Bow and Pledge #7

Opening Prayer of Gratitude

In the sight of Providence, True Father's Office, True Mother's Room, the devoted HQ of Cheon Shim Won, your beloved children, beloved Heavenly Parent and True Parents of HEH, the beloved Providence, the path of indemnity... this path True Father said cannot be taken without BS and T and True Mother saying She will complete it in this age... She goes alone and through determination of tears, but because of our ignorance and arrogance, the True Mother Who should be honored, again walking the path alone and all we have is sorrow and guilt as children.

Now, we stand at the Cheon Shim Won with our heads down to offer devotion. In persecution suffering and blame, despite all this we shall be victorious and written in the Bible, no matter what trial, we know our loyalty will not waver to True Mother and we will get stronger and unite in soul and body and we centering on Cheon Shim Won will become a firm wall of devotion so that evil cannot touch us, the fire that burns it away and filled with H Jeong Seong... and please hear our hearts and be encouraged. Today, like the pure snow and we hope the devotion can take some weight off Your shoulders and give comfort...

Report on Mother's Status

big applause

Members from around the world, good evening, today was very cold, and with the first snow fallen around the DC, our members fighting against the cold, I am truly grateful. The heated love toward True Mother, in my thoughts can even overcome the cold of the North Pole.

Today, with 2 public missionaries and Shin-heung and Shin-chul missionaries, we went visiting True Mother. Today, when we went to the visiting room, True Mother was there before us and was waiting, but unlike before, She wasn't closing Her Eyes when we went into the room, but with a very peaceful Face She was looking forward and was stuck in thought.

As soon as the clock started, She leaned toward the window and with a welcoming heart She said, 'Who came?' And Missionary Shin-heung nim said who came. And True Mother said, 'Yes. Our public missionaries, you must educate about what I've done for this nation and why I did what I did. I made the Sun Hak Peace Prize about current problems right now, about nations getting under the ocean and atmospheric problems. We must save the earth. Flying to space is nice too, but we must work towards an earth where life can be sustained. Save the earth so that life can continue.

Many parts of the world are being deserted, but even a tenth of what we spend on weapons can be used to save this world. That is why we must educate people from every nation. How much work I am doing for the world, you must tell the world.

And the leaders that came today, in Keumnam they had a peace rally about the freedom of religion. It was a very meaningful time, but seeing the Korean members from the church offering their sincere testimony, they were proud and saw that everyone was being revived.

And before that on Nov. 25th at the Peace Forum that was conducted, we talked about the social

responsibility of religion. And one person that spoke up was a journalist, and he said that what the country was doing to religion was wrong. And he stated his case with articulate speech. And everyone was surprised.

And our members for days are offering special devotion and witnessing devotion for True Mother. And True Mother said, 'If this nation wants to be a nation that lives well, then it has to know the Principle of Creation,' saying that, 'This nation has a lot of problems, a lot of natural disasters, wildfires and storms, and it takes over ten years to recover from this. But, if we educate about the Principle of Creation, and we educate people about the environment too.'

And Missionary Shin-chul said, 'Should I tell you about Jeong Ah to encourage you. And True Mother said to continue with that idea. While Shin-heung nim was drinking coffee, Jeong ah was folding paper doing origami, and for the first time in a long time, they spent time together. And they made about twenty hearts. And Shin-heung asked Jeong ah, 'Should we do more?' And Jeong Ah said, 'More, more, more. We must make more hearts.' And Missionary Shin-heung said, 'What are you going to do with these hearts?' And Jeong sh said, 'What if we offer these hearts to Wang Omma, True Mother?' Then Missionary Jeong ah said, 'I hope this news of Jeong ah can be strength to You.' And True Mother said, 'Yeah, it was strength to Me.'

And to the leaders that came today, She said that She was being strengthened through the words of Jeong-ah, or strengthened through seeing her be strengthened. And Shin-yeol with the voice of an angel, said, 'True Mother, shall I sing You a song?' And True Mother said, 'When are you leaving?' And Shin-yeol nim said, 'I'm leaving on Sunday.' So, True Mother wants Shin-yeol to stay a little longer, but She also wants her to go out to the world and fulfill her responsibility.

So, I believe that the words that True Mother gave to Shin-yeol were not just for her but for all of us. Not staying here and wasting time, but go out and do what you need to do. And Shin-yeol and that heart, isn't that the Heart of Heavenly Parent? Time passes fast in life, the time that we are given on this earth is limited. And there's so much work that we have to do for the Providence and for HPs. Our True Parents live every day thinking about this, to educate, witness and testify to and spread the news of True Parents, liberate others, save the earth, the things we have to do. Those were True Mother's loving Heart and desperate Heart for us.

With about a minute left, Shin-yeol nim sang 'Ilseongjong' to True Mother, and True Mother sincerely listened to it and was happy. Afterward, we had about 4 seconds. And Missionary Shin-heung said, 'True Mother, our members will set ablaze and we will try our best. And True Mother said, 'Yes. laughingly and smilingly, waving Her Hands, and left the room.'

Beloved members, today rather than my words, I want to read the reflections of the missionaries that came today. While visiting True Mother today, I felt something shake within me. As I entered the visiting room, True Mother was already waiting for us. And when we said, 'Hello', She received that with a welcoming Heart. And when She asked who came, She looked at each and every one of the five guests with a sharp Eye. Through that we were able to really feel True Mother's Heart.

Today we have the True Family and true public missionaries. So True Mother emphasized the importance of education, emphasizing the Epic history of the chosen Han people of Korea, and also to educate about True Parents's Life Course. In Her Words, there was clear direction, and the reason She made the Sun Hak Peace Prize, She reminded us again.

Through climate change, the earth is slowly being destroyed. And we need to do something. We must

educate people in order to stop the suffering and problems. And giving encouragement to future generations, we were able to feel Her Warm Heart.

And we also had a little small talk about Jeong ah. And hearing this True Mother said, 'I'm strengthened through the news of Jeong ah.' And She smiled. And through that warm smile, I was able to feel what gives True Mother strength. And Shin-yeol nim, when she sang Ilseongjong to True Mother, I was able to see True Mother smile and be strengthened.

I felt like the entire visiting room was a little warmer. And when the time was coming to an end, we made little hearts with our hands to send Her Love, and True Mother accepted that warmly. When leaving the room, She kept waving, trying to see us out. And that stayed with my heart.

Even though She's in a limited environment at the DC, True Mother always is warm and caring. With a sharp eye, not missing anything and a peaceful heart that radiates, and that strong and warm internal heart was able to reach us. And a passion completely to accomplish Heavenly Parent's Will was still strong. And I was able to see that and feel it.

Like the cold wind of winter, a strong wind is blowing at the Unification Church, but seeing True Mother stand boldly without wavering, I was actually grateful. And after visiting, on the way back, while walking the road I walked yesterday, going back, I kept thinking about what True Mother told me. And what was in my heart, was about the deaconesses from our church that I wanted to share about True Mother. One deaconess, on a Sunday morning before a peace rally, she had a vision of True Mother. And in it she asked True Mother, 'How did You come here?' And True Mother with a warm smile said, 'I can go anywhere.' And another deaconess said that during prayer, True Father came and offered traditional Korean medicine to True Mother.

I felt this heart of gratitude that Heavenly Parent's and True Parents's Work could still be bestowed upon us. That peacefulness and unchanging strength that True Mother showed us, and unchanging Love I engraved within my heart. And I without changing determination will walk forward. This is his determination.

So, our members, through this testimony and reflection, I hope it becomes a cause for you to be closer to True Mother. And in the last vigil devotion report, I shared with you the heart I felt while watching the Autumn leaves fall down. And an American member wrote a song about this, actually. So, she sent me that song. And the song and the lyrics are so beautiful that I want to share it with you. During the song, I will conclude my report. Thank you so much.

'Winter is not the End'

As autumn softly fades, the colors drifting down, the trees release their glory, laying every garment down.

Standing bare beneath the sky, they gather strength unseen, holding life within their roots through winter's quiet dream.

Though the cold winds rise and the nights grow long, hope is building softly where roots stay strong. The greater spring will come. Life will bloom again. What looks asleep, undone will rise again with heaven's

wind.

Holding the promise so close, this winter will not stay. A greater spring will come and bring a brighter day. The season that we face, with our Holy Mother Han kept away feels like a heavy winter, a long and frozen day. Yet even in the cold, where our eyes cannot see, life is stirring quietly preparing to break free.

Winter is not the end, nor the final day. Deep beneath the silence God's creation finds the way. A greater spring will come. Life will bloom again "

(with the heart to try to comfort our members)

Our KCLC and ACLC pastors have prepared 'Every Praise'

Welcoming Remarks

Bishop Charles Duv (?)

I hope you can see that pastors like myself have to be multi-talented. Not only do we preach, we have to sing. I hope you don't mind if I take a moment and take a selfie, because nobody's going to believe this (big applause)

TY...Listen, I have been in meetings all day today. And we have talked about religious freedom. We have talked about our commonalities and our differences. We have talked about politics and religion. We even talked about which pets are more spiritual, dogs or cats. Cats won. We even talked about people who believe in UFO's. So, I'm not here to talk about any of that, but I'd like to begin my time here before you with a question: 'How and why am I here?'

And the answer is simply because God is an amazing God at putting things together. You see, I was born in Louisville, Kentucky, over 11,000 kilometers from where we stand today. Would you agree that that's an amazing distance, but when people need to come together, there is nothing too hard for God. (big applause) You see, I served over 20 years in the US military and traveled to many countries including South Korea, have experienced many cultures, have witnessed and respected many religions.

One thing I've learned over those many years is that no matter our country, no matter our culture, or theological difference or political stance, we are not different (big applause)

Take away our external identity markers and you will find that we are all flesh and bone, and we bleed red, all of us. Therefore, you are my b and s and neighbors. Remember that. Remember that. So how am I here? After retiring from the military, I met a Japanese missionary. A friend. I told you she was a friend so you wouldn't think she was my wife. He, he... In 2012, I met her in Havelock, North Carolina. Her name was Yukio Takata. She's from Nara, Japan. She married a Japanese man from Okayama, Japan named Yasunori san Takata.

They introduced me to their pastors... and wife, Caroline from Whales. They were a Blessed couple. The two of them introduced me to Rev. Alan Sanders. Some of you may know him. He's from Australia. He married a woman from Chicago, an amazing woman named June. And the Sanders and the Takatas introduced me to an African man from Togo. His name was Ashio Akalatse. Would you stand sir? He married a Japanese woman named Hatsumi from Hiroshima. Madam. They now live in Washington DC.

So, with all of that being said, you have to understand that there's nothing too hard for God. Japan is over 15,000 miles from Togo, an amazing distance, but the question remains, how am I here, a little boy from Kentucky. Together the Takatas, and Sanders and Akalote's told me about a young woman who was Born in North Korea, Hak Ja Han.

Now, I had heard stories about these 'Moonies' mostly from the internet. And you know that everything on the internet is 100% true, but I decided I would find out for myself. So my wife, Marion and I flew to WA DC to fellowship with the Acalates, and African and a Japanese in WA DC.

We're two Black people. That wasn't in my notes. (You can tell them. Interpreter says 'That's okay.') And what happened while we were there, we were impressed by what we saw, and we got Blessed. (big applause) We later went to Las Vegas, and yes again, we were impressed. Dr. Hak Ja Han has so many accomplishments. Namely, hundreds of thousands of couples around the world have been Blessed.

Because family is the center of humanity. Yeah (applause) Later we went on to visit Hak Ja Han's road. Right up the road. Simply because She was a strong advocate for peace. We say that for many years, She invited visionaries to Summits. World leaders invited Her to stand before them. She shared Her vision of peace with them and Blessed them.

We personally met Her in 2023. And She continued to work and to pray for the re-unification of Korea. She founded numerous organizations for the sake of peace, organizations like hospitals, schools, universities, churches, businesses, scholarships. So yes, we were impressed... Yeah.

We were impressed that our God could use whomever God chose, and God chose Hak Ja Han. Now, I myself am a devoted Christian. I love God. We have, Dr. Hak Ja Han and I, we have differences of opinion, differences in theological opinion; but we can agree that peace is the key to unity, and we can agree that with God all things are possible.

Again, I said that She's held many titles. Some call Her Mother, True Mother, Dr. Hak Ja Han, Mother of Peace, Holy Mother Han, but today She sits for the 73rd day in a cold cell with a new title. And She's still talking about saving the earth. Her new title is 82-year-old prisoner.

So, again, how am I here? I'm here because God is an amazing God. God doesn't think like we think. God doesn't act like we act. Nothing catches God by surprise. God can cause people from different generations, culture and parts of the world, with different theological positions to come together in the same place at the same time with a common goal.

Why am I here? Because God Who knows all things, has all power in God's Hands, is everywhere at the same time, even in the cell with Dr. Hak Ja Han. (That wasn't in the notes). This God has a thing called Love. And my Bible tells me that I have a responsibility to love my neighbors as I love myself. Remember I said you are my brothers and you are my sisters and you are my neighbors. I am here because I love you. (big applause) I am here because I love Dr. Hak Ja Han.

And my Bible tells me that I should mourn with those who mourn, which means to compassionately stand with and for them, to pray with them, and to pray for them. You see, the world that we live in would have us to focus on our external identity markers. Uh hum. See, I'm American. She's Korean. You may not have noticed this, but I'm Black. She

s Asian. I'm a male, She's female. I'm a Christian, She's Unificationist... or Muslim, or Baptist, or Catholic

or Presbyterian, or Democrat or Republican. It doesn't matter.

You see, the world would give us all of these different reasons to cause us to compare, to judge and even to hate. I'm here because hate has no place in my heart. I believe that love, (applause) I believe that love is the antidote to hate. And one of the main ingredients to love is peace. And peace starts with me. (big applause)

And as I get ready to wrap up. There's a song we use in the church. The words are simple. You can use it if you like. The words go like this, 'My mother prayed for me, had me on her mind, took the time and prayed for me. I'm so glad she prayed

3X for me. Now I can imagine Hak Ja Han Moon coming out of a jail cell, maybe even before the end of this year, before Christmas. And Hak Ja Han being able to sing that song about you.

She might say, 'The Bishop prayed for Me, had me on his mind... ' You could change the beginning of that... Akalotse' prayed for me... KCLC prayed for me... (everybody claps to it) ACLC prayed for me... big applause

My prayer is that you will continue to pray for True Mother, pray for Holy Mother Han, pray for Hak Ja Han because you can rest assured She is praying for you. Kamsahamnida...

--- big applause

HJ Praise

'Way Maker'

HJ Report

Kim Myung Wook

It is a warning that we must accept the existence of the SW and live our daily lives according to the code of ethics. If you realize that God is watching and that tens of thousands of your own ancestors are observing your daily life, who could possibly violate the daily code of ethics? True Parents said and taught us to live our lives well on this earth and then ascend to Heaven.

And while drawing what Heaven would look like, saying when we come through the SW, we must go to Heaven. My father before passing away, asked me, 'Why are you living such a diligent life of faith? If you die, it's over.' So I said to my father, 'Father, after your dying, should I stop using oxygen? Then my father said, 'You must use oxygen.' And I said, 'After you die, should I not offer a traditional ceremony?' And he said, 'You must offer that ceremony.'

So, he went to a Workshop to receive the Blessing for about a week. And one day he was sleeping and someone walked by and slapped him in the face. So, he opened his eyes wide, and from that time on did not sleep in the Workshop. And then my father said, 'There's something here.' And telling my father that the SW truly exists, and it feels like yesterday that I prayed for my father to ascend to Heaven.

So, everyone, when I ask you, 'Do you want to go to Heaven or hell?' everyone tells me they want to go to Heaven. In the early days, True Father/True Parents said that in this CP land, He will make a world-class city, and even when the SW sees it, they will say that this is a lovely Place. And the Words that He said in the 1970s came true today.

First in 1971, it started from the WonSeongJeong, and in 1999 it became the Won Seong Jeong Il Palace, the building that we're in right now at this moment. Then we had in 2025 the building of the Won Cheon Gung and the Entrance Ceremony into the Cheon Won Gung...

And in 2003 True Parents said that the Chung Pyung TC is a base that liberates you from evil spirits, and if you become one with True Parents and make indemnity for sins, you will not need to go to the SW's TC and will enter Heaven directly...

True Parents Words: What have I been doing for 6,000 years, and what has God been doing, what has been God's unwavering desire? It is to find the Mother. God sent Adam, meaning that after retrieving Adam to find that Mother, this is re-creation. True Father said this in 1957... that to protect and complete True Parents, True Mother had risked Her Life and gave Birth to 14 children.

Who can have 14 children. I personally had 4 children, and while having these four children, it was very

difficult. So, those who haven't bore 14 children, I personally think that they don't have the right to judge our True Mother (nor even if they themselves also had 14 children). Walking that path of BS and T while having 14 children and the path of Father alongside Him, our True Mother having many trials and hardships, and saying, 'Do not worry for Me' and we cannot but shed tears and starting offer sincere devotion in front of the DC, while leaders globally become one.

And yesterday it was intensely cold, and started snowing in Korea. And it snowed so much that many roads are being blocked off. Let us offer a great round of applause of devotion for our True Mother.

True Father once said this, 'At the TC you must be training for 6 months, from the 21-day Workshop, to the 40-day to the 120-day Workshop, to become a completely useable person. We will institutionalize it. Everyone must go through the 120-day Workshop.

Seeing our elderly members who have bodily pain, I tell them to come to the CP TC and we will attend them. The air is good, the water is good. In this place where our parents live and breathe, I always tell them to come here.

From Yeosu Grand Church, testimony

HJ Praise

'Purple Lantern'

Pres. Lee Gi-Seong

The Purple Lantern... 2nd time we're hearing it, a Spirituality Workshop theme song, 46,000 gathered,

Message: While the first snow is falling, members are in tents offering devotion at the DC and the wind strong enough to rip the tents but faith and devotion is hotter... Each snowflake falling down felt like it was sending our devotion to Heavenly Parent... Pastor living in Seorok here, said he arrived here and Leader Petchongi... also at the DC and we received a message from him at 11:11 and he is in a traffic jam right now attending online... and I feel the greater the difficulty the greater the devotion...

To be a wealthy country, True Parents emphasized we must educate, witness and spread the message of True Mother across the planet. We will set ourselves, our heart's ablaze...

such a beautify song... and today Bishop Charles Dudley gave us a message, but I seeing the color of his clothes, I thought, 'Did he match it for us?' That holy robe he is wearing is similar to the color of a purple jacket. So, coming such a long way and spreading the message that love is the antidote to hate and giving us such precious words. And for True Mother, he traveled the distance of 11,000 kilometers.

So, through this devotion, I believe that Heavenly Parent will listen to our devotion of 14 religious leaders prayers evermore today. And tomorrow morning they have to go to the airport, so they can't be here. Let us applaud for their safe trip to the airport.
