#### True Mother's Status

Brothers and sisters, hello. I hope all of you are very healthy, and that is what True Mother wants.

Today was very cold. So, as we were going to meet True Mother, the wind was coming toward us was sunlight, that path we were walking going into the DC,...when there's sunlight, it looks beautiful, but because of the coldness, with the wind that came, the DC, the place felt very cold and very distant.

I'm pretty sure many of you are thinking about how True Mother will be in this cold weather. And I thought about True Mother today a lot as well. At this moment, it is night and the temperature will drop. And in a similar environment, there are members who are with True Mother in the front of the DC, and I am grateful that they offer prayer and devotion. And I hope all of them stay healthy, and I'm sure that H's grace and blessing will be bestowed upon you.

Today, we were able to go into the meeting room to meet True Mother before She came in, and the

announcement was not made for us to begin, so True Mother waited until it came. And as She came in on a wheelchair, in a way She sits... because She's in a wheelchair, in a way, we're looking down on True Mother. And I could feel that True Mother, She has become shallow. And I felt like, although She became very shallow, Her Face was as if She Herself is a vast ocean where nothing could really change Her calm ocean-like Face.

So, although M is in a difficult place, our True Mother Who has the biggest Heart of anyone else, She was very calm and She looked very peaceful.

So, as the announcement came that we could start our meeting and True Mother asked us who came. And Shin chul nim reported who came. And True Mother said, 'Okay, yes.' And Shin Yeul, daughter of Moon Yeon nim, wanted to meet True Mother, even if a little short time. Usually when people meet True Mother, instead of giving strength, they receive strength from True Mother.

So, actually True Mother asked if Shin-Yeok and Shin Yeol were there. And She greeted Shin-Yeok saying, 'Shin-Yeok, it's been a while.' So, after receiving the Blessing in April, around June, Shin-Yeok went to America, and she quickly came back to Korea because of the situation we're facing. And if She doesn't come out now, she won't be able to meet True Mother until next year April. And she might stay there in America.

So, she came out from America to stay here for a while and Shin-Yeok said,

'Wang Omma, I miss You. I love You.' And True Mother said, 'Yes. Study well.' And after that, through Shin chul nim we shared who came and True Mother said, 'Oh, this... has come.' and made a 'Welcome. Nice to see you.' expression. So, True Mother greeted them. And this is what True Mother said to the public leader. 'This people, you must educate that this people of this nation are the people chosen by Heaven. Being chosen people means that they have R. They have R to attend Heaven. They should not repeat the history just like the people of Israel.'

These are the words of True Mother, 'This people must know that they are the chosen people Blessed by Heaven. If they are the chosen people, they must attend Heaven. They must fulfill their R. I will always pray for this people, this nation to become the chosen people who fulfill their R.' These are the words of True Mother.

No matter where True Mother is, She always thinks about how She can attend Heavenly Parent, and this chosen people, this nation of Korea, the chosen Blessed families, True Mother always thinks about how all of us can fulfill our R. And She is offering prayer and devotion almost all the time, while She's in the DC.

And one of the public leaders, public official who came with us said, 'Elder members are saying that You're enduring so well, and they said they are very grateful.' So, then Shin yah asked True Mother, 'I want to sing for True Mother. Is it okay?' And True Mother said, 'Did you compose a song?' So, True Mother asked Shin yeol. So, usually, among the songs that True Mother likes to listen to, we actually prepare songs that we haven't sang to Her. But what Shin yeol replied to True Mother was, 'Oh, I can sing

a song that I composed.'

So, True Mother said, 'We don't have much time, so why don't you sing quickly. So, Shin yeol, as she thought about True Mother, she composed a song. I believe it's called 'Daffodil'. So True Mother listened to the song. And upon hearing the song, True Mother said, 'Oh, you got better with your singing.' And I told Her that Shin yeol has been working diligently and she'll be preparing for a contest next year. And True Mother said, 'Oh I can see how much effort you have put.'

And then True Mother said to Shin yeol, 'Shin yeol, you remember the Christmas tree. I hope you can make a Christmas tree just like the last time.' And She also said, 'Why don't you sing one more song, a Cheon Jeong Gung song. So, 'there's a song in regard to Il Seong Jeong. So, I believe True Mother really listened well to the lyrics and I would like to share the lyrics with you.'

As you all know, the daffodil is one of the favorite flowers of True Mother. And I believe Shin yeol wrote this song thinking about True Mother.

lyrics: With a dry heart,... you have sown this hopeful seed within my heart. Exchanging with my tears of receiving the grace, I will repent. All the young dreams, let us plant deep into the cold ground and sprout as a hope. Just like the dawn breaks the darkness will come and just like a beautiful flower on the field, I will love forever.'

So, True Mother closed Her eyes and listened to the song. The tempo of the song wasn't actually very fast. So, this Il Seong Jeong, this song is a song about how much True Mother loves and wants to embrace people around the world. And whenever we sing this song, the lyric sounds like it is a drawing of what Cheon Jeong Gung looks like, where True Mother was staying... And this song lyric is how it's made.

So, let me share the first lyric. We only sang the first verse. I'm pretty sure some of you may know it. 'In front of the Garden of Cheon Jeong Gung, there is a very beautiful pine tree. Throughout four seasons, it's always green. Your name is Il Seong Jeong. Oh, I love you, Il Seong Jeong. You are the hope of Cheon Il Guk. This is the dream of the brothers and sisters who love you. You will be forever the pine tree of Cheon Il Guk.'

As you all know when you listen to the song, just like how True Mother loves brothers and sisters and children around the world, in this song, not only Her Love but also this Il Jeong Seong lyric is written for our future generations to go out to become proud children of True Mother and I believe that True Mother tried to make us proud children of Hers through this lyric.

So, even in difficult moments, I can feel True Mother's Heart Who really wants us to become Her proud children. After listening to this song, as She was listening to the lyric She was holding (the chair)...She

was listening very intently. And one of the official leaders shared a story about a KCLC pastor. So, there are more of the pastors of KCLC testifying about, instead of KCLC calling True Mother as Dr. Hak Ja Han, he started calling True Mother as Mother. And upon hearing this testimony, True Mother said, 'That's how he should become a child in front of Heaven. And all the religious leaders should be like that. Christian, Catholic, Buddhist, Islam. All the religions must become true children attending Heaven.'

In a way, True Mother conveyed a hope, a desire, a dream that Heavenly Parent has been longing to achieve. And afterward, True Mother said the following, 'During this time of the completion of the Providence, everyone should be practice.' And I understood this part as 'every religion must fulfill their R'. So, you who know the truth of Heaven, you should educate. I am old, and I have a lot of physical issues, but I am the Person Who has been sending and conveying the Message of Heaven.

So, those who know should stand up and speak. We have been... I have been spreading True Love through My Words, and let us move forward with great strength. So, when we had one minute left, True Mother said, 'Shin chul can you sing 'Sarang hae' all together? So we only had one minute. And if we sang very slowly, we would not be able to sing even the first verse. So, our song was cut off at the 'Ye, ye, ye' part.

So, we sang the song and tried to fill up the entire room, including True Mother's room with our voice. So, we sang the entire 'Sarang hae' until True Mother left the room. So, as True Mother went out of the room, She kept on waving until we could not see Her.

So, nowadays, the media when they are portraying everything, it feels so cold. And I don't know how much media reports' coverage have what's true. But, whatever trials and storm we face, we know what path to walk. We know the destination. We know the reason why we began this path, and all we can do right now is to follow the path that we learned from True Mother, which is the true love of Heavenly Parent. We have learned that standard, right?

And as we received love from Heavenly Parent's, we were able to fully experience Heavenly Parent's love. Just like that, the path that we are walking is ultimately the path of true love. And for our True Parents to embrace everyone with true love, let us learn first, as children to fulfill our R. That's what I hope. Just like Il Seong Jeong, that all of you become the hope of the future, which is True Mother's Hope that I hope you fulfill.

Truly nowadays, there are many pastors and religious leaders who are visiting Korea to visit True Mother, and I feel like they are uniting our hearts. That's what I felt from all those religious leaders. So, they set down all their own schedule. They visited Korea just to meet True Mother, just to support True Mother. And I believe that there is something that Heaven really wants to give us.

And I'm pretty sure that all of you know that, ultimately, we who live with True Parents, live with True Mother, we who breathe with True Parents, we should stand up. We should do something. And we should ignite the fire of love so that this entire Korea will understand what Heavenly Parent's desire. And in moving toward a peaceful world, Heavenly Parent and True Parents truly want this nation to be one that fulfills their R.

And there are a lot of things that we must do. So, let us all move forward just as True Parents want us to do. And I hope that we stick together as one to move forward to spread this news.

video of a peace youth prayer gathering...

So, today at this place, Mother's Truth, Dr. Hak Ja Han's truth and Mother's love, I would like to share how that truth and love changed my life.

'Before meeting Dr. Hak Ja Han, at first glance, I looked like not even a happy person. Even when hanging out with friends all day long, always in one part of my heart, I felt emptiness. Then one day, by my side, I watched over someone, and I found Dr. Hak Ja Han's gaze, who's been watching over me all this time. I finally realized Dr. Hak Ja Han's Life, embracing the world, embracing first the wounded ones. She approached the lonely people first.

Dr. Hak Ja Han, Her love was not flashy. However, the earnestness to save me, trying to embrace me, that truthfulness, that love, allowed me to rise up again in my life, and She allowed me to find the reason for me to live.

'Happiness is not for me to live well at this time. These thoughts are the normal thoughts rampant in the secular world, in this desolate world. To such world, Dr. Hak Ja Han said that love is giving first. She allowed us, allowed me to realize that the essence in this world became the light and hope.

'Today many distortions and lies are covering the truth. The Unification Church of family embrace, they're trying to erase us in real time. I see them and I'm listening to them well. some people only look at fragmented, distorted facts, and they are saying that we are pitiful, we are 'frogs in a well'... and they worry and concern about this youth here. Did I get hurt from this? No. I am confident. And the reason is only one.

How Mother walked this lonely path, and for lonely people, how She shed tears and embraced us, I saw with my own eyes.

'We chose our path, not because of our parents' faith, but because of our faith. In New York, in Japan, in Pakistan, in Nigeria, youth from all around the world are rising and crying out. Citizens of Gapyeong County, do not close your eyes with false news. Please stand on the side of truth so that Heaven does not abandon this country.

Our Mother of Peace Who is unjustly imprisoned, for our Dr. Hak Ja Han's release, please cry out together with us.

gratitude

tears... I am eldest daughter of one son and one daughter siblings... I grew up with strict parents and followed after them, but seeing them treat my younger sibling more gently than they treated me, I constantly compared myself with my sibling. Gradually I began to show my parents only the ideal version of myself and stopped sharing my true feelings. Because of this, I found it difficult to form relationships outside the church as well.

I felt lonely no matter who I was with, and I always lived worrying about how others might think of me. As this continued, I became so lethargic that even breathing at times felt suffocating. My life began to change little by little, after I came to know True Mother's love, after the 243rd general 40-days Workshop earlier this year.

At first, throughout the Workshop, feelings of alienation and loneliness followed me. I hated my parents, thinking that all my loneliness came from hating myself and my parents, but thinking again that I did not want to hate my parents. I wanted to love them. And after offering sincere prayer and devotion every day at Cheon Shim Won, I gradually came to love me, myself and my parents that I'd been unable to love.

I was freed from the deep depression and loneliness that had covered me.... realized that all the difficulties were Heavenly Parent guiding me to resolve problems and live more happily.

After the Workshop, wanted to invest love in others that I had received, but I saw so many shortcomings in myself. So, I joined the 60th Spirituality Workshop to understand True Mother's Heart. But on the 3rd day something blocked me completely and wrote a HJ offering papers and felt True Mother's Heart. I had been longing for someone who could listen to my story, and the loneliness came from that place. And thinking of True Mother's loneliness after True Father's Seonghwa with no one to share Her Heart with. And True Mother would speak to the moon, to speak to Father. 'I'm the only One left.'

If all the torment days was to understand even a small part of Mother's Heart, what would be better than that... I decided I wanted to give a speech at the rally and proclaim Mother to be The Mother of Peace, serving and sacrificing... But with my insufficient knowledge...

Handing out the pamphlets and chocolate treats, I realized it was not to give pamphlets but to give love... Some encouraged us, 'It's cold, and you're working hard'... and I realized that this came because we first gave love and those seeds were planted and I came to have hope that everyone would come to know our truth and sincerity, and I walked around to the very end, sharing heart with people...

Until now I had not found a reason to live, and it was okay to die, but also afraid of dying and lived so I would not die. But feeling Mother's Love and organizing my inner process... but I realized the gifts from Heavenly Parent to realize my growth, and realizing that being born under True Parents and attending them is the reason I was born, and I came to know the Mother's Love.. practice what True Parents want at this moment and bring Them Joy...

I would learn about Heavenly Parent and True Parents and experience love and give what is given to us and bring back even one child more back to the embrace of True Mother...

## HJ Report

so sorry for True Mother's difficult Course... At the court, we know what True Mother said in the court, and I felt that True Mother is proving She is True Mother and no matter what happens She keeps the absolute standard and it never wavers... able to confirm that...

So, this vision of Heaven is a standard that cannot be shaken or compromised and we cannot give up... True Mother absolutely understands and has this, and I've seen it many times...

Centering on the Vision of Heaven, our True Mother is walking this course and She will absolutely be victorious and show why it is absolute, eternal and unchanging and can be applied to everyone, and that is why the judge and the media and their ancestors and children must follow this vision of Heaven and we should also live a life of faith centering on this...

living to guide people to Heaven, including the judge and the prosecutors, and this is truly moving. And the religious and scholastic realm, the essence of True Mother and the ideal world She envisions and all of that is included in HMH, and many know about Her and She should be known as HMH and we should have been the one told to all...

about being in Democratic and just trial, and She said She is not the kind of Person the special prosecutor is describing... That She can boldly proclaim these words and that should have been attacked, and I wonder what the prosecutor thought upon hearing this? So, what True Mother is trying to convey is that She is not just speaking the idealistic thought but everything is made and inviting people to come and see it substantially...

Our members who are living here, their lives and our members lives, would they be something we can show to others. We don't want just the external aspect of buildings but True Mother wants to show the families, and are we adequate to show.

The media has revealed everything and She has no intention to run away, and the religious groups are talking about how their government is taking away the freedom of religion.. I'm sure all around are disappointed about the Pres. Lee Jae Myung is saying about our church, making it the first target. But all the religious leaders are watching this...

a part about the Constitution of Korea and there are two parts, Article 20 and 11... Article 20 'All citizens shall enjoy freedom of religion, and 2nd no state religion shall be recognized and religion and politics shall be separated...

There are many different understandings of this part and Pres. Lee Jae Myung was saying religions should not intervene with politics, but many believe the opposite. And even the American and Korean Supreme Court are talking about that politics should not intervene in religion... Article Clause 2 is the separation of church and state, and should not interfere with each other and reason is for politics to protect religion. All are equal before the law and not to discriminate on the basis of sex or status or because one religion is different than others, or has a religion problem... They are working oppositely..

I'm sure this will be very controversial, but I believe we should go into the unchanging essence of God, not something a religious leader can say and change... just like our True Mother, so the standard is absolute and very well expressed in the Vision of Heaven and this is eternal and absolute standard... So, this vision of Heaven cannot be compromised, exceeded, abandoned or damaged. This is the vision of Heaven and our Mother has the absolute standard no matter anything else working to bring True Mother down to their ground. True Mother will never change Her Essence...

So, on July 13 and 14 in 2018, True Mother, we study how True Mother answered all the lawyers and True Mother is truly amazing and they were going back and forth trying to confuse and distort, but True Mother always found the essence of what the lawyer was saying and the lawyer was very frustrated in 33 hours of prosecution.

Now True Mother is in 80's and not well physically but She can communicate directly with Heavenly Parent, so that True Mother could answer very wisely and the judges and prosecutors are frustrated not to cooperate with what they wanted to do.

So, this vision of Heaven is what True Mother absolutely has. Actually, why did members enter. Just like you, I saw the vision. Why? It cannot be exchanged, the reason for faith and why we need CP and need to separate evil spirits and centering on Cheon Shim Won Heaven is working... and all of that has the Vision Center... Foundation of Faith and Substance, is all here in the Vision of Heaven and Principle of Creation, is the Vision created...

However the Fall is how this Vision was damaged and not carried out fully, what we call Fall. Because God is Heavenly Parent of true love, God Heavenly Parent cannot give up on the children. And finally, the Providence has come to the final last day, as Yeon ah nim mentioned, Heavenly Parent can come down and govern substantially and as that governance piles up and this Golden Age building of Heaven can be accomplished..

First completion of Providence and second create the model of Heaven... and Mother personally hangs onto these two things. She must complete this GA and show it and pain beyond the physical pain is for that...

Since April 13th, if True Mother can stay with us another 30 more years, eventually that GA will be completed and when True Mother sent to the SW, with that model the Inheritors and future gen will follow it in front of us. But because it was not fulfilled in beginning and even up to Jesus time, that model still must come out, and it is what no other religion has...

We call out Oeg Monsei and striving for Cheon Il Guk and our True Parents, the Ideal people of this world, we are trying to become one like Them and if we look specifically 3 Great Blessings is the framework. There's no one who lives this except True Parents, so loving people and loving nation is closely tied with it and teaching 3 Great Subjects and we try to practice this and no other religion can share and practice as we have...

True Heart, Love, Words, Love and Life and Lineage... and trying throughout the world, true freedom, peace, unity and joy... Do the judge and prosecutors know about this? No. We talk and strive and show throughout the community... But True Mother is showing this at the imprisonment, and we are living and try to live in the attitude of absolute, unchanging, eternal an universal and we have been moved by this to keep our faith... also co-existence co-prosperity and righteousness... amazing words that True Parents found and we have the greatest scale of inter-national, racial and cultural...

True Mother is not interested in the politics of Korea. Why is the prosecutors trying to fit True Mother into their framework, but True Mother is totally different... And these 12 Contents, you cannot find anywhere especially with the standard True Mother set... And this didn't exist before. We are living in the final last days... and we face the very unnecessary thing that happened: Imprisonment of True Mother...

True Mother saw all the framework of God, but judges and media and prosecutors don't understand... The Bible talks about the Ideal world in Genesis 1 and 2 and 3 the fall and 21 and 22 Chapter the conclusion of the entire Bible in Revelation and Jesus said He would come back 3 times, as True Mother repeats... Chapter 22 mentions 3 times returning to become True Parents and go through the Marriage Supper of the Lamb... Chapter 22 connects to our True Parents Life Course and fulfills the entire Bible... 3 Great Blessing is beginning... because not finished in the Alpha, must be finished in the Omega and why True Parents come...

Although the OB Son and Daughter, Adam and Eve couldn't become True Parents and Heavenly Parent sent Jesus, but He could not become True Parents. He could not fulfill that because of failures of the people.. (and the environment was stripped away for the OBD to be Born at that time)

And through True Parents the Ideal could finally be finished and completed and manifested. And that is why Korea is the chosen people of responsibility (to Providence) and is a tremendous nation (prepared nation). The human True Parents being One Body, One Mind, One Harmony is very important during this era when Heavenly Parent is directly governing... Even though True Mother made all the victory, why suddenly does She have to walk the path of the cross. I searched and organized what is happening in the media, beginning July 18 when we had the great hope... The problem started to arise but 2 months later September 18, there was the search and seizure, then arrest warrant and Sept 23 warrant issued and True Mother captured...

On Oct. 10 the court indictment put True Mother under detention and many members shed tears then, but Nov 4th and 7th She came out briefly and we were hoping She would be released but release denied, which broke our hearts, and Dec. 1st, the court case was opened for the official trial and True Mother proclaimed the Heavenly Words.

So, this should be concluded as soon as possible because prolongation is too difficult for True Mother's Body, and we must offer prayer and devotion and never forget that this course should not have existed, but because we could not fulfill our responsibility, True Mother walking this path... And Yeon ah nim said, this shows how history repeated about our 5% and we must offer prayer and devotion to fulfill it...

And Cheon Shim Won is the greatest model... The cross is suffering, indemnity and third is victory. Through this the Providence can greatly turn around...

On this foundation the substantial governance will become faster and then the GA take its course to be completed eventually realizing the Heaven realm on earth...

This is the second path True Mother had to take to fulfill Her Dream and She is telling us to live for the dream of Heaven... She boldly proclaimed with great strength even after 80, and that is why Her Truth will be revealed...

And looking at the second part, True Mother has absolute Purpose for the Heaven realm come and She is trying everything and She cannot stop and rest, and where can we find the reason for this... Where's the proof that you have worked for this, photos, memories, journals, research papers, undeniable data to show proof of 50 years of miraculous accomplishments...enduring the crucifixions torture... to fulfill God's Dream... devotion prayer, rallies, work, indemnity all His Life

And True Mother on the Tenth Year Anniversary was able to say the Victory of Practice and Action. Settlement and Completion unto Heaven. And True Father's Autobiography is how He has lived for the peace of the world. And we hope for the judge and the prosecutor to know about these contents, and True Mother has had the absolute standard for Heaven's Providence.

And to establish Father's Position, and in order to create Father's Position, She put everything into it. She as the OBD...to support True Father's accomplishments, suffering without revealing it to others... and together with birthing 14 children at the risk of Her Life.

True Mother did more than before after True Father ascended 220 things together and then True Mother did 160 things all by Herself and everything required money and management and Mother did all this. Why aren't they mentioning about these accomplishments... and True Mother saying to come to Gapyeong...

She is saying that She has done what you could not do and what She has done was to take care of things for the world... So, She has accomplished 380 things difficult to accomplish... with the motive for everyone to receive Heavenly Parent's Love and go to Heaven and all know Her as Holy Mother Han.. and how deep Her Words are..

The path of the cross of Jesus is what He should not have walked. But by problems with the family and faith and leaders of Israel, He went that way (not of the first Will of God)... At the court all the mockery and contempt and torture Jesus endured, but Peter denied Jesus saying 3 times, he doesn't know Jesus and I believe Jesus felt greater pain in a position not to be able to do anything... facing that Providential pain more than the physical pain.

True Father talks about Danbury as the path of the cross in the 21st Century that He should not have to walk but because of the tax filing mistake but all was in there as the persecution. Even Father put so much more than the 5,000 dollars into Blessing America, so much more than what was brought up as a tax issue... more suffering was by false understanding and media attack and the global mission of Providence that He could not have freedom to move on with...

Our leaders made mistakes and didn't believe an many of our members believe we have our own portion of faults and not only True Mother's Physical but the Providential suffering... physical, psychological and providential...and indemnity that needs to be paid and then victory follows... God wanted to use the crucifixion of Jesus as the indemnity and because of that Christianity is one of the main religions and allowed Christians to revive their spirituality...

True Father's Course did not end with the suffering, but He has paid into this America being one and Christianity returning to True Parents Embrace. And True Parents could meet Kim Il Sung and Gorbachev and have all the ceremonies up to Sanctum Entrance.

Firstly was the faults, mistakes and deviations of the leaders, but also as the OBD, She had to pay indemnity to make Her Value absolute in front of everyone and for the GA victory of Providence.

The Truth and Vision must be revealed and this path must be victorious and many more people understanding True Mother Value and our vision of Heaven, sustainable, secured and healthy community made after this course and foundation to establish and complete Heaven and stronger understanding about H unified Korea and world.

Within Her trial course, 6,000 years of history is embedded as well as victory of this last day... that symbol...
