40-day Workshop

gratitude

This time wished to offer devotion solely for True Mother...Had undergone hip joint surgery and severe joint pain and didn't feel confident to complete the Workshop, but thinking of the Course of True Mother, I want to at least add something...

When I received Blessing True Father said he would grant me a wish and I wanted to be Blessed with a pastor that works hardest for the Will, and my husband was CARP and a District Leader in Soul and after Blessing F sent him to America and I went with our child and continued by his side, and following him across countries and moving more than 20 times, and financially strained, FR with flowers and paintings, and memories when my husband was campaigning in Korea and difficult because his wife was me, Japanese.

Satan tried to break our couple with rumors spread around, many painful experiences, but when we were pastoring in America, amazing realization when True Parents were conducting tours and did whatever people told me and working passively, and then realized I have just been doing tasks not positioning truly as daughter of True Parents... externally working to produce results, attending Mother as a servant and determined to attend as a daughter, but how to do this and what would bring joy to True Parents and prepared the Purple Rose of Shannon together with Japanese members... and she sings it...

When we sing that, True Mother was very pleased, and when I asked True Mother, 'Mother may I give You a message?' and She replied, 'Yes, try it' and through the feeling of Her, I could feel how swollen Her Hands and legs, flying to support True Father through all 50 states at such intense schedule. I thought how to make the Mother/daughter heart, and the moments I felt sorrow with the persecution, I realize how greater was persecution in True Parents Life and my own melted away...

True Mother said to make the member 3x larger and felt deep communication with True Mother and full

of grace, and not far away with mindset that faith is faith and work is work, without genuine gratitude... not True Parents as Living Substantial Parents in Heart, and realized all was given to me to realize this and felt it more at the 40-day...

It moved me how PL offered devotion for 7 years for Cheon Shim Won Providence and the lectures so heartistic and so much to learn and the ansu was so sincere and all meant to help find True Parents as our Parent... No matter how much our lineage is restored after Blessing, need to restore our hearts, and centering on the Inheritors as the 3rd gen and how much devotion they must have been offering.

One day in a prayer vision, I saw myself worrying in anxiety and terror as I saw True Mother crying together with me and True Mother said for you to be a daughter, you had to experience suffering, and she cried with me,... It was to be reborn and understand the Heart of True Parents. My tears did not stop and only when I understood Their Heart could I become daughter...

There was a disaster in one country where the mother died holding her baby and she died but the baby survived, and this is like True Mother... My life has been one of experiencing True Mother's Love.... I am a protagonist in this because Parents Love me and to look back, everything was grace... My children have grown well, and I received a grandchild...If you live for the Purpose, Heaven will take care... grateful to complete 40-day and going forward as a filial daughter and goodness will surely be revealed...

After suffering, many Heavenly blessings are prepared. Filial sons and daughters think of one another and become one... Sincere gratitude to all who guided me here until now...

exhausted from public mission and felt my passion fading... had stepped down and went to NJ but felt a message to go to the Workshop and 'newness is awaiting you'... and went and could shout my prayers freely until losing my voice but heard 'Use your voice for My Will' and when I was shouting the chant, the pain in my throat disappeared...

When we set determinations, Heavenly Parent works... I am no longer afraid of burn out because I now know the power of resonance, becoming one with Heavenly Parent. I will be flowing pure water using all my talents and voice for True Mother and live a life of resonance wherever I am. Heavenly Parent and True Parents TY

unmarried... hurt by things in GPA but God told me to come to this Workshop, and as soon as I arrived, I felt 'Aah this is where I'm supposed to be' Rather than a big, miraculous moment, small changes strengthened my heart, especially the vigil... At first so tiring but when I didn't run away... sitting in the front, more realizations came and my attitude toward the schedule changed greatly... Now, I felt I could always do a little more. Prayer was hardest but also where experiencing greatest breakthroughs... Advice was even if you don't feel anything, keep going... And then I had experience of comfort and love and grace and praise through ancestor liberation... The reason God called me here was to realize faith is not because I have to but wholehearted devotion of sincerity... and to be more desperate and never give up... a precious time in my life...

Cannot see my future yet, but want to continue growing at Cheon Shim Won...

N.A.B.I.

Shin chul nim: I love Japan because the people I know are the people that truly love Heaven and love the world and work hard to realize the dream of one family under God. The Japanese people I speak of are the FF members of Japan.

The people that I walk with are not hostile thieves, they are not criminals, they are people who wish for the peace of the world, who wish to love each and every person on this earth...

Shin heung nim (with a short hair cut looks so different)

Right now across the nation more than 400 2nd gen youth are standing up with courage to confess their faith, to show their faces openly on social media, to take part in public rallies. This is an extremely frightening thing, but if we do not rise and use of voices, we will not have a future and for the sense of the hearts of 2nd gen members, without truth being heard...

There is something for which we would shed tears together, there is youth who would shed tears together for even a single person... Even now, there are those who shed tears and pray for world peace... Many people believe that a peaceful world can truly come, and they sacrifice themselves while sincerely wishing for the happiness of one person standing in front of them.

There are many believers who will not give in to reality that it seems impossible to unite, who still purely believe that people can become one... people that can hold hands as one and build peace together. It is this FF that is the starting point of hope for creating the future of Japan. This is what I want to convey to you.

To raise our voices under the banner of a religious organization that is being pressured under the dissolution order is something that makes our lungs tremble, and our voices shake, but why do we appeal like this? It is because we have a faith we want to be proud of. It's truth that we want to testify to and a future that we want to protect.

A person who has faith is not weak, someone who can continue to love, I came to think that such a person is truly strong. They never lose hope. I also want to love people like my mother does. I want to believe in God.

I consider precious the teaching that every person is family, that even an enemy should be loved. This is not merely a teaching, it is something that our founder, Rev. Sun Myung Moon and Dr. Han Hak Ja and many senior members and our own parents have been practicing all their lives.

The FF formerly the Unification Church, our wish is only one, that Japan may be peaceful, that our daily lives and our families may be protected, that they may live with smiles on their face.

We are simply an organization that hopes for these things. But if a dissolution order is finalized and we are dissolved, then in Japan freedom of religion will disappear.

We have many shortcomings as the world points out, but even so, we do not want to judge each other or only speak about who is right, we still want to love. We want to forgive. We want to become one. Looking at that heart, wanting to become one, that is our desire.

Shin heung nim: I do not wish to fight. I do not wish to hate. I just wish to ask that you not just look at the misinformation that is in the media, and just look at us and listen to our voices. This is what we think and believe, and that you open your hearts in this moment and see us from a new lense, from nothing, starting from nothing, and to build this relationship, starting from nothing to something.

Shin chul nim: Pleas at the very least understand the intention of the path we are walking. Even once, just once understand that this path we walked was not for ourselves, but in search for a world of peace, a peaceful world. If you could understand that, we would be grateful.

'Asia Today' is a daily newspaper that was founded in 2005 and became a general, daily newspaper in October 2007. It has correspondence in 4 major countries: U.S., China, Japan, and Vietnam, and reporters stationed in 30 countries around the world.

It publishes editions in Korean, Chinese and English, with 230 employees. And as of 2022, its annual revenue is 22.6 billion won. This newspaper is in its editorial published March 28, that the Detention of True Mother is unjust.

PL: On the 28th, even the Asia Today newspaper wrote a very important editorial. The title was 'Trial of Religious Leader Should Preferably Be Conducted Without Detention' It said that, not only for ordinary people, but especially for religious leaders it is a principle and desirable practice that investigations and trials proceed without detention.

A religious leader is a figure who represents a particular religion, and detaining such a person can widely be seen as oppressing the religion under the leaders guidance. If the prosecution and judiciary conducts excessive raids or detains a religious leader, it will inevitably give rise to both locally and international to convey that religious freedom is being violated.

Developing this argument throughout the editorial, concludes with the following: President Lee is known to have overcome countless hardships and trials since youth. If the trial of Dr. Hak Ja Han Moon is conducted not under detention but under bail, it will dispel misunderstandings that religious freedom is being violated. And it will also hold great significance in terms of national unity.'

Such editorial was written by Asia Today.

True Mother has often said that living with gratitude each and every day is the most important virtue... not when something of noticeably good standards happens, but to be grateful in life for everything. In order to have such a grateful heart, there is something Mother has shown us, and that is humility.

The reason that those in the DC are astonished by Mother, is precisely because they saw witness of this humility.

Secretary General Pong Song Il's words about humility: Even employees at the DC, seeing Mother's Appearance are truly being moved. That appearance which never changes, that neat, gently appearance, truly holy and dignified, seeing each of these things, they say She is completely different from others.

Already now, even the employees working for the DC are praising Mother. Everyone, when you look at people who are in prison, from beginning to end, they have nothing but complaints and dissatisfaction. Why do I have to be here? What is my sin? Because from beginning to end, they do nothing but complain, there is absolutely no such thing as gratitude there.

Everyone, True Mother is not just a Person there that we see with our eyes. She is a result of 6,000 years of history, the results. Mother is 83 years old. Yet they put an 83-year-old Person into a DC. Everyone, Heaven will absolutely not suffer loss. The fruit of all history, can God look at this with open Eyes?

We are now standing in an important time. Mother proclaimed Cheon Il Guk nation on Foundation Day. She proclaimed on April 18th the opening of Cheonjeong Gung, that from now on Heaven will intervene and Heavenly Parent will govern us.

As we enter Cheon Il Guk, can we enter with blemishes and faults? We must cleanly resolve them in order to enter Cheon Il Guk. We cannot bring the sins we carry now.

Even when we are told to reflect and repent and we don't reflect and repent, then who is left to repent? There is only the Mother. Even the Father often does not. In most households, the Mother represents the repenting. So we can only see it as True Mother entering there to cleanly resolve all of human history on our behalf, standing in a position of the King of Kings and has no choice but to pay indemnity.

The reason that Mother is in the DC is because we did wrong. In the Unification Family, when have we ever been this united worldwide? As soon as Mother went into the DC, our members are crying, wailing and saying, 'We are sorry, we repent, we reflect.' Our members are clenching their fists and hitting their chests and are now repenting.

The path of faith is humility and gratitude. So, the most important and basic thing is that we must be humble. Second, we must be grateful. Even after practicing faith for 40 or 30 years, there are not many who still do not know how to give thanks.

Everyone, people use perfume, right? And the people around them say, 'Wow, this person smells nice.' But that fragrance is fake. Even by not applying perfume, but just by looking at a person's eyes, you should be able to say, 'Wow, this person seems to be giving off a beautiful and attractive fragrance.' What

kind of person is that? A person who can be humble and grateful. That is why humility is the highest virtue in the life of faith. If you are humble, gratitude comes out. Therefore, Heaven will continue to give grace.

But the arrogant people will say, 'Do you know who I am. You fool people. I am from such and such university. You fool.' They believe in their own strength. But a humble person, whose strength do they believe in? They believe in the strength of God. The arrogant person is filled with egoism and individualism, always boasting about what is theirs.

The humble person always refers to Heaven and always testifies to Heaven first, testifies to True Parents first and to our HMM, the Mother of Peace, the Mother of the King of Kings. A humble person testifies to Mother first, sees even small things as great, and even small grace moves them to tears.

This is why, from the roots of humility, gratitude grows and flowers of gratitude bloom. From there the joys and fruits of gratitude are born. But when one asserts only himself and asserts only one's own claims, conflict arises and harmony is broken. And in the end, unhappiness comes to that person.

Therefore, a person of faith must pull out those roots of arrogance. The truly frightening enemy is not the one outside, but the truly frightening things are what might be in our own hearts. As for our faith, people opposing our church, that is not frightening. If they want to persecute us, then let them.

I also attended a Christian church before, and the Christians were criticizing the Unification Church a lot, right? I also criticized a lot. But once I heard the word, selfish desires left my heart. I realized, 'Wow, True Parents, the Returning Lord, came before my eyes. True Mother has appeared.' How joyful it was. I was so overwhelmed.

And Jeongju has over a million people. And I went to the center of the city to a place where I prayed, 'HF, I finally met the returning Messiah. I met True Parents. I have no more lingering regrets, no more hesitation. I will now offer my entire body and mind for True Parents. I will surely win these 1 million people of Quangju and offer them to Heaven. I truly prayed like this. applause

Everyone, if you cannot be grateful, unhappiness will eventually follow you. Gratitude is like sunlight that brightens your soul. True Mother has said that She placed the goal of life in gratitude. That is how precious gratitude is. Everyone, a person who shed tears of gratitude even in the midst of hardship, is truly a great person.

The greatest gift Heaven has given us is not gold or diamonds, but True Parents. Therefore, we must live in gratitude and humility like True Parents... Everyone, please keep such a heart. And as you go out to the fields, and as you continue a life of faith, may your faith always hold onto the most important things, humility and gratitude and unity with True Parents.

And may your days be filled with happiness. I truly pray for this. applause

At the 1,440th Cheon Shim Won devotion, Venerable Daiwoo, the head monk of Baiyangsa Temple, presented a poem for True Mother. A few years ago, we visited Venerable Daiwoo at his temple. There was a reason he was able to unite with the deep, heartistic world of True Mother. It was because at a very young age of 12, he left home entering the Temple, following the destiny to become a monk. And from that time on, even if he longed for and so missed his mother, he had to live a life where he could not see or meet her.

The path he had to take at a young age without knowing why, walking that lonely path, the image of his mother was always lingering in his heart.

Video Of The Monastery

He granted special visitation and proclaimed, True Parents names as truly the Ones that for the sake of humanity and world peace, can be spoken proudly about, without shame in the name of humanity, and in the name of the world. They were honorable leaders and pioneers. I can say this with confidence.

The one who had done the most work for the world is the Maitreya Buddha, and if so, then who should be respected and who should be honored as a proud leader? Maitreya Buddha comes to create a bright world, a righteous world, to create a good world. That is why he appears brightly... a righteous person for the world serves proudly and honorably.

Such a person is a pioneer of that age and should be respected as a Buddha, a revered elder to all humanity and all beings. Tears in some way may be hotter than a furnace. To wash away the impurity of the heart, there is nothing like tears. We shed tears when we are moved, don't we? Tears indeed are the smile and bloom of the soul and are what can burn away the darkness. Even forgotten love can bloom again because tears are its nourishment, I believe.

Mother of Peace, Han Hak Jan, Mother's coming to this earth is humanity's hope, our blessing. Mother who came to give love to a world without love, with heart burned by tears, gathering tears even in dreams. How many years did You have to live like that? Mother Who came to give peace in a world without peace.

A pain You cannot speak to anyone, a sorrow You cannot speak to anyone. How many sleepless nights filled with tears did You have. Mother, who came to give tears to souls without tears. Even if all Heaven and earth were soaked with tears, how could we ever exhaust Mother's Tears.

Mother, if laughter is the blossomed wind of love, Mother's Tears are the smile of the soul. Mother's tears are the flower rain of the spring hillside.

Mother, You are our love. Mother, You are our hope. Mother, You are our happiness. Mother of Peace and Love, Mother of the Universe. Mother, to the point of tears, we are grateful, Mother of Love. We love You. Thank You...

I left home at the age of 13 and entered monastic life, so when people ask, I would say that my parents lost their son. Looking back now, I feel how painful must have been the heart of my mother... I yearned for her and could not meet her and only after she passed away, did I know the meaning of that presence.

After she died, her place of love in my heart was so deeply established, and from that heart I wanted to wash away the karmic faults and shame of this son. And I erected these poems for her.

Mother is the nation of life. Mother is the homeland of peace. Mother is the address of peace and love. Mother who gathers tears even in dreams. I wish to become a child again and only cry. Even if this life dies, it belongs to mother. Mother who could not close her eyes, how could this son with all his karmic sin, even face his mother, even in the afterlife.

Pastor Mark Burns giving a speech at a live rally in 2016 emphasizing how important the Christian spirit is for America... 'Because we elected a man who believes in Jesus Christ.' This same person sat on the stage during Dec. 2nd's vigil

Are you happy to be here?... I'm so happy to be here before all the people around the world. HMH is strong than ever. I was so moved by Her strength, even behind bars, imprisoned unjustly, I still see that She brings joy in the world... She began to encourage me (not me Her) and She looked at me and spoke for 8 minutes and 45 seconds and said to tell the world what they're doing to us... what they're doing to the Mother of Peace...

We're here to tell the whole world, we're not going to get quiet but we're going to get louder... that God bring his mercy down to change the world and bring us united more than ever before...and I believe the change is going to start coming down to the ground...

I believe that what Satan meant for evil, God will turn it around for the good. The M of P told me today, 'Tell the world what they're doing to the M of P' locking and imprisoning world religious leaders like their doing, She said, to my children, tell them, it not Democracy, it's not just against FF, but for all faiths, When they come after one of us, they will eventually come against all of us... So, we must stand together, and know that President Trump is standing with the Mother of Peace... says it again... The U.S. of America is standing with the M of P. I've come to bring a message of peace and unity and joy and you my b and s in Korea are not alone. I want you to pray longer, sing louder, praise more...

If God is with us, who can be against us... Shout Yes to that. Tell the world. Tell everybody... and he sings... Come on say it. Open your heart... Come on, stand to your feet....

With the continuous course of hardships, high mountains and deep valleys, no on with the same desperate Heart as Mine to liberate God... I traveled everywhere to liberate God, unable to even have time to take off my shoes and the persecution for decades was truly severe...
