No encore, unfortunately... Right now, You are experiencing a beautiful nation...

last time a video, showing it again...

True Parents Love that embraces this world, perhaps we took it for granted, True Parents Who pray for Their children, the prayers that kept Her up at night with tears. Those prayers allowed us to live.

Cheon Shim Won devotion started with True Mother's Tears. After sending True Father to the SW, offered the unchanging loyalty for 1,095 days to True Father, That devotion that was supposed to be offered by the children was offered by True Mother and set the model of jeongseong and Hyo Jeong.

True Mother Who waited for Her children endlessly with the Heart of trying to find a small needle in a sandstorm, to achieve Heavenly Parent's Dream walked this path of suffering and difficulty. Cheon Shim Won is the Office of True Father and the Womb of True Mother, that brings about new life. In Cheon Shim Won HQ of devotion, Heavenly Parent's Love and Devotion is gathered, and it is a Gift by our True Parents.

Why is Cheon Shim Won prayer important? We are supposed to expand that environment that is so radiant that True Father can work through its radius. That is the Wish of True Father, and the wish of humanity.

So, you must desperately call out to True Father, F today I am going... Father, please be with me, please show the Authority of the Heavens. Like this, you must offer prayer.

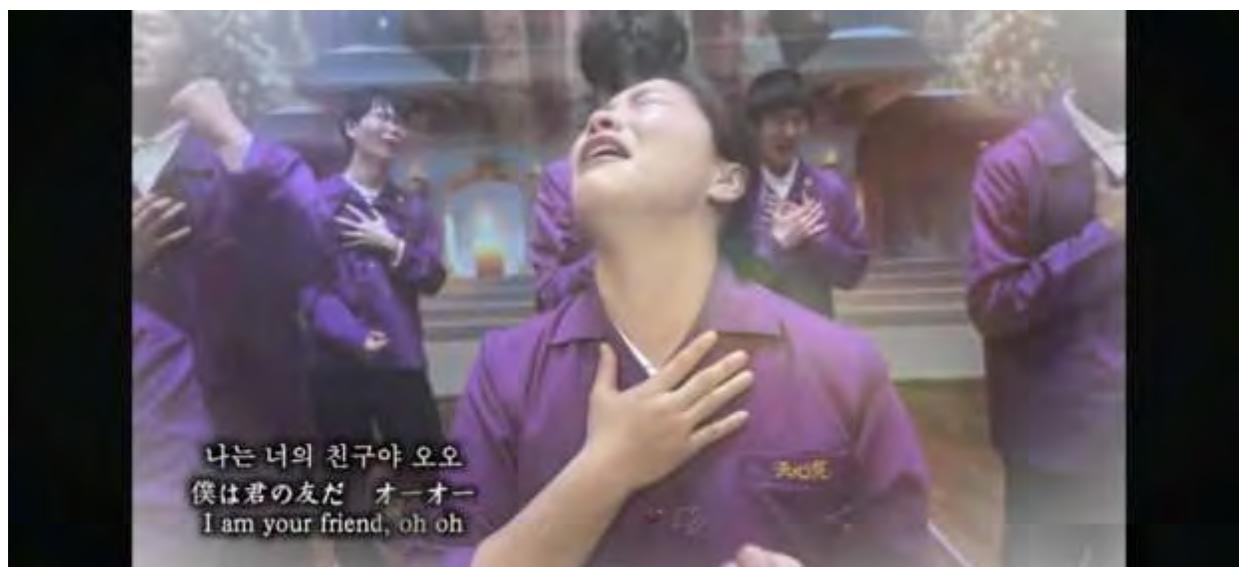

True Mother, for the realization of One Family Under God, emphasized the importance of devotion that brings the SW and the PW to unity and emphasized us to offer Cheon Shim Won special vigil devotion, with Truth and Spirit to put Cheon Shim Won devotion into practice. Now it has reached its 1,500th Session.

Over five years, this Cheon Shim Won devotion that was continuing non-stop, it is how our devotion reaches the Heavens, and even now True Mother still emphasizes the importance of Cheon Shim Won Special Devotion.

True Mother: We can say that the Cheon Shim Won Providence is all-important. It becomes the roots of faith that do not waver. You must experience it for yourself. Our prayers and praise of determination toward True Mother, allow us to walk a step further to the ideal world of One Family Under God. Cheon Shim Won devotion is a gift so that our faith can grow ever stronger.

Pres. Lee Gi-seong: Because we gain strength, we will move forward more boldly, and we will offer ever more powerful prayers and the works of us testifying about True Parents and boasting about True Parents will come to this world.

The Cheon Shim Won devotion which started with the will to fulfill True Mother's Words, centering on the love of the Inheritors, Shin chul and Shin heung nim, the members of the world are becoming one centering on devotion with tears.

Yeon ah nim: True Mother expressed Her Heart to Love. She said She believes that with Her Love for our members, they will unite and become one.

Yoon Sook nim: True Mother says that if we unite and live well, becoming one, when She thinks of us, She has faith in us, and living up to that expectation so that True Mother does not worry, that is the greatest filial piety we can offer.

For nurturing our future leaders, our Spirituality Workshop has surpassed 2,000 trainees, and now it is expanded to 6 continents.

Shin chul nim: Those areas of persecution may hit our hearts and may bring us down, but the Truth will

surely be revealed. No matter how long it takes, it will be revealed. That is why we must walk boldly, straighten our backs and put forward our chests and testify about our Heavenly Parent, True Parents and our True Mother Who is in the DC.

Through the pure water youth we can experience how great Heavenly Parent and True Parents love is. Cheon Shim Won is leading us toward True Parents Heart and victory. Let us move forward with Cheon Shim Won prayer, so that our lives themselves can become Cheon Shim Won devotion and in the end our own lives testify about out True Parents (Shin heung nim)

With lives that continue on with true love, each day of our lives becomes a mighty page that contributes to fulfilling Heavenly Parent's Dream.

With unchanging hearts, all the devotion we offer will become comfort to our True Parents, and we wish that it could bring Them joy through victory. This age when we substantially attend our Heavenly Parent, the Creator, let us attend our True Parents with the righteous people prepared by Heaven. Let us move forward to the future of Cheon Il Guk, our eternal True Parents, our victorious True Parents of HEH, we are truly grateful for the love that You bestowed upon us so that we could reach the 1,500th Cheon Shim Won vigil devotion.

### H Japan HJ Report

testimony: grace to the family of Education Director... Blessing in 2022 and living with my wife and two sons. We live every day with gratitude knowing that these children have been granted through the realm

of True Mother. Since middle school my wife had drifted away and even as a working adult, had resentment to the church. Far from seeking the Blessing, she vowed never to marry and just live a career-centered life. As a result she suffered a hormonal imbalance and was diagnosed that she would have difficulty conceiving.

She went to 40-day Workshop to resolve her struggles regarding her relation with her parents and the direction of her life. At Workshop twice, many spiritual phenomena happened. No longer able to deny the existence of the SW, she participated in the GPP Workshop immediately and met True Mother for the first time, feeling wrapped in immense love. Many tears came as if returning to the bosom of her Parents.

Preparing for the Blessing, there were trials and conflicts with her parents yet to come, but firmly convinced of the SW and ancestor liberation and offering papers were key, she offered all the money she had saved. Still having the same doctor's opinion about having children, she kept going and went to 3 40-days and finally met me as the ideal partner prepared by Heavenly Parent.

Our interaction continues. When hearing again that pregnancy would be very unlikely, she called me in tears. Without any hesitation I answered that its no problem, because I believe that Heavenly Parent desires families, Heavenly Parent would surely grant children to those couples who love each others. Even if it would be difficult, I would still build an ideal family with her, even if we had to adopt.

Conjugal life was not easy, even we learned it was joy with Heavenly Parent, my wife experienced pain and fear and we could not spend happy times as we hoped, and eventually decided to go to the hospital to start surgery and infertility treatments... Then I heard she had a positive pregnancy test. This news was a prize was the greater joy because of the difficulties.

Mother had declared the year 2023 as the year of multiplication from unity. I felt it was Heaven responding to my wife's continued devotion and offering papers every month. Our first born was in August 2023 and I through there would not be more major difficulties, but my wife spoke of the same pain as before, and I wondered if we had to live this way for the rest of our lives, but I tried to remain composed so that my wife would not blame herself.

We began participating in the vigil devotion. My wife unlike me, who did not fully understand its value, my wife received liberation based on the #13 and we applied for all three members of our family. My

wife talked about how we must shake off this energy and help Mother... We went to WSs, my wife the 13th Spirituality Workshop, and we were able thanks to the immense support of our church members.

My wife offered devotion only thinking of True Mother, but thinking that our family problem still needed to be resolved, stayed another ten days at the GWs and received special liberation and ansu and returned with the replica of the Cheon Shim Won and we had our conjugal life where Cheon Shim Won and HJwon were enshrined, and like a miracle, the pain vanished. applause

I was sincerely grateful, and while continuing to offer devotion and we learned of the pregnancy for the second child born May... My life has always been guided by Heavenly Parent and True Parents, and I will walk trying to repay it. After the 4th class of academy and alumni association gathered at the Special Workshop Service to offer praise and letters to Mother at the DC, I felt that the lives of 2nd and 3rd gen could be th hope of the world, and was convicted for education through practice... and hesitated to conduct the education but with Mother emphasizing it, I felt we must first learn correctly and then spread that to the world, and an academy practice began with 20 participants and centered on Chambumo Ron and True Parents Theory, we had programs for witnessing for religious harmony and Peace Cup for North and South Korea and volunteer activities for Noto Peninsula earthquake victims.

During the preparation progress, the Words 'direct children' given during the 9th Spirituality Workshop, with which I participated, kept coming to mind. Exactly 596 days had passed by the end of the Workshop. I became certain that this program was realized because True Father Personally Worked and pushed me forward, and I will empty myself so thta this is a time when HyoJN and HeungJN can personally educate us.

The vigil of H Japan reached its 893rd session today, the day before H Japan reaches it verdict on March 4, which will mark the 900th vigil devotion. Convinced that H Japan will surely soar on the record 85,000 registrations for this winter GWs and the 900th vigil, I conclude the greeting...

## H America Report

Dr. Ki Hoon Kim

surpassing 144,000 b and s around the world, I express my gratitude and centering on Inheritors, being here I believe is a time to offer glory and joy to True Mother. On the video, True Mother, to bless America with Cheon Shim Won came to LV for 3 days offering devotion and established Cheon Shim Won in H America. This is the last Gift and is the greatest hope of restoring H America, and when it becomes March 10th, we have our 1,000th vigil devotion in H America and truly with Pres. Lee and Director Chun Jun Ah, for 7 days, we received Words from True Mother and prepared Cheon Shim Won for H USA, and I express my deep gratitude to Pres. Lee Gi-seong.

I, last week went to Clifton Church in H USA New Jersey, and with about 550 members, despite the extreme weather, for the start of the 14th year of Cheon Il Guk, we prepared the CheonBo GWs, over 500 members, we were connected to Belvedere Church via Zoom--- and last Saturday, week later, at the Han Ah Gung, where Las Vegas is, about 350 members gathered and determined a new start while facing the 14th year of Cheon Il Guk, and I would like to share this victory with you...

First, in the Opening Ceremony with Leader Demian Dunkley, and West Coast of H American Kevin Thompson Pastor was with us. With HJ Praise time and ancestor liberation and blessing, centering on Director Ryiuchi, we offered education also through lecturers and we had a precious time of benediction prayer with ancestor liberation ceremony, and following that, the blessing of ancestors ceremony with about 200 members in a holy manner.

Tomorrow we will have a HJ Offering Ceremony there, and with Pastor Kevin Thompson, we were able to offer the HJ Papers to Heavenly Parent. And in NJ, we had taosa, GWs, and with about 20 2nd gen members, we led our CY yoksa, and this time with our 2nd gen members who participated in Los Angeles and Las Vegas, what a great grace for it to be led by 2nd gen members, not to explain with words how

great the grace...

And we had four ansu members who completed the spirituality Workshop, and through the works of ansu healing, spent a time of inspiration.

Testimony: lungs and nose blocked and in pain hard to endure... received special ansu twice before the GWs, necessary to restore my health and find my indomitable spirit once again. During the ansu, a special Spiritual Presence visited me, and of the deep caring of the ansu members, I experienced Heavenly Parent and True Parents even more deeply, and with that heart I attended the CheonBo GWs over the weekend and prayed earnestly to True Father to help me regain my health and stand up again.

During the praise, True Father came both times and said with a smile, 'Hold on. Wait for the end.' At that moment the sound of the drums changed as if the universe was changed and entering into me. I clapped even more powerfully, continuing to accept that love into myself. I felt as if the love of the universe and the energy of Heavenly Parent were continuously rotating within me. It was clearly the energy of love and of music.

Thinking about how many ancestors would follow this energy of love and music, my heart overflows just by imagining it.

Next, with the successful CheonBo Event in Salt Lake City last July, my wife Wendy and I went forward resolved to continue liberating the resentful spirits of our immediately family and to offer Blessing to relatives who had already departed to the SW. Therefore, it was truly a great joy to be able to participate in the GWs held in LV on Feb 14 2026.

While receiving ansu, I felt my soul much lighter and that the spirits being liberated were so grateful. During the Blessing Ceremony, the hearts of my relatives overjoyed to participate in this H Providence was conveyed to me. I could even spiritually feel them coming down the isles to receive the Holy Wine and Water.

The officiators and all the staff created a truly wonderful atmosphere. It was a place filled with high spiritual energy and love. I received a strong feeling that True Parents are also spiritually present despite various current situations. I sincerely thank everyone who educated themselves for making such a

precious event possible.

(They are the minister family of the church of Utah)

I thank True Mother for preparing the GWs for liberation of resentment spirits in our bodies. I received help through the ansu, with the mindset that I must separate even one more soul. Then the face of a man and the face of a young girl appeared, and I saw people continuously appearing and disappearing. It ended with my body feeling warmer and more refreshed than ever before.

Actually, I was told at the hospital that a shadow was on my kidney and a blister and many bubbles were in my urine, but that disappeared... And although monitoring continuously, I am so grateful for Heavenly Parent and True Parents and GWs.

Lastly, as in the picture, while starting the Cheon Il Guk 14th year, we started our 14th Spiritual WSs and centering on Director Giuchi Kodan, we had a limit of 60 registrations, and as America is the Eldest Son Nation, for us to fulfill our responsibilities, our Japanese members are standing on the front line and conducting this Workshop, and from Feb 18, it is starting and I hope you will register...

churches rundown list of the year... 1st Place Cheonon Grand Church 15,575 participants through the whole year...

Cheonshim Weekly

Last week, we crossed 1,500th CSWs and we continued. The reason we gathered, forgetting sleep, is to walk the path of our Mother Who is enduring suffering. The world may turn a blind eye to our prayers, but Heaven knows our devotion and will surely work through it, and today we will face everything accusing with distorted media and the burning tears of our Mother's Heart.

Here is the righteous outcry on Jan 25... We had meeting for synthesis, and two from the media said that the news is based on belief that the members are being mind controlled and the only way is for us to raise our voices... Discussion was made of the desirable way the media should present itself, with consideration of the extreme distortion of Japanese journalists... 100% criticism only, no perspective critique from a neutral standpoint and truly this is mysterious.

Ordinary people still believe Unification Church is mind-controlled, and so abduction and deprogramming is justified and the court does not even have to listen, and misunderstood as not having even a human heart, and every believer must present a counter argument.

This abnormally biased view or not reporting at all. Isn't this strange. If you are a reporter, report properly listening to the other side as well. Since the Unification Church made it's compliance declaration, there were o problems except when the media continued to report such bad things. It is necessary to continuously claim how unjust and strange this situation is.

For the media of Japan and Korea to reveal solely the Truth, wishing for that day, applause...

Members, when is the moment when Heaven moves. It is when the number of people kneeling in prayer

increases, as the KCOC Chairman emphasized, it is not the churches last resort, but the very first thing to be done before all else.

When we completely entrust the HMH True Mother to God and pray, only then will the Gates of H open and H will listen.

At the moment H moves is not when words increase but when the number of people praying sincerely increases... for God's miracles to occur, with our belief and prayer. 'If you pray, I will act.' Prayer is not because we are a church, but the work of a church is prayer, showing us how the early days of the church overcame struggles, the first thing to do before anything else. 'Pray without ceasing' not when you have time or when the conditions are good.

This is the order of God to pray so that H works... H acts when the churches earnestly offer themselves up in prayer... Although human beings can be bound, God cannot be bound and your prayers have the power of the work of Heavenly Parent. So, in Korea, we have this sort of plate that goes in the air and blows away the air that only the rice goes to the person...

We must stay even closer to God in this time. Let us pray for the Mother of Peace in a difficult situation. Today, we entrust the Mother of Peace to God. Guide the Heart and Mind of the Mother of Peace, and let us pray to see how to add fuel to Mother's Flame. The church does not give up and leave, the church prays to God. Even now, God is listening to our prayers and working. Therefore, let us choose again, today this time to pray as ignites by offering everything to Heavenly Parent, and then all is open and the path forward is open and miracles can come.

The church prays to God "... KCLC will pray with you...

Where is the true flavor of prayer... PL conveys the value of tears, not the words but tears that burn with repentance... Together with the 2nd gen we will once again quench our thirsted heart...

PL: When you become one with Mother's Heart with tears and gasp with tears even in the restroom or in the shower, you are happy after crying like that and your spirit is clear. Looking at the 2nd gen, let us say, 'Let me join them in heart and weep all day' Let us wail while singing our hymns... Where no one is around, let us wail like that... Sins are not washed away by the mouth alone, but by tears that give you

revelation and experiences, the works of Heaven that give you conviction of the existence of SW...

Believe that the wailing making True Mother's suffering our own is what cleanses our spirit self. What must we do now. We need prayer prepared for death. Even as True Father said Heavenly Parent is not dead... We must pray prepared for death.

We share the message of Secretary General Anhyoyol who urges us to pray desperately, not anything of violence, until Mother is released as innocent. What we can do now is to pray and offer devotion. That is the answer. Violence is what Communism does. The moment we use it the Value of Mother and Authority of True Parents vanishes and we become just like any other religion.

Our Father was unfairly accused in Heungnam and Sodomon Prison and Danbury as well, with the court insisting that the account of FF was Father's person account. There is only One on our side and it is God and Heavenly Parent... and insisting that Father did not paying taxes for 5 or 600 dollar, and the court insisting that the bank account in True Father's Name was a personal account. But there was a decision put to Him, 'Do you want to leave the US or go to prison?' Father chose the US.

Father said that the Danbury Prison was truly a scary place and sometimes He bumped into the walls in the dark, but Heavenly Parent is Alive and with us... You must truly pray until we become one, until we achieve victory.

Pray for Mother's Thoughts to become our thoughts, and no matter how difficult it becomes, we must be children who pray for our Mother. Where is the path of the Will for our Mother? We must realize this, and engrave it in our hearts and become children who fulfill the Will.

Then where should our prayer be directed to...

It has already been 141 days with our members building a wall of tears outside those walls, leaving their warm homes and crying out with all devotion, an appeal to move Heaven and hasten the day of Mother's return to the Palace.

Hanging on to the responsibility of True Parents, which is returning to the bosom of Heavenly Parent and True Parents, but sometimes we left Her side with disbelief, but Mother's earnest call is that it must be us,

Pres. Lee Gi-seong Main Message:

Along with the SW and everyone here, 1,505th Cheon Shim Won and together with the Inheritors and 4PF True Father and many leaders centering on the World HQ worldwide... now 65,000 people gathered.

West Coast of Africa, our Deacon I Nam Su offered a devotion and I received a message:

I'm always grateful for the grace of Cheon Shim Won from HMH True Mother and from 2026 being able to offer donation to H Africa, this is what my father left behind after a year since he ascended and while praying I thought it would be good for this money for world missionary work, and the stories of Rev. Sakua and the vitamins that True Mother gave him when he was so sick and he gave to us...

I will offer devotion continually for True Mother's return and longevity...

Shim yeon... We asked Song I Po to offer the donation personally, but we had to have someone else. This is not a small amount of money, but his uncle prepared tis money, so come and receive it... big applause

(Branch Leader Sakua)

On the fields, if you offer graceful testimonies, then such works happen. Today everyone participating in the program truly worked very hard, and how hard to staff members work for this prayer...

Today, they told us about the registration of 126 nations and surpassing 144,584 registrations and we are still receiving them and still have to see the end results. Last time, there was a message from SW.

This GWs when all the cosmos become one. True Father's MESSAGE: How much do you believe in the power of devotion. It is mighty. You still do not know the power of the SW. You must understand how mighty the power of the SW is. Those who offer devotion understand that you cannot receive the Love of Heavenly Parent, Who is in the places where devotion is offered.

So, what about the GWs that are in unison with the cosmos. It is a period when Heaven bestows immense grace, and on the foundation of 1,500th devotion, the Gates are opened greatly, and an opportunity that does not come twice is in this Place. The works for HMH will come about in this land, but if the people do not fulfill their R, it is prolonged, but there must not be any more prolonging. And I will show the power of the GWs in the land, and I hope you will receive this grace.

I read this message to you in the past, but astonishingly, we were able to have this result of surpassing 144,000 registrations. And this was not the work of us, but the work of Heavenly Parent and Hoonmo nim and HyoJN and HeungJN and Daemo nim and True Father and AGSs, Their doing and Their work. Have absolute faith in this.

So, True Father gave this MESSAGE to our members:

Do not waver or hesitate. Hold onto the handle and move forward solely looking at Mother. In the midst of the rushing waves, hold firmly on the handle. And if you look solely on True Mother, the path will open. If there are any who waver, you must make a boat for those who move toward True Mother.

In the Cheon Shim Won devotion, we have our own boat. You are spiritual children, and you must embrace the potential spiritual children to ride in the same boat as you, guide them to True Mother, but if

you waver, what happens. So, you must come to your senses, and receive the orders of Heaven and go in that direction.

The 14th Year of Cheon Il Guk will be a year of harvesting, in which I hope you can run forward like blazing horses. And I have prepared H Blessings for all of you, and I hope you can receive all of those Blessings. I have prepared grace for you more precious than any New Year's money. And I hope that you understand the value of this Blessing... applause

So, True Father hopes that this GWs fulfills the fifth Family Pledge, and we must not live with our own thoughts and minds, but for unity have mindset of conversion with the SW. So, how to receive messages from the SW. We cannot explain, but our trainees receive in a variety of ways.

So, leaders of Cheon Il Guk as well must not only pray with their own knowledge but think about what True Mother and True Father and HyoJN and HeungJN would do, this is how we can lead our boat correctly. And may this grace come to us and the release of True Mother. When True Mother returns to the DC, how sad would this be? Let us offer devotions to bring True Mother back to the Palace...
