Opening prayer of gratitude

Most Beloved Honorable Heavenly Parent

Most Beloved True Parents HEH

HMH True Mother, this marks the 155th day of Her suffering. True Parents Who have become absolutely one, but because we could not be one with Her, She suffered in the lowest part, and You most suffer, Your Tears encapsulate Your Suffering more than all oceans, and even in the smallest things, there are TB and S falling of True Parents... Let us not make that in vein and offer our utmost devotion and we truly hope we could be absolutely one.

True Mother said through this suffering, all have become united and in GW's more than 144,000 have registered and we fulfill True Mother's Words in the 21st year, we could overcome in Winter GWs, and

we thank You for allowing that with grace. True Mother said to forgive, love and unite, but after time passes we repent not to live that kind of life and that is why tM goes the path of the cross, and we realize it is our responsibility and let us focus ourselves with heart collectively to offer hope to True Mother and through our devotion, we hope for the condition that True Mother can be liberated from the cross.

Please forgive us and let us more reflect ourselves and offer ourselves so that we help multitudes enter the open Gate with us... and unify Korea for the world and this Cheon Shim Won become that condition of foundation...

'At Last'

Heavenly Lord, True Parents

How long and far the path You walked...You have walked

So earnestly, with tears that never seem to dry

I could not once wipe the tears from Your Face

HJ Testimony

Pak Sun Lah
40-day Workshop trainee
Gratitude
3rd of 4 children

I used to hate my home... ashamed of our poverty and where the toilet was and didn't want to invite anyone... but went to church and even served as the MC... couldn't understand the difference from church and home and my father unable to send my mother back to Japan... Lived with my grandmother and her health deteriorated so much not to go to the bathroom by herself...

My mother kept absolute devotion, and reflecting on True Mother Life, saying be more grateful today than yesterday even in the difficult circumstances. Thinking of my mother's pure heart, I thought I needed to deepen my faith, but then went to the military, and learned to find gratitude there in a harsh circumstance... Even my mother was not in a position to visit often, I was then able to send her myself and grateful my grandmother was still with us, and seeing how I could build a family was such tremendous grace...

And even my father drank and smoked, I was able to still grow up well and rock bottom didn't get any worse, and I thought that my mother's path was painfully similar to True Mother's course, and as I continued to look for gratitude, by faith deepened, and because my mother prayed every Cheon Shim Won vigil, there were miracles... My father quit drinking and smoking and we were able to install an indoor bathroom.

I followed my mother in the night vigil prayer and through the testimonies, I thought wow my family situation is actually tremendously Blessed and I who prayed only for myself, found myself praying fervently for True Mother. In this way, my faith grew and resentment became gratitude, complaint became prayer...

But True Mother told us praise is the most beautiful expression that gives joy to Heavenly Parent, and I sang out every lyrics and True Mother's immense Love and Sacrifice appeared before my heart and I resolved in this faith, and why my mother came from Korea to devote herself. The lectures were exhausting and I found myself dozing, but the choir praise was moving and I found myself as the choir

conductor, and when I struggled, I went to True Mother's Words and I was able to feel even slightly the depth of Her Shimjeong.

It because a crucial time of growth, and the spirituality Workshop, I realized that the schedule was manageable and my fears melted, and I see myself amazed at my own passion and growth. I plan to dedicate to becoming a firefighter who saves lives, I want to be a true filial son and will continue to search for ways to fulfill True Mother's Dream and boldly put them into practice in daily life, and continue hope for Mother's swift return TYVM

Rev. Chong Jin Ah

HJ Report from International Dept

Centering on Cheon Shim Won, a new start of devotion and all members globally and PL and staff, at this hard time of True Mother, I hope it can be a gift to True Mother of more than 144,000 registering...

The 2nd 40-day started Dec. 27 to this year

True Mother's Words: We must raise leaders who know how to read True Mother's Heart and protect True Mother. Those who are neither pure nor pristine can never step forward to lead. Therefore Cheon Shim

Won is the holy sanctuary that educate to wash flaws and live in absolute alignment with the Cheon Shim Won era. Cheon Shim Won is to educate the children who Heaven considers pure, who hear Heaven's heart unswayed and the SW and PW marching forward as one.

After FF for the completion of the restoration period in this new Garden of Eden substantially fulfilling Cheon Il Guk, the SW and PW were separated but are now becoming one for the substantial building of Cheon Il Guk.

We must have a clear understanding of the SW, not vaguely believing in it is not enough. We must know how to prepare for life in the SW and make thorough preparation.

As a child will suffer without right preparation in the womb when it comes into outside life. Our spirit self can undergo indescribable suffering that it must endure, without right preparation now in this PW.

For the spiritual trainees, under 40, however, since we are the international, we have members from all over the world participating and there are the different ages, because some say it is discriminatory against them by age. I reported this to PL and I think it is logical for the international Workshop to open up the age groups to be diverse for participation, and we have 78... 40 from Taiwan, as you know having political difficult and confusing time.

Taiwan used to have a TC but not now, and they made the decision with the pastors and churches and diverse people participating... In the unseen places, they are volunteering, and without night or day concern and even with influenza, they go forward with utmost devotion for the Workshop.

We were opening the Workshop through the message of PL, and I gave talk on the resonance prayer, even many already know, but the international members think logically and can't know how to resonate, so I gave the lecture about the frequency and the wave lengths, the scientific things of it. All have their own unique frequency, and when you connect it to the SW, great work can happen.

And the first day they were doing it with a great experience. Then lectures about the special ansu, and Dr. Moon about True Parents Theory and we offered 1,000 bows in 4 hours, and through that devotion ended the first week.

In the second week, lecture about living Principle and then about holy ground, and ancestor liberation and were able to make a song, and then lecture about the Life Course,

In the third week holy pilgrimage in Chungpa Dong and Heuk sok Dong... holy grounds, and went to the DC and gave prayer, and while offering the devotion, we understood the history of BS and Ts making this foundation of today. and a lot of people were crying.

But we are also going through hard times... those people who entered fell into tears... moving time... and gave a 12-hour prayer and we were giving devotion...

testimony: Lecture about HyoJN and happiness lecture and unity of God and humanity is the final destination...and God and satanic spirit were the Master and enemy, but how to develop ourself as the Body of God is to sever the bad habits through fasting and CheonBo and HD and writing journals how you become renewed, those experiences...

Looking in that perspective, and making it into videos and lecture about Tong il Mudo... and we decided to introduce this as a new dynamic program... those 3 elements of intellect, heart and will, we tried to incorporate. We had a new challenge course, a volunteer activity outside, attending the world, and through practice of cleaning Seorok and were thanked for our devotion, and they bought us chicken.

In the fifth week, feet washing ceremony, and a lecture about well-being and how to die well. According to True Father, 3 things important is to be born well (but you are already born, it's in the womb) also get Blessed well and die well.

There is currently the Korean War memorial where people were severely injured, decapitated... How to end this life, is how to live every living breath, be truthful in every single moment, that is the key point.

Kim myung wok also gave lecture about family relationship and how struggling couples could build themselves closer.

Fifth week, different lectures, and painter who did the holy painting of the chosen Han people, since the SW is the 4th dimension, he was able to paint it through the direction of True Mother...

Highlight video about the Workshop

Reflection: In the Workshop I emptied myself and threw out all the negatives and worries and felt God tell me to offer love first. And I made space for God...

Next challenges and devotion and resonance ansu...

Testimony: resonance held every morning was so grace, training my own body and one day I spoke to True Mother, 'Mother, are You okay?' and experienced a Divine Energy that confirmed my very soul, as if True Mother whispering through me. Every day was moving how True Mother, even in suffering, stays with us and for us...

We did intensive prayer also... We gave 12 hours... video about it... (Rev. Sakua is there and Rev. Ryiuchi)

testimony... natural passion in my chest... Asked, 'Why cannot Heavenly Parent solve this right now?' Then I felt the profound energy of Heavenly Parent and realized that because of the Principle of God's Nature, God cannot just intervene without Principled condition, and no choice to be submerged in tears and helplessness even all-Powerful, and if we don't who will understand that Bleeding Heart, and I want to fulfill Heavenly Parent's deepest Wish...

Holy Ground Pilgrimage and DC... video...

Testimony... When we arrived, it was a piercing reaction, severe cold. I thought to myself, 'How can True Mother endure this?' It was so cold, even I was wearing layers of pants. As soon as I entered the tent, I began to cry uncontrollable, and I could hardly pray or sing praises... Even though there was a source of heat there, I didn't feel warm at all the entire time, intense freezing cold and a feeling of resonating deeply with True Mother.

And I felt, 'How can we be leaving so soon? Shouldn't we stay a little longer. Finally stepping outside, my tears stopped and a feeling came from within so powerful and inexplicable of resonance

Yeongseong Workshop

Through the original HQ and huk seong dok... a lot of experiences...

Devotional challenge True Parents Words, You must now receive the cooperation of the SW and how can you be a focal point and utilize this is of utmost importance, so there must be a truly conceptual transformation with environmental conditions to receive it.

And to make that environment we did 1,000 bow condition... and when I was in Russia I offered this and it took 4 hours, but the Holy Spirit comes down and you can experience a lot of fire. But one person said they didn't think that would happen to them because they are a logical person, but that person suddenly cried with Heavenly Parent working through him maybe like Paul who was persecuting the Christians but by the work of the HS changed around to be the righteous person.

True Parents Words: In the picture the person doesn't have a rope or safety measures and how to do this (he is hanging on to something with a chasm below)

Offering devotion through fasting, prayer and Hoon Dok Hae is physically very demanding, but to meet Heavenly Parent, devotion transforms to spiritual energy, the vitality element, by offering immense devotion that moves Heavenly Parent to respond and then Heavenly Parent gives orders and guidance only when we form a connection through such rigorous process for a true relationship with us. If we are able to break through, we have the spiritual experience.

The first one to conquer Mt. Everest. You go into a deep state and feel the ecstasy of meeting God, risking his life, not just prayers but extremes, when our physical body is totally exhausted, the Holy Spirit comes down and gives great works... That is a lot of the message of PL, that we overcome physical things, and reach the center of grace because spirits in the SW are cooperating.

We have a life and a divine spirit, so if just your own physical limited spiritual power you cannot develop the cooperative ability... If we offer the devotion of our spiritual senses, we can be the subject to experience the SW with our own devotion

Testimony: True Father said, 'Just as you yearn for Me, you must now yearn for True Mother'

A powerful voice said, 'The DC merely confines True Mother's Physical Body, but it can never confine the soul and Divinity of True Mother Who is the Substantial Holy Spirit. I realized that if I fulfilled my responsibility more, Mother would not have this suffering. I literally saw True Mother wiping tears as She watched our devotion and I saw the spiritual world armies, 'The whole world will shake for True Mother'

I had a feeling completely exhausting and that my right arm was completely paralyzed but saw with the HJ robe in prayer the victory that the SW and PW were overlapping and roaring out in triumph together... and had experience of the SW substantially fighting right alongside of us.

I had a vision of a golden reed? place in the hands of every single Blessed family, and I heard True Mother's tearful words not to pray for Her but for us and our family to be happy and victorious BFs. This is Mother's greatest joy and our Providential victory for the highest expression of Her boundless love.

Now with the seed of Life through this Workshop I return

to my mission and will offer my utmost devotion until the very end for True Mother's swift release to the Palace, and I offer my gratitude to PL and all staff and will go forward until the end.

We offered our final challenge to put our faith into action going out to Seorak, and to the Heritage Farm, and they said to please come back again. video

Testimony: With True Mother's situation I felt sense of self-reproach. I wanted to support True Mother and break through my own limits to move forward with greater strength. Since the four of us joined the Workshop midway, in order to connect with the spiritual flow, we performed 1,000 bows, and with every single bow I felt the specific course of True Mother. starting from True Mother alone to the 3 and then 12 couples of the Blessing, and in every number I could see (he pounds his chest and is handed a handkerchief) True Mother's traces. I could see that trajectory.

I shed tears of deep emotion as I continued to bow. I felt I had reached my physical limit at 800 bows, and when I lifted my head and saw a portrait of DMN in front of me, and felt how DMN's 10,000 bows were more difficult, and I saw the sacrifice of the True Family. I'm so grateful that we can follow this course

through this devotion and the 1,000 bows were truly a great gift for me.

The very next day I offered a 12-hour special devotion prayer and felt that it was a great spiritual harvest, but I never expected the sound of the drum to touch my heart so deeply. It was because the coordinator said that the sound was the heartbeat of God. I felt with the sound that God was healing the inner loneliness I had carried for 23 years. I wanted to fully experience the sound of that drum making me feel that I am not alone and allowing me to gain even more strength.

(He is also a leader through the 1,000 bows and 12-hour devotion. Through the repentance and determination, he was changed.)

Testimony... During the volunteer activities at Cheonwon Church, I was shocked to see so many cigarette cartons on the street and the acts of harming oneself and harming the environment to relieve stress were mirroring children of disregard to Heavenly Parent. Every single cigarette butt was a needle piercing Heavenly Parent's Heart. I couldn't pick them all up, but my heart rose with gratitude and sorrow that True Mother being confined to this small area, because we failed to build enough foundation, is actually proud before the world of what we have accomplished together.

Toward the end of the Workshop, unable to break through, I began to blame myself again, but Heavenly Parent comforted my anxious heart demanding results, and asked me if I was truly determined to walk the path of sacrifice and sacrifice alongside Mother. Though I am still lacking, I felt Heavenly Parent saying, 'Whether you are ready or not, I am ready.' And I resolved to trust Heavenly Parent Who called me to this place and to offer my complete devotion until the very end.

Another: after video... We are participating with the purple robe and even we don't fully understand it, those who received it were so excited. But even when I heard of the agonizing situation of True Mother, I felt absolutely no emotion. I felt terribly sorry and heavy-hearted, that even this Workshop is supposed to be for True Mother, I had to receive special ansu for my issues.

And my anxiety grew with the robe ceremony getting closer. Someone who doesn't understand Heavenly Parent's Shimjeong has no right to wear the Cheonshim robe, and maybe I should not even accept it. However, the moment I put it on, along with its weight, I felt the warm undeniable sensation of Heavenly Parent tightly embracing me. In that moment, I felt deeply just how desperately Heavenly Parent wanted

to give me this grace and how long waiting for each and every one of Heavenly Parent's children.

I too will spread the shimjeong and keep marching forward until every last one of Heavenly Parent's children returns to the embrace without a single one mission.

We are all wearing it, but these pure waters have a lot of experiences... We had the special person inviting Hoon Sook Nim and Daemonim lecture about... faith and arts...

testimony... feeling the unshakeable belief that art and music have the power to move the world... As a student, I was able to make a profound passion to practice a life where faith and art are one in my daily life and work place, just like HeungJN.

Also, lecture about the holy feeling of Cheon Il Guk and the great Epic. It was giving us a lot of changes with the lecture. He actually thought it was the evening lecture but he was not able to give the best lecture and want to ask him to give it once more...

30th International Workshop, we are now recruiting staff and will have the 3rd International Spiritual Workshop and last time 120 and now reaching for 300 and hope that a lot of you can participate as well.

True Mother: Cheon Shim Won is the place to offer prayer devotion and Second the HQ of the Spiritual Providence and third, the place of spiritual training.

So, through Cheon Shim Won all over the world, 2nd and 3rd and all members must experience the SW and be able to understand True Mother, and enter the place of talking one to One with God. If you don't know the SW, the SW will attack you. So, if you have distant, wavering members, recommend to participate to understand the SW.

Break

Busking

Hoon Dok Hae

A life of faith is a life of living together while attending Heavenly Parent, attending God. It means living together with God while you attend God. If you do not walk that path, you simply cannot feel at peace and will immediately feel the friction in our physical bodies. It means obstacles will appear in our environment. A life of faith is a life of attending and living together with Heaven.

The sun rises and the noon comes and the sun set in the evening. This never changes, and will remain exactly the same for thousands of years. If that orbit is every broken, everything goes entirely wrong. We must seek a heart of love and the path of true love.

Those who have inherited God's true love and true lineage have become part of God's direct family, living together with God eternally, rejoicing with nature and finding joy in our daily coming and going. This is why we truly need to live together with God.

If there is someone who truly experiences Heaven's Shimjeong and feels the profound impact and stimulation that resonates with that realm of shimjeong, no amount of persecution, suffering, or even the threat of death on this earth can block their path. No one can ever stop the path they are walking.

This kind of shimjeong of the mind urges the body to experience each and every moment of a life where we find ourself unknowingly walking toward an infinite realm of a true effort and life of a person of faith living in today's secular world.

When God looks at your faith, God is deeply concerned. If I were not living on this earth right now, how many of you would actually remain. It's highly likely that fights would break out among you. Right now, I am looking at you from the perspective of asking how many are truly willing to die for God's Will?

Therefore, you must enter a place of profound seriousness. The real question you must ask yourself is how much sincere devotion you have offered for your wife and children and your family and for the members of our church. There must be true joy and faith in your life.

After sending you out to your missions, I go back and forth to Tong Il Industries every single day and also every other day to CP. Why? Because there is a profound joy and taste in doing so. I know the taste that ordinary people cannot even begin to feel. In that realm of offering sincere devotion and constantly moving for the Will, every single cell of your spirit develops, and that power of development creates a dynamic movement within yourself.

You must possess that kind of inner essence. Whether it rains or snows, you must be able to feel that grace.

HJ Praise

Cheonshim

'Mother's Promis'

1,506th Cheon Shim Won... TY and congratulations... Today, centering on the 4PF and leaders and members, the feeling of such grace, we thank Heavenly Parent for.

More than 40,000 people are gathering their hearts and offering prayers and devotions. If everyone gives one calling out prayer, it's the power of 43,000 devotions, so let us carve in our hearts how important this devotion is.

To shield and protect True Mother, applause for representatives of us...

More than 145,000 registrants... and all of our leaders have unified their hearts making this possible... and next our goal is 210,000 registrants

Many are reviving through the GWs and at the Branch President meeting have the goal and commemorating True Father's Seonghwa we have goal of 300,000 people so that every place internationally, let us be children who attend True Parents.

H Japan report reflection of Cheon Shim Won President Lee Bong Song... 85,000 registered from Japan... We had a Workshop for the staff of the registrants of 900 people with message about GWs and share True Father's Word and special Message from True Father from SW, and the importance of Cheon Shim Won, and Heaven guided that we didn't have a clear direction for the Workshop in the past, but with this Workshop we had title of devotions and every CheonBo volunteer, I could feel the devotion set in their hearts so that True Father worked from SW and there were a lot of inquiries and Feb 13, we could offer the names of the early registration and a lot of the leaders and registrants realized the importance and the fire spread and could register more than 10,000 in one day and offer the devotion of our members

We truly feel all of the members united as one. And Vice Director Yokoi's report helped all members realize the value and offer devotion for it. And Hori Masaichi of H Japan centering on, all united and put their utmost devotion... There were inquiries more than 100 times in one day. All the staff poured their hearts to respond to them feeling that it is part of the devotion and put all of their effort and with the heart to not lose one person.

Centering on Cheon Shim Won and Choto HQ centering on the Pres. Hori san... all that let the SW work... and more than 85,000 registrants... gratitude to Heavenly Parent and True Parents for this... and we feel 100,000 is possible... Let us lead the life of developing every day.

Lecture was given to fulfill and before the deadline, the report of 144,000... I thought when I first heard the report at first of only 12,000, but through the devotion, we could hear this and so grateful...

And I had the spiritual experience through the messages about the Epic with H Mother offering Her Life, tearing blood, and screaming for Her children in despair and looking for them with desperation scene that I couldn't stop crying and praying... Longing for the OBD and the Direct Lineage, I felt why True Mother has been emphasizing the 2nd and 3rd gen and loving them as pure crystals, could understand heartistically.

When we were commemorating True Parents's Holy Birth and Coronation of the UPA, we truly felt the hope with HMH... During the GWs, I truly had the feeling that we are attending HMH and was able to feel that through attendance we can renew ourselves. Through the GW's grace, I want to connect that to the field, and the decision whether to dissolve our church or not, I feel this will make the great change in the spiritual battle, and I will fulfill my duties for True Mother...

We truly see that what we are longing for is coming to reality. And guidance from True Father from the SW. We leaned in the Principle of Creation that seongseong heonseong is the second hyeongseong. All who are offering devotion in the Main Branch is the second seongseong. And everyone offering their devotion is the internal character manifested into the external form.

And when we cleanse ourselves, we will change our external self. So, it is really important what we are drawing on, what we are thinking about internally. That will manifest into reality, and we will have the perfect internal character to offer for that goal. And that should be our appearance.

Koreans have offered the song, 'At Last'. And those who came to the TC, Heavenly Parent can say, 'You have the absolute faith at last.' When they offer that devotion, Heavenly Parent will say, 'At last, you are undergoing the first, second, third stage of renewal.'

Abraham, upon the conditions given for the resurrection, through the victory of the devotion, he was able to hear, 'Now, you honor your God.' And we should have that mindset for that resurrection to do our personal responsibility. We should have the condition for God to say it, 'Now, you know how to honor Your God, offer devotion, live the life of ownership.' When we offer our portion of responsibility, you

can see the results of that condition.

Not just singing, but the physical condition for God to say it. Abraham, it took 100 years for him to receive the message, after he offered his only son, and got confirmation from God. So, let us offer our conditions for Heavenly Parent. And for the parents that registered for their children and had that faith, but if you leave your children not able to go to the Heaven with you that faith will be severed...

When the children didn't want to do the Seonghwa ceremony, I was not able to offer flowers because of that. So, if you do not inherit your faith to your children, you won't be able to inherit the faith, and they will cut ties with the lineage of God.

Like in the Bible, they fought over the body of Moses. If we fight over it, it will be so hard to know the SW. So, with conditions of faith, move forward. The mother from the testimony such a great mother, heart of filial piety for True Mother and True Parents. Only gratitude as the lyrics said, only gratitude was her life.

Also, with a husband that would not quit smoking and a lot of debts and unable to go back to her hometown, but she was not complaining which attract dark spirit attacks. But even her path was of the cross, she could birth 4 children and attend her mother-in-law who was ill, and because of her devotion, the 4 children looked upon their mother to eventually follow, and that Japanese mother is the messiah of the family and true to the title of missionary.

True Mother said She lived the Life of gratitude more than yesterday and tomorrow more than today, and he gave a grace-filled testimony of his great mother. For her he resolved himself to live a fruitful life and gave his utmost devotion in this Workshop and then was able to see change in his father as well, and deep-root his faith, and then hearing more True Mother's Life, he was surprised at his own transformation...

He will not look to the 40-day spirituality Workshop and be first responder like the fire fighter as others can do to truly serve the public... and testify to be a proud Unificationist, then when parents go to the SW, since during the Ceremony we have True Parents's Holy Image there, everyone will bow to True Parents, all who attend the seonghwa... So, live a fruitful life, so that a lot of people will celebrate the life of you and your family and also offer a bow to True Parents, and testify that this BF has lived a fruitful life.

Today Director Chun Jin Won gave the report, truly grace-filled. And if these participants spread all around the world and the spirituality and make a big wind that can make change.

Today True Parents Words: A life of faith is living together to attend True Parents. Today we are living in the 14th Year of Cheon Il Guk, and we need that mindset. Those who attend Heavenly Parent, if you're not able to live a life of attendance, you will feel immediate friction in your physical body. You could reflect that you are or are not attending by the obstacles in the environment and physical body...

Centering on the Shimjung of Heaven, we should be united. If there is a path that wants to block us, a life of attendance cannot be stopped though. If you can feel the sensation of love, centering on the Shimjeong of Heavenly Parent... right now looking at you from the perspective of, 'How many are truly willing to die for God's Will? and How much devotion have you truly offered for family and members of our church? It is likely otherwise, that fights will break out among you.

Amaguchi Yoshiko is truly a great missionary from Japan who offered devotion for her family and for the church as well. We should be filial sons and daughters who can comfort True Father and become one with True Mother and F and with that determination, we will be able to fulfill True Father's Words on earth, and taste true joy in a life of faith, every single cell developing the dynamic in yourself that feels a profound joy, and knowing that taste..

True Father knew the taste of the devotion, felt the joy of His extraordinary devotions... It is incomparable to watching television at night. When you see a TV program and it even stops you from going to Cheon Shim Won, that cannot compare to what you can learn and feel at Cheon Shim Won and CP training...

They gave intensive prayer Sunday for an urgent message prompted. I was so tired when that message arrived that tomorrow and today is the most urgent period, so I gave a direction for those giving devotion and intensive prayer to give devotion for this.. 200 special devotions people gave calling out like 200,000... They were able to go through this urgent prayer. And this was not during the weekend but shielding the Cheon Shim Won, and if we didn't have them like the engine or bloodstream of academy of True Parents...

I truly hope that all churches around the world give this devotion, more than two people... Today more than 280 churches, but if we had 2,000 we could quickly fulfill the Will. Let us not be spectators but every church should prepare the Cheon Shim Won prayer room... In Africa, there was a place where they

could not open Cheon Shim Won prayer room, but there was a donation given, so that we could open it in every place.

True Parents Who manifest as the God of Day, allow us this grace, and centering on that, if we unite, we can see the power of Heaven on this earth... Let us offer this power of devotion upon the victory of GWs and believe there will be more...
