Prepare Song

Bow and Pledge

... You have led us who are inadequate beings and taught us of the value we must restore and to be grateful. Please allow our hearts to grow and be used on behalf of Your Heart jeongshim. Please allow us to experience Your Heart and let that be in all our days and feel centering on Heavenly Parent's Heart and Love. Please allow us to realize that we have the responsibility to fully create the Garden of Eden and invest all of ourself into practice.

In this barren desert where we would not be able to see ahead, please allow us to know the Course You have walked to reach us and that we could overcome and reach to others. Until the day of victory, bestow your Power that we inherit it for the Will in Spirit and Truth and comfort Your sorrowful Heart, and build up our resource that brings joy and comfort to You.

For the H Japan, please allow a new start and the work of the Holy Fire and spirit to stand and shout and make the victory. Through our shouts, please respond to our earnestness together and make the results that can bring You Joy. Until the Dream is fully manifest, and with gathering of all the righteous people,

please work through us.

Kim Jong Jun

HJ Report

known to 263 Gapyeong Villagers GPP became very popular with their performance (popular song sung by pure water us witnesses a whole new difference of After-Entrance Era of Spirit and Truth)

big, big applause

Yeah... When we give the uniforms they are the special task force Last year March 29th we gathered the GY Leaders and had the meeting and this March 4th another meeting and here is the report about it

As we attend Heavenly Parent and True Parents substantially, we had the Epic education and HJ Festival

At Cheonwon Gung Multi-Purpose Hall, we had an event. We put 36 banners across Gapyeong for 2 week preparing. We did not intend it but we held 33 banners, when 33 people came from various religions (They came for the Independence Movement and we offer our prayer and devotion so that our villagers and leaders could come and we prepare all the contents of our activities based on True Mother and Her return. And we cleaned the s threats and Epic history is the right way to align...

We set 3 things:

Clean the road

All people to welcome True Mother

Centering on True Mother, prepare a gift of True Love

Align with H's work by educating the Epic history

We did this to welcome True Mother back to Cheonseong Gung

We tried to create a road of daffodils saying, 'Let us fill the scent of daffodils in this County' and gave all the members daffodils to plant...

As I was preparing for this talk, I walked by the Tree of Love and I was happy to see the daffodils there.

We carefully prepared the invitation letter after offering devotion for a long time:

We should not just invite random people but those that have known and attended event before

Heavenly Parent established Cheonwon Gung and bring people with much foundation for each and every one who joined.

Chun Hun Jong wrote a poem called 'Visitor'

'The idea of a person coming is an amazing work, because that person's past, present and future and their life is coming. That person's heart is coming. So, we generously and politely invited. We set our own officials to gather to decide who deserves to be invited and we debated and then called out for the people five times, and if we felt something, we stopped and discussed, and eventually found 35 people in GY County.

These are the people who stayed by our side even like our member when there were temptations to be negative. On March 31, preinspection of Cheonwon Gung, and prepared for the event the next day..

Testimony of a non-member: On April 4th, in order to listen to Pres. Sun Won Chung's lecture, we let the bus carry our body, and the Renaissance-style place looked very beautiful and the staff led us with hope and the lecture was amazing, and I have come to believe that we will see the day when we absorb the

religions of the world.

It moved my heart when he said, 'Our Unification Church'. We are not separate but one, and he felt and showed that heart, and I was so grateful.

Especially under the name of Wonmo Scholarship, we gave it to them. It said, 'This is the scholarship for you to make positive contribution to the world and become the leaders. You must become someone who works for the world peace.'

I myself received enlightenment that our future gen are growing well and will become the owners and leaders... Also letters of appreciation, dividing into two groups. PL was with us routing and pushing us forward, and everything finished very well...

testimony... Moved to received the letter of appreciation. Deep emotion and hearing of Dr. Hak Jan Han receiving the nomination for the Nobel Peace Prize as a pride of our country and how sad she was to hear of Mother's detention.

testimony... People were saying difficult things are temporary and it will pass. Please take heart. (These are the kind of people who came)

One photo was of our village. I tapped the person next to me to confirm it. The Epic history was received comfortably by the gathering, explained in an easy way to understand.

We did a pilgrimage to Cheonwon Gun... One person said, 'There is a lot of energy here. Actually, I came to receive that energy. I truly felt the citizens of Gapyeong are the chosen people.'

Our Cheondo Wang President of Citizens Association... He said the HJ Volunteer Corps worked hard for flood activities and we receive a great deal of help by their performances visiting the elderly... And this kind of remark comes out repeatedly with a deeply grateful heart.

At a moment when police or any others could not go into it, they went around GY cleaning and supporting farmers to rise again and all are truly grateful. Impressive the most is that all invited mentioned their gratitude. That gives me the thought about the substantial world, things not just with our

words, but doing things with true love to move people's heart.

The Han people as chosen came to them as deep emotion and through the festival, we see a sense of affinity and heart and the self-sacrifice of the GPP that would have been impossible without true love, and this must be revealed in the world. People can distinguish whether someone's words are truth or lie.

The HJ Volunteer Corp... True Love comes from Cheon Shim Won devotion that could raise amazing youth like this. I am just so grateful... big applause

As we saw reflections, there are many about Epic lecture that was so heartistic and graceful. Connecting that, we will spread through every village to educate. We are resolved to do it.

testimony: This person has a great handwriting and brought this testimony in an envelope and brought it here. 'Rev. Moon breaking down Communism, resolving the Cold War Period and He ceaselessly put His effort to bring peace, greatest leader and peace-make of all time and also together with Dr. Hak Ja Han Moon. How great if She could have been there with us, and my heart was aching thinking of that.

I worry about political leaders what they are doing, and through this course I could think about what it means to have filial piety and hearth. And Dr. Hak Ja Han, please have strength (And this Elder Association President promised to put up a banner that says, 'True Parents Please we hope for the safe return the Cheonjeong Gung'

'I'm grateful that Heavenly Parent sent Rev. Moon and Dr. Hak Ja Han to this earth, living sacrificially for Spirit Hyo and peace without racial discrimination... I deeply respect... Them while receiving persecution and a Lifetime of hardship'

Also the words of Kim Jong Un of the hospital...'The fact that Magnolia means pure love, and is run by a volunteering heart touched me deeply.

Welcoming Address: For 365 days, and open Emergency Room and medical service throughout the County... All were moved.

We had a goal of 500 and exceeded that with 562 Many members made that area their mission home

town, Sang Town, Bok Town and... They are no more a pioneering church but recognized as an official church, where there was no church before, so that H is happiest.

True Parents Words: 'Come to GY and see for yourself what I have done' We are trying to let these Words be the owner of our life, and fulfill these Words to be the Truth that the Truth is victorious and move forward to make victory...

Video 1st J EUME ' We will engrave the devotion of Heavenly Parent and True Parents and Hyo and HeungJN and raise up more pure waters and always be with You until the end. TY and we love You

Middle Europe and Middle East

Kim Ki Hoon of H USA Welcoming Address

Thanking of HMM and our Japanese members, a brief report of the members who joined the vigil devotion today... We offered these 40 days to Heaven amid great Blessings and grace. We are meticulously preparing activities, including a pilgrimage to follow True Parents's Footsteps and missionary activities...

Director Ryiuchi visited Seattle and home churches and holding WSs with the members. I express my sincere gratitude to Pres. Lee Gi-seong and staff and academy. How great the Blessing and works as with this testimony:

Son Ah Eh: significant moment I had with Heavenly Parent in this Workshop. A growing discomfort grew in my heart for not yet feeling I achieved the goal I had for Heavenly Parent, although feeling Heavenly Parent with me, those experience did not lead to grow and I did not know why. How can I truly understand Heavenly Parent's Heart. I wondered if I was the one blocking Heavenly Parent, and I emptied my heart to listen and heard,

'You can only know me through True Parents.'

These words were familiar to me, but before the Workshop I had heard various words regarding True Father and True Mother and I saw the divisions that arose from them. Because I lacked certainty about what was correct, I decided to go back to the basics and believe only in Heavenly Parent and the unconditional Love of Heavenly Parent, rather than the diverse opinions of others.

However, even with hesitation I wanted to believe the Words Heavenly Parent gave me. So, I tried to do Hoon Dok Hae. And Heavenly Parent spoke to me again,

'Human beings were created in My Image.'

I felt I was viewing Heavenly Parent as too distant. It is because we are human beings created to resemble Heavenly Parent. I decided to pray to True Father and True Mother individually, not just to Heavenly Parent. Immediately my original mind felt as it had returned home and everything clicked into place.

The love I felt for Heavenly Parent was actually something I had first learned through True Parents.

I had forgotten that fact. At that moment Heavenly Parent felt truly close. My heart brightened and a joy I had never felt found me. I realized that True Parents are the ones that show the Heart of Heavenly Parent in substantial form. I felt so grateful and for the fact that their are Books and countless videos.

Now I begin a new relationship with the True Parents's Who show Heavenly Parent in substantial form. With gratitude I want to learn even more than before.

Break

Byung Chun anchor of Cheonshim Weekly

Although inadequate, I am grateful to share hopeful news: A Message from PL introduced a song 'Pasque Flower' that symbolizes the Japanese member who remains unchanging, looking toward only one place whether in their youth or in their old age.

PL: What kind of song are you singing in both your young and old age? What kind of dream are you dreaming Father asked. I believe it significant that Father sang this song at the very end.

On the hill behind, the Pasque flowers bend and bow in youth and in age... Let's sing this song together and find strength...

You are fulfilling with AFAL and AO, and H is preparing an even greater Blessing for you. What follows is a sad memory. True Mother said, from Heavenly Parent's Perspective, fallen humanity possesses a pitiful and sad past. The Pasque Flower is for H Japan. The language of the Pasque Flower contains poignant emotions such as sad memories, the yoke of slove and sorrowful love.

Why did the Pasque Flower come to have such sad meaning? When it blooms, it takes the form of bowing its head, like a grandmother shedding tears in sorrow, who sacrificed for her children for many years with love and devotion. The white PF, pure love, the red, sorrowful love, yellow PF, a love that does not change over time, always remembered.

Mother said during the Rally of Hope, 'If you are with Me, we create miracles.' You who have come forward with AF and AO to Mother's Words are children who create miracles. With Mother, I hope you show such strength as a child. With Mother, miracles will certainly happen.

From H Japan, the goal of participants was exceeded and I believe a new history will dawn from this Workshop that Heaven is so focused upon and invested in.

Please strike the roots of your faith deeply into the Heart of True Parents, True Mother and the Creator Heavenly Parent, so that great change and revival as never before, crossing over this critical junction with sincerity, substantially feeling the works of Father and HyoJN and HeungJN and DMN, experiencing what you never have before.

Last week, 1,184 people gathered for the 3-day Resonance Prayer Workshop. The lecturer called out his

heart of HJ. Japan has walked a long, long wilderness course, the path of Providence and wilderness where there was nothing, and even we said the indemnity era is over, it may have felt still like an unending path (tears) These are the words for this era of settlement and home church after finishing the wilderness course, about settling in a Canaan of Blessing.

You had to work for and regard only the Master before, but that time is passed. Therefore, now you must love your brothers and sister like the Master, like the Parents. Their desire is for b and s to be one with each other. That is the wish of Father and Mother (tears) The path of looking (tears) only at the Parents for the sake of the Parents, because Father was there, but Father's Wish and what Mother desired was to see you love the members beside you and become one even more than you love Father and Mother. That was our Father.

So from now on, practice loving your siblings, wives and husbands and parents loving your children and the world at the risk of the nation. Set out the family love standard and then set out, and enter the era of full-force activity for home church... Consequently, the image of BF's gathering two or three together to share love and events and becoming like that is what is required.

Who took responsibility, took back the left-behind content and sacrificed the most to establish you as true child? It was Mother. And it was Father Who offered devotion to call you. That was the purpose. Therefore, not knowing, that means that the Parents stood at the very front of the rough path of thorns and fought on your behalf.

You did not know the spiritual battle that They Walked, the path of thorns. These are my children, so if you must shoot, shoot Me. Discovering Mother standing at the very front of the briar path is the life of attending. If you realized this, you cannot remain still. The hyojeong comes out saying, 'I will fulfill the Will myself.' Father and Mother wish for you to go that path through prayer.

When you realize this, those who are willing to die, go with the Parents (tears), and there was no regret, because Mother, completely without self interest, attended with an unchanging Heart and walked the path of sacrifice, and then there is a cooperation of the AGS world... If you know the meaning of that Blessing, bound and established by tears, as BF's, you can shed your fallen nature, only when you know the value of the Blessing.

You are my son/daughter forever, and I will take responsibility. Realizing, you are already standing as a Blessed child, why would any hating or jealousy emerge for the brothers and sisters standing beside you? (tears) Why would you push them away as if only you need to be okay.

If you realize the Blessing of being Your and my child and the value of BF, with that fallen nature will never emerge. Open your heart like a little child. It's not about how you must live strongly. If you show weakness and open your heart, a gap will be created. Returning to the heart of repentance before Father and being reformed as a true child before True Mother. I hope you become such an image. Let us become so.

I will embrace Japan with love.

The Cheonshim relay prayer that followed had such intense heat, clearly proving the intensity and genuineness of our Japanese members.

To hear the news, I felt so deficient and lacking, my devotion wasn't enough. However, from the perspective of Heavenly Parent, even we are dissolved and even if the church would disappear, over a thousand have returned to this place. We of 2nd gen exist because of the sacrifice and love of our parents. They moved forward despite the hardship, and our lives exist today.

Even now, in the DC and hospital, She pours out such Love and we thank you. You love that makes the 2nd gen shine so brightly and the preparation to set out to the world is completely ready. Now it is up to us. Please become completely one with Mother and the M Nation that serves to be the foundation. Let all Japan become one with HMM. Please work through our prayer and devotion.

Because, even while being Loved by True Parents, we could not convey it through our own devotion. Today PI used the example of... so that we can truly return Love to One Who is worthy of all praise and glory, let us become completely one with HMM, True Mother and change the entirety of Japan. I will embrace Japan with love.

applause

The letter from staff member Masai at the TC moved many... a 3rd gen with the fierce courage to stand up once again.

Beloved True Mother,

I am standing in this TC on the foundation of my parents and grandparents who passed down the faith. I sincerely thank you for this position to offer the devotion every day and hope this can be even a small sense of strength more for You.

The flowers and the spring bring faces that were dark and in pain to come to smile and soften. Mother, spring has arrived. Please let us harbor the hope for the spring of your ending winter hardship.

Mother, you gave these words to Japanese families, 'Take heart. He is working at this very moment for God's beloved children. You always love us and give us strength without change. We want to respond to that love as soon as possible. We were able to gather in this place despite the face of other realities.

To see us having reunion and laughing and talking and praying in earnest with hands held high. I thought of the path of members who inter-married into cultures and languages they could not communicate, protecting their faith until now. When I think of the path of the first gen, my heart aches, and I pray for the heart and life of our seniors.

I received selfless love from many members as if I were their own daughter. Through the restoration of all things, I came to know the joy of original mind and came to feel such love and happiness, but to be honest, there were also such difficult times when I asked, 'Why me?' and crushed by loneliness and great responsibility.

Yet I know what my original heart desires and finds joy in. And even now I am running hard while facing difficult realities, and there is something I want to say to myself. and my elders. Thank you. Because of You, I am here, and could go step by step drawn by Parents' Love.

Beloved members, thank you from the bottom of my heart. TY for pouring out so much love. I cannot express how much strength and joy your presence brings me and feel the Heart of True Mother wanting to

say those very words. Even difficult reality, extra-ordinary family problems and emotions that cannot be expressed in words, but Mother has told us, even if it looks like a difficulty with human eyes, the new path Heaven is preparing and opening. We are in the process of fulfilling H's Will. We are certain with the irreplaceable faith and Eyes of Mother.

The Love and Sacrifice of True Parents is not in vain and I want to be a witness of that love throughout my love, and I will treasure the grace and love I have received.

True Mother, please keep health and strength. We offer our devotion for the 2nd and 3rd gen will be one and establish the families and nations. Thank you for loving someone inadequate as myself...

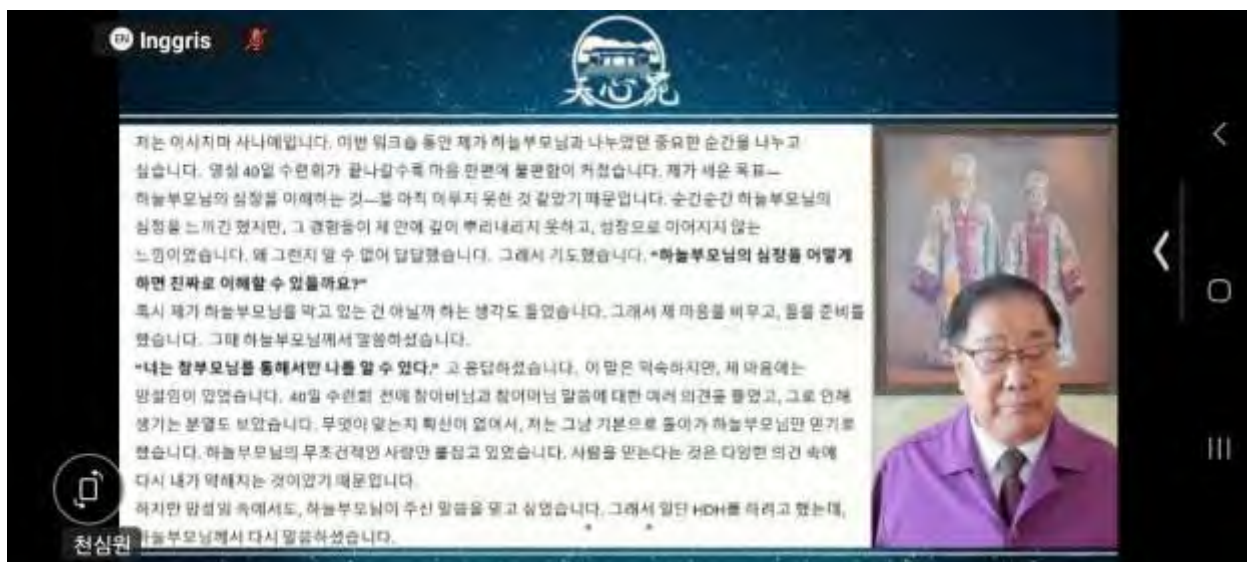

(Rev. Yokoi wipes tears)

We share this sincere message with infinite respect and love for our Japanese families.

Moon heung nim

I wanted to go to Japan and create an opportunity to go to Japan and stand up together with you, but I am sorry to be greeting you only in video.

I prepared so many greetings in Japanese, but no matter how many times I tried, I felt so lacking that I decided I must study Japanese more. I am truly sorry.

Beloved members, hello. We are all facing a difficult time together and I offer my greetings. I believe hope is at the end and we can smile no matter how big the trial, because I know how amazing our BF's are and hearts wide and patience deep resembling our True Mother's. I can be confident to know we will never collapse and our roots deeper and deeper into the ground.

video of the family and Yeon ah nim and Yeon sik nim singing...

Brothers and sisters, when a typhoon comes, new life comes again and flowers appear on the ground.

During the typhoon you cannot always see what is ahead. But I know there is an end to it. Therefore, this current period, this typhoon-like trial is... if we are with Heavenly Parent and True Parents, with our incredibly strong members whom I love, our deep roots will endure even within this typhoon.

After this typhoon, a great Blessing will come, and I am certain that various seeds of happiness, seeds that have taken root will bloom and our beautiful future will come. So, my brothers and sisters and members, I could offer various Providential interpretations, but I don't think I am in the position to say such things yet.

However, I want to say only this: I respect the members so much. I respect the BF's so much. No matter what the world says, I am certain that you the BF's and H Japan members are the chosen people selected by Heaven, and because we are the chosen people, and because we have responsibility, no matter how much it hurts at this moment, we will protect our families and our Unification Family, and I am sure we will create a new future. members of H Japan, please have strength, and we're happy because you are there.

Beloved members, we are always grateful to you elders and we will inherit you and True Parents Love and Blessing. We always sincerely respect you. We hope a small smile has been made to bloom on Mother's Face.

Cheonshim Choir and Workshop trainees

'Way Maker'

Pres. Lee Gi-seong

65,000 have come... about 35,000 from H Japan... applause

Hyojinjon Workshop is now, beginning with many tears and opening spiritually to communicate with

HyoJN.

Song Im myeong Pastor at the DC gave a message:

Today, April 11 is the day the Women's Federation was established in 1992... and True Mother just like then, walking the path of BS and TS, today the rain like on that day, is washing away True Mother's Tears. We will remember this rain, and with the heart of responsibility and practice, we will walk the path of prayer and devotion for True Mother... and they offer on behalf of us...

The HJ Volunteer Corp sang and last year conducted more than 1,000 services moving the hearts of the Gapyeong...

Pres. Seong Yong Chun gave the Epic Lectures. He was touring around. And today is the first anniversary of the Gapyeong Festival. I asked him to hold this gathering with his lecture. And this time the lecture was not for our members but for the GY County residents who were already connected and 562 came including those who were guiding and leading, total of about 700 people gathered.

Last year, we didn't hold the festival in Cheonwon Gung but at the World Center and many couldn't visit Cheonwon Gung, but this time also visiting Cheonil Sanctum and hearing the lectures and went to look at the beautiful paintings and truly a time of grace moving hearts.

Our GY leaders have never changed their hearts from last year welcoming Parents and we spent a time of deep emotions. I offer my gratitude for those who staid with us in trust and knowing True Mother is the Mother of Peace. All that we do has the title of 'Peace'.

To experience what we have done our hospital director was able to share what we have done... The International Magnolia Hospital never earned money. It took millions of dollars... Many are going throughout the villages.

For people who are suddenly sick and have difficulties, our Magnolia Hospital is supporting that care, and also go through the communities to support for Mother Love.

Also Mother said to carry the scholarship movement forward... Wonmo Peace and Love Scholarship...

and all came together and gave it, 127 students... introducing a precious accomplishment of True Mother

This is my address: Dr. Hak Ja Han Moon and Rev. Moon lived for humanity of peace. In 2013 and until 2025, for 13 years, They gave a huge amount of money in Korea and more than 1,500 and 5,987 students received the scholarship, and just for the Gapyeong County, 27 students... And what I am connected with the Wonmo Peace Foundation and the Wonmo Peace and Love Foundation, these two were established.

Please promote all to know how much money and investment they made for peace with a heart of true love. And our 2nd gen were hurt because we were too silent. We must visit every corner of Korea and boast about True Parents...

And the volunteers are leading in the diligent effort for the past years, and all the members living in GY worked so hard, and all the churches in H Korea were tied to the churches in GY County. And with the Great Flood, they were able to visit and hold the service. All the leaders and members were very moved, eventually recognizing us...

The Elders offered this gratitude with the plaque. Including Elder Cheonwon Un Leader set the condition of great victory and next year's commemoration, we should bring more people and how our gratitude and resolution to move forward so that no one is ignorant of our activity and move again forward with greater strength and new start.

For the first time a yeongseong Workshop and they made a video that we only watched the 2nd half, but you can witness how much effort and heart... You saw them singing. H Europe is on fire with vision and recreation... The Word of the Holy Spirit is ongoing.

And we shouldn't fall behind our members in Europe but bring the greater victory. Our members are working very hard. As True Mother began new providential organizations, the first ones were the supporting system spread to let people know about Cheonshim Won Providence. And all of them must be the people to follow, and allow to inherit Cheon Shim Won and owner of prayer in your church, making it the best, filling your church with Spirit and Truth and bring that Spirit to H Japan. As they move forward with new organizations and home churches are made, and great works can develop in H Japan.

And the flower of H Japan is the Pasque Flower and just looking at that shed my tears. During the time of

Father's very last Hoon Dok Hae, He sang the song, 'The Pasque Flower'...

All will unfold by how we are one with True Mother

As Ah Rah Ishi's Lecturer, he is son of 18 B Couple and he is offering prayer with all his body and voice and all his words were filled with tears....

And now with the Spirit of the Pasque Flower, and if they become themselves with True Mother, and Shin chul and Shin heung nim have shared that there is always hope and we will be victorious. And we heard Shin heung nim's family singing the praise, allowing H Japan to start anew.

Among all the b and s offering prayer in Cheon Shim Won, True Father Message through them:

'Even is clouds, Heavenly Parent is breaking through the clouds to illuminate with Light brighter and brighter for one unified world. Heavenly Parent, F has shown us that path, and even at this moment, through Cheon Shim Won vigil devotion, Heavenly Parent is showing us and telling us the path we must take. However, many members have become tired and are not fully offering Cheon Shim Won devotion.

Every day Heavenly Parent is sharing, pouring Love for us, but they are ignoring the grace. True Mother has said you must offer prayer and devotion through Cheon Shim Won devotion to move the obstacles. Are you listening to True Mother's Words? Are you just saying, 'I am too old and tired.' Whatever time you have you should move your head with the heart of offering a bow, whatever you can do to do it...

That is why Heavenly Parent created human beings, to be the child of Heavenly Parent, and we should never step back, not let Heavenly Parent see more and more children stepping back. If there are children who think Cheon Shim Won is not that important, you must think again developing step back step. In our dictionary there is no such thing as stepping back but only forward. I hope you will be the children who only move forward.

As True Parents explained true family in verse 5: Move forward for the unification of the SW and PW. You must be able to experience and feel SW, feel whether Heavenly Parent is happy or sad, feel Heavenly Parent's Heart.

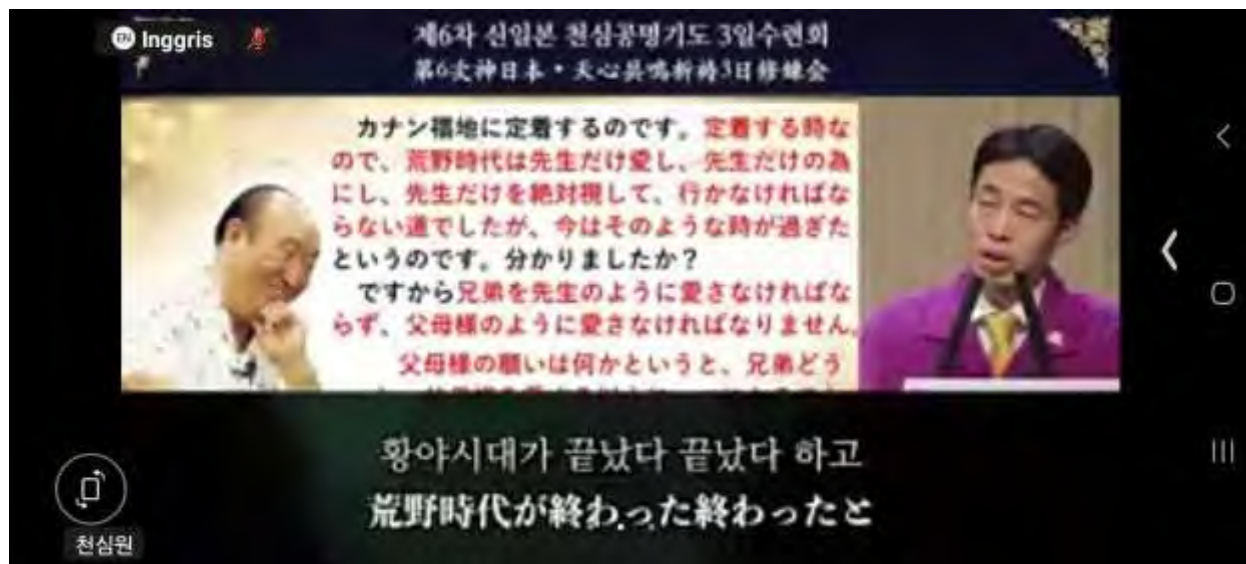

On the same page: Up until now, you never had the perspective that SW is subjective, never once. But you should think that every day. The reason Heavenly Parent gave us verse 5 is to know the H SW is our Subject and unless you perfect it on earth with connection to the SW, so it can be a 2nd place for you to start your activity not just the physical world. It will become your homeland.

The meaning of the verse is that you must always be developing yourself, moving forward never stagnant with so far things. You must not just pledge with words. The fact that we have Family Pledge to live in this PW, and all the SW is jealous. If you stop, you die. That is why we offer Pledge every day and fulfill all the things realized from the SW by growing yourself as you move forward.

These are the Words to live forever and ever, not just speaking the word that the SW is Subject but understand we must develop ourselves to creates the SW and PW to be one, and if you give devotion on that basis, SW will work through you. And no matter what you are doing, listen to the voice of Heaven and pave the path, and experience what you never have.

Many gave testimony. True Father is not captured in His own Truth but is staying with us closer than our spouse, the God of Day Who H Parent is wearing the Form of.. In Her Physical Body, Mother does not have a separation 'freedom' but She is the Physical Body 'freely' going around the world as the Substantial Holy Spirit and was able to create the Era that Heavenly Parent can come down Substantially so that we can overcome anything to know and believe this completely.

Jesus was crucified but they went out to testify about His Resurrection and amazing foundation could be laid for this time now, and now we must live this Era of Cheon Il Guk moving forward testifying with our stories, with our life and I am sure great things can come from the seeds of the hope and love we plant with that victory.

Tonight, let us empty from ourselves to let Heaven take control of our heart, our life. Let Daemonim come to you, and if you do that tonight, the proof that you have received Heaven will come down to you.
