At the trial on December 1st This is in response to the question, "Does the suspect have anything to say?" This is the full text of her true mother's answer. *The full text of the words was from a reporter who was attending the afternoon trial, the person who was posting on the blog (who was asked to appear on YouTube video)

Even though I am over eighty years old, I have worked with the dream of bringing the Creator, our Heavenly Parents, onto this earth. Therefore, in April 2025, the Creator's dream was that He wanted to live on earth with children as true parents, which was the principle of creation. Because I knew this, I decided that for my entire eighty years, I must build a palace where the Creator could reside in order to fulfill that dream. So I devoted all my energy to it. I had no interest in the politics of this country, not for my entire life. I have educated while praying that all of humanity, as a single family, receiving the love of Heavenly Parents and living in a family-centered way, would go to heaven.

That is why all politicians, religious leaders, and scholars worldwide know me as the Mother of Peace, Holy Mother Han. Even regarding this incident, it is true that they have watched me for a long time and are deeply concerned about this situation. Therefore, it is also true that many high-ranking officials hope that this trial will be conducted in a genuinely fair and democratic manner. I am not the person the special prosecutors claim I am! I cannot fear heaven in the slightest; I love it! Since it has been my lifelong wish to realize the dream of the Heavenly Parents on earth, I implore anyone who can to come to Gapyeong and help me regarding this unfortunate incident. Everyone should come to Gapyeong and see for themselves what I have done.

Testimony

Since it was the first time, awkward and all of us not reading confidently... We were told to try to read more strongly... and thought if I don't, I will not change, and I thought I wanted to be a leader, saying yes to Heaven about everything, and before I didn't use the word 'spirit world' and now do a lot and initiated asking about my ancestor liberation and Blessing and together with my parents could complete it...

Although could not literally see spiritual phenomena, I could feel the good atmosphere and could see why this Place is Father's Office and Mother's Womb... And current state is so good and I don't want to dig up my painful state of denying True Parents and I will instead make a determination... and all the trainees gathered to offer devotion for True Mother's trial...

One line... 'I am the least of all, a sinner among sinners' Even though I was told the truth of the existence of the Spirit World, I did not accept it, but now I say, 'Mother has no sin. Mother is our True Mother' and I was able to be reborn... and I want to live as a direct child and I know I was specially guided here for such change...

sincere gratitude

I am in Spirituality Academy

I realize every step I took was guided by Heavenly Parent... I had been working in public mission in Japan, with parents of strong faith and no difficulties... Through the study abroad program of True Parents, I lived in Korea for seven years and as staff with mission at a providential organization, was realized my faith was only with my head, not feeling the Heart of Heaven, although sincere, inner center leaning to self-centeredness.

During Workshop distance to True Mother much closer, what a great grace to have heart united with True Parents, especially having been driven by sense of duty and mission, now because I love True Parents... and I want to offer filial piety, and a feeling as never before to want to stay here longer... and joined recruitment wanted to but already in 40-day so unable...

In Japan, difficulties and laid everything down again... went to Attendance Workshop, asking what is the heart of HJ, and felt it realizes the Heart of True Parents on one's own and returns joy through actual results.

Why praying for my next path, heard about recruitment to US and never before a firm conviction... Then chance to directly serve True Mother 'I came out to meet You thinking through you, Korea can be liberated quickly' What True Mother desires most is the H unified Korea... Then informal meeting and

heard True Mother said, 'Fastest way to overcome in Japan and Korea is America'

Please open the way for me to participate in the American group, but surprisingly the position of captain was given to me, and no experience and language burden... Leading felt terrifying, but I promised Heaven and could not retreat, but constantly felt my shortcomings... What must have been Heaven's heart to have no choice but place someone like me as a captain, but the heart of someone in a position of caring responsibility helped me understand True Mother's Heart of a lonely path and the one I walk, Heavenly Parent walked before me, and endure by recalling True Mother's Appearance at my encounter with Her...

Heavenly Parent had already prepared precious sisters to fill in my shortcomings and at first awkward but then really like sisters. I met each member who offered devotion with tears and practicing witnessing, Heaven granted an amazing grace... In just 3 weeks 36 new guests attended the LV Event and being guided with devotion, and all is grace of Heaven with Holy Mother Han's authority...

Desire to receive the Attendance Workshop once again and got new position of Training Dept Leader... feel shortcomings, but when I feel like collapsing, Heaven give me the strength through people around me and through the Cheon Shim Won devotion, strength comes... being trained with love...

Today Mother's first trial, so together with the trainees and members, entire day was devotion, and holy ground prayer and as I looked toward Cheon Jeong Gung, I prayed, at this moment with what Heart is Mother looking at the world and thinking and heard, 'unified Korea' and still came more again...

I realized that I joined with this overseas mission to see Mother's Wish realized, and we must not stop and two earnest dreams in me... That True Mother may be released to see Her again and second that I may be a capable Person to realize M's Dream and never forget in my heart going forward with all my effort.

First Testimony

was child that did not listen well, always said, 'Why?' and if the answer made sense, I would listen or not.' and when they said don't go, I would go to see for myself to see if Satan was there or not, even since age 5. realized Santa Claus did not exist. And when I was told that the Spirit World exists, went opposite way and used Covid as an excuse...

Then went to the military. Is the training really hard... but it was hard because of living with people who think differently for me... Since I served on an island, unjust practices were inevitable and many situations I had not heard of... and saw a bully victim behaving to end that... or behavior as not in normal society... and asked if Satan is causing this and began to think more deeply about the invisible realm, and after discharge would seek True Parents again.

I came to the 40-day to push myself further... I still had many bad habits, complaining and dissatisfaction... Then time of Cheonshim resonance and to read the Cheongseong gyeong strongly

and the training leader stopped us and spoke about his own past.

8th Cheon Shim Won resonance prayer HJ Report

hardships in Japan, didn't like my parents and house and home not comfortable and turbulent middle school years and started to live separately in high school time, for 5 years leaving home and Parents, but felt my heart and body tired, but then my little sibling came to Korea for university and recommended me to go there and realized that Heavenly Parent never gave up on me and loved me and came to this public mission path, and wanted to grow heartistically to Heavenly Parent and I came to the Cheon Shim Won Academy...

ever since have been working here... offered devotion that my parents could come here and they have come as a couple... so much grace being here, and now report about the 8th Cheonshim prayer 3-day Workshop with goal to resonate with the heart of Heavenly Parent and True Parents... inherit H heart, fortune and ability...

True Father said it is a training the compressed the 40 day mainly centered on the younger generation...

sketch video

first test of realizing Heavenly Parent's Heart is realizing Their Love toward you... when you call out you need to shout like this and then you will see...

True Father's spiritual message about this Spiritual Workshop... In the words given by Father, He says prayer is not doing it well or not but how much do you put your heart and say what Heavenly Parent would want genuinely from you and prayer is a conversation with Heavenly Parent... and this number '8' is the number of 8 chakra is the number of completion...and clearly this devotion is for True Mother...

And today was the day of True Mother's first trial and 120 members devotion fully conveyed to H for M's well-being and a Workshop of tears to realize H's Heart for True Mother and in unity, and I realize that True Parents have always been together with me and loved me since the moment I was born...

120 members the same as the 3 21-days...

opening ceremony... different to previous Workshop starting with the praise and members crying but this time tears before starting and so Spirit World is working greatly

Hang Yan Won is the one who gives lectures and deep grace... One member shed many tears and 3 elements of prayer: repentance, gratitude and determination and the contents that we must resonate with all attendance in heart and then felt certain it is resonating with Heavenly Parent...

members experience through their reflection... heard that prayer is what a child does naturally... feeling the heart of Parents as our own Parents... wanted to pray more with Heavenly Parent... truly a Parent/child relationship...

Morning of the 2nd day... lecture on calling prayer... Kim Ju Wan said if you believe in the practice that True Mother said and how he is actually guiding calling out prayers...

First testimony... If even 1% disbelief, the Spirit World cannot be mobilized... For myself, I came to realize I had disbelief and when I gave devotion, I had to have determination with 100% belief... not just counting #'s but calling from the heart of love and sincerity with clear goals and reasons for what we call our ancestors to do

Dr. Chun Yu San led with detailed contents about united prayer

reflections... able to pray together with sisters, different from praying alone... and with mindset that they are my spiritual sisters, my heart went deeper into it with tears and with the mindset of the Indians, we promise to continue this group and pray for each other... one person wants daughter to get Blessed, son to get Blessed and another to have their child come to the Workshop and my daughter is 36, so I am praying for her to receive the Blessing and with our life for True Mother to come out Dec. 1st...

When I listened to their reflection, much more curious about the united prayer and I hope you will be looking toward this vigil...

nature resonance prayer led by me... even rain the day before and sudden cold, could not go to Mother's Course but at the Hanong House where Heavenly Parent rests, we could feel Heavenly Parent loving and waiting for all children to return... One member said they wanted to talk with Heavenly Parent and then felt the Content, 'If you offer devotion enough, especially 1st gen, resonating with H not so difficult '

In the Cheonshim exercise, I would like to talk about what I felt the most, a program for the health of the members without thinking about their own health... To care for spirit and physical, we did the True Parents's and F's and M's exercise together and to love ourselves and think of ourselves more preciousely and feel the heart of a Mother who worries about Her children and in the meditation time hearing someone next to them snoring...makes sense that at this age we would be tired, and they smiled...

During the resonance prayer, tears poured and felt like a surgery separating all the dirty things and body lighter with pain going...Special Prayer Room is where Dae Mo nim had prayed with devotions...

Third day had time to create word pictures and then also had Pres. Lee Gi-seong's words...

testimonies... through resonance prayer our church became one and prayed that our R no longer a burden to 2nd and 3rd gen

strong desire not to leave True Mother in the D and praying for victory...

One member 7 times 3-day Workshop and came offering devotion for True Mother and a time when all came together for that...

I didn't sleep in any of the lectures and eyes blinded by tears, different from Workshops before... thought because of this era to be one with Holy Mother Han and others offering devotion and a higher dimension this shimjung education is at...

and photo is her parents... and 2nd and 3rd gen input into this and here is a video

1st and 2nd gen are here united as one... forgive, love and unite, we will accomplish that and offer our praise to Heaven...

I missed my order, first talking about the praise, a difference from before, the spirituality Workshop academy and all the trainees came together to offer praise and see each other's sincerity, heart and longing and I was leading that some, and I talk about the praise and explain that it is a prayer in song... so even Way Maker, not just because we like it but for the deeper, longing, sincere meaning for the unification of N and S Korea...

so a lot of mothers and fathers shed tears and members received emotion together and could sing together with the daughter on stage...

As a captain, there were some trainees who couldn't show their hearts in Chanyang, but here they could show their heart... and during Chanyang, I was able to offer a letter and because my parents came here, could offer gratitude and repentance and gratitude to parents of the 2nd and 3rd gen and if not for my parents, I wouldn't be here... If they hadn't thrown away their family to walk this will, I wouldn't be able to come here, even my father mentally depressed, he didn't give up and just went on... and want to give my gratitude...

Through this moment, I had seen and felt that the 1, 2 and 3 gen became one.

True Mother: Forgive, love and unite... Through the Inheritors, we could receive this message and I felt that our 3-day Workshop determined to love each trainee... mother offered testimony at the Workshop end... Her husband didn't want to come and even after a day he threatened to go back but stayed to the end... and his daughter here also, he felt his daughter's love and was able to stay and will do volunteer work at church when he goes back...

a graduate of the academy came back during his day off... and thinking every member is his parents and truly hope that just as I received unconditional love from my parents, that they too will have a time of healing and that Heavenly Parent's Love will be connected to my mother and all the parents who came here and I felt a lot of respect to all of our parents who raised their children with unconditional love and every staff really offered with the intent that every member here is our parent... and feel this made grace...

being reborn through true love and practicing the life... and then the parents receive grace and then the trainees as well... when parents see the children with so much devotion... all gen becoming one...

trainees and parents together sending love to True Mother... 8th 3-day, and are you wondering when the next? Dec 18-20th and so it might be a very cold weather...

True Mother's Words... Through this chance the members became united and the whole world became one... True Mother said this when I told True Mother that this was a time to realize parents' desperate heart to find children... and graced because of True Mother's Words and gens came together to realize that Word of True Mother

Hoon Dok Hae

Without separating from Satan, one cannot fulfill one's portion of responsibility. Since God gave human beings R, a person who can advance the position of True Parents, a human being must appear and fulfill

God's Providence and Dream. To you, the fallen descendants, the right to the portion of R still remains entirely, centering on it, when we ask, have you, within the individual dominion of the Principle and result, completed individual perfection, and received God's Love, thereby forming a direct relationship with God as an individual direct dominion, the answer is that you have not.

Indemnity and restoration are necessary in order to separate Satan and without separating, one cannot fulfill the portion of R. The path on which the direct Dominion and the Dominion of the Principle thoughts become connected, that tangent point begins by means of love. Because that becomes connected, the bridge of love that leads them comes into being. Only then does the bridge of love between God and human beings fully emerge. When the portion of R has not been completed, the original bridge of love between human beings and God cannot be laid.

The position of ideal love is accomplished when the portion of R is fulfilled. Father has now surpassed everything. Even when I think about it myself, it is something like a dream. How was it possible to accomplish this? I do not even dream of thinking that I did it. Heaven established the framework both internally and externally, trained and again established the framework. Everything was accomplished...

For that reason, I am a Person Who lives without complaint.

Pres. Lee Gi-seong's Message

Today when we began the internet connection wasn't well, but thank you for staying with us despite that about 40,000 stayed with us...

from Kenya despite the time difference 53 are with us... water and snacks were brought from the Seeks, another religious organization helping us...

Inheritors, after such tiring day, are here with us, and the Cheon Shim Won President... Song Yong-cheon

and short notice that the first day when the trial opening, Yong Sang Shik President and the places in Korea, leaders from overseas came together praying and a message from the original homeland...

'It has been ten weeks since detention and the seasons have changed from Autumn to winter and colder weather but our longing and hearts of Hyo Jeong hotter and sincere and along with the leaders who love peace worldwide and members for the release of True Mother and that Her bail will happen as well, those offering devotion in front of the DC.

Today, the trial opened, so the spirituality academy, the owl team from 1:30 am to 9:30 circled the Tree of Love and in and out of Cheon Shim Won offered calling prayers and for 43,000 times and even now as the trial was going on the trainees offering desperate and sincere prayers all day and Cheon Shim Won vigil devotion as well, as day of sincere prayer and please let this be offered to Heaven to hear good news... Let us put our hearts together...

As we offered 1,445th, members gave testimony, as watching 1,440th sketch video, I once again felt the heated devotion at that time, felt my own devotion also getting hotter, and it feels that we are getting closer to Providence...

testimony... Word came deeply to my heart by the way of Yeon ah nim's report was conveyed and felt the love of it and close with True Mother through her and importance of being one with the Inheritors.

felt something in myself I could not overcome and went to the 3-day and felt H's work and guidance through it... all the prayers filled with filial piety to True Mother and felt more one with it be being moved by it, and thought this is the resonance prayer... and the 2nd and 3rd gen pure waters that True Mother has waited to meet and felt Heavenly Parent and True Parents would be happy as well and waited so long to come back to the Parents and I will do my best through mobilizing the Spirit World.

testimony... I came to Chung Pyung, today has been 20 - 30 years since being here... after 5 years of Blessing, my husband to the Spirit World, and our family life didn't even start, but seemed like she had left the church during that time and came back, but she came back and realized about the ancestor liberation and the spiritual Blessing as well, and her spiritual parents were happy as well. but she had fever and cough right away and they said it wasn't Corona or the flu but when going back to Japan, asked her to have blood tests, so she felt frustrated and had determined this life, and she prayed and was able to make the determination to never give up this path...

When coming back to the True Children, received the special ansu and vigil prayer and overwhelmed by the energy and power and then the CheonBo Chanyang and Blessing of the Spirit World and PW, and she had a hard time following up, and then afternoon, Cheonshim time and then up to the holy ground and wondering why I was so tired, but realized I was holding my husband's sweater and other jacket in my backpack and felt that he was with me and then met a church member from church years before and greeted and exchanged numbers as well and grateful to see how Heavenly Parent and True Parents provided everything for me in this Workshop...

Spirits as well came to the True Children once and then just passed away. Our spirituality trainee said he was like a 'green frog' - a term in Korea of kids who don't listen to their parents... and military life as well when he was bullied by his upper senior, he didn't bully his lower subordinates... and he came to Cheon Shim Won in the end and testified that during the Hoon Dok Hae time, it wasn't very heartistic and after that program, if I stay the same, I won't change otherwise, and he started to believe in the Spirit World and really found the answer that this Cheon Shim Won is truly Father's Office and determination to receive 120-day Workshop... a lot of moments of realization and born anew from True Parents and I hope for his victory in his life ahead...

And coordinator from the Spirituality Academy had been in public mission in Japan and came to Korea to study and realized her public mission was self-centered, as she progressed... after initial good heart intent... practicing with head, cannot move forward, must practice with heart authentic to you... So, she had the feeling then that she wanted to stay here longer... The trainees after the Workshop have that heart.

... and as North America volunteer, and now two dreams, True Mother's release and True Mother's dream realized and I hope and encourage her...

HJ Report... Her first time on the stage and I believe she was very nervous... applause encouragement... She is very good at singer and no matter how much she shouts her voice does not fade and when she prayed, she prayed in Korean and then in Japanese, and her voice never fades.. And in the 3-day, her mom and dad and brother joined, her brother who didn't really have faith and they became a family who restarted anew... They had many hardships, but truly became happy and even came to me and told words of gratitude and we took pictures together as well. So, this 3-day Workshop is precious...

In the closing ceremony 120 members truly became one and even before the praise, people were crying as

well. It was actually 126 but 6 people couldn't make it and it was an atmosphere like Mark's upper room... and benediction was in tears from the beginning and experience the Spirit World praying and being with us... If we take that same level and pray for 3 or 4 hours, I believe the works of the Spirit World will be mobilized and with ten and twenty come together and pray for one person suffering, I believe that Heaven and the Spirit World will work through that and restoring one case will bring revival to the entire community and church and that is how we can really revive such atmosphere and True Mother emphasized that through the Special Devotion, it would be so graced... and centrally important..

Also, tomorrow Pastor Mark Burns will join us during the vigil and they requested a time slot to talk and so we did... I was worried that this place be filled tomorrow to really be strength for Pastor Mark Burns as well...

Church close by, please come here... and other Korea pastors are also coming...

At the Gapyeong Station it shouldn't just be the Cheonwon Church but a big crowd... and I saw the reporters took note and had it in the newspaper also and we did it three times for a lot of people to start to come... Let's cover the entire Gapyeong Station with our members..

make that environment and offer our testimony to shock the people... Our pastor came here... 187 people here, if we go to Gapyeong Station as well. Our Tsujong mun Pastor came here and enjoyed the activity and the time... It is where people can also receive grace... When coming in to park my car, I heard the voices of our members, a beautiful moment and time...

We have peace rallies around in Korea everywhere and those are coming out in local newspapers and news as well, so really we are firing up our devotion.

Hoon Dok Hae was that we must separate Satan or we cannot fulfill our R, move from direct dominance from Heaven... As going passed the indirect to the direct and Satan's separating, the bridge of love is established, that is True Parents and Heavenly Parent and True Parents achieved such victory when True Father was 80 in 1990, we read True Father's Words saying, even if I think about it, what I accomplished was like a dream... If we think about True Parents's Life, how could They have done what They did.

I did not even think about that I did it... Heaven suffered more and accomplished... Human 5% and Heaven 95%... When we are very tired and want to give up, we must think Heavenly Parent is in a much more suffering position and still gives us love and Blessing...

How was it possible to accomplish all of this. I do not even think about I did it. Heaven established the framework internally and externally... It is the 95% environment that Heaven has prepared to realize H's Providence and we need to believe that...

In Jesus' time, God prepared the 95% and if human's portion fulfilled, all would have been accomplished... the 95% coming together, and it is the same as well. If we fulfill, then all accomplished, but if not all that Heaven prepared can pass away... not just this moment of government officials that are here, but the foundation of 5 thousand years that Heaven prepared...

So, the Epic, how much would the spiritual ancestors would have toward us... We need to accomplish, go over this aspect with strong believe and then something like a dream come true can happen... and ourselves throughout our R and belief as well... With Cheon Shim Won prayer, something like a dream actually happens and let us bear this fruits and shared to the world, so that our dream of accomplishing H Korea, Japan, American... Heaven has prepared the framework already and this is our portion, but it is satanic ilk still preventing us and we must separate to fulfill...

The realization... specifically know what my portion of R is, what can I do? and centered on the Love of Heaven's Direct Dominion, if we know that love, understand and experience that love, and center with it and keep walking in it... we are such people where we are inside a deep realm of love of Heavenly Parent that the world does not know and must establish Heaven's nation, H's people and world...

Just like in the testimony when she went to North America, she had her shortcomings, but her sisters became family and one praying together and with that family heart, if my son went out and left us, but if the church members come together and pray for that son, Heaven can work... If a ghost entered but members came together to pray for them, how grateful would the parents be?

And that is how Chung Pyung is as well... and how the Chung Pyung level has gone up... So, for all BF members as one chosen people united with Heavenly Parent and True Parents, if we go through that, the day of our dream would be accomplished, that day would come closer. During Jesus' trial as well, the wife had a dream and told her husband not to judge Jesus and I'm saying this so we will pray as well so that the Spirit World will move.

Every time in history when there was a crisis, that is where Heaven worked the most, in Korea history as well, when Korea was in danger, Heaven helped them, and in the Korean anthem, it says, 'Heaven saved us'

True Mother no matter who She meets, She confidently talks about Herself as the OBD, She talks about the Providence, and wherever we go, we need to talk about the Will, and only Heaven's spiritual work will be realized, not satanic works, we need to offer devotion, so that Heaven's work may be shown through us...

I believe it will be a Blessing to this country... True Mother's hardship is very expensive... but through it, let us make it this day where this country and world can be forgiven and where we offer such devotion...

failure to hold onto True Mother's Words as if they were life itself, laziness, other priorities, failure to have gratitude, instead complaint and dissatisfaction... Please take our lives... but please protect the Holy Physical Body of True Mother not to suffer it... May the unjust accusations and misunderstandings of Holy Mother Han be lifted as soon as possible, the truth swiftly be released and Holy Mother Han's accomplishments shine forth like the light of the sun... Let our devotions move Heaven... Please work through us...

Now that the full trial has begun, and let the judges have wisdom and right judgment that True Mother is liberated and released... May the doors of the DC open and the day come that She is free and returning in Glory... Please work through us... Heavenly Parent, please work that True Mother may return home at the earliest moment... Until the day this life is exhausted and this breath ceases, I will be completely one with the True Father and the Inheritors and the Will until it is fulfilled fighting with life and death, total investment and absolute practice, so Heavenly Parent, please work through us...
