opening prayer of gratitude

Most Precious Heavenly Parent

Beloved True Parents of HEH

We thank You, TY for throwing open the Gates of Heaven at this hour... Whether day or night, let us open our eyes only to look toward the Heavenly Will and be a heart that penetrates the H Heart, severing human attachments in the way of realizing that we are the ones who bear the overall mission and responsibility to find the lost original Garden in times of true love, with flowers of true love to offer to You.

Let us become the children who move only forward with an earnest heart loyal to fulfill Your Will. Please awaken all humanity of the world in deep sleep so that they can become a multitude that can welcome the morning of new radiance, look toward the H Will in the responsibility of this nation, which You have nurtured as the chosen people and Blessed to become one people of one heart and will.

Please stretch out Your Hand of Power to us, so that we may overcome today's trials and hardships and be victorious by earnestly clinging only to the Heart and circumstances of Heaven.

May H Japan be blessed as the Mother nation, one with HMM, True Mother so that the Holy Spirit works of Spirit and Truth may arise like a wild fire. Please work to rally the God-conscious, righteous people You have prepared, so that it can become a righteous time of this nation, proclaiming that True Parents's are the Ones Who walked Their entire Lives sweating Tears and Blood for the humanity that liberated Heavenly Parent, with single-minded devotion.

Let us be as They are, as the Central Axis of the Providence, and boldly march forward. Please grant us Heaven's amazing Power, Authority and Wisdom. At this hour, please respond to prayers of Your children who strive for loyalty and filial piety of one heart and will, so that we may dedicate the Victory before You.

Please work so that all the multitudes You have prepared, the righteous people offering devotion and the

nations be of peace that Heavenly Parent has so desired may be gathered as one centering on this Cheon Shim Won. This is our plea to You, Heavenly Parent, earnestly wishing for the long Life of our H Mother...

In the year of the red Horse

On the day and night breathed as one, True Mother bore the cross of imprisonment...

As the crimson leaves that covered the mountains last autumn left without a single dance, entrusting only their tear-soaked leaves to the passing wind, a silence too heavy to be called the first snow, the world turned into a land of white.

And the season crossed the threshold, but when will True Mother's day of return to the Palace come? Time stopped on the day's moment that the iron gate was slammed shut.

Where sunlight withdraws its steps, where moonlight withholds depth, and even the wind turns its head way.

A single day feels like ten thousand years. As four pages of the calendar turned, how chilled must Your Bones have been? How much must Your Flesh have trembled? How did you embrace and endure the pain of a breaking heart?

With what spring water did you cool Your burning heart? How did You block the freezing wind of ridicule and mockery? On sleepless nights, whose Name did You call to soothe Your aching Chest? Ah --, the most radiant Name in the world, You Who embraced all existence with True Love even in prison.

You are the OBD, True Mother--When the sound of the Bosingak bell Pavilion strikes the heart of midnight, we don garments of white (Durumagi) and fold our hands with a humble spirit.

The year of Byeong-o, the Year of the Red Horse is dawning. True Mother riding the red horse descended from Heaven. Please open the gates of dawn.

Though the harsh winter winds of frozen tundra howl, the stream flows beneath the sheet of ice, and the daffodils and magnolias of Hyo Jeong Cheonwon prepare for the new spring of resurrection to spread their fragrance.

The New Year's Day of the Unification family is a time of resonance with the H Heart, a place of rebirth: in the Year of the Red Horse, clad in the full armor of the Great Epic of True Parents, using 'the Epic of

the Chosen Han People of Korea' as our steed with the momentum of a raging storm, we shall kick away the veil of darkness, and endlessly expand the horizon of goodness.

The Flower of Sharon, the purple Mugunghwa, blooming as the song of HMM, the flames of the Holy Spirit shall spread to the ends of the earth. The flames of the Word shall burn in every village.

One cosmic desire---The Dream of One Family unde Heavenly Parent, we shall soar on the wings of infinite challenge.

In the Year of the Red Horse, with the mane of the Red Steed fluttering and hooves racing, upon every high ground of that wild wilderness, we shall, without fail, plant the flag of Cheon Il.

Bottom-up Strategy

Field-centric

aiming to strengthen pastoral confidence, having influence on everything...

With time to respond with pastoral education and witnessing... The role of the pastor must change to go beyond leadership management to embrace the children with a parental heart to establish them in Cheon Il Guk, with expertise and transparent morality in all areas, including sermons, administration and counseling is the image of the pastor required by this era.

Last December we established four, core areas the pastor must posses and conducted weekly education sessions.

Lecturer Mikiabe about how to operate constructive worship sermons with the Words of True Parents and practical skills to awaken the members... With Pastor Sodan yeong... learned bout reaching out with home visits and parent heart... active listening... without letting one's own value judgments intervene...

a management model with team building... sharing responsibilities under a common theme with a transparent reporting system is foundational for church growth. It expanded...

Dr. Tokdorov reflection about new pastoral principles... without pressure for performance (but heart for it)

more reflection... break out sessions very meaning, not one-sided format... produced the Cheon Il Guk practical pastoring theology series and we plan to distribute it and also a website archive to easily access power points and materials at any time.

March 20, 2026... we will correctly establish honesty and trust... and through tithing and financial education lay the foundation that is transparently trusted and awaken spirituality and visitation for vibrant life of the church and internal qualities of the pastor...

In November, guidance of BF's and married life, firmly establish that...

sufficient time for sharing and Q and A, wisdom of the field and follow up interviews...

Beloved b and s, we have the precious motto...

The way for this is for heart ministry to establish BF's for this... form a culture of this era to trust and rely on, from the lowest place, I hope this vigil devotion at Cheon Shim Won will lead to revival in pastoral fields and Heavenly Parent and True Parents Love and Blessings be upon you...

H Japan Report

Today I could give the Welcoming Address in the Main Branch and please give warm welcome (big applause)

Currently in Japan as well as in Korea, with human perspective it is a hard time, but Mother said 2026 Jan 2nd, when we could meet Her, She gave an address that applies to all members around the world promising a lot of good things coming, and not to lose faith and know H is with you and go forward so that the Truth can be revealed and that we should be healthy in whatever we do...

Currently in Korea, concerns about what will happen to our Movement in the future, and doubts, but these are not thoughts from Heaven, only unite with True Mother and march forward and then there is no problem for us. True Mother emphasized that we should be able to educate the Epic...

We have a lot of things to go through in the legal sense, but Mother is thinking about the Essence of Providence and all else will be solved automatically with that focus... H Japan is waiting for the Supreme Court result, but despite that our H Japan President Hori Masaichi and 450 leaders in Japan are giving devotion for three days, and the Epic and at the DC and will be going back to our fields tomorrow.

Mother was so glad that we could get this education, so applause for Mother... Through this education of Epic, and with the devotion at the DC, I truly believe the SW atmosphere in Japan will be shifted and our members absolutely one with HMM and we can change Japan.

Japan has the history of occupation of Korea causing suffering, but despite the negative things revealed, we see that we are the Mother nation and could set the foundation, condition as Mother nation. Uchi Morakanju, for one year and a half was a Christian talking about the 2nd Coming and had revelation and one of the Korean disciples was actually the teacher of Osan School where True Father used to go for 8 months in elementary school, and at the same time, the disciples was in the school as a teacher.

The first president U Yu Ahn, when he was witnessed, it was by just reading the Woliwonbon. And with that background inheriting the Spirit, with fortune coming into our early church and the Exposition of Divine Principle was actually written by him. And there is this word akoehchia and this word was not used in the early church but is the essence of Divine Principle, meaning he was able to inherit the Spirit and Ideal...

True Father used to say about it uchimura konju... a lot of karma to the Korean people, however, they also set the foundation of devotion for the 2nd Coming Messiah and there are many B families, most of them are in Japan... Also, Mother said that his portrait should be in the holy paintings in the Holy Sanctum and it was added. Our leaders from Japan and Taiwan through the 3-day education will be absolutely one with True Mother...

Yesterday, as Mother nation, one with Father nation Korea for the victorious release of True Mother, we will stand up and march forward... big applause

Welcoming Address

brief address, currently True Mother when touring last year in US, arrived at Hanna Gung, in Jan 20 and did the proclamation that She is the HMH, and another proclamation is to emphasize the R of C and we have R to attend HMH OBD.

also that in the era of Cheon Il Guk, it is centering on HMH

Thirdly, She emphasized that True Parents's R is to be able to widen the environment where we could attend our Heavenly Parent. True Mother, HMH is substantially attending and Substantiation of Heaven Mother, and it is the Holy Name of our OBD True Mother in this Cheon Il Guk Era. And when True Mother is on the earth in this GA, all should be able to know Who She is.

In the Cheon Shim Won in H USA, all 50 states are offering this night vigil, especially in this situation to overcome Mother in the DC, we give devotion upon devotion, attending this Cheon Shim Won. Currently in LV also with continuous desperate hearts and becoming one with Rev. Demian Dunkley marching forward with HMH.

The New Jersey Church has 400th session, and through this more than 200 people are offering devotion at the Cheon Shim Won vigil. Kodan President Achiguchi and 40-day trainees and the Yeongseong Academy are in NY offering devotion with Cheon Shim Won vigil, and the HJ Academy returned to Korea, but five of the trainees currently who attended in LV are volunteering as HJ Academy themselves.

Last week, all of the trainees were able to invite 28 guests with the LV members to the Korean Day Dinner, and Resfred Pastor was able to give the education about Epic, and the guests were introduced through K-events and we are in process for them to be regular church members attending the church...

testimony Moon un eh

Cheon Shim Won volunteer group, conducting missionary activities... and felt the Heart of Heavenly Parent with more connection... At first language barriers, but felt Heavenly Parent calling the children through me and courage as not before rose. One day not being able to contact a single person and wanting to cry with Heavenly Parent's experience so sad, but finally happy to reach even one person. This was a realization of Heavenly Parent's sorrow, joy and happiness and how precious we pure waters are to Heavenly Parent and the mission time had deeper conversation and oneness with Heavenly Parent.

testimony... Che Un Su is my name... When first here the language barrier, but through a person Jalan who I was able to connect and reconnect and able to invite a person, Nick to 3 events and he said, 'I know it's hard for you to speak another language, but thank you for treating me with such sincerity and working hard for me' so I realized the problem was my own judgments that language would be a block, but still heart can be conveyed was my experience... Through the missionary works, also during our meeting I heard witnessing was like free advertising and even in hard times, we must testify to Mother, and through the words that witnessing is a spiritual battle, but Heaven will work.

Even with my shortcomings, if I try absolutely Heaven will work, and so grateful to be in the US and these people are not just who is passing by but all are who True Mother wants to connect with...

HOLY MOTHER FLAME

Holy Mother Flame, let the whole world rise, through the trials and the storms, She's the sacrifice... From the edges of hate Her compassion survives. She was broken by the world, but She kept us alive, let the justice fall. Every prison wall shakes when the righteous call. She united all faiths, broke every old wall. Stand up. Speak Truth. Let Her Name be heard by all. She was laughed at, mocked at, ridiculed and bruised, spat at, blocked at, questioned and refused. Her pressure births diamonds no darkness condemned.

Her Heart glows eternal Heaven grows through Her Limbs. She said, 'Don't pray for Me. Look farther. Look ahead. Her Mind on the children, not the chains, not the dread. She birthed 14 souls with the Love so pure, raised nations from nothing. Who else could endure?

You could shake Her, break Her, still The Truth Word won't bend. won't bend. The Mother of Peace, the Lineage God Intends... Count 14444 Blessings Restore. Pure Water rising, overflowing the floor, world shaking hard, Heart blazing. History re-writes every prophesy echoes Her victorious fight to testify... With pride, let the Heavens reply Holy Mother's Named carved across the sky.

Yo, She's A Lion in the lion valley a Dove not war, never once backed down when they slammed every door. Dragged through the courts, while the wicked can spy. But a Spirit stayed calm when the eyes held vied, when they twisted Her Words, tried to shatter Her Name, but the Truth is titanium not touched by shame.

She built holy family from Seoul to Rome, gave lost generations a worldwide home. Every nation tried divided but stitched to right, turned enemies to brothers in Her Light, Blessed families in unity with Her were nothing but Tears, Devotion and Heart... Up with justice in the night... a prophecy in motion to stage Mother's Flame breaking every cage.

Walking deserts of despair, oceans of betrayal, She carries humankind like a Mother in Prayer. From Cheon Il Guk visions to the poor, She poured out Her Breath. Her Exhaustion endured. She healed broken families, fixed lineage divine, lifted from the shadows, led the blind to the shrine. Each envelope She turned every Grace of the wound became a fountain the world could taste.

They tried exiling Heaven by imprisoning the Name, but prophets got stronger with swallowed flame. She whispered love future while they bound Her hands. All She saw were united people, one land.

Though the ages tremble, the nations turn pale when they realize Her suffering will tip the scale. Her Legacy's eternal, carved deeper than stone. Holy Mother stands never walking alone.

Court room packed. History on trial, but justice walks slow while the righteous compile. Chains can't stop Truth. Walls can't block the Light. Heaven spoke the verdict long before this fight.

Mother Han slandered on site, but She stood like a mountain unyielding and bright. For decades She labored Blessing every creed. Buddhist, Muslim, every root, every seed. She fed broken spirits, broke curses and hate, lifted families from ruin, rebuilt every Gate.

If the world truly knew what Her Tears have done, they would kneel in repentance from old to young. So, we speak it loud. This is more than rhyme. Justice reawaken, as Heaven re-winds. Mother's Name will never, ever die.

Holy Mother Flame, let the whole world rise. Through storms and trials She still testifies. Yes, when injustice strikes, Heaven multiplied. The earth and the hope of all lives, Holy Mother Flame let the Truth replay ever chain on a soul. From the night to the dawn She came, Holy Mother, Holy Mother, Holy Mother, Eternal Flame

video of activities from H Japan that Heavenly Parent loved....

testimony... While being confined for 46 days by her family and a Christian pastor... All her facial expressions had disappeared... (If you catch a glimpse of the mother, you might wonder if she was angry... But the after-effects of her confinement caused such emotional damage, that she could not laugh...

She decided to dedicate her life to True Parents, and every day was truly worthwhile and the most precious time of my life... Then one day, at the time working as a mid wife at a hospital and finished and returned home to sleep and my mother woke me up and startled me awake and as I left the house and the door and car door was opened as well and I was put in the car and no one said where we were going and the car stopped in front of a hotel and I was driven and forced to a room on the fourth floor and the key went click and was locked a special way and my older brother sat there as though he was guarding it.

I was truly shocked and in a state of panic for two or three days. I cried out to God, 'I am confined and I never imagined my family would do this.' A Christian pastor came and tried to talk about, but I covered myself in the bathroom and knock it and not come out'...

She said it was so difficult and she even thought to escape by lying and denying the church but she could not bring herself to do it. I thought it was so pitiful and the family eventually gave up, but she lost everything, because she needed a parent consent to go back to the church and my mother earnestly called out for Heavenly Parent, and a friend contributed a little every month and she did not let go even with no one on her side, but resolved that she would receive the Blessing and offer a family to Heaven and had us four children... but the stories of 1st gen is so heart breaking...

I sat in the seat where she would have sat in the prayer meeting... I always wondered by my smart mother had to sacrifice her life to this extent and what was it the FF wanted to say... How much could one endure while being spiritually torured... no choice but pray to God... contemplated suicide so that I would not lose my faith this way, but God said I must not do such a thing, and seeing how my older brother was already brainwashed treated me like criminal and only there were harsh and insulting to the church and Father, unilaterally and also confined, I was truly angry.

When I prayed a revelation came down and said God was even angrier looking at a child suffer by such terrible things done by Parents, God must feel that way, and it was a time a truly became one with God... At that time I belonged to a church in Tokyo and members were saying that it was strange that members had suddenly gone and learned it was confinement, and I was the only one who returned.

One could follow one's resentment... My heart took several years of the wounds to recover... after confinement and then more being watched for several years... I think the people who do such things are only satanic, how bad the church is, but do they have any vision better than this church to save the world, they only criticize while performing bad actions...

They have no vision or evidence or concept of how to make so many people happy or how God is so wonderful... They are constantly taught against the Unification Church that is truly the Truth...

She had to push through this on her own and became the daughter winning a culinary reward and opened a restaurant and became a business owner. I came to the TC to resolve my heart... but listening to my mother... I wondered again if my mother is really right to have to go through this... After realizing Heavenly Parent and True Parents Love, I made the determination that I could no longer ignore to know and I myself had to walk this path and never deny you in my heart again but see through the Eyes of Heavenly Parent and the eyes of faith, let me go on to the end, and be grateful I can love sincerely and earnestly beginning with Heavenly Parent...

I became able to be certain that I am a direct child of Heavenly Parent and True Parents of HEH... I want to know True Parents more and be Their Heart and inherit the foundation of a mother of absolute faith even at the bottom of hell, and be able to receive the Blessing and make devotion together with my mother... Heavenly Parent and True Parents TY and I love You...

testimony of sister who had burns all over her body... and no one to recognize her beliefs, she cried out, 'Please help me' but in my relation with my husband, who does not recognize the church and I was a person whose existence was not recognized... But I could change my heart and testify to my husband about Heavenly Parent and True Parents...

The burns were by trying to move a huge pot by myself... so painful like hot iron on thin skin... 8 days lying down... could go to the bathroom... major surgery 150 stitches and I cried out... Please let me endure this... The vigil devotion was the only hope, and listening to the testimonies of the trainees, it was like nothing compared to me...

I felt only fear about having a conversation with my husband about the church, but it was because of what was in me, the problems with my original family, not a good relation with my father when he was alive, so I offered conditions for him and sorry not to love him when he was on the earth, but grateful he let me be born into this world and tears and devotion, letting go of all of my fearful heart... and prayed to be one with Heavenly Parent and True Parents and felt I must love my husband and children with a heart of

Heavenly Parent...

I then could have comfortable conversation with my husband, and my father helped a lot. Then looking at the portraits of True Parents, I realized Their being with me and saw Mother's comforting eyes... and realized I was not struggling alone... During a difficult time in the DC, it is my mission to let my husband and all others about True Parents. Heavenly Parent and True Parents thank you and everybody in Divine Principle, I love you...

How much our mind is like them at times, and how can we love those we could not love, or we will have such regret if we don't fill our short life only with love...

testimony... five years ago her father passed during the Covid and I couldn't meet him, and a life without my father was so sad, the longing never subsided... Even though I know through the Word it is the third birth, the reality of not being able to meet, talk to and touch my father, I could not accept.

During the devotion there were moments of conversation with my father in the SW...

Those who serve their ancestors, eventually live a life filial to their parents... Blessing will surely be with their family...

In Cheonseong Gung, with understanding the sorrowful Heart of Heavenly Parent, that kind of devotion as so many at the night vigil, let's give our members and leaders (currently from H Japan going through so much struggle) did not retreat... applause

If you criticize centering on yourself, treating those like that who are not connected to you, it is a path of your own sad end... Those who are indifferent to this, but think what is happening to Heavenly Parent and True Parents when things happen to any of us...?

With devotion and prayer, seek for tomorrow able to meet the spring... and this time of leaders' education and Epic... we heard from True Mother, that in the new year a lot of good things will happen and let us be able to meet that day well in the future...

HJ Workshop... centering with the Hyo Jeong and hold hands and be one... (by the same Center of all Words of HMM Center of us as family)

In H US, participants go the holy ground and also go out witnessing... and could invite 28 guests and such a grace-filled time... and this is such an open change for witnessing more people and educating Epic... With that mindset, we can have more people.

We see ten-fold people coming to this Workshop and entire SW is mobilized... Have that mindset... and inherit the heart of early members, and if they are martyred, that would be the biggest Blessing they could get... and Father is working and let us hear His Voice and Mother even in the DC is working for us... and through the persecution, we are able to develop ourselves and experience the hope of the inseparable love and no one can conquer over us, and only true love can bring victory, where eternal victory and Heaven can be realized and in front of that love, all is liberated, and those who go to the DC, these people went into jail with despair, but for Me I was more focused on what the DC could bring.

Because you know the Prov of Restoration, if we overcome the obstacle what hope for what can come afterward, so we should not be in despair but in hope

Peter Kim appeared to a 2nd gen 'When I had the time to report to True Parents and we did not have the results, I couldn't face True Parents, and I had to swallow all the sorrowful heart... (Rev. Lee is tearful)... Wiping away private tears, encouraging others...

What F and M said, the people of the SW and F and M's Love are with us, and if I don't go this path (realizing it is not alone and with Heavenly Parent's great love and part of the AG SW and when in despair times of great desperation and doubts, They were holding my hand and leading me, not alone but please have faith that Heavenly Parent is with you and go with greater resolution and go together with that resolution together '
