daughter of BC... Before I was born my mother went on a mission to Dominican Republic together with a colleague and my father had to raise me and my older brother... I was 3 years old at that time, and because of the difficulties and relations with issues with other members, he distanced from the church, and I had live dodging atmosphere at home between my mother faith and father's distance to it...

My father had a strong personality not to provoke his anger and extremely difficult. If my father suggested we eat out, there was almost no conversation, and I gradually gave up hope for my family... Church was the only place to rest my heart, but at home no place for my heart, and those feelings gradually turned to resistance toward my mother...

(She speak Japanese with a translator)

Seeing my mother keeping her faith and putting it before the family so rebelled and made opposite choices to what my mother values. But my own heart was being deeply wounded by resenting my mother living faith and dodging my father's displeasure.

I quit the nursing joy I was doing and attending a 40-day where I realized I was thinking of my mother only as my parent and not the daughter of Heavenly Parent, and realized I should have embraced my mother. I also realized the painful background of my father leading to his being distant from Heaven and recalled how, though unskilled, he had tried in his own way to love our family.

Then 2nd 40-day and spirituality Workshop... but experienced discouragement, not seeing the devotions

helping True Mother, and even more distant from True Mother, with anxiety of not seeing what lay ahead

Even though True Mother was going through hardship, I could not do anything, and I lost strength and did not want to return to Japan in that condition, so spirituality Workshop again, so that I could answer that at such a time, I was in the most difficult place giving even the smallest hope to True Mother...

At the intensive prayer I heard the words, 'Filial piety offered from the position of a child and from the position of a child for the sake of the parent are different.' And also HJ is doing what brings the most joy to the Parent, not forgetting the tears and blood the Parents shed for you and the image of my mother calling my name came, and how they sacrificed as I did not see, and that it was wrong of me to continue saying hurtful words without understanding.

Then this victory was not mine personally but of my whole family... then my Blessing was something I wanted to accomplish together with her... and seeing that my father did for me and family, which realization I had avoided for fear of being hurt... While in Korea, found out my father had been offering devotion for my Blessing and resolved that my parents would say, 'I'm so glad you're our daughter'.

Since True Mother was taken, I had the thought, 'I am lacking, so I cannot do it.' But the lecture words, 'If you are lacking you can be able to do it.' And through the Workshop, I was able to clearly decide not to give up because I am lacking but rather because I am lacking become a person who strives endlessly.

True Mother, I am truly proud to have been born as Your daughter and I also want to devote myself as my mother did, and restore my family and walk without ever giving up until the day we can attend True Parents substantially all over the world.

True Mother I love You, TY

Tamura Kaho

Tenth Spirituality Workshop and serving as coordinator

From young age I attend church and middle and high school attended that school that True Parents founded, but still was bullied by inside and outside world and began doubting and resenting True Parents...

Went to Workshop as the last chance for the church and then learned that my scholarship came from True Mother selling True Father's helicopter and deep cry and my life began to change and activities previously avoided and worked as staff and came here to the WSs and academy... able to participate as Overseas Cheon Shim Won Volunteer Corps... and then return of all things in FR, able to practice the love I received and then finish my main work.

But one day a coordinator asked me to be that role and asked for some time to think, because I only served in the branches and wanted to be helpful at the HQ, but entering with that role, struggled and my heart dropped but through that role could understand the Heart of Heavenly Parent and True Parents more than before...

One day my assigned trainee said she wanted to go home, and anxiety and worry made it difficult to sleep and eat and I prayed earnestly that she would stand up again, 'Please save this trainee from going home. Since You sent her here, please guide her to make victory'. In the end, on the last day of the Workshop said she wanted to receive the Blessing because I feel my life would be sad without Heavenly Parent and True Parents.' In that moment, by how I felt so happy and grateful, I realized how deeply Heavenly Parent must have wanted to hear those words, and could feel for that..

Above all, because the group of around 50 and each like a child to me, and many incidents suddenly appeared and even at dawn I went to the emergency room and went back and forth to care for the trainees, and some still wanted to go to the lectures and do the CY yoksa, and as I stayed in contact, felt Heavenly Parent's love... Each day became truly precious and full of gratitude. And I asked how I could do more, and repented if all my actions were truly for True Mother...

In school I lacked confidence and looked at other's actions, but at the Workshop I came to feel that I must share the love I received, and love the children on True Mother's behalf, so I will go out again overseas to Jardim, H South America and spread the grace and restoration of many young people... liberated for harmony on earth

Four of fallen nature, original, inherited, personal, collateral... so much liberate 4 generations horizontally... many go to the hospital where they cannot find the cause but they have definite disability and sickness... and many finally realize the grace of this environment where before no one understood what was being said..

True Father... You will feel your heart from before and now is changed greatly, and depending how you act from now, you past and present self will be this difference, making your step solemn with determination to walk... And thanks to all the trainees and leaders who work hard for the group of trainees (Father encouraging trainees)

True Mother said we must educate what's going on in Cheon Shim Won... All kinds of diseases, you do not know how much protection there is there and satanic cannot enter there and because the portrait is True Parents, you cannot speak carelessly before it or hit your children or fight as husband and wife... then the SW can cooperate with the family...

All the families must have True Parents portrait and not fight in front of it, but nurture their children centered on True Parents...

Pastor Satoki, a very young with his wife recently witnessed to, and working to protect his church, and he said he wants to have Cheon Shim Won there and I told him that because he cannot register right away, I went to the register office and registered for him and received the testimony... that he thought about members with more hope and confidence and more bright atmosphere with Cheon Shim Won and he is excited and joyful...

I listen to stories of my members, some beautiful, some shocking with difficulties and I contemplate on it for days... However, this couple able to attend spirituality Workshop... couple pastors and how important this era is of Heavenly Parent and True Parents, not only visible but also invisible things... Husband says, as a public mission worker offering this body and reflected on the attitude and culture of public mission... Set up thinking life and death determination, and the Director sowing that directly, and I must resurrect again with such mindset... and grateful for the words...

We must always offer devotion. The Dream of Heavenly Parent and True Parents and the wish of humankind is One Family Under God... You must know that in order to conduct the development of the Unification Church of that nation and that people, countless comrades are shedding blood and losing sleep at night. I am a person who knows that, and because I am One Who gave the command, I live holding on day and night trying not to be in debt.

When midnight passes, I think that it must be the time they are praying, and I do not sleep trying to keep their depth. Because of this, Unification Church develops. Devotion is what makes the anchor rope of Heaven come down to a place where there is no anchor rope. One stitch, two stitches, by riding that rope or not, one can freely ascend to the H world or not.

Devotion fastens the rope, so that you can ascend as much as you want, and the door of prayer opens and with devotion it expands horizontally and continuing to pray, it become wider and wider.

Then the rope becomes a ladder and then the ladder becomes a mountain, and climbing to that mountain peak, one touches with the Heavenly world. Then either I become elevated or the Heavenly nation will descend. In this way, when the ladder is raised high and all people in the SW devote effort centering on Me, the way for them to return to earth becomes closer...

Also, when people on earth offer devotion for My sake, because of that, a high mountain is formed and may rise to the position where they can receive benefit. In order to establish a financial foundation that can remain for the nation and the world, and establish an indemnity condition for all people and stand in a position recognized by both God and satanic, an enormous amount of devotion must be offered.

True Father lived like that. That is why He went to CP every single day. Returning at midnight because He wanted to see that land again, He entered again the next morning. He always offered devotion. Devotion must be offered, bound together and returned before Heaven. Only when offered with Mind, Blood, Sweat and Devotion offered together, Heaven is not ashamed as the Subject Who supplies the materials needed to represent the nation and the world.

True Father lived according to the Principle... Aju...

bows to Heavenly Parent and True Parents...

Today 4P True Father are in another room with so much work to do and as they do, they offer with us tonight and leaders from around the world

43,000 tonight have gathered

To solve problems, as True Mother directed to pray with risking your life and then can separate dark spirits... Now in the time of going over the hill, must be as if at war, and now is that time. At the DC, we went beyond 80, today 81st day.

Message

Today, (names churches) Unification Marshal Arts and 121 members, all the brothers and sisters who know the Will of Heaven... gathered in the cold place to offer devotion, and for True Mother's tribulation not to be in vein, we will stand...

As we went over the 80th day, finally the card is being revealed, 'Heaven will never lose and the devotion will never be lost'

At the TC, 1,065 trainees, 600 graduated... 600 are here with us... We saw the video... I hope absolutely no dark spirit is with these trainees and that they maintain not to let the fallen nature come out... fear, selfishness and all negative heart... (some say to repay all the donations made to this church... there are people like that because of dark spirits and as we are educated, we learn about it) Because you are working centering on Cheonshim Heart of Heavenly Parent and True Parents, CheonBo family must have that at the center of their family to live, so not only the prayer Workshop, but also living their life every way centering on Cheonshim, many miracle can unfold.

Many came even with the earthquake that happened and filled in 600 people, and this is powerful for H Japan to overcome and blessing come all the more... one with HMH, the nation all will attend to... Do not use this pray for your own life, but pile the tower of devotion of Cheon Shim Won vigil, so that you can concretely become one with Heavenly Parent, and once fulfilling those words, blessing...

Branch Leader H Central and South America have come... Nov. 30 the Dominican Republic Church revival gathering with 121 members... and online 213 joined CheonBo yoksa and truly Central America with not many there but had this amount there at the Workshop...

testimony... gratitude to be allowed to attend and it was different grace than before and filled with hope and love and as ansu about to finish, without realizing I shed non-stop tears of heart of ancestors and spirits and all of my family was able to gather devotion, especially my son who couldn't focus, was very focused and no complaint and received ansu... grateful..

able to realize how important it is to resonate with Heaven and with ancestors to listen to who truly want to help us, and have empathy toward their heart...

two pastors' Christian, who wrote: Most respectful leaders, ancestor liberation is truly meaningful and before now, I never had direct connection. Because True Parents laid the victorious foundation and with the new light of words, all of this is possible, so we must go out to the world to spread this liberation... As a pastor of... I was waiting for the return of Jesus, but with the compilation of the ideology, I realized I must accept True Father as the Returning Messiah, and the words about True Parents and ancestors truly ring in our hearts and I'm certain we have received tremendous resonance.

During this time many pastors testifying their new faith... and our sister of the many WSSs was able to be one with True Mother and this spirituality Workshop, she testified to begin her life anew... She studied with scholarship that she realized was from the selling of True Father's helicopter and she was able to work in America and Europe as the coordinator and now heading the Central and South America, even very young, a trustworthy person and able to eat and sleep with spiritually difficult trainees and to help big change to them.

Sleeping with someone with a spiritual problem is not easy, but our sister truly with the heart of Mother was able to embrace the trainee like a trusted mother... 'Please save this trainee' she called out.

'Ten Thousand Reasons' sung many time in Christianity and the fact that we met True Parents, we must move forward centered on these reasons... and Kim Myung Wook, wherever she went, Heavne's work unfolded and soon she will be able to go to Africa and she will make amazing work in Africa with our support... applause

So, when Jesus was alive, he got evil spirits separated and centering on the testimonies of miracles, we should absolutely believe in Heavenly Parent and True Parents value and many can explosively spread this understanding... Today, we worry like walking on an ice sheet, but as long as we stand on the faith we have piled up and move forward, I am certain we will make victory. And many still sigh about being able to witness, but there are many more people witnessing and being witnessed, and even a Peace Ambassador for the first time are coming to our church...and also members

Many testimonies say the father in the family of no faith has come back to attend church... 4 times a month and even sent a text... in this time we can witness more... Even disciples of Jesus, even many of them martyred, but more people were witnessed and when Steven was killed by stoning and he dropped something from Saul and Damascus could receive the enlightening... and also Paul...

And also in Catholic history, there were stories of martyrs. Moses hit the rock and he dropped something from Saul and connected to Damascus and the anointing of Paul.. When Jesus was killed the person executing to kill that priest, saw a vision of the priest was going to Heaven and he realized that what he was doing was wrong and instead he stood in front of the person he was persecuting and asking for

himself to be killed instead.

If we don't move forward with Spirit and Truth, we cannot reach Heaven. We can never know with our own intellect, so Heaven Parent must be able to come down physically to us and hear and listen to our voice, look through our eyes, please offer prayer for this absolute belief...

Let his nation attend True Parents... People of Israel who drove Jesus to the cross, we must be nothing like them, but liberate the dark spirit that we be absolute love, faith and obedience...

I'm certain that the amazing work of Heaven will unfold even the dark hours being the dawn of the rising sun soon...

Heavenly Parent, through ABS realm absolutely one with True Parents, please guide, correct, work through us... True Parents and our Unification Church members who attend the most, please answer to all who are here tonight...
