Summary

From the front of the detention center on its 143rd day, 'A true mother, who is worried about her children, suffers all alone, is blessed and grateful that she has been suspended for the second time after 143 days, and receives treatment.' Please do your part in proceeding to bail and allowing truth to be revealed and complete release. Through tonight's Tenshinkai Seijin, I will do my best as a war, so that the subjective celestial world will be surprised with your father as the center. Reported.

Last night, Chairman Fumihiko reported 2/10 Mother Only. "When I was in a helicopter crash, someone fishing in the river told me they saw angels showing up and protecting me. In spite of the accident, everyone was safe. This time I'd love to see how the spirit world works by you. I'd love if you could reach the heavens and show us how the underworld is mobilized. The spirit world needs to be mobilized and serve. That's how you must guide the way. This people must not only wait for heaven but also go to

heaven. We must fulfill the responsibility of our electors. Must inform strangers. " I haven't been spoken like this for a long time recently. This time, the true mother felt various internal feelings, and Fumihiro took this moment to tell the whole world's food because she felt necessary in exchange for heaven. In fact, yesterday there was an incident where a helicopter fell into a village in Kaping, killing everyone on board. When the heavens are protected and the spirit world is mobilized, once more through the helicopter crash we have to offer our sincerity that reaches heaven and touches heaven, feeling that my prayers are insufficient and my true mother is painful. I hope that I can prepare my mother's body at the hospital, and that the spirit of heaven's spring appears on earth, I hope that the heavens will do their best to be touched.

The Tenshin Lyonjo Choir sang 'Kaisho no Uta' with tears of emotion. The years of struggling together while living back to your true parents are precious treasures in history. When you go to the spirit world, "Living filthy sin is less than a beggar." A life lived through blood, sweat, and tears for the Lord is more precious than diamonds. For as a bridegroom goes to her bride's bride with her, so you also shall prepare your treasures and gifts when you go into the spirit world. "and told. I hope that we all become people who will never regret living for the purpose of life, and will be able to believe that we lived the most valuable life.

The enigmatic academy students departed with their letters of determination.

1. We are determined to testify and boast about Holy Mother Han's true mother before the world as proud direct daughters of true fathers.
2. We resolve to devote ourselves to extend the Tenichikoku era Tenshinki Seisei culture as peerwater

associated with Holy Mother Han.

3. We mobilize the underworld as practitioners who devote our sincere devotionals in Tenshin-sen, and protect the true mother, return to the environment of Kahei, and resolve to advance with the decision of life and death for the Divine Unity of Korea.

Proof of Seiwa Spiritual Training on the 21st day: When he was young, he underwent a lot of trials, but after he grew up properly and worked as a short track athlete participating in the winter games, he participated in the training session with a sense of concern and benefited from prayer. Through the intensive all-night prayer, crying out loud, "Omma, don't go", may the Heavenly Father and Mother become fully embodying the spirit of searching for their children, and be courageous and hopeful to future generations.

Proof of spiritual trainees: They served at Kami Nippon Tenshingai for 7 months, and participated in the 6th Moshim training, and underwent the 5th GPP training. As one small needle your mother's wish, she grew deeper roots of faith. You must separate your own spirits and bless your ancestors up to the 430s, transcend their roots and organize all the central spirits, and put down roots in the spirit of the true father and mother, who is in the true position of no corruption, and put down the roots of faith that cannot be shaken no matter the trials. I prayed and prayed what I could do for my mother's difficult situation. "Please let my true mother go." I've had so much love from a true father for 21 years now that I've had enough. But there are still many who don't know true mother's love. Even if I have to live the rest of my life in prison in order to never miss this golden age, I will gladly walk the path of sacrifice because it is more noble to have my true mother live the earthly life. Please protect your true mother. "and praying without knowing myself. This is an underworld affair.

After the entrance ceremony of Tenjin-gu Shrine, the era for Heavenly Parents to be governed by Heavenly Parents has been opened, so individuals and households governed by the Heavenly Parents must be seen as this. All churches in the whole world must be displayed as churches where heaven reigns, churches where true fathers and mothers are ministered.

The words of true fathers are not down to earth. As the Word of the Lord, because we have a living and working Heavenly Father and Mother. Since we are now in the era where Heavenly Parents direct control, we should not miss any moment or moment when we can match our True Parents, even with little strength or little elaboration. We found a true father who could free us. We must be bold and determined to practice. We must command that this is the time to act as the people of the kingdom of heaven.

The spirit world is a place where love breathes. In order to breathe in the air of love you have to live in the love of Heavenly Father and True Father. True love, true life, true bloodline, if you leave the love of your true father and mother, you will become a death place. Great true fathers who laid the foundation of heaven and earth. We are praying Tenshinbosatsu prayers that we are surprised to see and hear from miracles performed through the arrangement of central spirits, beyond earthly people's heavy life to spirits. Our earthly life is never long enough. In this short life, your father and mother told us exactly what we must do and how we should live and go to the next world. Even if it's just one minute or one day, I need to enter a state where I can live and experience true love in the bosom of my Heavenly Father. I give thanks to the true parents who prepared Tenshinken Seishin, and I pray for the power of heaven to come to this earth through your deep prayers today.
