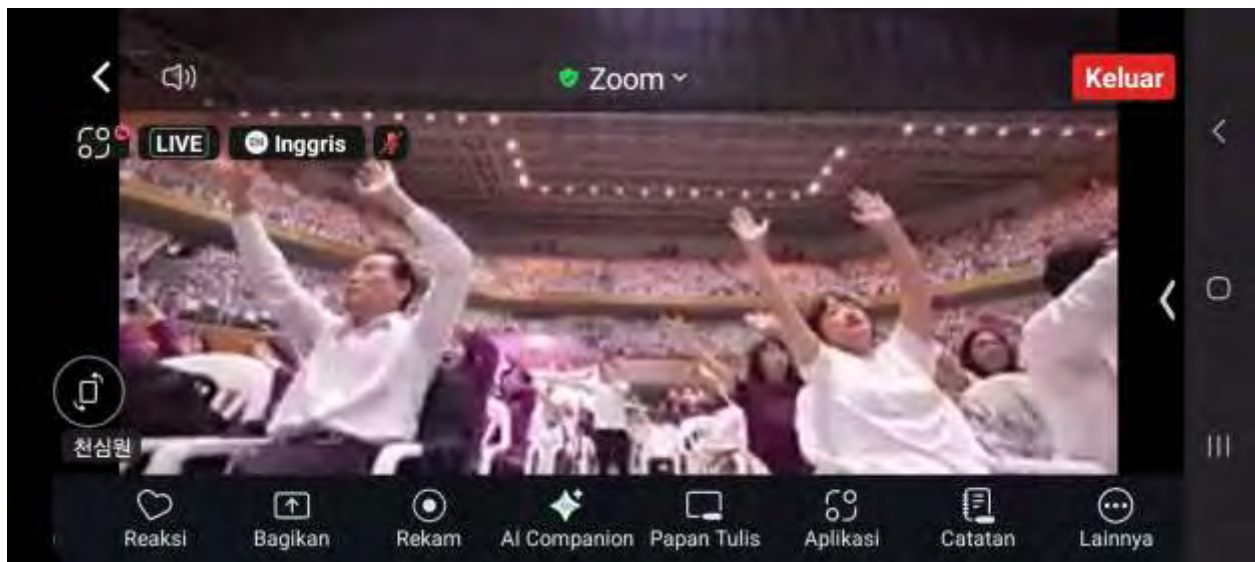

That is why you continually need stimulation. You must think about the 7 billion people of humanity. Our creating the environment is still far too small.

At the Detention Center, members didn't want to leave that place and with the heart of devotion and prayer they were waited with hope that Mother would come out safely. They are waited the official announcement come. We all know the result. At that time, at that moment, actually, the first thought that came to my mind was, 'What should I do?'

With all this devotion and members who were here together, that's what I thought. At that time my youngest child said to me, 'Mom, what is the most important thing right now? My youngest son who is now a high school senior asked me. For a moment, I didn't know how to answer. He said; it is True Mother. We must focus on True Mother.

We must send the message of love. We must express love to our True Mother and thing about how to give strength to True Mother.' I was speechless. I thought our members.. how can they return home safely, right? My eyes only turned to horizontal relationship. If we forgot Heavenly Parent to prioritize horizontal relationship, I suddenly thought about that again. My youngest son said, 'From now on for our True Mother, what should we do?'

Until True Mother comes out safely, what is the thing that we should do well?' I received this admonition. I was ashamed when hearing those words and my heart sank. In any moment, in any environment we must have our center of Heavenly Parent and True Parents on this earth, with HMH attending the Substantial Heavenly Parent, the OBD True Mother is at that Center.

True Mother's Will comes first. True Mother's Will is everything. We must not forget this.

Shin Chul Nim, 'True Mother said, forgive and love. Through our actions show it to society and even if you don't believe it, look at my children, more precious than My own Life. For this society, for this Korea, we have to offer prayer, we must show this. Wouldn't True Mother want to see us praying and advancing?'

What I learned through True Parents's Life course is that the foundation of Unification Family is to love our enemies, forgive our enemies... True Parents even embraced them. Even They were threatened by Communist leaders, they embraced them.

True Mother even now, True Mother is not asking for anyone to take the responsibility, no matter how indignant, how hurt and frustrated, how can we, on behalf of True Parents judge others... And in this difficult times, we must remember this. From outside, they keep trying to scatter us, separate us, divide us. They don't want us to become one, but confirm our hurts and pull us in various directions.

We must not forget that as much as I love True Mother, members around me also love True Mother and this Unification Church. Member love the same way, so there's no point or reason why we have to waver.

We are truly having a happy time

If you don't resonate with True Mother's Heart, all will be in vein...

At the Workshop, the meditation prayer of the blooming of Cheonshim. So, the Cheonshim flower is Meditation Prayer. At first it was sanctification and purify the evil spirits' foundation within us and we go into the advanced version of the Workshop and finally the blossoming Workshop and the heart-to-heart cafe, foot washing ceremony and the brothers and sisters as they wash each other's feet, they'll be experiencing true love and going beyond the faith, feeling and realizing, then laughing, education and healing, resembling and praise, prayer gathering and Cheon Shim Won devotion twice at the Trainging Center.

You need spiritual stimulation, telling yourself that you can be better and better and then becoming the staff of this TC, moved one sister's heart, and said if I lose him, I cannot marry. But then received Blessing with Kim jong min and we heard their testimony and leading hand in hand... They receiving mockery and persecution and tribulation is all spiritual stimulation to witness and create the environment, so you must have the heart of how to make more people will attend our service and to know that future of the world is attendance...

Cheon Shim Won prayer is stimulating us. When children are not coming back to the church after calling out prayers... and stimulation of the stories of the miracles...

True Mother asked what are you doing? You must go out right now and the brother witnessed True Mother coming out and held True Mother's Hand and shouted True Mother... You should not just leave this world without any stimulation from True Father in the Spirit World (SE). All members in the SW were from True Mother and for that we attend Workshop and vigil and become the fire to spread throughout the world... Light the holy fire to spread.

If you're sitting down and thinking and sighing that no one is coming 428th...

Longing for True Mother... These righteous people must become CheonBo family. In order to give Blessing to 430 families. Took really long time in the past but as we offer ancestor blessing and passing 777 generation, it took 20 years but in the end abundant grace before reaching 210, it wasn't easy...

True Mother called me and said, 'I couldn't sleep because of Radebe. and they must bless 430 generations and be registered as CheonBo, and True Mother offered devotion after devotion and opened the path to bless 430 gen all at once and if there are people who didn't do it or people who ascended to the CheonBo because the younger brother finished it, because that person never experienced that but took the photo... When we had the liberation, there are people who did not come and many died because of that and because central evil spirits have been revealed one suicide or another let them work to make the child crazy...

We must liberate all the evil spirits in our body, one by one liberate... When you move to a new house and wake up driving like crazy, realize there is a spirit in the new house, so must liberate, liberate the ground spirits too, to finally see the liberation of the subjective SW and objective PW...

PR and the leader who introduced him, he let go of everything. This is an act of absolute obedience and he is walking toward Heaven, and for those, Heaven will let them fulfill the Will...

Abraham sacrificed his son only to follow Heaven's Will and has become someone who is ready to let H's Will. Our True Parents walked the same path, as long as they can save the humanity and our brothers and sisters followed even if siblings and friend and parents denied them, there are members like that and it will bring tears to hear their stories and even at the last breath of their physical life, they will receive the compliment of True Father... and True Mother has been speaking this kinds of word after True Father ascended, but many left Her side and criticized She should not do like this or that.

Everything will be broken to pieces if you don't believe and follow True Mother and until we die, we must follow True Mother and only then will Heaven bestow you abundant grace. True Mother made the fruit and that is PR told us that also...

True Mother only worried about his care when he came... We should not show negative energy, only positive energy and bring strength to our True Mother. Let us be on fire...

In Africa it is already 2026, the year of energy and power and we must rise and shout and show how faithful and strong we are to the world and then True Mother will have strength and be released and PR

has absolute conviction that True Mother will be released and after that great works will unfold... We have made that work and we must prepare by centering on True Father and Inheritors

In the past leaders could not have a full meal and would go out and sell things on the street... but now True Mother made the foundation to show what Heaven looks like...

We will see how True Father is mobilized and True Mother as well

PR among his confession he said the same contents that he met True Mother in a dream and substantially and now let True Mother's Holy Body to work throughout the world, get our prayer and devotion... all the people must rise up to see the miracle and people bringing all of that together as one is our True HMH...

Only when we have the heart to die for True Mother, and because the 2nd eldest has become one, we must resonate with their heart and when we can move forward with that heart, we can bring resonance to accomplish for H Korea, but many have a hard time believing and following those words, but now we see our prayers accomplishing and for all the people of the world to attend True Mother and opened the door of North and South Korea and centering on the Parent Nation all nations come together with no conflict and the only hope to build that is True Mother. No one else has that vision and hope entirely...

Please let your children's eyes open to see what is the most valuable thing... Please work... the fact that HMH has been born on this earth and let more and more righteous people come to this place and to their Mother and to this Homeland... If we cannot accomplish, we cannot hold our heads up before True Mother allow us to have the wisdom and love that no one before has had... let all the BF's become the children who can protect our True Mother...

HeungJN, HyoJN Daemonim... Please work through us... not stay still, go out to the world and shout and move forward with strength and courage and rise again... As we look at the shining moon, we hope True Mother can receive comfort... Let Her not stay lonely but feel warmth... Yuno miul
