Opening prayer of gratitude

... privilege of offering this devotion together with subjective SW, a time of being connected to True Mother's umbilical cord and experiencing Her Love, with sincerity together, crying and laughing together from the grace... While M is in the hospital we will gather devotion so that Her Heart is warm, and so that

even one more person can join with earnest. Please allow us to move forward with Spirit and Truth, the word of moving forward with Father and Mother's Substantial result.

We pray for the mobilization and power of Heaven through us through this devotional condition or without it, we cannot move even a single step.

Kim Su Hi

eldest daughter

My father was a pastor and I followed my parent in my faith... Traveling and changing environment and culture was not easy... Cold stares and no friends because of mixed cultural parents, Japanese... Filled with negative mind wishing tomorrow would not come. Except for work, time at home doing nothing alone...

Doing HD together, I found faith again and received Blessing in 2023 and began my family life, trying to understand each other and grow emotionally. Faith gradually weakened, with my husband not attending church due to work and I not wanting to attend alone. However, last year hearing of Mother in the DC, I wanted to do something to help Mother and went to the wives' and the Heongseong Workshop... Distractive thoughts arose but after devotion for Mother, the grace of concentration on prayer came...

But my body and mind came to their limit. Again with Mother being at the DC seemed not mine but Heavenly Parent's Love, and realizing I exist today because of Heavenly Parent and True Parents dedication and my husband and mother-in-law's value took root anew... When offering 40 bows and offering papers and other conditions, when the ruling of dissolution was approaching and I had prayed for Mother, walking down the stairs, I heard, 'Even there's no money, you must register your husband'. With it not far off, he protested because of finances... but I said, 'Is it okay not to live our mission and with what kind of faith should we try to protect True Mother, and after praying with tears, my husband agreed to participate in Workshop together.

I realized faith is not something one must do alone but with whole families. By the Workshop, we could share conversations about our faith and life and deepen our relation, doing ansu and praying for each other sending us deeper also. We as 2nd gen are in the position of leading the home church movement, and I will never let the grace flow away, but continue even to the 2nd and 3rd generations. In any environment from now I will not waver.

I thank my beloved husband and family and church members who were supportive of us. This ends my testimony...

TESTIMONY

I am the second son

My school days I was bullied and especially in the dormitory, seniors and friends would push me out and leave the room... I began to fear people, and even making a friend, I became the one to create distance, with the words, 'I don't even have the value to be alive' and even when sleeping I felt apologetic to be alive, if a more capable child was born to them, they would be happy. I agonized about what I could do for my parents, and the thing I could do right then was to go to church.

In this way I began a life of faith, but contained none of my own will. Then in the military, my faith diminished, and I used my first sense of freedom to eventually begin to drink alcohols and smoked. I lived exactly as I pleased, but thoughts of my parents emerged and I spoke honestly to my parents and made an effort to fix my lifestyle, but it was so difficult to change on my own, so I entered Workshop.

Having lived solitary for so long, group life was difficult and then I came to have a disease that tormented me. One video was a member so bright and cheerful on an oversea mission, I wanted to be like them and

applied for another Workshop. By good team members and lecture, I was impressed especially by True Parents's Life Course, how great and respectable They are and Their Investment as the Only Begotten. I reflected with self reproach how easily I had fallen to temptations of the secular world, and why didn't Heavenly Parent send someone more capable here.

I received an answer while praying, 'Because I had experienced the bullying and difficulty, I could understand others in such pain.' And it was all for attending others from the lowest position, just like even True Parents's Lived from the lowest, sacrificial place. I repent for the life of the mistakes I made until I die. I was able to set a new life goal of my own, not because I was told to, and actually put determination into practice, to positively embrace my life as it is and live for the sake of Heavenly Parent and True Parents and others, centering on Heavenly Parent.

Gratitude to all the staff and lecturers and others for support and to Heavenly Parent and True Parents for guiding me here. Kamsahamnida

HJ Report

Kim Ju Won

Director of Cheon Shim Won Office

True Mother told us to create different kinds of Workshop, and PL allowed us to hold 3-day Workshop to learn about prayer...

This is the 11th 3-day with the heart and devotion of all behind it with such grace last week

True Mother told us with serious tone to mobilize the AGS world and there is no rest in the world, even one time, your life can be taken... What do you think? Externally it is the weapon and internally it is the heart that resonates with Cheonshim... We need the ability of prayer and continuous devotion, and through true love, throwing that bomb of forgiveness, love and unity. That is done through 3-day Workshop training...

I had a sensation that I should offer prayer to True Father first, and as I was about to finish, from bottom of my heart, I heard True Father's Voice, 'In this battle, in this way, why aren't you becoming the ones at the forefront to take all the bullets, not True Mother at the forefront. With great strength, go out to the war and fight at the forefront.' Then I couldn't stop the tears.

Through this 3-day, we must wear the spiritual armor and weapon and fight on behalf of True Mother and make victory... This is a Workshop condensed version of 40-day Workshop. So, all the elders over 40 cannot join 40-day, but with the same heart and conviction, their eyes are truly different, and I could see the passionate energy. These are the eyes that we should have following True Father.

The 3 HQ Original Homeland of Cheon Il Guk is the HQ of F and where one can practice cheonshim. During the inaugural ceremony, True Mother said:

It is a place of spiritual growth where cheonshim is practiced, and when True Mother ascends to the SW, this Cheon Shim Won will be the main HQ for True Parents to work. To lay the foundation for True Parents can come in the future, we are putting our devotion. This is truly a Workshop resonating and every Workshop more than 100 join so we were able to have 1,792...and if we go over ten thousand, I believe the amazing grace and work of Heaven can occur.

The church which sent the most members I was curious about. It was actually Cheonshim weekly it was

Cheonshim Grand Church... applause... Whenever I watched Cheonshim Weekly I wanted to try this... The number was not only the highest, but they participated the most sincerely. The reason this competition is important is because of the session of one-heart prayer... How many are able to resonate with True Mother and live for others in the world...

I was curious about the ages of those who participated and it was 50 and 60, and then 70's and 80's and 90's began to be coming... I made the three different groups of those who could go... I hope more 30's age range can come.

True Father: Go back to young age with AF to H, and in old age still the heart of a child and cry out and accept everything with pure heart.

So, please do not think you are old and have the heart of youth to create more results. I hope that more members can come, even you have difficulty of moving around. You receive the robe if you attended vigil for more than 100 days and your ancestors will be with you wearing the same robe and many dream and testify about ancestors... Not only is this robe special, not only because your ancestors also wear this robe, but also True Father wears this robe. How precious and valuable it is... I am truly wearing the clothing so that I can be with True Father. So, I hope you come with this heart and inherit this CS robe.

Message: In this 14th years of Cheon Il Guk substantially and we must wear the holy robe, the robe of heart and the fact you wear it is that you wear it in your heart, letting the words and praise flow and see H working through you and meet Heavenly Parent with the tears of joy and smile, and you will be able to experience and feel Heavenly Parent. So, through the Cheon Shim Won devotion, I hope you wear the holy robe of heart and offer everything in the prayer and 1,631 have received this robe.

You are inheriting the ability of being one with True Mother.

True Father: Centered on True Father's Words, we focus on inheriting CS, H Heart, and when you see members' testimonies and reflection you can see that we can change our environment and become a new person.

testimony: two sisters over 86 years old, first and foremost my wish is for True Mother's release and then all my sons and daughters to receive the Blessing.. I have 9 children and none are Blessed... Now that I am old, it is difficult to offer devotion, but because for them I came here... My strength is fading but my heart is always with Cheonshim, with Heavenly Parent toiled for such a long time. If True Mother does not come out, it is because we failed. True Father fulfills everything, whether it is late or early is up to us... Solomon built his Temple but True Parents could not live there. I came to know True Parents more deeply... I joined when I was ten... It was a time of war and we couldn't live well, I couldn't go to church and married a secular person and then I received the Blessing, not having known H's Will before. I always felt sad and sorrow for Heavenly Parent's circumstance and they carry their painful body to offer sincerity...

Even if we're busy and tired at times, we must offer greater devotion. Even those over 70 must come. video of last Workshop

Many members shedding tears. With what kind of heart they followed the Will for so long and joined this Workshop.

In order to win the spiritual battle, the first weapon is the Cheonshim resonance prayer and this is teaching the method for doing that. If we offer enough sincerity, Heaven cannot help but work.

This lecturer, his father passed and I had time to talk to him for hours. He was always worried about True Mother's situation and because of his heart of hyojeong, his son is working with him and his words are reaching many.

testimony: I was surprised that the first and second half was difficult but I was awakened, by teaching of repentance and gratitude and I will offer prayer that will resonate with H's Heart and follow H's Will. The 2nd weapon is calling out prayer... As I give resonance, many miracles I could receive and realize this isn't my ability but believing in True Mother's Words, this is the miracle I received.

I felt it was a grace and work I didn't deserve, so every day I have tears. I know many of you are offering calling out, and if you have patience and resonate, I'm certain the results will come.

testimony Those in 3-day, many are coming and something changed in my heart and wanting to know more about Mother and SW, and realized that I was offering prayer on my own accord wanting this or that to happen, and I started to truly offer prayer for Mother, and not just with my head but with my heart, and what is the method of prayer that SW can be moved by... I realized that I can achieve this, and there was a moment where I could fulfill through my prayer and not forget about True Mother's Heart and the resolution I made is that

Whenever I give lecture about calling out prayer, one thing to emphasize is prayer for True Mother. The fastest way of healing for ourselves is to offer prayer for True Mother in all sincere earnest. Messages came like, 'Have you ever offered prayer of all your earnest for the sake of True Mother before True Mother?' If we do it that way, everything will be okay.

Nature resonance prayer. Many members walking Mother's trail, and they experience Mother's Heart a lot. After this Path was made, I attended True Mother walking together with the speaker with me, close to True Mother, and at that time, to be honest, I didn't know how happy I should have been walking with True Mother.

We sang about 4 songs at the destination and instead of gratitude, I had the heart of being nervous, and if I have this chance again, instead of nervousness, I believe I can just sing with love and from really missing True Mother with many members and they praised in this video to draw True Mother with love.

testimony With my daughter, walking M's trail and feeling warmth of sunshine and sharing how we were believing and feeling Heavenly Parent's love. At moments of not feeling love from anyone, but the sunshine itself is the Heavenly Parent's Love testament to feel, and I was able to listen to the explanation about True Mother's trail, and looking at the yellow flowers I hope True Mother could live such a beautiful path now...

Some joined together with family and I believe that was much more grace. We had the exercise of H heart cheonshim, and much grace even this may seem a simple exercise...

testimony... Human beings are also God's creation and as such, as I look into myself, I was built with great love and I had been forgetting about Heavenly Parent's love, and through the exercise and mediation I could meet my own body and take care of it better. This is one of the most popular sessions...

Director Chun Shi won... centered on the power and importance of prayer, with even two or three together... As we conduct one-heart prayer sessions, we can feel that this can be the motivational force to go back to the heart of the early church... allowing us to be one with the AGS world...

testimony - Placing my hand to offer prayer, 'I know well that you have been enduring a lot.' This message for the object of the one-heart prayer. I could look at the member with more love and sincerity for their love and help... Although it may be small, I realized True Parents wants us to fulfill our wish through Heavenly Parent's Will, and tears for each other, we can grow spiritually ourselves... as one of the fastest ways to grow our spiritual body. As coordinator, offering for the trainee of the most difficulty, in the end my own difficulties were resolved...

Next, praise and prayer gathering with the words that prayer is with melody, many members healed their hearts... video

testimony... My second child has a disability, but through the song, I felt that my child and Heaven was trying to comfort my heart

The special prayer room is most important in Cheon Shim Won and that is where we support the members to fix their problems. It is a place where the Holy Fire of Holy Spirit cannot help but come down to us

testimony... With the drum and like the Jericho, I felt we really could break down the walls, but I realized my prayer was lacking. There was a member who prayed so strongly that they vomited and the member who had the vomit splashed on him, offered even more grateful prayer from that situation considering it more grace from her prayer...

We as participants were able to find and select True Parents's Words as a model and put it into a frame. Because of this effort, I cannot ever forget the words and the grace from the Workshop. The words 'Heart of gratitude'... I had hurt my knee falling down and there was an incident that was unexpected like this, but every moment was to accept with gratitude and I will inherit this in my life until the end.

Our academy trainees are not earning their own money but they wanted to give a present to the Workshop, so the FR team donated some of their contents and we did a lottery so that the members could receive the presents, and also giving the book that PL signed and such a lovely moment of the time they received the present.

through the 3-day, one member who joined with her mother, received great grace

True Mother: By progressing through the Cheon Shim Won devotion, this is where the pastors and public officials can come and grow their spirituality.

Three are here and one is I Jung Mu Pastor, who saw how the youth are doing, and tears from one-heart prayer. I feel more public leader should participate... Members not just praying but leaders who possess these qualities of deeper prayer and resonance and then working together with the younger gen so that release of Mother and completion of Cheon Il Guk... Moonyeong Church

Elder Pastor... moment to experience more Heavenly Parent and True Parents and know to positively influence the church and family and 2nd gen members. I feel given a wing to fly in my path of faith, finding the key to resolving all my problems, really a place like True Father's Office and True Mother's Womb, and more chance to connect many member from church. Tomorrow, he will be bringing 5 members from him church to attend.

testimony: Letter to True Mother... We miss You. Today, during the time of resonance prayer in the nature and walking the path You walked and looking at the river and place where You prayed, I miss You, still in the DC. But now, we will offer devotion as if risking our life and we will find new members who can visit Cheonil Sanctum that You have built with all Your devotion, letting more and more know of the status and identity of True Mother...

Kim Su Yon made this resolve...

Essence of 3-day is to train ourself and practice and take back what we gain.

testimony... of practicing what he learned, and he brought 4 new members in a month, and he practiced one-heart prayer in the church, then able to send members having a difficult time to go to the 40-day.

So, truly many have received amazing grace and put it to practice with results. We are fighting back from the secular world.

In the Bible, it says we must wear the spiritual armor to move forward, and we want to give the tools and strength that all can become this kind of soldier with the grace and love and many made their own videos to send to True Mother... videos

Hoon Dok Hae

'The Backbone and Core of Morality in the Human World'

To become the royal family of Heaven, one must become the filial

child, a loyal subject, saint and divine son and daughter. The training ground for this is the family. When the perfected family expands and becomes an ideal Heaven realm, the family always ascends together.

Therefore, it is a matter of two people, a man and a woman. When an ideal man and an ideal woman become a couple and form a family, everything is completed and becomes a nation and world.

Just as one becomes a filial child by serving and honoring parents, if one attends and lives for the leader of the country, that one becomes a patriot. And if that one lives for all humanity, that one has perfected the law of the H Realm and also the earthly realm, they have perfected even the law of the SW and no one can accuse them.

Controlling the SW is no problem nor controlling the earth for Heaven. Any nation would be welcoming. There would be no obstacles. Such a person is a saint. A righteous person is someone who dies for the sake of the nation and from such a position as servant of servants. When to die for the nation, that person is a patriot. When one lives for their parents with gratitude even from the position of servant of servants, the title of filial child is attached to them. This is the backbone and core of morality in the human world.

Being more of a public servant for God is the way is a righteous person. Being a servant in a more extreme way like this is the way to become the 'loyal patriot', and sacrificing as a servant for the sake of one's parent is the way to become filial child, which is absolutely necessary for a human being--the way of the patriot and saint and the way of filial sons and daughters.

One cannot just serve themselves. One must first boast of their mother and father, boast of the sovereign of the nation and boast of God. One must not assert oneself. When one comes to possess God's love, eternal life becomes possible. Because God is Vertical, the family is absolutely necessary, the nation is absolutely necessary and the world is absolutely necessary. The Heaven realm is absolutely necessary. Therefore, if you assert yourself, everything becomes blocked.

'Mother's Request'

...

President Lee Gi-seong's Message

42,800 have gathered

The brother was requested very well to attend the 40-day Workshop as it would be good for others every time after the military to attend 40-day.

He was shocked, 'Why haven't I realized this before?' and 'Why is someone so lacking like me sent here?' and he could repent for the falsehood he lived in the past was his answer, and to live with his own conviction, not just following, and casting away the falseness, and help others with understanding from experience that becomes a grace instead of difficulty.

The sister has an amazing mother who came with her to the Workshop. But she couldn't overcome her heart, but joined wives of the Blessed families Workshop, but only when offering the devotion for True Mother did the complaints and negative thoughts disappear... When clinging onto her gratitude and true love, and she started shedding tears without realizing why and feel True Mother's past course and repent and start anew for the sake of others, starting praying for her husband with HJ papers...

Today, we will be offering 210 calling out prayer. It's not easy, right? But you must do 5 times more than what we're doing tonight to reach 1,000... Through this kind of devotion, she was able to experience something miraculous and she resolved to persuade her husband to come to Workshop. And when she did that, she was crying and crying, saying, 'Is it okay to leave the mission behind to live?'

There are many BFs, right? But many lost the original mission they carried. When we held the Entrance Ceremony of the Cheonil Sanctum, and we said we were going to have the special grace of the holy wine ceremony, a lot of members gathered and even the pastors said, 'Oh, we had so many members like this?' Isn't that true for many people.

Many members only came for the holy wine and still lived as a dormant member. And whenever we had a big event, we held the holy wine ceremony, and only that time, the church was filled with many members. Even when we had the Vision 2020 Victory, 25,000 people gathered here at the Cheonwon Complex to attend the Holy wine Ceremony. But the problem is that there are many who lost their Providential Mission.

Can we be proud to stand in front of True Mother, True Parents. So, our sister persuaded her husband. And I'm sure if you feel these words as if they were given directly to you, I'm sure you will feel abundant grace toward more repentance and change.

So, as a 2nd gen leader in H Japan, I'm sure she will be unaverred. Centering on Heavenly Parent and True Parents, she promised that she would establish a family. So, we must inherit our faith and Oeg Monsei to our children.

HJ Report today, Cheon Shim Won, we said there are 3 original grounds for spiritual Providence, original grounds for growth. original grounds for (physical Cheon Il Guk)... This place must become a place of growth for all the members and one of them is Cheonshim Resonance Prayer Practice, 3-day Workshop. If feel that we began the first one yesterday, but now is the 11th. And now, tomorrow, we will begin the

12th.

Only by Heaven's vertical guidance, not by human thought, all of these WSs were possible. Now this is expanding to all the world, and we give the Cheonshim robes to the participants, but do not think that wearing that robe is the end. I hope all of you become the people who offer the devotion that fits the Cheonshim robe.

One of the members Raphael, from the Philippines was diagnosed with cancer of the last stage... Our members offered prayers and HJ Offering papers and upon check up, his cancer disappeared... applause...

No matter how many times we offer one-heart prayer, if it is not practiced when you go back home with that earnest heart that should not die out, but instead burn with the greater temperature... During the time of persecution, you must become much more serious and earnest. I'm sure you will have much more space for the fill of earnestness.

In many churches, it seems there are not many members, but those members are offering prayer in earnest.

The elder sisters told us their lamentation, receiving formerly married Blessing, but her children are older and none are attending the Blessing. When she ascends, she will not hold the seonghwa ceremony but instead the funeral. If they ascend to SW like this, their heart will be in pain. They must offer a prayer that can move Heaven with their last breath.

True Parents have taught us how to become the filial child, patriot and saints. Looking at Hoon Dok Hae, and at Family Pledge Verse 3, pledging the royal family of heaven, by becoming loyal child patriot and divine sons and daughters, none without being the filial sons and daughters. We must follow this morality path of patriot, saint and divine child, by first being the filial child, not living for one's own accord, but for nation first, then that person becomes the patriot. Once you love the world for God more, you become the divine sons and daughter.

In the position of servant of servant, when you are grateful in that position, then you can be the filial child and advance. If you are complaining or criticizing True Parents Words, you cannot go on to be the child of the Heaven realm.

So, we must live the way of achieving the title, 'divine sons and daughter', one who perfected love in the H and earthly realm, so that no one can accuse, and there are no obstacles. That is freedom of a divine son and daughter. And True Parents perfected that way of living and Cheonjeong Gyeong Page 194, there is no one who lived the way of filial child, patriot, saint and Divine son and daughter. Only True Parents perfected this way of life and only True Parents have true freedom, no matter where They are. And They are working freely so that the entire world can be a world centered on Heavenly Parent and True Parents.

so, even True Mother is in the DC, She is free. No one can accuse Her. So, True Mother will absolutely

be victorious. So, Heavenly Parent, even though losing everything, you have found out the Heavenly Parent's Tears, meaning you have greatest value over everything to liberate the pain piercing Heavenly Parent's Heart. The yearly motto of 2003 'Through true love, please allow our family to become filial child, patriot and saint and divine son and daughter.

You must remember that filial child is first. So, wherever you go, wherever you are, if you speak distrust, disbelief and criticize True Parents, you cannot go the first step. And you also should not be moved by others speaking such words.

Without the Mother, a Father cannot become a Father (even God) Who can call a man who lived for 60 years without a child, who can call him a father. Nobody can become a father without meeting a woman to give the birth and be called a father. A father is made by the mother. A mother is made by the husband too. A child cannot become a father without a father.

So, in that sense, in front of the Parents of humanity, we must become filial children. It is very important to align our hearts with True Parents's Hearts. So, the work that we are carrying out, we must think and check if it is aligned and then when aligned, no matter what trials, as long as True Parents feel joy through that, you will become true patriots and saints. So, do not have fear from the reality you face, but I hope you will become victories as patriots and saints and divine sons and daughters.

applause for PL who allows us to see our way one step closer to Heavenly Parent and True Parents as divine sons and daughters...
