Opening Prayer Of Gratitude

We have come where Heavenly Parent resides substantially with us, and please allow us to be used to

overcome the darkness of the long night... Only the Holy Items and Words can be left behind, but the Body has limitation. Descendant after descendant, You made a Path for us. Please allow us to inherit that to our descendants.

We have worked up to this 14th year of Cheon Il Guk Era, and especially True Mother has undergone the path that pierces Her Skin to lay the foundation. Let us feel and be one with Her in this, and not think that all the Blessing You bestowed to us is only to us and for us.

Please let the light spread throughout the world, so that all the nations and world receive. Please allow our inner hearts to grow, to not be an embarrassment but can represent Heaven and report the victories before Your Altar...

Please allow our devotion to be hope and comfort for You and to stay sacred for Mother's release and for our descendants to move forward calling out Oeg Monsei, and be the hope for True Parents and let this night be such a night and vigil....

Tang Mi Eng

I came to fix the sinking ship of my family's journey... I thought I did the best for 27 years to raise my 3 children, but I was still not recognized by my own children and husband and mother (tears) This began to accumulate. And thoughts, 'Why am I living in Japan? and Why am I here?' One day I thought I had had enough and felt pity for myself, grown children and aging this way, not living well by spiritual not world standards and 'Why am I living?' 'Why do I have to be the only one to sacrifice?' 'Look at me too.' And I ran out of the house and thought I had nowhere to go, and it seemed the mountains were calling me. I thought, 'Oh, this is why people make certain choices' I spent time by the seaside and then returned home as if nothing had happened.

My mother talked with me a while and I poured it out, and she suggested I go to the Workshop. I entered the TC and tears flowed by just looking at the Holy Portrait, and it felt as if every person I met was awakening me, and the love of the warm meals and the lectures reached me with a new depth... Only after becoming a parent could I feel a little of the Heavenly Parent's and True Parents's Heart of Love. I felt it was becoming a part of my flesh and blood, and deep grace as if True Parents were entering my chest.

I stayed to clean and offer devotion. I saw Mother's Image beyond the wall and felt surprised that my lifelong sins were there. I suddenly saw my family (tears) I thought I had lived diligently but saw the sins in our family and realized this is why it is difficult and Mother goes a way of suffering.

Then in the True Father Happiness Workshop, I became the antagonist when I answered, 'What is your stress level?' I felt I was already being loved. I was an adult but also a child that needed and wanted love from my husband... I realized my family was loving me in their own way. I realized the love, even when we fall like little children...

I wanted to live as one with Mother. One day during resonance prayer in vigil, the thought, 'This is all I can do. Let me do it with all my life.' Then the envy, jealousy, pride and anger was revealed. Realizing I

had not been able to love myself, the self I had hurt. I wrapped arms around myself saying, 'I'm sorry'. And I could feel the Heavenly Parent substantially. People appeared in the image of Heavenly Parent. Every person felt so precious. From now on I will be reborn as a child that resembles Heavenly Parent and I will be the child Heavenly Parent desires, treat my husband and child with this grace and love.

True Mother said to continue even if no one recognizes our suffering, know this Love of Heavenly Parent and True Parents... Gratitude to all the staff and PL and leaders, and my parents who offered devotion for me to attend this Workshop and my husband who always loved and protected the children even without their mother.

7th Attendance Workshop... Had followed my parents. What I wanted to do became my priority, spending days thinking, if not me, someone else will lead this Providence.

At the opportunity of seeing True Mother in Person, and the preciousness of the GA and being able to be with True Mother came to me and I made a resolution to stay with True Mother. At the previous WSs, and the past two years, facing my own limits, serving as captain, taking it on thinking it was given by Heavenly Parent. But so much anxiety not wanting to cause harm to those around me because of my inadequacies and I became afraid of the act of loving itself.

But in that pain, I knew a little of True Mother's Heart with Loving and having people leave in the end. I heard the spiritual message from DMN and PL... The life of attendance is to offer even the inadequacy and offer continuing toward perfection.'

I wanted to return my inadequacies to gratitude to offer to True Mother. The more I felt grateful, the more joyful, and the more feeling SW was with me. I injured my knee and wore a brace for 3 months and offering bows was so difficult especially for more than 3 consecutive days. I was worried about my knees, but the coordinator said it is not what you do alone but the ancestors and AGSs are with you. And I decided to do the bows.

I realized with my own body that AGSs were with me. I encountered the difficulties of the brothers and sister beside me, and I realized the joy was not truly of Heavenly Parent but for myself. My joy should not end with me but be connected to True Parents and be what the brothers and sisters beside me can feel as well, while helping them taking the next step forward.

Seeing my inadequacies again, 'Why cannot I let myself go for my friend?' One must not put their own thought first and harbor discontentment in my heart.... Tears flowed unknowingly. How sad Heavenly Parent must have been, and I was so apologetic that Heavenly Parent could not fulfill through me seeing things put into practice.

Daemonim's words came again to offer my inadequacies and move for my b and s just as I am with all my heart and devotions and sincerity is attending Heavenly Parent in me for them. Currently, I am with fellow trainees, but how can I expand this attendance by myself. I found the limits. If unable to live attendance not understanding it until now, I want to now root it and practice it in my family, and reach the nation, world and cosmos.

During the remaining period, I will do my best to find my own attendance that always rising again when falling, and attending Mother until the very end.

HJ Report

Special Missionary

I want to offer this report as a hope and strength for True Mother and also especially the Japanese members.

I prayed while distributing the Holy Items and there must not remain even a trace of the Satanic world

You must take responsibility yourselves. No one else can do it for you, centering on the the Purpose for which you were born. It is how you live as citizens of CIF, 1, 2nd and 3rd alike.

You must not just sit in the Blessing position but grow and fulfill your R. Strike roots larger and deep depends on fulfilling as tribal messiahs. This means you must do witnessing and expand your environment so that you will not be uprooted as only one family. The way to survive is witnessing.

Tour from March 27 to April 12th (yesterday)...

Everywhere I went, although the # of BFs was different, there was one heart of desperate devotion for the return of True Mother, HMH and I felt I was receiving the grace instead of giving it to them.

There were members offering as if every single second was not enough, following the drum, and how grateful would Heaven be to see that. And our 2nd gens were leading the entire session.

And in Gapyeong, there were other leaders of the area who attended the Workshop, even in one church,

16, and I was worried about them, saying, 'This Workshop will be a little bit long, so please do not leave' but they were smiling. They were actually very influential leaders and the full gospel leader came, and he was supposed to wear the white shirt, but he was wearing the black suit.

I went to give him anu, and he told me he was the leader of a church. Generally the lecture is two or three hours, but then I saw them staying behind to offer prayer, and an Ambassador shared that about this ill health, but through the CY he was healed and pledged to come again with his wife if he had chance...

I was received as if the representative really of True Parents... Then the one mother who raised her child very well as a middle school student, and she was saying she must move to Seorak to be near Cheon Shim Won. It was opposite of 1st gen trying to revive 2nd gen. I told the mom, 'Why don't you set a condition so that if some event happens, she can always come?' Then she was the one who came and greeted me so loudly. And I saw her happily coming. And she was very brightly listening to the revival gathering, sitting at the front.

And the pastor was working with me to do the consultation and giving a lot of love. And they said all was explained step by step as the way to become one with Heavenly Parent and True Parents... And grateful as a pastor that this part was explained so well. And members were waiting of their own accord until the missionary left this area.

I'm certain the pastors here remember this church so well, who prepared so urgently. The wife of the pastor was Che Su Nim, the same as an Association President working so hard. She said that is her friend and the same age and they went to Sun/Moon University together.

testimony: While preparing offered door-to-door and they said they would offer bows of devotion and we did calling out and HJ Offering Paper, writing very specifically. And the miracle occurred and also the contents of calling out was fulfilled. She was grateful to the members, opening the doors, praising with one heart and confessing what was in their heart..

Prayers for True Mother's safety and return... All members cried out to Heaven with one voice and resolution holding onto Heaven's Will. For the first time to have a district leader and they try to move centering on him. Next to the A-type church, they expanded another building still remodeling. And when I went in and took a photo, it was much bigger than the first one, now used as a restaurant... and They are creating an education center. Members themselves earned their own money and built this place...

Step by step, they are growing and gathering with initiatives to expand. The idea of fundraising is the foundation of faith, but this can also be said as paying indemnity to save the people, and now the substantially foundation of substance to follow through to restore the people. applause for them for this

Opposition from my family to attend. But life has not meaning if we do not dwell together with Heavenly Parent and True Parents and each other. Central spirits cannot be liberated only by one's own power and when I did it, problems would disappear before I knew it.

So, when you liberate the central spirit, you must also Bless them to be an AGS by our devotion and prayer. So, she said she will offer HD more and more. So, all the ancestors and liberated spirits are there with the anu place.

As soon as sitting at the sanctum, shed tears and voice of ancestors, 'Do you know we are here?' And she

realized she had been forgetting about her own ancestors and determined to offer more prayer at the TC and also regularly at home.

There are members and past leaders worrying about their members not coming to the TC, but please continue to hope in prayers at your own places.

So, we talk about Spirit and Truth and not just spiritual aspect but also practical aspects. Our True Mother has been returned for more than 6 months and the dissolution in Japan, and when we pray we always look for some lead hopeful to solve this problem, but True Parents are always the Ones Who comfort Heaven and love humanity unconditionally, so I realize I must begin anew for what I can do for Heavenly Parent and True Parents.

Also, members you should not think that you are too busy, but make the mission and work and attendance at TC work together... If you come earlier, you will receive more fruits and blessing during the GWs, and I hope you can do the conditions before coming here...

Many testimonies of the pain disappearing and the SW with them. On Fridays, we stayed from 7pm to 1am the next day, and make 3 parts... On Saturday, we begin at 2pm, but all make conditions and there is feeling of oneness with hyo-jeong, and grateful for emphasizing that the most important attitude of faith is the way to become one with Heavenly Parent and True Parents...

pastor's testimony: Foundation is prayer and devotion but foundation of substance must be a form or practice. Sharing that power and tradition is witnessing. What is needed most is to concrete the methodology with practicality in a tangible way, and I reflected on the contents we received

The leader was recently reported to visit churches once in 6 months, but was able to attend the revival and cast away the impurities and the wife was offering so much devotion. And a hot sensation of fire from her toes to whole body and tears and repentance and gratitude until the benediction...

I came to feel keenly how important devotion for True Mother's well being and release is... Also, a heart

of repentance for not protecting Mother properly amidst the business of daily life. I wrote the HJ Paper half-heartedly, but then so grateful for every testimony and everyone has their own way of realizations and reflections.

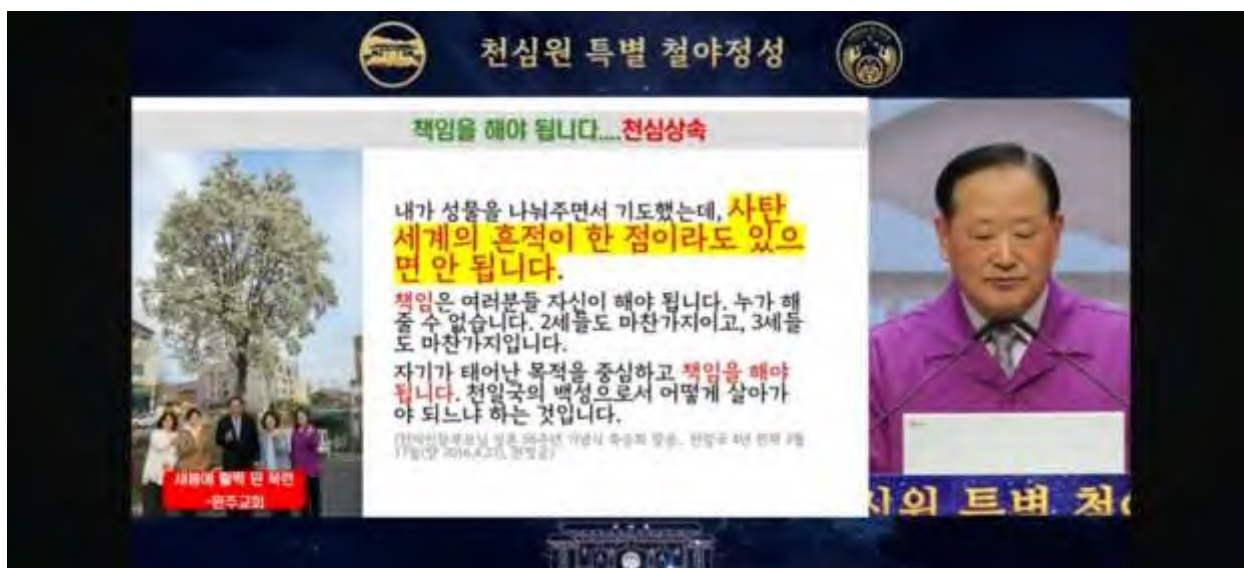

Cheon Shim Won is the greatest devotion, and I could feel that Heaven was accepting it. Within me, my own spirit was joyful, and I realized Heaven is truly working through us to give abundant grace for our consistent sincerity efforts.

PL's Words may be the repeated ones, for at this time they struck me. I didn't want to write her name, but couldn't help it for my wish that her daughter go to the 21-day, and afterward she told me she wanted to go. Then I offered even more devotion. and then my daughter took her Blessing picture and now has received contact from a good partner with Blessing lined up. applause

We must be grateful to Cheon Shim Won and True Parents... Just like the Indian spirit of praying for rain until rain comes, I should offer more devotion, and a lot of members are offering devotion that I never imagined.

Namon Church took the first place in one of the ratings...and the elders had their Cheonshim robe and the spiritual energy was so vibrant in this church and they had gathered in groups to offer prayer and named their own prayer team, 'Heavenly Harmony' and offering prayer as a team, and then their children could be engaged and Blessed, not just for one another, but for actually transforming our lives in Providential effectiveness and to give Mother strength. We are not just simply friends, but bound together by Heavenly Parent and True Parents of HEH.

So, the families preparing for their children's Blessing, prayed concentratedly for one person, and say the actual changes... and we cried to see how Heaven works to be the trinity's praying together

applause

I should not say that because I offered 60,000 or something that that was the devotion. We must know the Divine Principle of Creation well. First perfect self, inherit Heavenly jeongseong, shimjeong and then perfect our 4-position foundation so Heavenly Parent can come to our family and rest, and inherit the 8 stages of growth and tribal messiah mission and be CheonBo.

You must become God's Temple, be absolutely one and then you will know God's Will, feel God's Joy, Sorrow and Pleasure as there own so that they cannot sin or fall, but only live centering on God and those ones inherit the Heavenly Heart of Cheonseong.

Heavenly Parent gave us our form of life, and we have our own characteristic, but Heavenly Parent allowed us to come out as couples and individuals, all in pairs so that through True Parents we can fulfill all the Blessing and grace and abundance of God. That is what we know... So, the character 'cheon' is not one but union of two... So, you mind and body must become one.

husband and wife, parent and child one and then something even larger...

God the Father and God the Mother comes out. One must pass through the bosom of Father to the Mother to see the completion. All are in need of God the Father and Mother. But Christianity was written from the Bible of Christian point of view, not just Father but of Parents. Cheonshim starts from the Marriage Supper of the Lamb, True Parents.

If you go to 8 stages, there are a total of 64, so for a couple to perfect, 56 stages must be overcome and by that oneness with Heavenly Parent and True Parents to perfect themselves. To reach True Parents the 7 stages but 4 realms of heart 28 and then True Mother and True Father 56. On that foundation, this Cheon Shim Won is to inherit and with True Parents's Providence and True Parents Theory and True Father in True Mother and True Mother in True Father and this was the Declaration Day of Cheon Il Guk. But although in 2013, True Mother has to progress the Providence, suffer to proclaim that one sentence, and you can see how True Mother's Heart has been by the letter True Mother wrote at the 7th Anniversary time of True Father's Ascension.

We know Their Heart became the same and She gave Her Promise, even as a desert storm finding the needle. To restore the nation True Father wanted, for 7 nations and religious orders and 1 continent is the gift to True Father.

With the Victory of 1,095 days of devotion and victory of 3 Kingships, the Cheon Shim Won Providence allowing us to inherit H Heart, and She is perishing Her own Body to establish this and settle the 4PF with 3 Days Shimjeong Devotion and after FD opening a new Era and renamed Cheon Shim Won allowing us to register as a CheonBo family... In 2018, I thought about it diligently... It wasn't that we were ready and absolutely one with the standard, True Mother said we were lacking too much, but this is a condition True Mother set so that we would offer even more devotion to be One with Mother until the day our life ends, reaching a standard where SW and PW are one without one single tremor.

Since 1980, True Parents devotion after devotion but for many years no one was able to offer this foundation... but True Mother offered... finally 4PF right before 2020 They were established as a result of Her Foundation, 3 generation kingships, our grandfathers and parents and we are kings and it must go down perfectly and eternally, inheriting fully True Parents victorious foundation. So that is why True Parents 3rd gen must receive Blessing and have children.

Because of that Foundation the Heavenly Parent and True Parents Heart comes to us, and through HyoJN who overcame all trials and hardship by love for Heavenly Parent and True Parents shown unconditionally, that was his heart. And he can call out, 'Filial piety is mine' and also HeungJN gave his life for brothers and sisters, and we can inherit brotherly love and well, and receive comfort and healing and connect deeply with Cosmic Level 4PF centering on True Parents.

So, Cheon Shim Won is the Main Hall and if you are lacking, you must move forward to fill up the lacking part from devotion after devotion and move that H Heart through HD and practice...

To fulfill tribal messiah we must work diligently. When you witness, you must practice by reading one by one together. Seong Im Guk reported about Russia. The victory of mission around the world began from Cheon Shim Won. So the mission field is not just activity but a spiritual battlefield, missionaries must overcome for the victory, and we must work with the SW for that. Once we offer the devotion and fight the spiritual battle.

True Parents Words: It is our responsibility to make sure that there is no one who does not know True Parents, even to the end of the earth. Without the total heart and effort for this, or we can be accused.

I hope all become victorious...

'Fulfilling the Dream and Wishes of HPs and CP

True Parents have opened a new way. I am preparing something greater than the Vatican in CP, Korea, where all people can visit and honor the Lives and feel the Love of Heavenly Parent and True Parents.

This Land as the Birthplace of True Parents and is the Birth Place of the Garden of Eden, and I want to make it a Place where people's hearts are drawn.

We must expand our environment, with the Unification Family becoming a model before all humanity.

I intend to show the Intentions of Heaven in a Place where we can become one world. Then everyone in the world will want to come here. As Father said, 'People from every country will stand in line to come here' A Place where Heavenly Parent and True Parents Live and Breathe, with everything flowing smoothly like pure water, and educate talents for the expression of the Heart of Heaven.

For the sake of Heavenly Parent and the unified world, we cannot allow any room for impurities to enter.

Pres. Lee Gi-seong's Message

Let's make the beginning of the week strong heart and prayer. 44,000 gathered...

Among these I can see the devotion from H Korea... from H Japan, piling up the devotion. Middle East attending with the Embassy. Pang Sang Min Branch Leader in South Africa.

In front of DC, Pastor Song Ming Yon... 204th day of True Mother's detention...

Today, the First Year Anniversary in the solar calendar of Entrance. Heavenly Parent is truly the rightful Owner of this world, and that is why Heavenly Parent can embrace children and show Heavenly Parent's Love. 'I am very grateful. And I am very sorry.'

476 long-term trainees. Solar Calendar Anniversary of Entrance First Year is today, but we will be commemorating on May 2nd...

testimony recap: When you have fear, but you have a shield, you can block it. In order to block the fears from the mass media, you have the shield of Cheon Shim Won. If one person comes to mock you, but you are two or more, they will be blocked and turn and leave.

How much would Heavenly Parent have worried about her and what would happen to her family with the thought to end your life. You must think about who the subject is of that thought. In You Tube, you can find links where they just sign Cheon Shim Won songs (in a playlist). And I play that for a long time. Heaven can send you a robe and then a ladder and then a mountain, when you join that devotional music and thought.

You must stand in a mountain place to offer your devotion. We were put in that place, but because of pain, we couldn't stay there and went to a lower level where our ancestors we liberated can offer devotion with us. Then I believe you will be able to heal the pain and wounds and also receive the shield to block the pain from others.

For days she stayed at the sea side. Her mom would be worried, but she then came to the TC. Her spiritual

Mother saved her. She came to have gratitude and go deeper and the words becoming her flesh and blood and given the vision of how True Mother is holding onto the sin our sister made, and because of the sins, the difficulty. But she realized how to make a happy family, and with life-and-death determination, she made the amazing experience of a Light. She able to see how the sins of anger and jealousy... made the thoughts of difficulty.

But think of her husband and family as Heavenly Parent and True Parents, she could settle her family. True Mother's Words proclaimed were fulfilled, 'From today onward, please embrace your children and love your children with all your heart.' Heavenly Parent could love us and our children because we had negative thought and energies.

You must realize that the Words True Mother spoke at the Entrance should not fall to the ground, but must be fulfilled completely, preparing ourselves to enter through that Door.

There is the faith of just following the parents, and then if the parents pass, that faith will disappear. She realized the grace of WSs and volunteering devotions. Then Meeting True Mother in Person, became the turning point in her life.

I hope True Mother can come back as soon as possible to meet and give our youth hope. But what kind of greater difficulty is True Mother enduring. Always Mother offers to resurrect more people.

Through DMN's Words, 'The path to attend Heavenly Parent is to attend my b and s next to me.' And she will practice this, the kind of people True Mother really wants to purify this world, and our sister is set for a new start, and I'm sure she will do amazing work in the future.

Especially the calling out testimony, I hope you will hold onto the testimony and follow through to experience your prayer and wishes coming true. Her daughter was able to attend the Blessing this year. She offered 6 million calling out prayer and once she has the heart to offer 60 million HMH calling out. Some don't even want to offer 210 here at Cheon Shim Won.

You must empty your heart and focus on becoming one with Heavenly Parent and True Parents, but there are those who judge from the beginning to the end of the program. Receive gratefully only the grace. If you start judging someone, the love will disappear, so do not judge. You must think of how you can focus

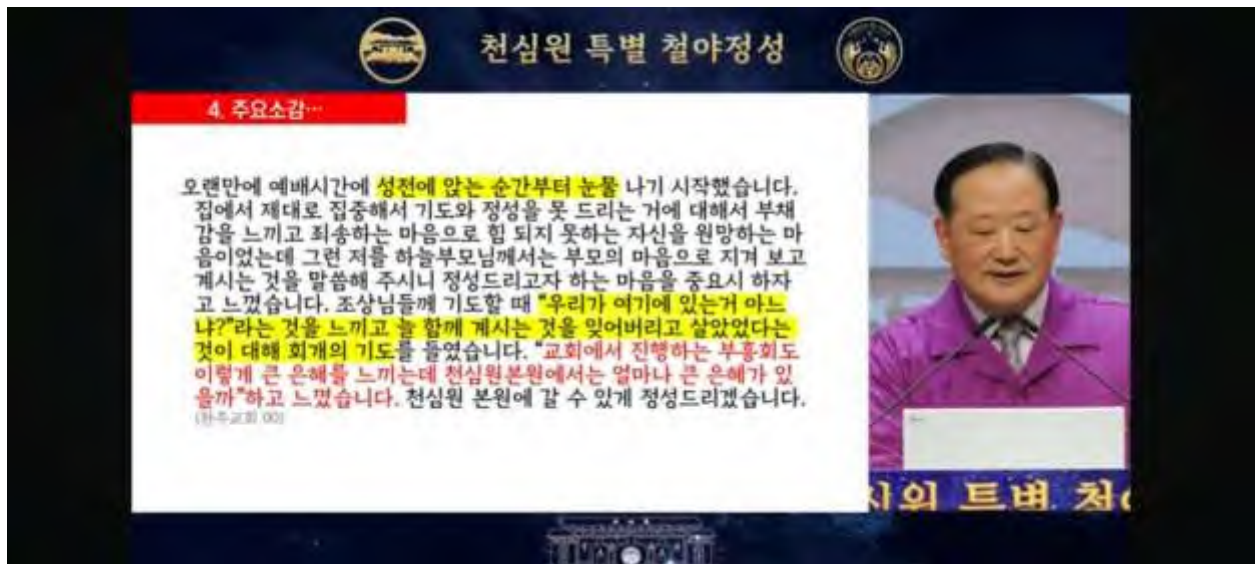

on your sincerity to offer devotion.

As our sister shared, why don't we all try really to give our all and have our own experiences by the same standard and heart.

Our sister of 6 million prayers, if she hadn't she might be accused. How many have you offered to Heaven the prayer risking your life for Heavenly Parent and True Parents Heart and Will, to comfort Heavenly Parent and for True Parents and for the Central Figures Inheritor and 4PF and all leaders and then for you and your family. If you offer prayer that way, your prayer will unfold like a miracle.

So, all members around the world must have the standard to offer prayer for HMH, True Mother. And the Namon Church has become a model, creating trinities teams in their church for each other.

Every church and many homes have their special prayer rooms, and we must set a tradition for devotion in those prayer rooms to create a church together with Spirit and Truth, and Heaven will bestow you the power and abilities.

True Mother said She is preparing a system that surpasses the Vatican, creating the environment where all can visit CP and feel the Lives of Heavenly Parent and True Parents, where They are Living and Breathing, where people of the world are drawn to and one can experience such fulfillment.

I will make this Place different, expanded for this every year. She has offered devotion that pierces Her Bone through Her Skin, that is Place is so beautiful and all the Providential leaders and member need to come here to experience this place of the perfected Original Garden. People can be awed just by looking at the Sanctum.

We actually announced to the churches to come and visit. But in Gapyeong they have the Cherry Blossom Festival called the 'Castle of Eden' and with former Cheon Shim Won Director Tsujinte and Pastor Shim Dong Mu... and there were more than 70,000 there over the weekday.

If True Mother visited there, what would True Mother say, 'Please come to Gapyeong to this Complex', but what if leaders just visited other places they were interested in. We have the most royal azalea, and we should have the festival of that flower, those who know about the planting details involved... and our training staff must offer greater devotion and during the time of the blossoming do something more that people can come and visit, and Heaven will give revelation and work through you.

There is a person who I think never wrote a poem before, but HyoJN wrote it through him with the title: 'Silence'

How can I express the Heartache that Heavenly Parent is having, the heart of a Parent Who is saying, 'I love you' but whom I could not hear. I realized looking at True Parents that I am an unfilial child that didn't know how the Parents have been shouting with earnest Heart to bring the children, and I couldn't help but collapse down and dry, knowing how much Heavenly Parent Loved me, I could say a word or make any excuse but only collapse down and say I am sorry. The beautiful Face and Hand that rubbed my face, I didn't know those Hands were scarred and my Parents pain so much more than any of ours, and before my Parents, I cannot stay still on the ground but move forward to let people know that we have Parents and that They are Loving them... To let people know, I walk forward through, breaking through the Silence.

Someone is in the position of silence and we must listen to their cries. Think of what mothers felt to know

Heavenly Parent's Vulnerable Heart. At the moment she resolved life-and-death devotion, she broke her own silence to resonate with Heavenly Parent Heart and True Mother's Heart and meet tremendous growth with your spirituality. I hope you make tonight such a Blessful night.

Prayer and Praise

With the Heart of a Parent that lost Your Children... The Path of True Mother of BS and Ts cannot be fully expressed in tears, but even if all turn their back, our True Mother kept Walking that Path for the liberation and salvation of humanity. Bless the Heart of the lonely and desolate HMH because we failed to fulfill our responsibilities keeping Her in that Place for 204 days. How could we ever be forgiven of fading hearts and sleeping souls since a year that Cheonwon Gung has been offered to You.

Let us be awakened to rise again through Cheon Shim Won. Please work with our life-steaking determination so we will offer devotion like that. There is not longer any path or time for retreat, for excuses. With life-or-death determination, those who wish to live will die and those who wish to die will live.

There is no more time. We cannot as bystanders. Let all BFs throughout the world become one with True Mother. Please work that we become H warriors to tear down the forces of darkness as soon as possible.

From May 1st to 3rd during the GWs, let this be a time of full mobilization of Spirit and earth, to create the miracle.
