HJ Report

In this era of Heavenly Parent's Direct Dominion

title 'Heavenly Parent's Rest'

The Era of FD and Cheon Il Guk is where BF's attend True Parents together, but the world remains unaware of True Parents's Providence. You as BF's must resolve and practice environment H desires.

True Mother gave the message that we need to expand the environment.

In March, we went on tour to 9 places... offered devotion and calling out with them and to participate in activities together and with the 2nd gen MC, it was so hopeful...

reflection: Hyocheong Cheji yu... We needed revival for the members, and my husband told me he had a dream of a funeral, and I found out his name mean a special omen for new beginning and the word matched the dream. And I want to march forward and fulfill for True Mother's Heart

reflection: The revival was after the dissolution and my heart ached so much for the J members and my answer was in the lyrics and I burst tears hearing the drum beat of the Fight Song of the Will... and 'until Mother's Mission is fulfilled' and the one suffering the most is True Mother and to pray earnestly for Her and that Japan will receive a complete reversal.

Testimony... My son received ansu, and as held him, feeling of guilt to my in-laws and a tragic sense and even my son asked me why I was like that, but I just kept weeping and a pain I had was healed from the ansu they did on me too... I go forward with prayer for Mother's release

Heavenly Parent's desperate heart longing for the children was revealed and I want to build the family Heavenly Parent wants, but why am I still unable to do so. I want to be someone who can live with True Parents. For the first time I could pray to Heavenly Parent as an adoring child and I felt the warm love around my body. What moved my heart the most was seeing 3 distant, dormant members. The joy and overwhelming emotion when they returned and I felt the Heavenly Parent's heart and members joy together. We felt we had received the massive transfusion of energy. They always embrace so warmly the return of members.

reflection... Because Mother is a mom, she knows our fault but only embraces it and waits for us. The prayers of True Mother are not in vain and HyoJN wanting a body to go to the field himself... Thinking of

that heart made me reflect myself again, and watching the members with tears screaming or head high to H and a clear conviction of the value struck my heart... that passed down to our descendants...

The deaconess: After the HJ Wish Papers her hopes fulfilled... I who usually yielded to others' ansu could experienced it myself and the love of Heavenly Parent Who does not forget even the smallest devotion. True Parents pray, 'They do not know what they are doing. Please embrace them completely.'

Deaconess: She works overtime and then participates in this event. She testifies it was all the grace of Heavenly Parent. I was grateful the time to see True Mother, and I was not confident but then I will never forget Her Eyes of deep sadness, and I cried out suddenly with my whole body for Mother with repentance. This Workshop reminded me of the scene of Jesus on the cross was like Mother's.

Even my family betrayed me thinking I abandoned Jesus, and even I lacked personal jeongseong, I felt I was receiving part of it from Mother...

Listening to testimonies, the words came to mind, 'Forgive, love and unite' and that is fro all time, not just this difficult time.

True Parents Words: There is not a single person who has not betrayed Heavenly Parent until this very hours, and Heavenly Parent has had to forgive countless times and reminds when Jesus was asked how many times do we need to forgive...

Jesus could go beyond the cruelties and hatefulness so much that even Satan could sympathize and then God was unable to strike Satan even... True Parents Wish to forgive everyone, walked to path to restore even Heavenly Parent's suffering. Adam and Eve suddenly became prisoners of Satan... Satan agreed to surrender to the revealing of True Father's Heart who prayed for Satan even His own flesh was being torn apart.

To the question from True Father of how many times had she been hit by her husband, this missionary told Father she was never hit, even she was hit so many times. And Father smiled. Then with the HJ Papers all her wishes were fulfilled. And she told her children that her husband was the one who in the time of his own tragedy would give his own jacket to someone else who didn't have one... Upon hearing this, her children responded, 'That's true.' And she told me, 'Isn't that enough?' She said she was grateful to be able to boast to her children and would achieve victory.

I (the itinerant) told her I too wanted to boast about her (the deaconess) and I was able to receive so much grace and love through the consultation with her... applause for her and all who advance without giving up

In order for God to find one of you, God must first be struck by Satan proportionate to your value, and struck equal to the value of the world God wants to take back. God pays a price equal to what is sought after. This was God's strategy and God's circumstance.

In order to place human beings in the position of life, God first made them go through the position of death. Also, if there was someone facing the peak of death, God sought out and crossed over the peak of death to save them.

You must know that God held onto hope amidst infinite despair and crossed the peaks of infinite sorrow and pain. The deaconess' testimony shows someone who understands that, in order to find me, and in order to find the husband, Heaven paid that exact price. She seems to be someone who experienced that

kind of Love from Heavenly Parent and True Parents, who look with eyes of love upon the daughter who says, 'I am not hit' 'I have nothing to forgive'

Who is the person who forgives? It is the one who was first forgiven by Heavenly Parent. It is none other than me and us. If you agree, then offer a big applause to Heavenly Parent and True Parents of HEH.

Now you must live a life of gratitude. You must know that you are living by the grace and Love of Christ and Heaven. You must live a life of gratitude before Christ and Heaven, living before the cosmic mission of Jesus Christ, living in order to complete the Love of Jesus Christ, substituting for the family, substituting for the tribe and embracing the nation. you must know the cosmic level of JC Who forgave and Loved the enemy even as He died on the cross.

You must know the love of Jesus Who overcame sorrow and looked upon His enemies with a heart of love. Therefore, if there are hardships, you should make them your own. If there is joy, you should return it as belonging to your Parents, your siblings and your friends.

Your siblings and your friends must become those who deeply understand the circumstances of your brothers and sisters. Forgiving someone completely is only possible when you know their situation 100%. Because God knows the circumstances of human beings, God forgives them.

Therefore, you must understand not only the circumstances of your brothers and sisters, but also the circumstances of Jesus, creating heavenly families and forming tribes that mutually care for one another, and establish the world of goodness that Jesus intended to restore on this earth.

Mother is telling us that we must expand the environment realm of Cheon Il Guk, living in attendance to Heavenly Parent and True Parents. We are living in such era where we ourselves need to be able to expand in order to attend Heavenly Parent and True Parents.

And those Words were also given to be fulfilled by us. It is the forgiven that forgive. Saul in Damascus repented, by the love and forgiveness of Jesus that came to him like a Light. There must be the realization of being forgiven and saved by the love of Heavenly Parent and True Parents. Only then can one live a life of genuine repentance and gratitude, then becoming one who truly forgives.

This can be called the life of faith of an individual. We should be able to find the path of forgiveness. We must walk the path of the completion of love centered on the family. By achieving the 4-Position Foundation of the family, every single day becomes a life of resurrection to those who go that path.

Furthermore, we reach a position of the completion of love. Look at verse 8 of the Family Pledge. Through the AFAL and AO, we all live as a single cell of Heavenly Parent, the Original Entity. Today, centering on the words of True Parents saying to forgive to love and to unite, I truly believe that we should establish and fulfill these Words within our family first, as husband and wife, as brothers and sisters and as parents and children.

When we have a heart of forgiveness, when we deepen our hearts, we will be able to love one another

As the title of this HJ Report, True Father at the age of 77, on July 7, 1977 at 7:07pm established and declared the Cosmic Sabbath for the Parents of Heaven and earth.

The Word He gave us was, 'After the Victory of 2020, Mother opened the Providence changing the name from Jeongshim won to Cheonshim won. There was a work of rebirth on the individual level, then the Providence centers on Cheonshim won as the work of restoration on the family level.

Therefore, moving passed the Providence of Jeongshim won which remains a personal healing and miracle of the children who have inherited the Heavenly Heart and Cheonshim from Cheon Shim Won, now manifesting as works that resurrect and that revive the family.

In this era when we center ourselves with home church, we are able to see where we can attend Heavenly Parent in our families and see these works.

testimony 2nd gen who inherited the Heavenly Heart of Cheon Shim Won:

How much does Heavenly Parent love the father who is used to hate and cannot forgive. She realized that her father was also a child that Heavenly Parent deeply loved.

Let's cross over that wall and go together. Please let's go together. Whenever I hear the song, 'Let's Return to Our Parents,' I think of you so much. That song reminds me of how I cursed at every person I knew, hitting you so many times. Please know this one thing. More than the pain you are suffering, Heavenly Parent and True Parents are hurting and sad so much more. I promise to remember this one thing: They are watching you suffer as you turned your back and waiting for the day you return. Because they will absolutely never give up.

Even you turned your back on them, Heavenly Parent will never turn Their Back on you.

There was a testimony on the Weekly Report:

True Parents's starting from 1979 for five years have given us the words about home church. These Words and yearly Motto's from True Parents about the home church.

True Parents Words: Why is the home church necessary? Without passing through the home church, you cannot enter the Heaven Realm, the final destination in the era of the Unification Church. If there's no home church in the area of the Unification Church, God's Providence cannot have completion. That is how important the HC is.

You must pass through with the great wings of home church.

There must be evidence that you lived in the Heaven realm. What is that? It is how you create the Heaven through the Home Church. You must re-create the Heaven Realm on earth through the Home Church.

The Will of Heaven was established in Heaven, but the place it will bear fruit is on earth, just as someone needs to taste with the experience to know it, experiencing Heavenly life on earth will also have it in the SW. True Parents's Words said, to the members of the Unification Church today.

'What is the completion of the HC? It means becoming the owners who lead the foundation of a new culture who can re-organize the culture of Adam. Only then do you become the descendants of Adam. And what is the Center? The Standard of Heart is the Center. Then what heart is that? It is ascending to the position that, when God looks at you, God does not feel the concept of the Fall in God's Heart, God thinking, 'Oh, he or she is fallen.' With you not as a distorted son or daughter but of the new position. Do you understand.'

True Mother when offering the Era of Cheon Il Guk has said it is the Era of the Original Garden of Eden where we resonate and unite solely with Heavenly Parent. So, fulfilling this together, BFs agreeing for this and go forward.

Through the 3-day, we are taught the method of united prayer and able to experience it. When we unite at the local church, not only at the TC, the families join together to pray in unison. Not only the personal and family issues, but put prayer into practice for the home church, I truly believe Heavenly Parent will most listen to grant your prayers.

Our ideal family is Heavenly Parent is to be the Love Leader of BFs, all families worldwide, in unity with God and Love and attending the HMH together with Inheritors and 4PF of True Father and all each other...

Live proudly like Hong Son Ae, Daemo nim. There's no tree without roots. You must understand the historical Roots of Father and Mother, Who came to receive the Name 'True Parents'.

What matters most is how beautifully you adorn your group, environment, true family and good lineage until the very end.

Daemonim was born February 22, 1914 by the lunar calendar in Jungju North Province. She was someone who lived her entire life with all efforts to welcome the Coming Lord.

After eating her first bowl of seaweed soup following My Birth, DMN fell asleep holding me. She shared that a pitch black horned being approached Her and tried to kill her Baby, saying, 'When this Child is Born, I'm doomed to die.'

That moment, DMN cried out, 'Satan step back! Do you know how precious this Daughter is to me, for you to try to kill Her?'

Just like the life of DMN, you too must live a life you can be proud of. Among all the four parents of this Family's parents, DMN was the one that attended True Father the most until the very end. That is why True Father bestowed upon her the title of DMN, Great Mother. To receive that title, she offered the tearful devotion, blood and tears that only Heaven knows.

Before meeting True Father, DMN prayed earnestly to meet the Lord of the 2nd Advent. After meeting Him, she poured even greater devotion for True Parents's Family. Because she understood the spiritual reality so well, DMN fought the desperate battle to protect our Family. Even while battling an illness for ten years, DMN constantly prayed for True Parents's Family. You must inherit her shimjeong of single-minded devotion, and properly inherit the tradition of attending God for the sake of Your descendants.

This grandmother lived her entire life simply to attend God. In her own (and your) family, she wanted (and you must want) to fulfill a standard of devotion even greater than that.

In 1989, DMN was presented with the calligraphy of living a life of loyal devotion and sacrifice. When you walk this path of loyalty and sacrifice, going the full distance, you will be able to go the way of faith without persecution.

all of the churches need to burn with the fire of Cheon Shim Won to be able to see a spring... able to see fruition all around the world in the branches

testimonies... recap... It is also in Cheonshim Won TV...

Another person went through the same hurt with alopecia symptoms but was living a happy life with 9 children...

Today, DMN's 100th Birthday... 'The Tear-drenched...River' was DMN's favorite song. In our church in the past, it was a time when we didn't sing popular songs; however, DMN sang this song.

In the third verse, (usually the team leader would only sing to the 2nd verse)

'We can see the maple leaves...

It's such a heart of longing for the 2nd Coming Messiah...

Please make a time to sing this song yourself...

testimony... only because of his mother's devotions being so strong, he didn't go through with the thought of killing himself... (kind of like DMN) So, we need to do our utmost devotion. If even 1% is lacking, that could leave room for a problem.

In his dream, 'Heavenly Parent, please save this child' was True Mother's dream. And he found out his father was locked in his room for 3 years and suddenly felt the urge to read True Father's Words and he was so moved what a respectable Person Father was... This because words of prayer reached to him.

There are children who don't go to church and even curse at True Parents. We need to offer devotion so that also True Father can appear to the leaders of this nation.

They offered devotion (he and his mother) for 2 months before coming to this Workshop... engaging in various activities, waking up at 6am and going to make all the condition, especially his personal devotion being so profound...

Nobody actually told him to do the bowing devotion. We actually give free time before breakfast, but he offered the bowing during this time and had such amazing experience. Whenever, he thought about True Mother, tears not his own pouring out.

Now, he is reviving as such a precious child of Heavenly Parent. He could have a new resolve through consultation, but he thought he was a lost cause. Whenever we see our own children, we should continue to give our attention to them with devotions...

In the Direct Dominion Era, we need to have the faith for Heavenly Parent to be able to rest. Through the explanation of the lectures, we need to educate about True Parents, where they can give rebirth to dark spirits to be new spirits. We have so many cases for this, and for them to know it in their heart, the firm establishment of Cheon Il Guk, we must raise these members to be citizen owners and this church the revival of early spirit of Truth and Spirit as Mother really wants.

It has already marked the third year, and we should not just think of it as another event, but be able to experience the profound meaning and put the devotion for inheriting the grace.

The one shouting the loudest, 'Aboji, Omoni' is his daughter and please listen well to how they shout. We will be able to see Heaven give answers immediately then, rather than still having two masters.

Today we commemorate the 112th Anniversary of DMN, and when we inherit her faith, such grace. She risked her life for the 2nd Coming and to attend the Daughter of the Marriage Supper of the Lamb. She conceived True Mother after 9 years.

A pitch black Satan appeared to DMN, but she order him to step back. DMN fought Satan for 6 years, and True Mother asked us to open our eyes of faith and not become blind and deaf. She is asking us through the Cheon Shim Won devotion, and the more people to be able to see through the spiritual eyes and in the works of this TC, greater works.

DMN offered her entire life with the heart of prayer to give all the crosses of True Parents to her. She fought the disease for ten years getting the crosses of True Parents to come to her.

All of the prayers of Christians were for their own release by Jesus' cross, but DMN said to give her the path of crosses of True Parents onto her. If you go this way, you can enable Heavenly Parent to pour Blessing on you.

And DMN came back to the physical world after death and ordered the Cheon Shim Won and prepared for Father's Holy Ascension and prepared the World Center. We need inherit her mind and spirit to surely achieve victory...

Devotion of DMN moves the Heavens and True Parents were enabled to fulfill the works of Heaven in this third-stage of Providence. Actually, a spiritual medium said DMN left raging, but DMN is not a person to leave Mother, but her loyalty was to offer her body to Heaven at such a crucial time.

Centering on the Cheon Shim Won Providence, all around the world we are able to see so many Great Works, and at such a time, DMN on behalf of Mother works for all the difficulties overcome.

How important is Cheon Shim Won devotion. Her is a reflection from last Friday...

With the dissolution, I was most concerned about the Cheon Shim Won devotion, that we could connect to the church. I was not shaken by the order, but Cheon Shim Won devotion was the place I couldn't rest my heart, and when I heard we would continue it online with the Main Branch, and I had the deep realization of it being like the Womb of the Mother with so much connection, and the heart that the things happening in Japan should never happen in Korea.

After one long month, but offering devotion for more than 500 times, so much hope. Any negative emotion will spur even more devotion and repent and work harder. We can feel several shimjeongs and it is the best time of my day, with gratitude for the Love and Sacrifice of Heavenly Parent and True Parents and I want to offer the results of witnessing to True Mother, hoping for Her Health and Well-Being, with the day of receiving love and praise from the whole world. I truly believe the world can be led in the right path.

We will receive strength by the most profound ability of prayer. If we offer devotion, we can receive such power.

Also, in the SW, all of the AGSs can work freely when we connect them with the frequency and resonate.

True Father's Message:

This GWs will be the GWs where True Parents will have direct dominance, and all is not in vein, but True Mother will be able to do this with us, directly governed by True Mother. Heavenly Parent is Living and Breathing and the sensations can be experienced by the BFs... Know HMH is with you and feel that strongly in this GWs. You shouldn't think that HMH is only at the DC but is at this moment working resurrection and revival for us to go forth together - Heavenly Parent will work even harder, and to directly govern and open up a new Providence, Heavenly Parent is preparing everything, never stopping even once but going forth.

If you look with Heaven's Eyes rather than humanistic eyes, this is a great time of chance and Heavenly Parent is working in all aspects. So, during this GW's we should be able to be the chosen people who fulfill our responsibility. Heavenly Parent prepared a new Providential Period with amnesty and great changes externally and internally, geopolitics and natural phenomenon's, seeing changes, H Providence

rising. And you will understand Heaven Providence will rise... Wear the H armor.

Heavenly Parent never ignores your devotion. You will realize that we need to experience the environment where Heavenly Parent works all the time. We should shout out a new hope and share this time of the path of Hyo Jeong with unwavering heart. So, let us go forward together'

Today is more hope than yesterday and more fervent heart than yesterday, even with the dissolution order.

Our trainee could offer a testimony through the news, how he had a lack of faith heart, but took time from his job to go to this Workshop. But they should put all things for a greater faith, and Heavenly Parent is shouting in their ears right now.

Those here, you came here well. If you put your all, you will go forward the more tomorrow.

One of our Elders gave testimony that they did not come by themselves but with several other people and then those people came here again by themselves... applause for our elder

Let us all attend True Mother and have the heart to be grateful and faithful more today than yesterday, and then we can make the result to bring before the Living, Working Heavenly Parent... That hope and vision is waiting to be upon us...
