Opening prayer of gratitude

Most Precious Heavenly Parent

Beloved True Parents of HEH

We offer our sincere gratitude for calling us to this Place of Cheon Shim Won devotion allowing us to hold onto Heavenly Parent's Heart and prayer and build a tower of the 1,499th Cheon Shim Won vigil to welcome the 1,500th tomorrow and to be granted the Cheon Shim Won special Great Works in celebration of True Parents's Birthday next week.

At this time when the realm of AGS world is mobilized, we believe that Heavenly Parent will surely respond to the desperate cooperative prayers cried out by our BFs worldwide, and the beautiful melody of the CY will move the Heavenly Parent and move for the Great Works absolutely necessary for this era. Keeping pace with this, we BFs will surely protect True Mother, living a Life of Cheonshim and of patience and gratitude that can move all dark spirits and H families will proudly witness to this world.

Therefore, please joyfully receive our earnest repentance and devotion and determination and work so that the great H unified Korea and H unified world can appear according to the direction You desire Heavenly Parent. Beloved Heavenly Parent, at this very hour, True Mother Who has walked a path of immense suffering and devotion has briefly left the detention center and is spending time in the hospital for recovery. Please let this be a precious time when True Mother's Holy Physical Body is fully restored amidst Your great Love and Care, Heavenly Parent.

We earnestly hope and desire that this 1,499 Cheon Shim Won be one where all our sincerity of devotion become a source of strength for True Mother as we offer our HJ to Her.

Gratitude to Heavenly Parent and True Parents allowing me to stand here tonight

Since I was young I followed along with the faith and my parents. I began to feel that I was different than the other people. In elementary school at 2nd grade there was a lesson about the Japanese colonial period. In the middle of the lesson, my homeroom teacher mentioned that my mother was

Japanese. The lesson was about how Japan stole and looted Korean artifacts during the colonial period. After that, my friends' attitude changed and they began to criticize me. That increased to recklessly throwing away my belongings and finding out my mother's name and wanting her to die.

I made excuses about losing my things and was scolded (rather than explain such things that would hurt my mother)... I resolved to hide the fact that my mother was Japanese at my new school when I graduated. Time passed and I joined the military. I struggled with faith due to conflict with a Christian senior and discovered my own shaking self. After discharge, I began to agonize about my faith, seeing my mother at home and at church and listening to the vigil devotion every day and wondered if that was really so important.

I saw the post for the 7th spirituality Workshop and applied thinking my question might be answered there. While offering devotion at Cheon Shim Won, I received a call from my mother. She said that since the testimony of a brother mentioned kidnapping and confinement, she thought she should tell me of her kidnapping as well. I cried until my pants were soaked and offered a prayer of resentment and asked why Heavenly Parent had witnessed to my mother and make her come all the way from Japan to Korea to suffer like this?'

However, after praying a wave of regret began to wash over me because I felt that the path of faith my mother had walked and True Mother had walked was similar though different in degree. I thought if I do not walk this path, there is no one else to walk it and I resolved to help my mother and go this way of the Will.

After the Workshop, I worked at the Cheonpa dong diligently and filled the moments. I heard the news about True Mother's detention and felt I must offer even greater devotion for Her, which led me to enter the 5th Moshim Attendance Workshop. The reason was to witness to True Mother and witness to the world through a peace speech. I was truly grateful for the live speeches and all activities to witness to True Mother's Words online and through the SNS activity.

There was a session for moshim resonance practice to experience the heart of the Heavenly Parent under the guidance of the training coordinator. I watched a video of parents who had lost their children, and to Heavenly Parent, a child who cannot communicate with their Parent is the same as being dead. Those words touched me deeply, and meeting the Heavenly Parent in such a miserable state, I shed endless tears.

Although I had attended the spirituality Workshop before, I realized my own inadequacies and recognized that I had not truly attended Heavenly Parent. During the Workshop, I heard of Mother's trial and participated in devotion in the special prayer room. Feeling that this might truly be the last chance, I invested myself desperately and could feel my body breaking down. My voice became hoarse and my knees bruised from paying and bows.

Even though my body was in pain, I made an unceasing effort because I made a promise to Heavenly Parent. Through that period I strongly felt that, even though my body was struggled and result was not yet visible, a degree of devotion was being fulfilled. I resolve to inherit this level of devotion continued until the day True Mother is released.

Today Mother is receiving treatment for Her pained body for a short while, She is not yet been substantially released or granted bail. Therefore, I want to ignite my heart more for Mother. I deeply plant the root of my faith by investing myself day by day, night by night with devotion upon devotion for Mother. I applied for the 5th class of spiritual academy and I will become someone who helps Mother.

It has been 8 years since since the Blessing and beginning to live in Korea, and this is my first time in the spirituality Workshop, wanting to come for a long time, but difficult to take time off from work. In the midst of this, my son who is a high school freshman, who previously lacked faith, attended the first Seonghwa Student Spirituality Workshop for CARP Members. He changed miraculously, and as soon as he returned, he witnessed to a friend and participated in the Seonghwa student general assembly together.

Seeing him witnessing was such a joy. I felt that Heavenly Parent was truly pleased. When my son contacted me during his Workshop, saying he felt lonely with no one to talk to and that it felt to early for him and that he wanted to run away. I repented that I had not myself gone to a Workshop in so long, and made a promised to Heaven that I would surely go to the next Workshop.

However, my father underwent surgery and was alone in bed in pain, but because I promised Heavenly

Parent that I would attend this Workshop, I participated... applause. During this Workshop, Heavenly Parent resolved something from the past 28 years. I grew up as a Jacob child of an established Blessed couple family.

Although we were poor, my mother lived diligently for the Will. I dearly loved my mother, who loved Heavenly Parent and True Parents with such a purity. Then my mother passed away in 2005, and I wondered why Heavenly Parent didn't take me first, since I lacked faith at that time who loved True Parents until the end and witnessed more diligently than anyone.

Even though in my head I knew it wasn't so, I carried a heart of self reproach thinking I had caused this... Coming to this Workshop, I wept uncontrollably from the opening ceremony. I thought I had come on my own but realized it was Heavenly Parent. There was a message of being truly reborn by being one with True Mother and I wanted that. So, I offered earnest, desperate prayers and Heavenly Parent's Voice came, 'I love you just as you are. You no longer need to blame yourself.' and then I continued to cry like a young child, and realized the reason I could shed so many tears is because Heavenly Parent and True Parents had been shedding so many tears for me until now.

I felt so grateful that Heavenly Parent and True Parents had been waiting for me to come to the Workshop and waiting to love me. I felt the knot in my heart naturally washed away. Moving forward, I would shed more tears and not end with just receiving the love, but try to extend it to those around me doing my best... applause

HMH True Mother thank you, I love you.

HJ Report

Director of Education Dept

So we are here centering on Pres. Lee Gi-seong and we offer this prayer meeting of 1,499 devotion. So, now I would like to offer, please receive True Parents's Gift set in 2026. The lunar New Year is coming and I hope brothers and sisters share in some gifts and have a good time. The gift True Parents are sharing today will be a CheonBo Gift. So, it's written on the screen where it says 2-day Workshop Branch Providences, ancestor Blessing, liberation and 40-day and True Father's Message:

The CheonBo Providence is a gift connecting the ambilocal cord, connecting each Branch by making knots at each segment by tying the branches together, connecting Mother and ourself that can never be broken and by which we receive the Blessing of HMH, the Substantial Manifestation of H Mother.

CheonBo Palsimon... 1346 is the number of those who have participated... Heavenly Parent and True Parents brought the gifts of saving people and bringing the dead to life, resurrection and eternal life, as not found anywhere else.

11,803,665 number on the screen...

True Mother said that the result of devotion must be visible. The Cheon Shim Won vigil devotion, in resonance to the subjective SW was a result. So, why wasn't there any result of your report. So, 4-day trainees saying to me that they cannot see the result of their devotion, but if you look thoroughly at your life, you have received the Blessing result of your devotion.

This is something internal and invisible, but still you were away but came closer, and that's the result of your devotion. Some had their husband change negative behaviors and heavenly work of relationships and witnessing, we see this every time.

So, in 2025, 214,648 people joined the Workshop, and True Father told us the importance of the weekend WSs and the Providence of the individuals and families is further accelerated and the spirits working through the 2nd Coming will become really light and many unholy things will fly away. In accordance, we offer the CY yoksa and for us, if we're registered in the week-end Workshop, all the spirits will go to the spiritual world Workshop.

While you should register every week, some have difficulties and the SW is helping to overcome, by you absolutely must register at least once a month. If we go to SW without any condition, devotion, how shameful, but when we register, they go to the Workshop, but if they have no conditions, they will be embarrassed, but if you register it is good for them. The 3rd part is the 2025 branch WSs, so it was 103.64% rate. It is for the children who cannot attend the main center, and as they are practice all others are connected and SW fully mobilized.

I (True Father) as well as HyoJN, HeungJN, Daemo nim all work there. So, for the members registering for the CheonBo Workshop, is mandatory, and inherited to the nation (194,568 joined the special gatherings in H Japan) all at once to engraft them to the main branch to make connection to True Father from the SW... applause for all the branch leaders and presidents.

We have five special missionaries gathering devotion and revival meetings: More than 20,000 have registered... applause

40-day Workshop necessity is mentioned by True Father so many times. We have the attendance Workshop, Korean / Japanese, International, Tongil mu do... and 2 are long-term trainees... applause

So, devotion is incessant offering. So, whenever I look at Pres. Lee, he is actually in oneness with HMH True Parents's standard and he does not rest until the very end. Risking your life and moving forward with all his might, that is a lesson from him. applause

H Japan, H Latin, Africa, Asia Pacific, there are numerous attending and 2nd and 3rd gen, even they get a cold and cannot go abroad, they offer themselves locally and run forward and over 1,000 volunteer sessions held last year... and we may made the soy bean noodle and here's a video:

While offering holy ground devotion, I had no intention to make any testimony, but a few years ago this brother took 30 minutes to walk, like chained. He was very spiritually difficult, but now after 40-day, he is completely reborn and running and walking around so freely going everywhere...

The motivation for his coming was from 16th spirituality Workshop last September, and I came unintentionally to join the next one, and looking at the 2nd and 3rd gen, we have such hope.

We had 405,000 people and 97.34% achievement. In the SW the GW is a festival event where the SW and PW moves forward. If not even registered, how can you accomplish. Create a path so that the spirits in you can be cleared even if only a little.

This GWs if a grand festival, not just for individuals but for the spirits that are behind all the family matters. It is a place where we can offer devotion for our True Mother also. So, we have 9 CY sessions and all the AGS world will be mobilized and to feel the Great Love. And we welcome special after Cheon Shim Won 1,500 and HJ offering paper, where te record of the sins of ancestors will be erased...

Even our sisters who have AGSs still have the records of sin, and when they are accused, they cannot say anything, so True Parents gave us this GWs to liberate them. If you see in Family Pledge 8, you see the difference of liberate and erased... (?) Our ancestors of the Blessing are just like crystals, brighter than the white snow, and it is such a time of amazing grace of Cheon Il Guk FF commemorating SS and we will join this and we also have a take-off ceremony where we dispatch the special envoys of UPA.

We have also 2 hours of special prayer room prayer which will be in the morning and also throughout the day... and look at this number for special ansu... If you go to the ansu room, they will diagnose your Central suffering spirits through a link also.

We have testimony from Inowh Soshimsa... Even Mother loves him so much and we have his testimony and a briefing training... that many can just join and attend. We have many messages from Pres. Lee Gi-seong... and a book is a compilation of his words and a special session 'Carry Culture Event' and photo books and other events... so please go to the website and register.

We also have the Cheon Shim Won Office fundraising that will be used for the future gen, so please purchase their merchandise... A bus will be scheduled to Seoul and CP Station... If you go to CP Station, it will be announced and a shuttle bus. Also, from the morning at 10:30, there will be the names of our b and s who registered offered to Cheon Shim Won.

testimony... husband changed right after registering... so grateful for the experience also of CY and I will offer myself as a CheonBo family after the 43 families... When I registered, I felt something deep inside was gone, even a few minutes before and already started to weep. My grandfather was crying in gratitude and joy... My mother had some tumors and hospitalized for 3 months and they were saying there was no hope, but my father was thinking not to leave mom in the hospital like that but take her to our home. But still I followed my father and offering HJ papers and devotion at Cheon Shim Won and advanced registration and a month and a year passed and getting healthier...

I feel it, because I have five children, all different, one smart and diligent, one like a hermit... What should I think as a parent, being worried about this child, but offering HJ Offering papers, True Father's registry in advance is very important. So, I started to register even though I didn't come, that child became better, starting to play with the youngest child and with a smile (the automatic H work of CheonBo)

So, True Father told the importance of registration from SW (sorry, I caught a cold)... If you cannot come, you should have a heart of apology at the very least. Thought is a small act of emotion. If your personal circumstance don't allow you to attend, have a family member register on your behalf, or in any way try... and this will give strength to our True Mother.

Today, if we register for the weekend, it can go beyond my family to be for True Mother. The goal is 30,000 for Korea. Last year the goal was 20,000 and we reached 25,000 and for H Japan it's 88,000. It's actually our Rev. Yokoi who made tis goal. And for International 20,000, which is a bit weak of a goal for international, but the continental branches will offer devotion... How about the goal of 144,000... and all our BFs turning up high the devotion, so that all the SW will be mobilized all around the world.

For our True Mother, for Her bail and return to the palace, more than Her temporary release, the SW will work, and True Father (I met actually many times) Who as the special missionary... and I was preparing a sandwich instead of a meal, and True Father just came to the other church and is scanning and touring all the churches, so busy He cannot have a meal in the SW, so we were preparing a sandwich... Looking at True Mother, She was in Her apron making food for us. We are the ones who have to prepared food for You True Mother, but She wanted to prepare the beautiful food for us and still in my dream like this, True Mother is offering this spiritual food of love.

True Father was fishing in a big lake, and I was thinking, such a big fish True Father got with his one hand and saying this is not the end, and pointing and there were thousands swimming like in an aquarium... This is the time of seeing the results of our devotion. True Father and True Mother's Love educating and encouraging us. This is the GA of our life and the harvest. So, please let all the families around the world participate and tower high the great works of Heaven, and I conclude.

Do not complain. Great miracles come from when you endure with gratitude. Now, great miracles come, and through the internet, great technology, word can reach right away. If you are newly attuned, toward the place where Your Parents are, you will know everything They are doing. We have established a system so that all materials can educate your to fulfill responsibility as a BF, and no one can say they failed because they did not know.

They way has been opened for you to fulfill more than 100% of your responsibility. The way has been established based on how you achieve effort and achieve results. Even at this very moment, how many people across the world are dying without knowing True Parents. We must think of our brothers and sisters, who despite living in the same era as us are tragically passing away without receiving Heaven's marvelous grace, which has appeared for the first time in 6,000 years.

We must roll up our sleeves, and rise up powerfully. We must boldly proclaim True Parents and prove that this nation and the world cannot survive without being rooted in True Parents. I believe now is the time to be grateful before Heaven and to make repayment. The model of My Life is how to live today with a heart even more grateful than yesterday, and tomorrow more gratitude than today...

Having a heart of gratitude every day, has been the goal of My entire Life. Just before Father departed to Danbury, He said you must not complain, but be grateful for the position in which you are established.

And when you become completely one with gratitude, great miracles occur.

'Let Us Go Back to True Parents'

Pres. Lee Gi-seong Message:

So, this is the 1,499th Cheon Shim Won vigil. We are commemorating the 1,500th Cheon Shim Won vigil by tomorrow, making a tower every day by the tremendous grace and Love of God. So, we have a gathering of 49,000 people.

Cheon Shim Won vigil devotion is not a place of hardship or pressure but of hope and light and life of God, and the H grace will be connected to our church, so the 700th celebration is a hope grand festival of our church. This was there challenge and also glory to Heaven from this church. And each church will be united and burn with the flame of the Holy Spirit.

Nagano Japan has 168 people, the most people even though it's not Friday (That is like offering devotion like at a time of war)... applause

Also, Sun/Moon University has their 700th Cheon Shim Won Anniversary and 2 other churches have also 700th...

Cheonju Grand Church Pastor Pyon Sak-un Message:

For the past 3 years we're offering and today, the same day that True Mother was released temporarily is the day of our 700th devotion. And we deeply resonate with the fact that our devotion is not in vein. And this 700th vigil will be a stepping stone so that we can go further. We can even jump higher, and this can be connected to our greater leap led by the ceaseless igniting fire of Cheon Shim Won grace and the work of the Holy Spirit will expand and our church will be central to the region. We will continue the tradition of Cheon Shim Won.

All the churches moving forward... True Mother, for Her recovery, temporary release was approved by a court, so we had one of our members from the fifth to the eleventh offer a fasting prayer and right after it, True Mother was released, and he has sent me a message to say that if we move with one heart and Will, amazing work will take place for sure. All this dark energy will be cast away... We should offer devotion like a war... applause

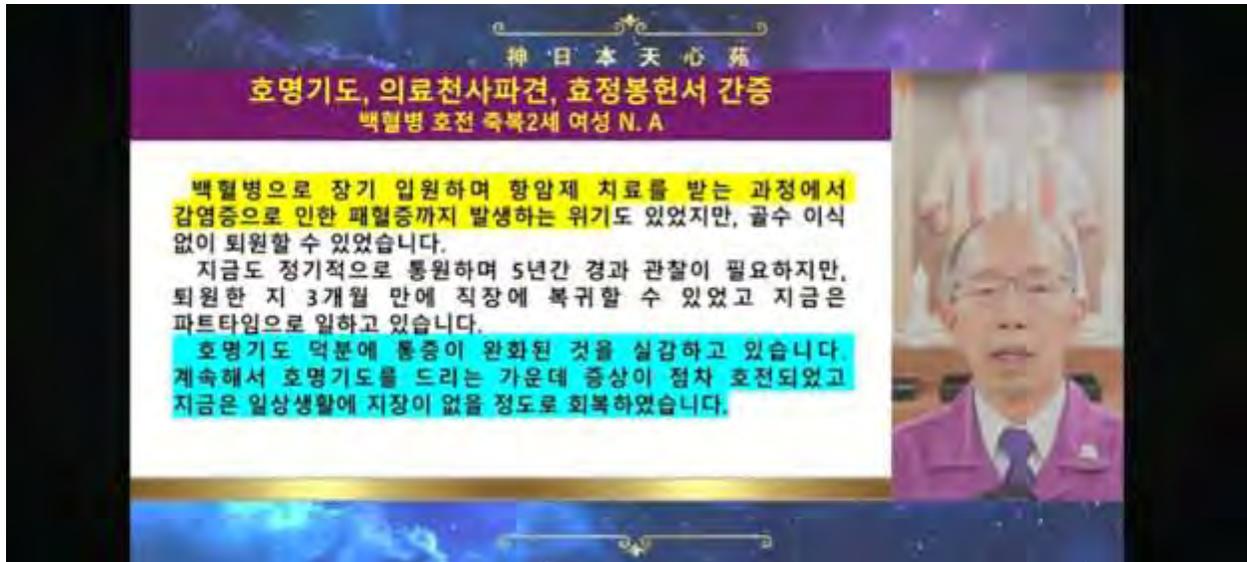

Today, at the Main Branch we have the foundation of True Father, HyoJN, HeungJN and subjective partner SW and objective partner PW, and we also have lots of leaders of Cheon Il Guk to train more...

And gathering are the various Workshop's... 3-day 596 Japanese members and 1,943 in all registered... which was the year of True Father's prison number and True Mother's day of Birth... and the final number was 598... 596 means 'I m resentful' so 598 means 'I want to come back to the mainland of Korea... is the

word play... So, this was a Workshop of passion...

So, the 40-day with one heart and will, we offer devotion and through this video, so many are tears, 1,943 and 598 people... 2,541 members of H Japan will move the whole nation of Japan and a new history will begin. The miracles will take place... When we cry in tears and pray in tears, the prayer will be realized... Heavenly Parent and True Parents, when you resonate with the universe, in a realm of resonance as 2,500 people offering, then Heaven will surely work through you.

During all this time, the CY yoksa with the work of history has heard the testimony of many members. The name Kim Won U, Japanese name Konscu (?)... He was possessed by a spirit, but in a Japanese office, it took one hour, he pissed in his pants, and that was embarrassing but he goes up to the Cheonsongde running... He is the student leader now... a miracle... In this time of adversity, the SW knows the status of our True Parents and we have Director Kim Sang Oh singing 'I Love Your More than Myself'

Heavenly Parent loves me more than self and is suffering and crying more than mine... True Parents worry about our weary souls and eternal life, for us to be the sons and daughters of God, They offer Their Blood and tears, also our biological parents love us more than themselves.

The love of the mother we cannot see anymore, and Kim Song oh... his mother passed and he could not even speak more and we should lead such a life of loving Mother more than myself. My object partner should be and our children should be the ones, even Cain children, loving them more than myself. If we just love our own children more than myself, it's just a church, but if someone loves the tribe or nation more than self, they become a patriot of Cheon Il Guk.

If you love more than yourself, the SW will set the condition to move forward. When we offer the testimony, instead of True Mother, I am okay to sacrifice myself. That was amazing testimony of a 22-year-old to do anything for True Mother. Because loving someone more than myself, walking this path, just like Jesus loving Heavenly Parent more than Himself, and then walking the miserable path. If you become such a person, you are a happy person and substantially walking this in a practical way, and all BFs will be the owner of Cheon Il Guk like the Pledge.

Then all people can connect with the honor of true love. We also have the Workshop trainee going through the adversities in elementary school and the teacher saying to the whole class that his mother is Japanese... Our brother Anhyol as the speaker of our church will go forth...When he moved and went to military, he disguised being a Unificationist, but did not disguise later when seeing how his mother was offering such amazing devotion and came to hear of his mother's kidnapping of the relatives and made a great resolution...

In resonance to our Heavenly Parent and True Parents's Heart for 24 hours for the bail and release of our True Mother, they were collapsing from the exhaustion... This is tough to do... He thought he would never do it more, but instead he decided to add onto it and registered for the academy. And 36 trainees set up a new journey yesterday.

Seeing the video... then going back to your communities offering even greater devotion, then amazing work will take place.

The new song by MODU 'Even the Time Passes, our Love is eternal. Let us offer the devotion to touch the Heart of Heaven and even in Heavenly Parent Japan, there will be a revolutionary wind of Heaven blowing in H Japan.'

So, we also heard testimony... His son as a freshman in high school called and joined and resulted in witnessing to his friend. A Seonghwa 21-day Workshop changed him so completely. So, there will be amazing fire of youth witnessing.

After his son joining and herself joining, has resulted for 20 years and why did you take my mother instead of me (such a filial daughter. We need to deep dive into the state where we cry like a young child. But we think we know everything, that we're smart enough, but how much are we evaluating the Providence of our True Mother. Just empty yourself. Make your hearts vacant to receive True Mother and there's no place of happiness like this. It is not a suffering or agony, but such a comfort, when you cry in resonance with Heavenly Parent's Heart.

When you have your Seonghwa, it is crying like a child but the final comfort comes at last. And the Love of our True Parents, made all the resentment vanish, and she made resolution to express to the world that this is an Able God of bestowing grace. So, we also has a HJ Report about the winter Great Works. This is an annual GWs Tae Ok Sah that is a full mobilization of the history of Providence.

So, he went to the SW and how much would he work to realize the full history of restoration. After True Father passed it was more than 12,000 registered for the FWs. We reported this to True Mother and She said, 'I'm here in the DC, so you become one with True Mother' If we don't unite as one, then what will happen to True Mother' so we need to worry about what we are doing. Because we are alive and not scattered but united, we need to prove that...

We are preparing a treasure for True Mother to surpass the number. Filial sons want to give power to True Mother. If we bring the result of numbers, we hope that all this CheonBo people in the community will bring the result and reach the number of 144,000... That is up to us... So, our vigil devotion tonight is very important... I believe that.

So, before, there was a million as our goal. This year is a time of adversity but we will do our best... not just 1 million but 3 million and more, fulfilling the Living Work of God. It's not about the circumstance but is a sign of our devotion. A Providence where we should be one with our True Mother, and restore our tribe and nation. This is the reason where the great result will come, the time of difficulty, not by our strength but by clinging to Heaven, not by humankind strength but God's Power, God's Spirit, not human power.

If we are full of resentments and anger, that is not the way (True Father said before going to Danbury, do not complain but grateful for the position in which you are established and be completely one in gratitude for the miracle. If you unite in complaints, that is not the way. National leader, thank you... not focusing on the problems or any complaints or all the dark realms will be attracted and mobilized with you...

Oneness with gratitude, with Cheon Shim Won vigil, True Mother still offers prayer and praise... 'Measureless Blessing Divine. God gives eternal life to me. Perfect rejoicing is mine' Are we rejoicing... The third and fourth verse of the CY Song... Glorious the song ringing in my heart for my God above, gratefully I give offering to God... triumph and glorious love...

True Father is working. True Father is alive. True Father, we heard various testimonies of rescue. True Father kicking our ass off, to rescue us from the work of Cain. How did Jesus work through the Apostle Paul. Heavenly Parent rescued that. Shin Song de quan se... HeungJN the commander of the SW, the full mobilization can be realized. We can offer the complete, perfect condition on earth to mobilize the SW. We must do that on earth. It was 98% that needs to be 100% so that the Heart of Heavenly Parent and True Parents comes into you and there will be a definite change to your and your families and communities.

... 25th day 12th of the 23th year of Cheon Il Guk and exceeding 144th day of True Mother in DC and TY to allow our 1,499th Cheon Shim Won...

Tonight, the first day of True Mother's hospital schedule and we earnestly pray She may spend this night in peace... Although in severe pain, She said She is fine. Please let us be filial children to resonate with True Mother's Pure Heart and be more gathered for devotion. Please work through us Heavenly Parent. True Mother difficult to even stand, and She traveled throughout Her life to every corner of Her Life.

Because we failed to fulfill our responsibility, we cannot but repent and before the Substantial Holy Spirit, HMH that Heavenly Parent sent to this Korean Peninsula. She worried what indemnity this nation will face for failing its responsibility... children who attended her from close distance but think only about their own safety, She continues to endure and be deceived.

True Mother knows how great denying the Holy Spirit is and gives us opportunity after opportunity and paves the way even now with Her severe suffering... We pray for the long-overdue treatment, She may then return to the Palace. Although lacking in the eyes of Heaven, we will not give up and will unite with the Inheritors and 4PF True Father...

We pray Mother's suffering can end in greater victory. Heavenly Parent Who is full of Love, please bestow great Blessing and protection of the members gathered at DC and all the members... We pray for the bail and complete vindication and release of HMH
