Commemorating this 1,500th Cheon Shim Won Devotion

True Parents Who always embraced Your children with warm Love, because that Love is so infinite, perhaps we have taken it for granted. True Parents pray for their children, endless Love for their children, endless love of Mother Who kept the night praying to save Her children have allowed us to live today.

The devotion of Cheon Shim Won began with True Mother's Tears, after sending True Father after a Life-long path of True Love and She went the path of devotion we as children should have went. True Mother has silently walked while waiting for Her children with infinite Love and Patience, silently walking the path of hardship to fulfill Heavenly Parent's Dream, trying to find the single needle in the midst of a blinding sandstorm.

Cheon Shim Won is the Office where True Father and Heaven works, and the warm embrace of a Mother Who gives Birth to new life. The warm embrace of Cheon Shim Won is a gift of hope bestowed before all humanity, gathering the Love and devotion of True Parents.

True Mother: Why is Cheon Shim Won prayer important? It is so that Father can extend out the environmental realm that we must expand for Heavenly Parent. Do you understand? That is True Father's Wish and the wish of humanity. Therefore, pray earnestly at Cheon Shim Won, saying, 'I intend to visit such and such a place. Father please be with me. Please show the power of Heaven.' Offer devotion and prayer like this, understand?'

True Parents of HEH Who achieved victory on this earth through infinite patience and investment, They emphasized the importance of devotion to unite the spirit world and the PW and offer devotion.

With Truth and Spirit to prepare for this era, the Cheon Shim Won has reached its 1,500th session. It continued without ceasing for 5 years and has become a foundation of faith for True Mother. True Mother continues to emphasize the importance to this day.

True Mother: 'One can say that Cheon Shim Won Providence is importance. It becomes the root of faith that does not shake, that you must experience for yourself.'

The vigil devotion which began to fulfill True Mother's Words is being continued by members worldwide centered on the 4PF of True Father and the Inheritors of Heaven's Love and Blessing.

Because we have gained power and can walk forward with a stronger spirit and testify of True Parents and these works I believe will happen all over the world.

The special vigil which began with the resolution to fulfill True Mother's Words is being experienced by

members worldwide centered on the 4PF of True Father and the Inheritors.

Yeon Ah nim... 'She expressed Her Heart of truly loving the members and I believe that you will unite as one and do well' True Mother said this.

Moon Sook nim 'I wish that all can unite and live well.' When She thinks of us, She has faith in us, and looking to bring ease to True Mother, I believe is the greatest filial piety we can offer to True Mother.

The responsibility of Cheon Shim Won and mission that She had given us... the Spirituality Workshop trainees surpassed 2,000 and have stretched out to the five continents, and from here and there worldwide, the spirituality WSs are being conducted.

Shin chul nim: The persecution that is being aimed at us can hit our hearts and may get us down, but Truth will surely be revealed. No matter how long it takes, the Truth will surely be revealed, and that is why we must more boldly stretch out our chests and testify of Heavenly Parent and testify of True Mother. For us She has carried all of the weight. And right now, She's in the Detention Center. We must testify of our True Mother.'

Hoon Sook nim: The International Spirituality Workshop every day offered HJ Praise, and tried to understand how great the love of Heavenly Mother is. Reaching this 1,500th devotion the Seonghwa Workshop students became one Heaven's Heart and made the determination to live the life of public mission. And as a future generation, they are fulfilling the victory of HPs. Let us move forward with Cheon Shim Won prayer.

Shin heung nim: Let our lives themselves become Cheon Shim Won devotion. Let our lives become testimony of True Parents. Let us be such lives.

Hoon Sook nim: Upon the earnest devotion for True Parents, we will gather our prayers and sincerity so that True Father can truly work, and we hope that all can become a comfort to True Parents and a joy and a victory.

In this era of living together in attendance to HPs, together with the righteous people prepared by Heaven, let us move forward to the future of Cheon Il Guk. Our eternal True Parents, Victorious True Parents of HEH, we thank You for the Grace and Love that has led us to the 1,500th vigil devotion.

Greetings and gratitude

All and Pres Lee and all staff invested in this devotion.

As a foundation was being established, I am glad that Mother is receiving medical treatment and we will offer more devotion for Her release.

Meanwhile, there are many miracles happening in H Japan. The lecturers and grace of calling out by one of them is this testimony... S Tokyo area begins by receiving the status report with a dispatch of medical angels after which the contents of various prayers are shared for trinity leaders and district leaders... First is severe heart failure healing, where a half-day delay would have been irreversible. Went through my surgery thinking no matter what, I could know I had lived a life of gratitude. I could hear the angels whispering something to the doctors during the surgery and it was successful...

Next is healing for leukemia crisis... thanks to the calling out prayers... and now it does not interfere with daily life...

Another disease with medical angels and church members calling out and the doctors said it was a miracle... 5 members like this...

Upon the foundation of the 1,500th vigil, H Japan will run forward powerfully making 2026 a year when many good things happen.

Dr. Ki Hoon Kim: Gratitude, all members gathered to pray for the health of HMH True Mother.

Great Words in New Jersey and Belvedere Church held with great success. While 550 members were registered, even though we were hit by an extreme snow storm and cold of 15 degrees below. However, the heat of our GWs was so intense, we had to open all the windows.

With leaders of special messages from Demian Dunkley, Vice Chairman Kagicuri and District Director Na Oh Kimi, followed by Secretary General Ryiuchi and moderated by Justin Okomoto and Pastor of Belvedere Church. Many participated in the ancestor and collateral liberation ceremonies for the first time.

According to the local members, a large number who had not attended church recently also participated

and expressed amazement that that over 550 members gathered and by Zoom this time.

At the collateral blessing ceremony Vice Chairman Kajicuri offered a report prayer to Heavenly Parent. There was also a special ansu session, and we were able to conclude with hearts of sincere gratitude.

Beloved Cheon Il Guk members and leaders around the world...

Today's HJ Weekly continues from last week... with the milestone of 1,500th devotion with our hearts heavier and more earnest than ever before to find the path of how we must be one with MHM at heart with the following testimonies, and previously H USA, imbued with the precious foundation of Heavenly Parent and True Parents... Dr. Hendrich's conveyed a precious reflection with the true purpose and meaning of this Providence.

Our 1,500th devotion can be completed even more gracefully, when we understand well. Let us listen to the deep resonance, the formula for miracles prepared by HPs.

Rev. Hendricks of USA... TY everyone joining this sharing... I want to share from blessings and inspirations gained from the Feb. 7th CheonBo ceremony, the GWs on the 20th day of the 12th month of the H calendar was a great experience for me. I'm praying very much for my collateral liberations and blessings. And I feel that they are more than ever having a wonderful experience in the 100-day Workshop and the 40-day Workshop in the SW.

I invited them to connect with my and He-yong's ancestors and visit us in our home for returning resurrection. Also, we liberated many resentment spirits from ourselves and one grandson. I feel light now and more serious and thoughtful. And I'm investing more heart in everything I do. Most of all, I feel gratitude all the time for everything.

In the Chanyang, I feel hundreds of resentment spirits liberated, so I am hopeful to liberate all 3,200

resentful spirits that are in me. I was inspired by the opening address by Pastor Ushiroda, reminding us that the purpose of Cheon Shim Won ministry is so that we become more loving. And as people of love, we inspire others to join the Cheon Shim Won ministry, while not judging others who have not joined yet.

Also, Rev. Kajicuri's address was great, telling us that in 1996 Daemo nim said that the purpose of ancestor liberation is to heal family relationship problems and create healthy families.

Bishop and Mrs. Kim provided dignified and sincere spiritual leadership for all the ceremonies. They are a strong and stable central point for all our Cheon Shim Won ministries in the US and Canada.

I was so grateful to be on the premises. I was at Belvedere, where True Parents and True Father lived and gave so many historical words and love. True Parents's and True Father's love and heart are alive at Belvedere.

In reflection I recall Pastor Ushiroda's words as he began his welcoming address. He saw that the Clifton, New Jersey Church Building was overflowing with people, and he compared that with the attendance at Sunday Service. He asked, 'What are we doing wrong?' The words of Daemo nim that Mr. Kajicuri cited are the key. 'The purpose of spiritual works at Cheon Shim Won is to heal family relationship problems and create healthy families'

By solving problems in the SW, we solve them in the PW. This calls us to unite the local Family Church in the PW with the work of the Cheon Shim Won in the SW. The simplest and most direct way to do this is to bring elements of our Cheon Shim Won tradition into our Sunday Service. This is my reflection. It would be the answer to his question.

What we are doing wrong is that we're not connecting our SS with the SW GWs ministry to heal family relationships and create healthy families. We can begin by focusing on the universals of family life that connect the SW and the PW:

There are the ceremonies of birth, marriage and death. We can celebrate these as part of community worship. We can also celebrate and support the ongoing path of marriage and family life, which is what Daemo nim said is the purpose of Cheon Shim Won.

Parents and children hyojeong centered on Cheonshim education.

This compares to the 100-days Workshop that spirits attend after being liberated. We can integrate this into our weekly worship. Husband and wife jeongseong, centered on Blessing education. This compares to the 40-day Workshop leading to our ancestors or collateral spirits' Blessing. We can integrate this into our weekly Workshop.

Our teacher Ryuchi Kushimoto taught us about returning resurrection, centering on the Hyojeongwon in our homes. This builds happiness in the SW together with our family at home.

True Father, late in His Life, called for the association to unite the SW and the PW. That means the unity of the Cheon Shim Won and the Family Church.

Thank you Bishop and Mrs. Kim and all the Las Vegas staff for your inspiring Heaven and Earth Cheon Shim Won Ministry. God Bless you. Thank you. applause to True Parents for the grace of Cheon Shim Won and GWs...

Testimonies

Young member in a 4th gen Christian family. Why did she choose the unfamiliar path of the Unification Church. Here is the testimony of confession of hope, encountering the Tears of God for the first time, having previously only known the God of Joy, and how her deep Christian roots met the Heart of True Parents through burst of passionate prayer and praise.

I was born into a family that has kept the faith for 4 generations in Christianity, and I'm a first generation member of the Unification Church. I received the Blessing this coming April 12th. applause

From a young age, I only attended church every week and Wed. and Fri services whenever there was opportunity, even in senior year of high school, despite lack of sleep, I attended because my faith was so important to me.

A brother: I once told my parent to go meet the True Parents themselves and check for themselves... before calling them a cult, then you will know... My spouse to be said, 'Why are they so kind and good,

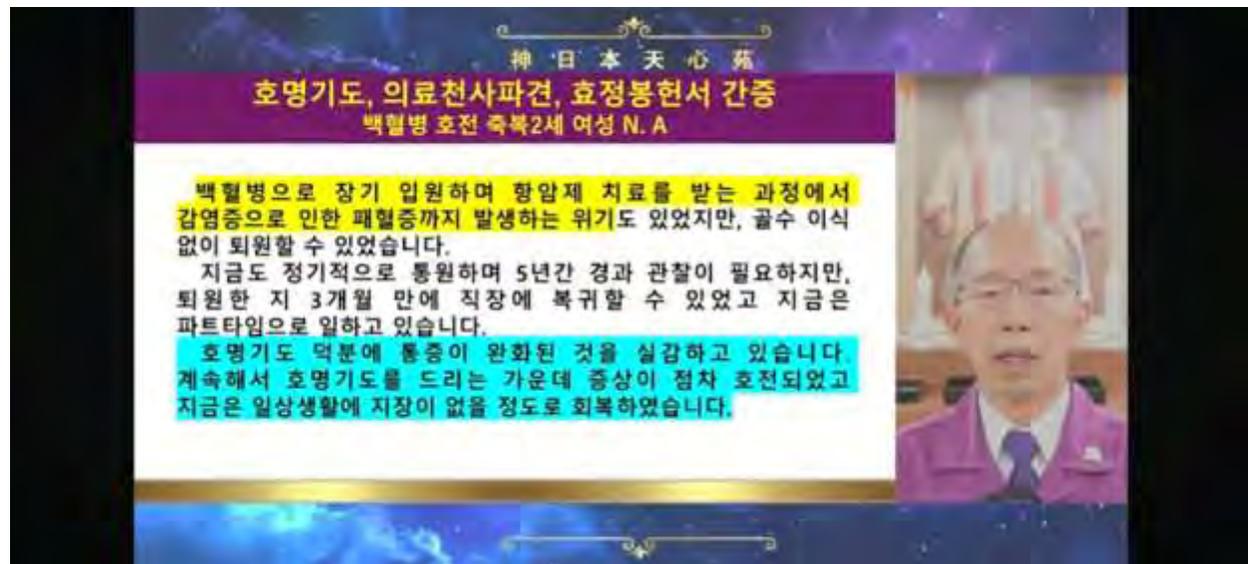

and a place compared to society where only pure people come.

the sister: I want to testify about the change in my faith and heart while receiving the 40-day Workshop. At first I felt at a loss. In my existing Christian saying Unification Church is heresy and so many negative stories, but a great turning point arrived the moment I met my life partner, considering marriage... He was a 2nd gen and I resolved to get to know more to be together with him and went to the 40-day in the process.

My mother is devout Christian more than me, and opposed with all her might, but I persuaded her well, saying let's just finish this and say goodbye to the Unification Church, I told my mother. I said to him I was angry to be asked to go, but thanks to it my roots grew deeper with a new understanding of God, thinking only of God of joy and love, however, he was waiting and grieving for our return due to the fall. I didn't fathom the Heart of the one I claimed to love so much, and I weeped and repented the day I realized this, and I began to understand even a little more...

Originally, I thought I would just listen to the lectures and not do anything else, but joined the choir and even leading and shouting from top of my lungs at the front, and led praise in the CY yoksa and felt even deeper grace and gratitude and gained the conviction that the Lord is with our community.

Especially with the Blessing approaching, I realized this is a precious grace given by Heavenly Parent and True Parents, and made a resolution to form the family God desires.

I wanted to speak about how moving the love of Unification Church is and how much Christians have learned from it, and let the Unification Church members know that their faith and conviction is enough to move Christians, and if my mother hears this ideology, her mind will surely change.

I am sad that my father passed without knowing Heavenly Parent and True Parents...

The brother, TY so much for having a passionate life of faith than me and not refusing anything and being the one to tell me, 'Let's work harder.' For this, I lvoe you... The faith and love and holding hands with my beloved partner, sustains me. All barriers can be crossed with love.

Next, a wounded 2nd gen member once trapped in a depression so deep she wanted to give up on herself. After pouring out resentment toward Heaven, she finally realized through Cheon Shim Won devotion about the scorched Heart of the Heavenly Parent Who had been searching for Heavenly Parent.

She realized that tears are the smile of the soul.

Living in this world, wounds from the family, school and public officials from the church, were deep in my heart and I was diagnosed with depression, wanting to jump from high places or out of cars and inflicted self harm and had hallucinations and when discharged would speak like that again and, 'Why don't You do something for me. Why haven't You done anything for me, and taking medications.'

Then I Song U Director said, 'As an elder, I am sorry. Heavenly Parent must be grieving as well.' At that moment I realized I was mistaken to think Heavenly Parent allowed me to suffer these hardships because He didn't love me. Gaining courage from this, I attended the 265th 40-day Workshop. I prayed desperately for healing and lived a heart of gratitude. My life changed to refreshing healing and I received consultation from Director KIm myung wok, and she gave me homework of 40 bows and HD and steps daily.

To practice this, I felt much closer to True Parents and couldn't stop crying when I thought how long Heavenly Parent endured just to find me. Now, You have finally found me. With what kind of agonizing heart scorched black did Heavenly Parent suffer looking at me each day, seeing Them endless with Heart torn to pieces. So, I spent my days offering prayers and repentance and devotion.

(drinking at the rock and water fountain) I felt happiness I couldn't contain and hadn't felt before. While feeling happiness and gratitude, my past mistakes passed through my mind and I felt truly sorry with tears. I didn't know what to do with my body and mind, feeling all at once how my parents loved me and constantly reach out to me, even I pushed them away. I didn't know I could change this much and I began to forgive those who hurt me, and feel a heart as never before and I would never give up on my life.

I had denied, criticized and turn away from Heavenly Parent, but tears are the smile of the soul... applause of encouragement

May this testimony bring many 2nd gen to embrace of our True Mother...

Next, Matsio Mayu testimony who fought a resentment spirit from a Dynasty and made victory.. My subject partner told me he could see countless resentment spirits behind my body, and I realized he had been suffering from vomiting and high fevers, tears, every time he interacted or met with me... it was pain for him.

I asked, 'Mother, what should I do?' and Mother said to go to CP, but arriving there my fallen nature overflowed in my stomach. Even if I had to risk my life, I wanted to make my partner happy. we had never spent a single happy day together. But on the 37th night, I met a spiritually sensitive 2nd gen girl. My body became spiritually heavy and my health deteriorated. Then I thought the girl was suffering by absorbing my spirit. I wanted to help her, but then dark spirits rushed into my body. My neck began to twist... and trying to sleep, a terrifying face of a spirit would rush at me.

I thought about suicide many times, wanting to jump from the sixth floor of the Magnolia Hospital. My body became taken over by the spirits, unable to speak or move... and at the mental ward there a spirit named 'Sayong' began to appear, a female spirit with deep han. She said a loved one was stolen from her by the ancestors of the Matso family, and she can never forgive, and she tormented me every day and kept my mother and aunt from sleeping.

Mr. Kim Dok Su told us we needed to offer 60 spirits' liberation. A woman from the Chosun Dynasty was seeking revenge. I thought there must be a connection between the Japanese ancestry and the Chosun spirits. Upon deep counseling, I found that Mayu and her mother and aunt were all exhibiting common behaviors caused by resentment spirits' work. (Kim Myung wok) I told her to offer 270 bows and 40 minutes of Hoon Dok Hae and walk three laps around Mother's Path.

I did this and prayed, 'Mother, please save me. I said I would save my partner even at the cost of my life, but this is so hard and living is so painful that I feel it would be better to die. Can I live? If you save me, I will surely use this body for You and never again betray. So, Mother, please guide me so I can be grateful for receiving this lie, and offered devotion in unity with my mother and aunt. Then Sayong began to change asking, 'How can I leave this body? I also want to receive the Blessing? I want to know Heavenly Parent and True Parents and leave this place.'

After 21 days, Sayong said, 'You all be happy. TYSM for offering devotion for me. I no longer hate Mayu. I will leave your heart now. I am going to meet the subject partner Heavenly Parent has prepared for me.' Wishing for her happiness she and many other spirits left my body. As they left, many were screaming, and I collapsed. My mother desperately tried to support me as I fell and the spiritual GWs continued for 3 day. But at the end I miraculously survived. True Mother, I sincerely thank you for saving me. I love You with all my heart.

Kim Myung wok... Afterward she showed such sincere faith and is #1 at her store and is attending ballet school...

If we offer devotion even the resentment spirits are moved...

Testimony... vision of True Mother leaning on her, exhausted with severely swollen hands and shoulders worn out. See that, this daughter decided to hide no longer and boldly declared before the world, 'I am a 2nd gen'...

'Especially, after the incidents in Japan, simply being from a Korean/Japanese family led co-workers to ask, 'Aren't you a member of the Unification Church?' and I was so scared, unable to say a word' Walking the path that True Father walked, I worried that I myself was part of the heavy burden of True Mother.

'Mother, what can I give You? What can I resolve?' And a vision of True Mother looking utterly exhausted was leaning on me, Her Hands (tears) were swollen and shoulders so stiff and worn out.

'Mother, (I couldn't stop crying to see Her so Physically broken) Is Your Body okay, and She simply gave a smile and said, 'I'm fine.' What am I afraid of. I have been running away from my friends, hiding Mother's identity, failing to fathom Her Heart and face the fact that She was carrying everything on Her own. I was such a person, but I don't want to make Her suffer any more, all by Herself.

On my Instagram, I began to write, 'I am a 2nd gen member of the FF'. At that moment, I was so scared and thought should I stop revealing this and stay silent. But in my mind, I saw the Image of Mother offering 3 years of Shimjeong Devotion at Pyongnam won and the image of Her coming to lean on me. I want to be a daughter who can support You, Mother. And I was finally able to take that first step.

Mother, I know that the time left to walk with You on this earth is not long. There must still be things I can do to help. Please, let me be a daughter who becomes one with Your Heart and helps You. Please, let me be the small needle You look for. Mother, please wait just a little longer. As Your daughter, I will become someone You can be proud of. Mother, I love You.

Today, we stand on the holy peak of the 1,500th vigil, but True Mother is still walking the path alone, waiting for the devotion of Her children in order to return to the Palace, Her prayers more intense than any war... Our prayers can surely be the piercing devotion that heals Mother's Noble Body and for Her return. Let our earnest become the subject of miracles... and I conclude

Today, facing this 1,500th devotion, centering on our 4PF True Father and with our leaders and elder pastors being able to offer this devotion, grateful. And to Heavenly Parent and True Parents, we return glory to You.

Today, for our True Mother, in front of the DC, although the official devotion is not happening, centering on Song In Yong of the Ansan Church, they are still offering unending devotion, and I received his message:

Today, the Main Hall is full and here at the DC 2,600 members are offering devotion together and 559 long-term and (names churches)

If our devotion were more earnest and powerful, we wouldn't be able to face what we are and after Entrance, we would have been able to take flight.

Passing the 1,500th slope, we must make a new start...

For the great victory of this GWs, Heaven is sending us many messages. Feb 6, we have this message:

This 1,500th devotion is one that becomes one for Mother and faces new dedication and resolve and all the spirits will come down and grace will be a different dimension and cooperation of the SW, especially centering on our future generations and to put a drive on our Providence for the nurturing of future generations.

Seeing our 2nd gens sing Way Maker, you probably felt their resonance with Mother. Now, the SW will become one with Mother and move forward with spirit and truth. Mother, bestowing upon us the Cheon Shim Won, it will surely be filled with spiritual works from corner to corner of this world and Heavenly Parent be alive to work, so you must educate about the existence of SW, and with Cheon Shim Won each of us must come to our senses and move forward, with absolutely being humble and with absolute gratitude, we will be able to grow and achieve.

another message: You must understand the importance of this GWs at the first Anniversary of True Parents's Birthday overlapping and the GWs that Heavenly Parent and HMH will personally govern. And the GWs is a ceremony that can liberate all of humanity. Then will you just be a spectator or work with True Mother for H unified Korea and world and let us become one. The SW is watching each and every one of you, and you relatives and ancestors are watching and wanting your to wash their sins and liberate them.

Although society may want to cover our eyes, but is there a resentment spirit that we bow down to, rather there must be true love and the sun rise so there are no shadows, that shrink with the light, where the sun is stable and exists, and there can be no shadow. Under the bright sun of Heavenly Parent and True Parents, I hope you center yourselves.

Because we are going through a time of suffering, do not lose faith in the Providence, the Will will be fulfilled centering on Mother and we must see to it that we be one and show the power of the unity of 2nd, 3rd and 4th gen...

Right now the registration number of members is 75,846 and in H Korea and Japan 58,111... And after yesterday's promotion... 673 internationally... For us to make a new record, I hope all the leaders will give support.

video of the 1,500th commemoration... for me truly touching since being here for the first one and the works of Heavenly Parent... and we could see the miracles in H Japan and I hope H Japan can have this great year of 2026...

Dr. Kim Gi Hoon, I believe can light a H fire. And they showed us the HJ dance, and we were able to see that Jardin truly became a TC. And today, we saw a Tongil mundo performance so beautiful... and Chairman Yu Mun Shik, how much devotion he offered for this Workshop, we cannot know... And there were Visa problems, but even 70 gathered here is amazing...

From now on during vacations participants coming, I believe the status and value of TPS Will be revealed the substance of true love to become one with and then we cannot fail

If ten people go to Sarang I Island would not have come to ruin and the forces of persecution would evaporate like clouds and the righteous would come as clouds, and the shouts for Mother filling the World Peace Center, for this I hope you offer prayer today.

At least now, we offer devotion and I hope you experience those amazing works... TYSM

Prayer and Praise

We thank you for granting Mothers period of release and we believe nothing is insurmountable and we will bring about miracles. We realize once again how difficult and painful the path She walks and our sincere apology and we are so lacking and True Mother comforts and worries about the members.

We earnestly pray that all the members inherit that essential true love of Mother. In 2008 with the helicopter crash, the powerful SW working, now with this 1,500th vigil, let us turn the tides... and every moment cannot be wasted at this most tense time in history while Heavenly Parent watches over True Mother's Course. Let us not let this time pass by but be one with Cheon Shim Won devotion so that the darkness can recede and the bright new world open.

We built the devotion built upon 1,500 has momentum of victory. Heaven please help us, please receive this prayer and devotion. Please move the heart of the beloved judge so that an era may be opened. This nation and people are in crisis and let them realize that the only answer to the situations of problems is to be one with HMH...

At this hour, let this voice of tears be sent to the righteous people and sent to the Japan and Korean and American members, accepting this devotion with tears and unity with 4PF True Father and Inheritors and proudly open the era of True Parents. For this devotion allow us to connect the 13th year with the 14th year and offering all these words
