Before respected Heavenly Parent and True Parents's gratitude

2nd daughter

Would like to use this time as a new beginning and share my reflections with you.

energetic child, straightforward, honest energy and loved doing something for others, but that pure heart became wounded and began to fear people and closing my heart...

was doing my dream of nursing and my parents wish... faced patients in life-threatening situations... extremely demanded, and words of supervisors and colleagues deeply hurt me, and I blamed myself severely and the Blessing I received broke and trapped in deep loneliness.

But when I quit my job, waiting for me was love and warm of my home, that healed my heart and body... and I planned to receive the Blessing again and build a happy family.

Working at a new work place, I met my current spouse and was Blessed again. And forgot painful wounds, but the wounds were not completely healed and God had the impression with me of Someone Who makes people unhappy.

True Parents's also felt somewhat distant and what to believe or not tormented my heart and decided to seek True Mother as my Mother and establish the roots of my faith...

On 2nd day of Workshop, during resonance prayer, I felt my mistakes piercing me and because I was not one with True Mother, I am the one who caused M such suffering now... I hardly wanted to be alive...

The coordinator held my cold, stiff hand and said no matter what emotions arise, we are M's direct children and we need to continue to pray for True Mother, and I felt True Mother embracing me and it arose in me that I want to love True Mother.

Through the daily prayers I realized that TL gives and gives to the point of sacrificing all of oneself as Mother does to comfort the sorrowful God and save humanity.

Through the life principle lecture and practice, I wanted to see people through Heavenly Parent's Eyes, and a deep desire grew to want to have the heart of the Heaven Parent, a parents' heart...

During the holy ground prayer, when I saw someone place their hand on the Tree of Blessing, with the heart of that trainee, I naturally desired to love them as well, and the joy of my childhood to live for others reappeared.

Through this Workshop, the Word began to reach into my original mind, and I experience how alive God is and working in me, pioneering my heart to be more like True Mother. Just as True Mother has said truth will surely be revealed and I believe that ever step of devotion we take will surely reach Heaven.

From Jan next year, I will return to nursing, but want to embody the love and sacrifice that Mother walks and testify to everyone I meet by my life and together come together to create the path with Heavenly Parent and True Parents's and centering on this practicing true love.

Grateful to spouse and parent and Heavenly Parent and True Parents for reviving my life here at Cheon Shim Won. TY for listening.

Special Lecture

For True Mother to be released soon as possible, and offering devotion, gratitude to you...

PL said to give this lecture, 2nd Advent of Messiah True Father. On the foundation of 5 lectures, able to do this lecture...

Instead of think I already know this, I hope you can look at this like, 'How would I send this content to people of the world?' for it to be meaningful...

They do not come among Jewish people, who must pay the indemnity for sending Jesus to the cross.
OBD and 2nd-Coming Messiah

Rev. 22, Lamb comes to the Eastern nation that inherited 2,000 years mission of Christianity. China has persecuted and banned Christianity and Japan 4% or 1% in entire population. In Korea, of the 50 churches in the world 25 are in Korea and they have SS was not enough so have Wednesday and Friday and every day early in the morning, they have prayer gathering and also their own prayer center to gather to offer 40-day fasting devotion...

So, many prophets said the Returning Messiah will come to Korea and it will save humanity... and Cindy Jacobs said, 'I will pour the oil to Korea and use Korea' and the Person and nation to receive the oil is the one to welcome the Messiah.

Nana Christ Johnson presented a papers saying that Buddha to return was this one wearing a crown and didn't know of Korean traditional clothing but made this painting exactly resembling True Father and this is something we must believe, but qualifications also must be met: sealed by God that they are the Son of Man... In John 26:27 Jesus said I am God's Son and must come with God's Truth... Matthew 25:4 we live not by bread alone but every word that comes from the mouth of God... If His Life is different than He speaks, He cannot be the Messiah. So, one must have accomplishment at a Messiah level..

Jesus said if you don't believe in Me, believe what I do that the Father is in Me and I am in the Father...

So, I would like to introduce True Father... From Father's view He received God's Seal but this is something we must believe... received the Mission from Heaven and Jesus went back to God and asked again and God said there was no one else but True Father Who could do it, so that from the moment of Birth He received God's Seal... and for 40 days after receiving from Jesus, He went to the SW and experienced it... He found the Word but was denied by Satan and 40 days could not be recognized and extended 3 more days and shared His Word and the Content Truth could not find the path for Satan to be saved, that is why He couldn't be approved, but once he did, Satan could not deny and God could bring the seal to Father's forehead and we must receive answer whether this is right or wrong.

So, our first gen, most had spiritual experiences, even myself who was Catholic and I have a Catholic name, but one day I began to question and not find answers and was searching in Christianity, but no answer for 3 months I prayed then in my room by myself...

Matthew 27:7 'If you seek you will find, knock the door will be opened' So, he clung to that... and cried because no answer and didn't know... My eyesight dropped and so only thing left was to die, and thinking how to die. And there was an old man who came and gave me his flyer and I felt it was the answer... something about communism and how to start a new life, and then he wasn't there to ask more but passed by... but then the old man called me, 'Do you have time?' 'Can you come to my house?' It was hours of driving in a different city, but I had nothing left, was going to kill myself, but then thought there might be among bad people to sell his body or something sitting next to me, but it was Unification Church and all night I watched the video and then joined afterward with tears and tears...

Instead of understanding I felt Heavenly Parent telling me that was the truth I was looking for and I realized how much Heavenly Parent loved me, and afterward I was awakened anew and able to absolutely

believe in True Parents and this was the kind of experience most elder members have...

That is why True Mother is asking all of us to get the answers from True Father directly at Cheon Shim Won and experience Heavenly Parent's Love and be awakened anew, and we experience that through our future gen... and we should be able to realize that True Father and True Mother are the Saviors, Messiah Parents of humankind... Secondly, for the qualification of the Messiah is whether they have the Truth...and Christians read the Bible John 26:35 When the time comes, I will not use metaphors but reveal Who the Father is...

And the core thing Father prayed is what is the essence and fundamental principle of the universe... And Heavenly Parent said it is the relationship of humans and God is like parent and child... then all aligned perfectly... All we study is about that... that concept

Bon Il Shik, former university principle said this Unification Theology is what will lead the 21st century, revealing God's Heart to best... like my Father and Mother... And as I attended Catholic Churches, God was to fear, a Father... but then realized God my Parent

Then must reveal the enemy Satan, and fall happened through the sex and it was the Holy Lord Church, but they didn't reveal what drove Lucifer to become Satan, and also it reveals the value of human beings the best... right now, I used to attend Cheongshim Graduate School and I was first to graduate, and at that time the Principle and for the first 30 people graduating, I was told to go out and be a pastor, and I was the only one told that, no colleagues, but eventually I accepted and waited for a phone call a few months later from the administrative director... and then in Kawan there was a church with only 2 people and two churches, and I said I would go wherever he wanted and to send the official document and went to the church with only 2 Blessed families, so went out myself to the street witnessing.

One man on a bench at a park, I asked if we could talk and asked 'Is there something to understand how human are any better than animals and plants, and if not, I don't feel any value within myself, and he said he didn't even want to live... And I had prepared all Contents I wanted to share in a binder...

And I explained that humans have value. Human have all the characteristics and contents of minerals. Just as minerals have plants, we have hair; just as earth has earth crust, we have skin. We have muscles and blood vessels just as rock layers and skeleton, and like molten core we have bone marrow and, just as earth is 70% ocean, the body water we have is 70%, and we have solid is 30%, and just like the five oceans and 6 continents we have... and just as the world has 12 months we have 12 ribs and 24 solar turns, we have 24 (hours in a day) and we all the contents... humans made out of cells just like plants and like their roots, we have stomach to receive nutrients, and like the stem we have the heart to spread the nutrients to all parts of body and just like the plant leaves, we have lungs to receive oxygen, and xylem and phloem, we have arteries and veins and also all the contents and function that animals have, the structure and function, the vocalization that animals have.

If cats start barking like a dog like miraculous, but we can mimic all other animals, and humans' bodies have all the beauty of the world, so humans can show the most beautiful aspect of this world... And going farther, in the angelic world, in the spirit world, humans also have the spiritual elements... also humans have spiritual body and so humans have value going beyond the universe and the cosmos and have the value of God... I explained and afterward, this was first time hearing the value of humans

No one taught all life in schooling this value of humans... And I witnessed not just to young people but to principles of schools. And also the value of Jesus. Came as kings of kings, Jews gave him the crown of thorns and to liberate that, True Parents held the Ceremony of Jesus with C and Muslim and J... and also God cannot help but be sad when seeing the cross and True Parents made a Movement where all the crosses could be taken out of churches...so understood God's Heart the best and created the Scripture that covered all the history of other religions and process of restoration through indemnity and what God and humanity's dream is with family, that God wanted us to have and the fundamental group to enter Heaven.

So, if one's character is different than the truth He revealed, He cannot be the Messiah, and Father's motto was to domination eating, sleeping and sexual desire... and He only ate two meals, and He feels closes to God when hungry... and how save money to help others and on birthdays, He fasted and to dominate sleeping, He slept in a place of cold... and no more than 3 hours... A person who did not yet resolve God's Grief cannot sleep comfortably...

And Father was so handsome, so a lot of women tried to seduce him and even naked in His room waiting, and a wealthy family woman tried to tempt him with the money she had... First He accomplish dominion over Himself... And this street in Tokyo, F worked as deliverer and to support a friend, gave his lunch to him and shared money to neighbors and made his own money... If not with that heart of love for people could not enter God's realm, so practiced this in Japan...

And for weeks didn't go to school and worked for someone else to graduate... 1944 imprisoned because underground Korean Independence Movement... twisting boards around body hand behind back and hanging on the ceiling and beaten and forced water and throw up and drink water again to throw up again and inserted wooden stick behind knees and stepped on with shoes with nails and electric shock...

Komada Hashi was the one who tortured and enemy of enemy but in 1945 the Japanese could not go back when liberation came and there was one person who secretly helped him pass safely and that was True Father and it was like saving all of Japan and then all could come toward Him and many Japanese young people came to Korea, our 2nd and 3rd gen, many who have one Japanese parent...

What if there was a problem with Korean/Japan relationship, they were the ones to step up and apologize to Korea... and upon looking one elder in Korea said, 'Although I hate the guns of Japan, I respect all of you who love peace'... This was because of True Parents's Life of True Love... Why don't we give applause... applause

1948 for 2 years and 8 months F imprisoned at Hungnam because those who joined Unification Church were believers in other churches and branded as destroyer of family, because members didn't go back to family... True Father's Heart, not being able to be a Savior in the prison and if he says they would be punished...

Also, He shared food and contents of church and acted differently from others, called the Holy Man... Kim Il Sung was met in Hungnam and as he passed that prison, don't you think he would have thought about treatment there and Kim Il Sung sent him there... but He embraced him with love and for the first time in North Korean newspaper the world God appeared, and making his enemies submit to Him, tears for God, sweat for earth and blood for heaven

He has key to N and S Korea unification and peace and we cannot explain everything but when we look at family as society, Korea #1... suicide rate, low birth rate... These are because of the family, without which peace cannot be achieved, so F made inter-cultural marriage.

Tenth Anniversary of World Times, Pres Kim De Ju attended and he was the only one who attended... Difficult for me to make one region come to one heart, but how were You able to have cross-cultural marriage... not something a human can do but only The Messiah and True Parents can do this, especially between enemy nations...

July 29 1993 in America, True Parents proclaimed that family is the basic unity of Heaven and foundation of peace and proclaimed Parents' Day 4th week in July and moved various activities for inter-racial and inter-national events and received the peace prize from ten thousand different organizations and put a lot of effort into the Middle East with Peace Rally in Jerusalem and 2003 when Iraq War broke, True Parents believed it might be WW3 and clash of 2 and 3 different religions and brought them together in the biggest peace rally ever done...

True Parents also said UN not going the right path and est UPF and brough 120 C pastors to Korea from America who went around Korea and they read True Parents Peace Messages without any changes. I remember that time, and True Parents brought 120 Peace Ambassadors to Lebanon who made peace messages and were able 144,000 religious leaders included in Blessings...

11 to 13 hours flight to reach America from Korea now, but in the future the technology will develop for just 2 hours, and the visa will not be necessary and True Parents pushed forward with this...

and countless accomplishments in sports and media and science and arts... Is Rev. Moon a religious leader, no a businessman, no he's a media man, a sports man etc. What is the identity of True Parents? cannot just be one area for the title... True Parents made foundation and accomplishments in all areas. It is because They are the Messiah, True Parents. Because of that foundation, Their children should be able to go on the foundation They made and not ask Them to do it for us or we cannot accomplish H's Will...

PL doesn't rest at all, but moves forward to lead Cheon Shim Won with that conviction and because of that 2nd and 3rd gen now offer vigil even Saturday and Sunday and raise their hand to go to mission area voluntarily to share their love. Do you see hope or not? I truly see the hope.

So, this last era, we must move forward more than ever with mountain-like devotion let's applaud each other... applause

What are the three greatest truths? It is said that God created one man and one woman. The reason He did so is because God wanted to see 3 generations, and for this Adam and Eve needed to marry, but feel before they matured for that, and Satan, not God became the owner, the master. That is why a Savior was needed.

The purpose for which C and many religions have enlightened humanity was to open a path for people to live righteously in a fallen and evil world. Think about God's purpose of creation. Jesus was a Man. What does a Man Need? He needs a woman.

The people of Israel, Judaism and Mary should have united to attend Jesus and established Jesus' Family. According to the Principle, the reason why God could not interfere in the human fall was because of human responsibility. In the same way, attending the Lord is also human responsibility. What is the greatest truth? First to know Heaven well, and to clearly know God Who is in the Center. Second, to clearly know human beings who are the center of the world. Third, that the ideal world that God and human beings seek to achieve is the union of God and humanity.

One cannot but conclude that the only key that enables these great objectives to be connected is Love. Therefore, I have taught that the goal should be love for God, love for people and a true education lies in practicing these.

What is love for Heaven? No matter how great Heaven is, it is external. Love is internal. Love is the power that can move God and call God to come. The power that can move God is not knowledge, not authority, not money. It is Love. When you have the power of love for Heaven, the power to move Heaven, then Heaven will follow.

Love for people, does not mean individual people. It means humanity, that must follow love. With love for nation, the nation does not follow people but follows the one who loves the nation more than anyone else. Aju.

Main Message

Truly during the time True Mother is facing hardship, you have all come to Cheon Shim Won and I hope Heavenly Parent and True Parents and all the spirits in the SW will love you more and today 230 places

are connected and more than 40,000 have joined... 135 to the TC and from H Europe Pres. Michael Balcomb and his wife also came here. When we think of Heavenly Parent and True Parents Love, we cannot help but come here to show our love...

I hope all of you do not fall apart to offer prayer and devotion... Now, 78 days since Mother has been detained and b and s offering devotion and in this Cheon Shim Won we have become one with DC devotion and various different people in the cold weather... And our True Mother who stood in front of the court, how difficult was that time... With the heart of repentance, we offer devotion at the DC..

Message from Pastor Son Min Yong.. Let us all offer devotion so that Heaven's amazing work will unfold before our eyes, and last Friday among the ones at vigil, testimony: As True Mother in the cold cell, the only thing right now that She wants is to accomplish H's Will and we need resonate with Her prayers... I was able to think about our R and my relation with True Mother as a daughter and I must restore my heart for this, I realized. The heart of running doesn't know to give up, and I felt great strength from the young gen and from True Mother...

As the guards at the DC see True Mother, they cannot help but respect True Mother, and just as True Father who was able to make 12 disciples in the prison... The Person with gratitude True Mother has a beautiful scent, and I want to be just like Her, and witness with the beautiful scent that does not come from external perfume.

The song the Purple Lantern, have this beautiful song of the noble Workshop... and we heard the testimony of the sister who was a nurse with extreme load at work... and pain from others... Magnolia Hospital and the bigger the less money earned, and very important to Gapyeong, when other hospitals close down and they stay open and please pray and support them... We should be able to testify how big our True Mother's Heart to keep this hospital going. Now number of employees is reduced but in the past True Mother supported it with abundant money, but because of our situation, we had to reduce a lot of things...

Especially the fact that they are the only one that runs an emergency room, and make a testimony to this... so often with hardship greater Blessing is waiting... feeling like it is the end, will be discouraged unless we look at Heavenly Parent and True Parents and pray, we can receive hope through the tiny hole of a needles, and I hope all of you make victory by truly attending Heavenly Parent substantially and you will see hope along with the hymns and praise...

The thought coming that God is Someone Who makes people unhappy... Those who prepare their hearts can receive the grace... to realize how love is being given and what true love is and then can be light and salt to this world, and how important the spirituality Workshop is... and we need expose the repentance and express the gratitude...

'Let Us No Fall Apart'... With truly understanding the Heart of HMH, we cannot help but stick together... Countless people raised religions and those persecuted, and with the blood of countless people who were martyred, and on the foundation of Democracy, True Parents were able to work, and gave us the words that they will not fall down... No one can close our mouth. We are testifying about Heavenly Parent and True Parents and witnessing to them and by doing so, we can establish Asia Pacific Civilization that Heavenly Parent and True Parents promised, and have wings of Cheon Shim Won and move forward, and so our Japanese Workshop trainees sang the song beautifully with precious faces of internal change showing externally, more clean, pure, sacred, noble...

Most precious gift is 40-day... And we used to pay for it, but now we are having economic hardship, so please as you can, support the 40-day... and churches who sent many to 40-day, their tithing has increased by the grace from it...And also elders who have time, come also.

Because we didn't tell and boast about True Parents and make the national foundation, many leaders and members face trials... We need testify all together... What is the greatest truth? Did you listen well?

First to know Heaven and God well. The problem with life and universe, the answer begins with Who God is and knowing Heaven. To understand the effect, you must know the cause. Second, clearly know human beings. Director Chun Yu San, decided to kill himself, but met an old man... The ideal nation God and human beings seek to achieve, these 3 are the greatest to need to understand...

America to be the strongest nation to lead this world and I'm sure Russia and China and Japan has that heart too, but is that the ideal world we are needing. If that strong nation decides to do something bad, a lot of problems occur. In the original heart, everyone desires the Heaven realm on earth as in Heaven, and True Parents taught us what human beings are and the physical and spiritual world and what the ideal nation is the True Parents seek, where we harmonize to live in peace, transcending race, religion and be one family and love must come first to understand, so love for God, people and nation are the 3 core loves... And if you love God, God cannot help but move through you...

So, True Father protected the man who tortured him. And Dr. Balcomb came back here. Many die alone even though they have children. Because we feel that love and need to love with that love, we must love and even forgive Satan... forgiving all enemies as True Parents have shown, and then the Heaven on earth...and must ask for Heaven's authority to be revealed and Cheon Shim Won 8's with truth come down to this world and flow through it for H tribe, nation, world...

Now is the time we can truly accomplish this and Heavenly Parent can work through us... because Cheonil Guk Cheonil Sanctum has been dedicated... Look how H has worked until now and offer prayer and devotion with confident conviction and prayer like Jesus at Gethsemane and as Father prayed with all His Body and Heart over night, and then He was able to meet Jesus... We may have met God with our knowledge, but with Cheon Shim Won devotion we can meet that same Heavenly Parent that True Father met and our True Mother Who met Heavenly Parent already all Her life...

In order to feel that, we are offering shimeul devotion at Father's gravesite during 1,095 days of devotion and spoke to True Mother and to awaken all children who are like blind... And if we can inherit Her Heart, we can be the Seed of Life and see the fire of the Holy Spirit to make the world Heaven wants and humanity wants... Let's make this time that chance...

Prayer and Praise

How heartbreaking the sin of not properly attending HMM True Mother and keep Her Words, we lived committing nothing but sins... Please forgive us who have been unfilial and disloyal, did not see and speak what was testimonial about True Parents... Did we instead have dissatisfaction or inaction, lacking and foolish... Therefore, we have driven a nail into the Heart of HMM True Mother... The more we see our whole selves of sin, we realize True Mother's earnest desire that through Cheon Shim Won devotion we may be reborn anew.

Please let leaders and all BFs around the world truly reflect and repent for a new start, we who have been chosen to go together with True Mother must be one in heart with Her and True Father 4PF and the Inheritors. Please let us be what we need to be, chosen by Heaven... When the chosen fail, there is judgment and help us awaken to this reality...

You have given us Cheon Shim Won as the greatest reality of this age and there is nothing we cannot accomplish and let us achieve unity of heart through Cheon Shim Won and bring forth miracles... Also, please let us never forget True Mother's Words to pray for this nation and Heaven's Will and be united in heart... Please let True Mother be released and healed Her Sacred Body.

Chambumo nim, HyoJN, HeungJN, Daemo nim, let us be the conditions for you to work through us... True Mother return to the Palace... We earnestly pray True Mother long life with health restored...
