Opening Prayer Of Gratitude

In the World HQ here at Cheon Shim Won, we are grateful for You calling your beloved children who stack the devotion and with unbearable sorrow, we gather. Beloved True Mother, the OBD of Heaven, You in such a cold place 79 days since you've been retained and outside the cold winds, but for world salvation, You risk Your entire Life, but we unable to protect You and the unfilial piety that we committed, we hit our chests that we are sinners with many shortcomings and we try to cling to Heaven again... and Heavenly Parent, You said, 'Where the Heaven goes with the will, the Providence does not stop but we believe it advances to completion, and Mother suffering the final hardships, not to go in vein, let us carry that cross in Her stead now as true soldiers of Cheon Il Guk...'.

If Your Words are within us, we can complete anything and let us live in that faith day to day... And during this devotion let the purple lantern lights shine and advance with one heart and will. Tonight, True Mother is alone in the cold cruelties, please embrace Her with Your Warmth..

Akinama Yoko

40-day together with husband

360,000 Blessing

and the church leader said how about re-considering this Blessing because my husband could be very difficult and many things unmatching with the two of us, but at that time I determined to live with him no matter what, but it was so difficult that my resolve felt meaningless, and he had difficulties with me as well, but I have contents so deep and painful I cannot speak of it here and it became unendurable and I left home with my only daughter.

I thought I would have more peace, but unexpected problems arose and then I began offering vigil 2 years ago every day, sometimes alone in the church when no one else was there. Exactly one year afterward, my husband fell into unconsciousness due to liver disease that was alcohol-related, and he was discharged safely and made a conviction to stop drinking and went to 21-day with our daughter, but he did continue to drink and not work.

Although there was the thought to send him to the 40-day, I was so exhausted that I wanted to just live separately and give up, but my daughter went to the Attendance Workshop, but then the work I was doing ended, and my daughter said it meant to go to the 40-day, but I thought I should work even one more day for the money, and sent only my daughter, but then I had a strong feeling that my husband and I needed to go to the Workshop together and 3 days later we did, and now all 3 of us are receiving the Workshop together.

Even now, it feels mysterious that my heart could suddenly change like that and felt it surely the work of the SW. While in the Workshop, Heavenly Parent gave me many realizations through the environment and the lectures and prayer... Heavenly Parent has not given up on my husband... He complains often about the uncomfortable life, but when I see him offering keumbe and shouting powerfully for Mother the return to the Palace quickly and with strength, I think how happy must Heavenly Parent be to see this.

At that moment, I felt if Heavenly Parent does not give up, how can I, and I shed many tears. I wept as I felt the heart of waiting that True Mother has for Her children. After that I was able to treat my husband with a heart of waiting, and gratitude arose offering devotion and eating and climbing to Tree of Blessing together, not alone any more, and joy to have a partner to walk together with, and Heavenly Parent has been waiting for someone to share joy with.

Also, there was the message, 'Pray for something greater'... There was a video where a couple prays for one another and among them was our family. In fact, from few days prior my husband was in a bad mood and ignored my calls and did not come to the vigil for 3 days consecutively and didn't want to return with the church members disappointed and unable to believe in Cheon Shim Won. I prayed to establish our family for the sake of the church members, and the very next day that video was introduced and there were congratulatory messages to me from church members.

I realized that the fact that our video was introduced, that Heaven worked through the action of praising my husband, and action is the portion of fulfilling R, and also actually there are so many things to praise... and my opened heart again was the devotion of my precious daughter, even she herself was struggling,

she prayed earnestly for her mom and dad to become one, and when she saw the video during the morning devotion, she was so happy that she cried.

Realizing that I created circumstances for my daughter to have to offer such devotions, I realized that only when the parents are happy can the children be happy, and realized Heavenly Parent knows all difficulties of my life and called me here, and I will not forget the grace. My husband and I will make firm determination to become one and offer a victorious report.

To our one and only precious daughter, and the sisters who offered calling prayers and my husband, my gratitude (doesn't seem he's in the vigil today) but spending such grace time with you felt like living in Heaven, and hope to create Heaven in our daily life, and to our daughter, I'm so sorry that we weren't a good example, thinking how much you suffered, I cannot fathom. I so sorry, but because we had your earnest prayer, I believe Heaven was able to work.

Now don't worry about your mom and dad. Now get Blessed with a man determined for Heaven's Will and for that I will offer my efforts. TYSM.

mother of 2 children

want to offer True Mother a letter about the grace I felt.

Beloved, dearly missed Mother, in HJ Cheonwon we offer devotion... I intended to participate in the 40-day for my children, but then felt it was a time to offer devotion for You rather than personal circumstances. Everything unfamiliar after so long, and the Providence centering on Mother so different... The hidden truth about Mother were an enormous shock, and I realized how ignorant I had been of Mother's circumstances and my hands trembled calling out Mother's Name and surprised at myself, but I only understood after Mother walking the path so long alone.

Mother I have returned to Your Womb, walking along the path You walked, I tried to imagine Your path and holding Father's Hand through the flower garden and suddenly looking back thinking that You are not there, and here there is no place not having Your Footsteps, and I cannot hide from loneliness of Your Absence. Being able to offer praise in the devotion, the longing for You surged within me.

'I Walk Alone', she sings... 'My heart cannot express in words...' Mother Who even at this moment continues to walk alone for the Providence and offering prayer, I cannot complain of my own loneliness... My eyes were clouded by my own circumstances and my family came first, but now I know how You have lived and Who You are. You came to understand for Yourself the Heart of Heavenly Parent Who longs for children.

Only now do I understand how You walk the path of sacrifice to save all children... Mother Who was waiting for me in the lowest place in the most radiant way, You met us with the beautiful unfading smile. Eyes filled with laughter when You greeted us and now is the time for us to inherit that Heart and embracing all humanity with love, and I cannot just be about myself learning the Parents Heart.

Now, I understand that when Mother said, 'Don't pray for me, that heart is what comfort Heaven and comforts us and please allow me to move forward with the heart of Heavenly Parent and I want to begin by loving the enemies that are right beside me. The Heart of gratitude and forgiveness will become entirely my original mind, and my daily life will change creating an environment able to attend Heavenly Parent and True Parents and offer devotion together, and even I'm just a single drop, all of us together will create an ocean.

Even if I fall, I will rise again and then Mother will rejoice and smile brightly with blossoms... and until that day we will keep offering devotion. Mother, I love you. TY.

HJ Report

Anhoyol

Cheonjeong Town Union President

Today almost a year... in ten days, since beginning... Recently the media is struggling a lot and how it came to this point and with my opinion. I always try to follow True Mother's Guidelines, receive help of SW...

Taking a nap, I saw PL in white robes and he told me I have to go to the Northeast side and I came to the TC and PL wanted to see me, and he asked me to take care of Cheojeong Church and I was reminded of my dream and accepted and we established Cheojeong Church and we looked for an education environment and on the top floor we're renting each month and prepared it... and then with heads of our Movement we had opening and at the time, we gave awards and cake and photo commemorative.

So, instead of people sending flowers, we asked for rice and then donated it, and flowers also came in... The flowers don't last even a week, but these that PL sent lasted more than a month... and October was the Little Angels performance we watched with the people of Hyo Jeong Town and had dinner, and it was nice and going to all the Town Halls after that, we persistently offered Epic History and tribal messiahs worked diligently to visit some Town Halls two or three times.

We also had education for people with dementia and meetings with Peace Ambassadors. And on March 29th at the World Center many from HJ Town came and we had many good review of the time they had. What is to establish this environment and they had 3 Gate Ball places, so we had that competition with about \$1,000 in prizes and we continue that now...

Elder member Pak Jin Hwa is competing for this and making determination that 20 people from that will join our church, then also park ball competition. We also made connection with citizens there and made a program of teaching Japanese, and ten students and they started leaving the more we tried to education. So, with people that we already made connection, how to bring them to the church? And former VP of the UPF, we had our own service and with the topic 'Why to Live a Life of Faith' and then an open service, and had to construct programs suited to their age...

We also offered some education. And got town leaders and made meals for them and made relations, and trying to witness we realized it was difficult and did they understand what we were teaching. So, resolved to put Cheonwon stickers on all the Town Halls and calendars with True Parents pictures and our missionaries worked diligently to do this, and we found the atmosphere was very nice, waiting for us to return.

We partnered with two other churches and each month they would send about 1,000 \$ and then we would send pictures. And then there was the flooding, a serious situation and the partnership churches supported us, and the people of the town are very grateful for the support. We brought a lot of water that they were without... We persisted to support and now they are curious when we will come back for support, and with our Heavenly tribal messiahs, we have meetings...

They didn't have uniform but with their own clothes they sang and danced like this... and it was very enjoyed..with positivity and excitement...

So, from the south ocean our brother caught fish and came here and the elders really liked it... a seafood party thing and we had little celebrations with the park ball team... and visited town leaders to have meals and people are saying they want to follow Kim Gi Seong to the ocean to catch fish with him... And to the citizens we offered Mother's Autobiography...

And there are Japanese members, who met of themselves, but here is a Gate Ball Center and we're having the seafood party, so how to witness to them now? So, May 10 revival ceremony with consultation director Kim Jyung Wook, and she came and it worked well and then later about 70 people came, and we even had ansu like this, and the people participated with seriousness offering prayers and then we went to the restaurant and had meals together...

So, four couples gathered an HJ Town, and we agreed to meet once a month, and them alone offering vigil devotion, last week they reached 100. So, these people, Pastor Lee Gi-seong brought fish also, and in HJ Town you can eat it twice a year, but not to come just for the fish...

So, offering Mother's Autobiography, here and there giving them out. So, church leaders were arguing whether we should gather 100 or 50 people, and we gathered 100 and took them to the restaurant and educated also at the Tea House about our Providence... So, when the people, especially elders, ate from the cafeteria here. We said we would even send them a car to come, but must listen to a lecture for at least an hours, and many came... and going into the Cheonbu won, they were very surprised and it's now part of the program, which was outside of our plan, and now doing volunteer work making kimchi.

So, the town leaders gathered here and said, 'Ah, the Unification Church, GPP made a splendid image' and would shower us with compliments. Until this point, our H tribal messiahs, without anyone complaining had worked here. If you're a tribal messiah, you have no choice than to be diligent. (Shows tribal messiah families)

This family that moved from Seorak Town to Cheojeong Town and I receive a call from them almost

every day... I need to fill some gaps of vacancies, and when Father passed many leaders from Korea came, and even PMs from Korea came...and this person came and mourned with us...

So, True Mother is not a simple Mother, but while touring the world, I have many pictures... already 30 years ago, not resting, touring and spreading the word in movements and rallies and many welcomed Her and were moved and gave Her degrees. And True Father said that the chosen land must not be poor, so for the evolution of this nation, True Father established businesses across the Peninsula... for educating future gen, for the equalization of technology, True Parents offered so much and did this work.

True Parents's, ordered by Heavenly Parent, to help the chosen nation, we must remember Their efforts, and they sent the Little Angels... and there was a report and at that time this man came and said he was at the event and before the Little Angels performed, he said he was disappointed with the event, but after the performance, the atmosphere changed completely, and they were so inspired and expressed them as the hidden card of the event.

And with the topic of 'Our Pain and our Truth', I like to think with everyone. Our situation is a dangerous crisis. Without thinking about the Providence and True Parents, how are they making these comments and reports by themselves. It's saddening. We attended True Parents as leaders and at that time Jan 18th 20 busses came and the entire week Korean media are going to talk about this part, governmental authority and it is the main subject of all media in Korea, and this news, what connection does it have with us? They didn't talk or discuss with us but are just spitting out their own opinions, and this is truly saddening...

There's no end to this news. It keeps going. So, please take note of this media and pray earnestly about it. The difference between facts and truth:

First 5 point lobby they talked about, but now not. (more on that later)

After that politician Qwan Song Dong and us giving him 100,000 won and Sept 18, the People Power Party, there was a raid. And they figured out that... they claimed there was about 1.2 million church members who voted for that, but actually 120,000 thousand, a huge overstatement... and then True Mother was detained...and they actually raided again and were disappointed not to find the evidence they wanted...

Recently we heard that it turns out that people who joined 2,400 people joined and the media said even a million joined, which is false. They organized and now not taking about the false numbers after the true determination... Until now, they were charged for about 100,000 people joining... and no matter what organization that's like impossible for that many to change their political opinion.

So, about 5 million and People Party 44,000 and now talking about 4.4 million and about ten percent of the Korean population is Unification Church, claiming that and that all went into the People Power Party. So, for three months, 2,400 people entered... 2,400 people were led by the organization with force to join... very unlikely... and another thing was that the Unification Church, this claim means that perhaps the head Dr. Hak Ja Han made that order. So, 2,400 out of 4.4 million... 2%... So, even if the top ordered it and only 2% listened, that's not an organizational joining.

So, 460,000 people in Unification Church, and only small amount joining, that's enough to stop the raids... What they found was only 2,400 people with all the hyped research. So, the hypothesis was wrong, and what happened to the rest of the people? This cannot come from the Kim Dong I case. Because this number was so in conflict, now they're talking about the ten billion won scandal, but this only came out once or twice and then was silent.

So, many mistruths were broadcasted. Now they are talking about the 140 million won donation, and all of media was crazy about the Democratic Party receiving money from the Unification Church. So, either these people were broadcasting this for True Parents and the Providence or for themselves, we cannot know.

They said that 15 people are in the ruling party. This person came and talked about, the Unification Church supported the People Party, the government is looking at this, but through the trial, yesterday, about the donation... So, no matter the party Democratic or People Party, doesn't matter, both sides have controversy. So, all of media is in chaos right now.

And recently something new came up that is a real pain. It's about meeting the VP of the US when he came to Korea. Who would have had these pictures? only those there at the time. What is this? So, here we can see from Seoul they were saying that the Unification Church made ten thousand join, but no evidence of what they're talking about and the people of the political party are opening so many programs to get in contact with our members, always meeting with religious leaders and asking, 'Is there anything we can help you with and saying they will walk the way of Jesus or Buddha and to make relationships... and the religious leaders don't go to the politicians, the politicians come to the religious leaders...'

The President of S Korea is there but who is that other man. I don't know because he hasn't come to the Cheon Shim Won even once... and if they did, maybe none of this would have happened, but they didn't come. And they said as if prayer would not have an effect. True Father said prayer can accomplish anything. Those men did not pray but only believed in their own intellect and would ask people next to them, 'What are you doing?' All we can do is prayer.

There are many leaders that are watching but not coming to the Cheon Shim Won. I tell them, 'Come on Friday at least' And those not attending are acting like they're taking responsibility, but we must become one, forgive and unite... We have a Cheon Shim Won and PL... and so we can endure this, but without Cheon Shim Won we cannot take it. If you truly worry about our Movement and True Mother, don't talk nonsense behind the back, find the answer through prayer...

I want to tell the leaders to stop talking behind our backs... This person who is a writer and journalist and professor, and reading the autobiographies of True Parents, he wrote, when I uploaded on FB of the autobiographies, people were sending messages of worry, 'Why am I showing interest in a cult?' and I saw the profound prejudice our society has toward religion, and cannot be erased in a day.

I read the autobiographies with blank mind, without prejudice and was greatly touched, I read Dr. Hak Ja Han's story first, and wrote how it inspired me and my new view upon it, especially wanting young people to read these autobiographies that shows greatly how They lived Their Lives by practice... and inspiring was Rev. Moon going to prison tortures many times, and despite that did not waver.

There's nothing scarier than prejudice. I was educated that Kim Dae Jung was a Communist and when we scribbled on his image, we were complimented... He was a great man who may ever come in a century. And I feel if people read the life of Dr. Han Hak Ja and Moon Sun Myung, their opinion may change.

video now...

True Parents's Life...

Break

Hoon Dok Hae

When will we see the completion of the Providence? We must run without rest toward the day when in Cheon Il Guk the Heavenly Parent is attended on a global level. The world we live in today is a battlefield to reclaim the earthly realm that originally should have belonged to Heavenly Parent. As you work to proclaim the Heavenly Parent's Holy Community by 2027, my wish is that about a third of humanity will come to know Heavenly Parent.

Your devotion must reach Heaven so that Father cannot help but move. The destination of a single drop of water that becomes a stream and a river is an ocean. You must offer devotion so that Father can work, centering on the North, leading the ancestors from the heavenly world. You must be able to go to the Cheon Shim Won 365 days a year and meet with Father. Cheon Shim Won must become a place where humanity can always experience and practice attending True Parents and where they can practice exchange with the SW.

You must pray at Cheon Shim Won and express your wishes so that 7.7 billion people of the world can quickly come to know, create the environment on earth and move the SW. Cheon Shim Won is a place where True Father is attended and lived with 365 days a year. If you offer prayer and devotion, it will be accomplished. Centering on Cheon Shim Won, which attends Father, HyoJN, HeungJN and Daemo nim, all members must love one another and make unity their way of life.

In order to establish the tradition of the Providence, I have put forward 3 generations. While I'm still on earth, I will create the necessary conditions so that everything can flow smoothly like water. Therefore, in planning and advancing Cheon Shim Won as a Place that raises talents that can connect with pure water, that undefiled Heart of Heaven, I can expect Chairman Lee Gi-seong to take complete responsibility.

This will be the most important task for the future, for one family under God. For a unified world, we cannot allow any impurities to enter. You must take responsibility at Cheon Shim Won to raise leaders who can become successors. You must raise leaders who can read True Mother's Heart. You must become the fence that establishes the 3 generations.

Leaders who are not pure, who are not clean in heart must never come forward. Therefore, Cheon Shim Won is a place to remove flaws and blemishes through devotion. Now we must live in accordance with the Age of Cheon Il Guk. Cheon Shim Won must call and educate the children whom Heaven considers pure. Just as the Dalai Lama and the Tibet Buddhism raised people from childhood, we must raise them from a young age. We must bring spiritually bright children and nurture them. Cheon Shim Won must raise them pure from elementary school onward.

In an age of the priesthood system, Cheon Shim Won must raise people who can hear the voice of Heaven and convey Heaven's Heart. The SW and PW must become one and move forward.

Cheonshim won Choir

'The Purple Lantern'

Pres. Lee Gi-seong's Message

17th and 4th WSs offered praise 'Purple Lantern' and tomorrow is their graduation... They become the compass of our devotion... and Spiritual Academy trainees offering service abroad are lighting Cheon Shim Won flame throughout the world...

43,000 gathered

I Giaw Church has 596th Cheon Shim Won devotion, and thinking about Father's prison #, I believe they're offering devotion.

Today we had a continental leader meeting and they might be exhausted from the meeting, but despite that they're offering devotion. applause

So, with President Balcomb and the VP of Japan, they here... applause

Today at the DC, Pastor Yong Gi Nong is there and they sent a message: At the DC, there's the churches offering devotion, (He names them) and having 1,452nd Cheon Shim Won devotion with a simple message: 'For True Mother's Holy Body and Holy Heart not to be exhausted, let True Father in the SW embrace Her with Love... like a lamplight that doesn't darken in the night, True Mother is standing strongly and boldly, so please bestow health upon Her and bring the day forward when She can be free from those walls. And in front of Her direct children and in front of the world, let us all see Her again. Let that day come quicker. For this we are offering our devotion.'

Despite the cold weather, two of the members who were offering devotion in front of the DC, let us offer them applause support... applause

And in the TC, 1,021 trainees and about 600 attending this Workshop... 590 at the opening ceremony... Because there was an earthquake at Almury, a few members couldn't come but some from Japan filled that #. Actually the people from Almury actually came and we were able to fill this Palace and we believe that H fortune will be bestowed upon H Japan. How graceful the atmosphere is, and they return to Japan and offer earnest devotion and prayer, and through them we are able to break records in this year's autumn great works... We had about 120,000 registered.

The more people aligned with Heaven's Heart, H fortune will be higher. True Parents's said nothing is more powerful than prayer, so let us unite our hearts in prayer. If we follow suit, I believe H fortune will be bestowed on all of us.

Today's testimony, many difficulties with her husband problems of faith and alcohol abuse and leaving and taking her daughter with her. Her husband to the hospital and was healed, but wasn't able to let go of the alcohol and so devotion of mother and daughter, husband could attend the Workshop with the mother and now she is living a heavenly life.

Heavenly Parent is a patient Being, and while enduring all that time. And the church members offered calling out and devotion for this family. hopes and encouragement to this family... applause and the daughter seems a very outstanding member...

H Japan offered, 'H Japan Will Take Flight' and the testimony of the mother of 2, coming to 7th spirituality Workshop after not being here for 7 years... TC changed a lot... and now tears wouldn't stop to understand True Mother's Heart... and temperature of her heart raised higher with standard of her prayers and she wailed and repented with longing for True Mother with the song, 'I Alone' and now testifying to True Mother, and people watching her, she made a determination for that witness... applause

We heard Dolari for the first time here in a long time... Like Dolari, let us roll with the Will of Heavenly Parent and make HyoJN very happy.

Today, the HJ Report... When first started Cheojon Church it was rough. But he said he would lead it, and we were able to establish a firm foundation finally, after a lot of sacrifice that went into it. Many H tribal messiahs had to be sent there and go out on site and offer services... firm foundations in the 6 towns of Gapyung and that helped Cheojeong Town also.

Because of the flood, we partnered with different churches in the area, we could show our love for Gapyung and for restoration. W actually had 1-year anniversary of GPP with 1,000 sessions of volunteer work, and we must not stop being proud of True Parents, no matter where we are. No one can come close to accomplishments of True Parents.

Jesus said if you don't shout, the rocks will shout. But if we shout the righteous will shout with us, and this is great opportunity to proclaim True Mother. Through miraculous reports, w could see the works o Heaven. A time to receive revelations and dreams, and at Cheon Shim Won experience for yourself to become ALAF and AO and children of True Mother/True Parents who pray as such.

Because of such hardship, True Father and HyoJN, HeungJN and Daemo nim closer than ever and hope this time is for you to feel the Living Heavenly Parent.

Calling Out / Fight Song

chanting

Prayer and Praise

Now approaching 80 days that True Mother is in detention and we as children are trying to protect this place. You have told us to take care of the 2nd and 3rd generation... We never knew how big an impact the absence of Your Physical Presence would be... for give us for not knowing... but Your sacrifice is not in vein... the 2nd and 3rd gen are being reborn, tomorrow the graduates of Workshop will be reborn and Your children will go throughout the world and in each corner will testify to the True Mother and here tonight representing the 1st generation with 600 1st gen are here for the resonance Workshop.

Here to really experience You, H Korea and H Japan will come about with these 600 the seeds and cause of the righteous standing up in Japan with 1st and 2nd gen becoming one with Inheritors and 4PF True Father, for True Mother to be happy, led us lead this movement... We are the proud children of True Parents's Movement and family. We will not lose but will absolutely be victorious and bring happiness to our True Mother... So, True Father please work through us. True Mother for You we will risk our lives, so HyoJN please work through us, HeungJN, please work through us... (for Mother's safety and restored health and long life returned to the Palace...)
