gratitude

4th of 3 sons and 2 daughter

My childhood was quite different from others. Following my parents in the ministry I struggled to move often into many different environments and meeting people. But my parents were always by my side depending on them and them on me... I prayed earnestly at Cheon Shim Won, and the desire to want to help parents came to mind and I learned that UPA was training course established directly by True Mother and I decided to enter there. With school it was difficult and I wanted to be grateful but wanting to be helpful to Parents prevailed.

That my young sister went to SW, and I questioned why Heavenly Parent gave me such a trial, feeling that my efforts of all my life were being denied, and wanting to ask more and restore collapsed faith, I entered the 20th Yeongseong Workshop. The moment I stepped into there, I felt True Mother saying,

'You did well to come', but I didn't seem to receive an answer, and when I called out in devotion, I felt nothing.

Then I heard the news of Mother sent to the DC. 'Heaven is surely alive and Heaven is working even now. If you look with the eyes of faith, Heaven is by no means silent.' The moment I heard those Words, uncontrollable tears flowed.

I realized that it was I who had been closing my heart to Heaven and I felt infinitely apologetic. Heavenly Parent Who has led the Providence, 6,000 years to find lost children... and True Mother Who knew the circumstances and never gave up... True Mother Who said not to pray for Her, and promised that She would never leave the indemnity to future generations. I shed tears of repentance and I made an effort to listen well to the voice Heaven speaks.

Offering bowing devotions and emptying myself more and more, and realizing the absolute good spirits were participating and my young sibling was with me. Then my parents who lead me from behind my back came to mind, and despair and resentment became gratitude and joy and ecstasy. Heavenly Parent had allowed me to strike deeper roots of faith.

I believe H is always with us even in the pitch black darkness, H is preparing a new Providence. I will move with resolve... Called to enlist in the military, I will continue to protect the Homeland of Korea and creating the world where HMH can directly govern. With gratitude to all and my younger sibling... I love you all...

She takes the brother's hand and strokes it, saying, 'Because you don't have faith, you could think that way. You understand your own heart, but heart of faith is understanding the Heavenly Parent's Heart. 'Thank you for giving me life. Because my parents received Blessing in the Unification Church, they are asking me to receive the Blessing. Why are they so desperate. Why? What is there in the Unification Church? If parents look at you following the same path as your parents, how happy would your parents be? Please understand the heart of your parents for their child. She make a thumbs contact with his other hand. 'During your vacation, you're going to come to the 40-day Workshop, okay? He said yes and she pats his hand.

working with a couple... 'Please apologize to your wife that you lived your life only for yourself. (the wife hides her face with tears and he takes her other hand in his with both his hands. 'I truly hope you put your effort for you own happiness as well' (and the wife takes him to her, him on his knees, crying... with others around put gentle hand and praying for them and Mrs. Kim patting the husband's back, feeling for the couple...

another couple... 'The true love is when one takes care of the other person who is sick. So, the mother is really amazing taking care of you sick husband. You have expressed just what you like or you don't like, but you should still take care of and love your mom. And you mother just wants to express that you love her. Please share that you will express more to your mom. (And he hugs her a lot) and then the daughter too, ending hugging the mom... and everyone supports and is happy to see it...

Director Kim' speaks: What is CY yoksa. We have spirits stuck in our body, and we are liberating them through CY yoksa. And what happens with that spirit? We are sending them to the HeungJN Workshop to become an absolute good spirit. Our system is truly amazing, that no one else has.

True Mother is carrying the cosmic-level cross and it's time for us to repent, and as the younger daughter nation, we must comfort our True Mother...

I hope you hold on to your faith and deepen and take this opportunity to deepen your faith, and PL told me this to share, and he loves Taewonese members because of your deep heart, and now is the time to liberate and deepen you heart more... and they do CY so sincerely... with tears... praying... thanking HyoJN... giving out something to the children...

working with a couple and family... 'She took care of all of the four children by herself... and later he hugs her, even she is reluctant to receive his gratitude

'The FD is the moment where families settle down and you have the absolute responsibility to create your family to be happy. With focus on that, you must put your lives to love all each other. Whenever you look at True Parents portrait, you must ask, 'Am I doing alright? Am I the very one causing the problem with my family? Is it because of me that my child is crying?' You must think like this. Now, you must think about what you can do both in your family and church. And I hope you become one both with members and pastors/leaders and create this...

applause for True Mother before beginning HJ Report

In Taiwan, we went to three places and it was the Golden Holidays at the time for 4 days weekend... Through these gatherings, our Taiwonese settled there hearts better

Taiwon must become one with H Japan as the younger daughter Cheon Il Guk Taiwan and become one with China as well. The nation that aligns with the OBD True Mother will prosper, isn't that so. (Yes.) Nov. 23 2019

Taewon proclaimed they will make a big H city in Taiwan and allowed us to write HJ Offering Papers to settle the spirits and then a lot of members received the Blessing. It is a method of great power to clear away the resentment spirits. Before we went, our staff offered calling out name prayer, centering on True

Mother's Word, our staff and volunteers offered more than 1,000 times per day...

The day was cloudy but no rain and then during the gathering strong rain and after the gathering the rain stopped.

True Father's Words: A Blessed person is the one whom many people pray for... If ten people pray for that person, God cannot help but remember them. The group that becomes familiar with each other like this is blessed as a church.

testimony... hurt her leg and later had a cast but it got better but staff said to keep it on so that they could get through faster and safely and arrive in Taipei and begin this gathering... First to the touring missionary I explained about Ansu and reported to PL that I must give Ansu with the touring missionaries for these members and we invested ourselves.

We began group counseling and the President there said to do it please for making a model family which can show others later on. A lot of members have great heart and the nation is great, and because of his explanation, I thought I might go to Taiwan after I retire. I felt it was like Korea. God gave me the opportunity to stay comfortable after the hardship in Africa.

A lot of members were able to be healed and a lot of children came together with families in the consultation room and I said often, 'Oh, my children you have come here so well.'

When the brother came and said he did not want to be forced to have faith. And I said it's okay, but I'm just grateful that you are here, and I was able to hear him resolve to come to the TC next time

He says, 'I was able to feel how precious our children are and feel the love and grace of Heavenly Parent and True Parents and I feel our entire family can be more unified and start anew to fulfill the hope of Heavenly Parent and grateful for the precious grace and guidance today.'

By hearing from other families and our own, I was able to learn how to cope while facing problems of various situations. I am grateful that our family can take a little step forward and become more harmonious... TY applause

Externally, they look beautiful... but the son and daughter had a lot of difficulty with their mom. The mom recognized that she was very forceful and hear from the children and other families... able to empathize and resolve emotional issues and difficulties of my children in their hearts and I want to continue to strive and grow in the time ahead.

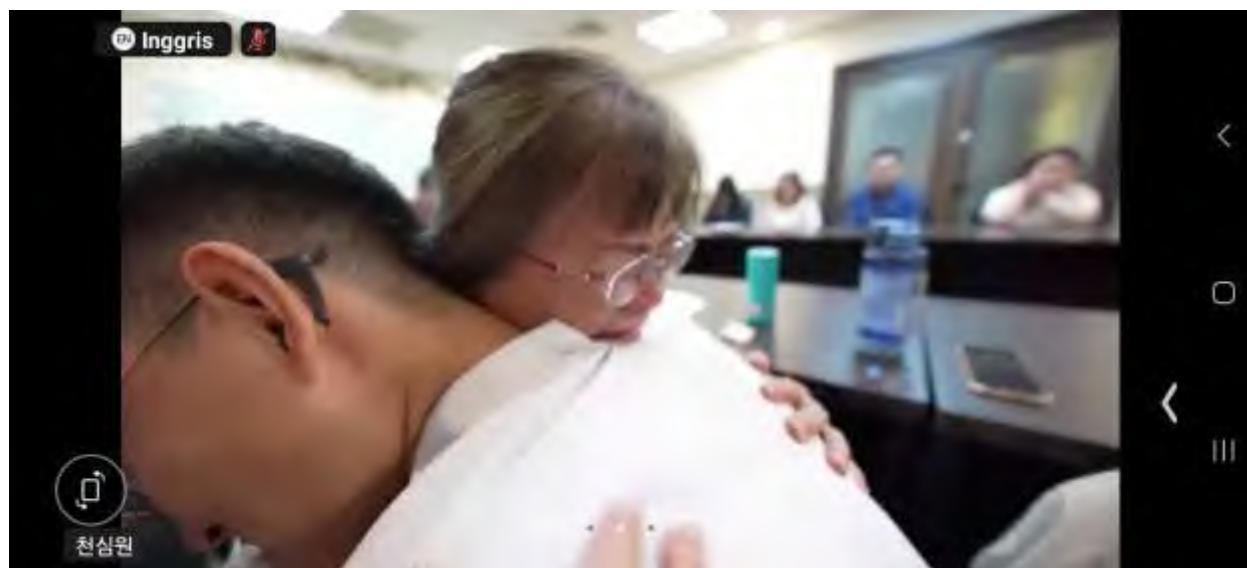

testimony... I heard from other families and my eyesight opened. I always thought I didn't get enough support, but I saw others living under a harsher environment. I feel my mother understands me more and I promised the counselor I would try to express my heart more in the future.

testimony Taiwan and Korean parents... I don't think I ever really knew how to love or what true love was. Although I knew I had to have children, I didn't know how to raise them and how we could be one as husband and wife, and afraid for satanic spirits taking them or something bad would happen to them, and I earnestly pray more that I can inherit True Mother's Heart more and fulfill and Heavenly Parent you may take this life any time, just I pray that your 2nd gen live healthy and happy. Please protect the children. True Mother I will protect You until the end and I'm sorry for not understanding Your Heart and I pray for True Mother to return as soon as possible... applause for this mother...

Three of the children are quite young, and I told her that the memories you make with them when young will last a long time... When I met her before, I tried to match her with a Korean husband but couldn't but later she was matched to a Taiwan husband...

The first night we had the wish to establish the vigil. During the time they went to the church, the children they met were elementary students, but when I went there, they remembered my daughter and wrote a letter to her and I felt very proud of them...

testimony... Ansu made his head feel clear after a whole year of difficulty... As I saw many members suffering from the sicknesses, I realized this is the pain of Heavenly Parent and True Parents, and I hope we will all take care of our bodies to show the healthy to True Parents...

testimony... I shouted True Father and True Mother thank you and in this moment I felt the emotion that was the very love of True Parents... and I felt grateful that someone lacking as myself could receive this, and then the greatest grudge of wounds as a child that made it difficult to open my heart and love...

another... graduate of Sun Moon University and she speaks as a native Korean, but her child hospitalized with an illness with no known cause... for 8 or 9 days with infection and thinking it was spiritual, I applied for ansu... and there was anger in the child's eyes that was spiritual from the conflict in the two countries... and I will apply again with hope for liberation and her growing up well... How much crying would they make, but I told the child to fight the disease back, to cry more and more and then the anger dissipated... I told her that her family must work hard to save this child.

Mother has endured so much for us and I could cross the barrier of numbness toward True Mother and resolve to do more...

Last year we rented all the gathering places to hold this tour, but this time we had it at the church, but too many people registered and we could help but reserve a high school for it.

True Mother: CP is the Place to liberate the spirits... sometimes the Korean members just look at themselves in this time, but the Taiwanese did it so passionately... PL gave me two purple robes per gathering and I could offer it to 2 members appointed by the pastor, one a UPA cadet that was Taiwanese and her sister had a hard time psychologically so she decided to come to Taiwan to work hard, but she had a hard time as well but she looked very bright this time.

I thank Director Kim Myung wook... so grateful all the grace and love to help the members so much

Do you remember this child with the father who took care of his son so sincerely with such difficulty but said I don't have a disability, so why am I complaining... and the wife and him came together to take care of the son.. I'm grateful for the ansu and saw the spirits being separated from both eyes for his improvement and I will move forward so that my child can grow healthy and deeply feel the love of God and True Parents... Oh Yon Dok is the son and the father is... This time the Oh Bek Chun... applause

another... daughter of the pastor, going to Taiwan to settle a new tradition...

Kim Myung wook (is giving out looks like a towel and hugging people who want to hug her also...)

There is a Japanese princess who came to Taiwan and a big age gap to her husband, but the husband said his wife sleeps as much as 16 hours a day, that caused him worry... and applied for consultation... deeply

moved in that time, seeing her wife finally let go of what hurt her in the past and open her heart... which made me at each... There were many tense moments in our relation and I felt helplessness to help, but now she is showing determination through making devotions and I have more momentum for our couple...

When this happens after the wife sleeps for 16 hours, when the husband comes, she wants him to talk sharing... I told her to offer more devotion and she had a lot of difficulty with her husband and I felt I was having consultation with a Korean husband... lives for himself and doesn't take care of her husband, and I told her I hope she abandons her husbands, throw her away, and all were shocked because this kind of consultation doesn't happen there but the idea is for all to be happy... Then the pastor said the wife could resolve all the sad heart and resentment... When I say when I say, 'Throw him away' It is for the husband to see the problem in a different perspective.

We must take a strong, impactful path so that the husband can see a different perspective.

another sister sibling was crying so hard and I asked and the mom showing favoritism for the other sisters... and then the mom started to hug her...

another... faith wavering and I saw that I needed to choose faith for myself... receiving the answ the pain I felt was asking if I would choose faith for someone else or have my own conviction and from my own mother's experience I found myself also having two siblings, so I will pursue my own conviction

During this period when a lot of Taiwan people were waiting for meeting their ancestors, and I had the thought that I must have a life-and-death attitude...

The pastor came to the consultation also... one son trying to live through the difficulty of his father... and I told the son he should be the one scolding the father, 'Why aren't you living as a Blessed family?'

such a small place and so many members came... but grateful to be able to hold the gathering...

I met precious ones I had met before, and even hearing she had been living very poor, and she told me she was living very well. She opened a Korean restaurant and she was so successful. And there is a famous Taiwanese news reporter, 3 of them, who were eager to write the news report for her and her restaurant

became viral and she became very rich. I was grateful for this change. Her body was in pain from working in the restaurant, and she received the ansu... whereas she could not receive a solution in the hospital... I told her now that God gave her a lot of money so that she could share... I hope she can offer a lot of donations and sharing of her money...

another family who went to Taiwan with the Blessing. This member is not coming to church or offering tithing and now she has a lot of debt, and I was surprised.

The Director said, 'It will not be accomplished unless you stake your life'

another... I had discomfort in my heart and body of my neck and spine for a long time. Even gently performing ansu on my own back, such a stinging pain... both the pain and resentment and sadness all poured out through the ansu... It felt as if True Mother Herself (tears) was comforting me. With the heart ansu, I kept retching, and knew there had been a resentment spirit in my heart... TYSM... I love You, True Mother...

another... feeling a deep peace and coming closer to Heavenly Parent and True Parents... Through PL's absolute faith and obedience to True Mother, the Cheon Shim Won expanded worldwide... Seeing the resurrection of so many youth, I feel hope... Ministers felt helplessness to see the member's suffering on the front line... The revival and solution through Kim Myeong wook's life-and-death resolve...and this 2nd time as the first, such help to us...

The Korean and Japanese churches are undergoing such hardships, but True Mother is walking the path of the cosmic cross. For the past 53 years of enduring countless difficulties and pain. We are sincerely grateful to attend Heavenly Parent and True Parents in His Sanctum today, and I hope we can make a new determination, understand True Mother's Heart more deeply with a heart of Hyo Jeong... and I thank PL, and the team offering much prayer and devotion behind the scenes for this revival... I hope you open your hearts so that all the healing can happen during this time...

Pres. Mindese and his wife truly have a heartistic attitude and the wife supporting her husband quietly to revive the members and connect them to CP...

This time this is the staff that toured with me, and I was welcomed by the volunteers. Through their love and devotion, we were able to tour around Taiwan and the True Family Counseling Center will be conducting the special counseling and aansu, and I hope you will benefit from this. TYVM big applause for her and all the staff

Sow the power of Heaven through Cheon Shim Won devotion. True Parents appeared, and a new history began, opening the path for all people of the world to move forward as children of the Blessing. What an amazing and gracious fact this is. Yet, so many of the world do not know. I intend to build a Place for all to be educated, for True Father and the SW to be mobilized... That is F's wish and the wish of all humanity. You must pray, 'F, I am going to such and such a place today, please go with me and open the power of Heaven.'

There are so many obstacles for unified Korea and world, and you must offer devotion to make the root like an olive tree. I am making the branches and we must increase them further. I cannot suppress my feeling of being so apologetic and awestruck. Words cannot express My gratitude for being able to dedicate the Sanctum Entrance. I will make the effort to expand the environmental realm together with True Parents to make the order for all aspects...

Grand Pastor Song In Yeong? sent a Message from at the DC:

It's the 266th day since True Mother's Detention...

For True Mother's health and absolute liberation, we offer our prayer with the churches and groups in front of the DC. Heavenly Parent is looking at True Mother. In the Tears of True Mother Heavenly Parent reside, and in the deepest part of True Mother's Heart Heavenly Parent is holding onto and embracing True Mother. I am sure Heavenly Parent will not let Her cosmic path will not be in vain. She will become the Light to illuminate the path for many people. The cosmic cross True Mother is walking will become glorious. Her patience will allow Her children to be absolutely one with Her. True Mother Who is with Heavenly Parent, for Her, we will offer devotion with all our body and heart.

The gathering from all around the world proves we are one family, and this is why True Mother created this Place for that education.

testimonies today... the entire family had to face the greatest trial, and such a sorrow in his heart and such a question, 'Why?' and he didn't receive an answer, only his body aching. But he kept offering prayer and devotion and could finally be in the moment of realization and uncontrollable tears.

With the Indian spirit (of praying until the rain came)... You will know the tears of Heavenly Parent's Comfort and Love. The content was through the letter of True Mother. Heavenly Parent is alive and working even in this very moment. Heavenly Parent is not staying silent.' He realized it was he himself who closed his heart not to listen.

And we must all engrave those Words in our heart, as if speaking directly to our own ears to open ourselves to receive.

With the difficulties that continued, hearing the song, 'Heavenly Parent Is Pushing Me from Behind'... I myself, do you think it was easy for me. There were so many moments of multiplied trials because the enemy spirit wanted to break me down. The song that I sang was that song 'From My Back' and it filled me with joy that Heavenly Parent and True Parents are with me and are working with me and love me and are speaking through my mouth, and then I was able to overcome.

My b and s, if you face the difficulty and do not overcome, you cannot go to the next level, so you must have the heart that you will overcome. Our brother will go to the military and meet his limitations and hardship, but I hope he has the heart to make 12 disciples there, and then I'm sure they will come to him, practicing what he learned in the Workshop... while standing guard at night, when others are spending the time in boredom, you can offer the calling out in that time.

When I myself was in military doing night shift, and there were times when I fell asleep and Heaven gave me the messages and visions. The brother is renewing his faith before entering the military, and Heavenly Parent is always preparing for a new providence ahead of time.

As we study True Parents's Life Course, 'Heavenly Parent prepares things ahead'... When we were in the womb, Heavenly Parent prepared for us to have our eyes, nose, body... If you didn't have the things for your life birth, what would happen. When you come out from your mom and start doing the poo poo, Heavenly Parent prepared everything, or what would happen... When we realize how Heavenly Parent prepared for me, you can receive (recognize) the Blessing, see everyone as the precious people, and receive the righteous, prepared people...

Heavenly Parent's responsibility is 95% to our 5%, and then much more Blessing can come to

humankind. When a farmer planted one seed, then a great amount of fruit is harvested in its later time. If you have AF, then Heavenly Parent will give you vision.

When the sound system was so bad that we could not hear what each other was saying, we could receive the vision and hear what would be happening as it is today. 'We will hold vigil at the World Center' All was fulfilled... Let us look at the vision of H unified Korea as True Mother told us we must offer devotion and for at least 1/3 of the world will know Heavenly Parent and True Parents.

Kim Myung wook shared about her great work in Taiwan, on the foundation of her staff offering more than 1,000 calling out. Now the mission is not just to visit, or else they would receive a cold gaze. Taiwan received abundant grace this time, and I hope Taiwan receives a great record during the Great Works.

So Cheon Shim Won is a gift, a present and hope for solving problems that could not be resolved before. Only when you offer devotion can you receive the key to open the door. As a Cheon Shim Won culture, it is the devotion as you resonate within yourself, CY yoksa, Heaven must work through the true love resonance. Resentment and hatred can have no resonance.

True love resonance is true love to allow you to love your enemies. Resonance praise and prayer and HD and ansu. You must conduct everything with resonance.

As we live every single day not to forget how you must resonate with the SW. Our ancestors working and cooperating with their ancestors to attend the Messiah Parents, resonance is required so that they can work through you. When one person completes the 300th vigil, they can have the HJ staff and show what kind of miracle and testimony and you should be able to share those stories, and by piling up the devotion, you must have amazing realizations.

When True Mother started the Cheon Shim Won Providence, You must remember the devotion True Mother offered. True Father stays here with the Spirit and Cheon Shim Won allows us to pass through the 3-year period that True Mother offered, having the same thoughts, and going beyond that to set a standard of True Father 4PF... HyoJN and HeungJN residing in the SW and Yeon ah nim and Hoon Sook nim reside in the PW... in a way that both in the SW and PW to work much more strongly and amazingly.

True Mother had to set a victorious foundation to bring HyoJN to be in the Position of the Eldest Son

with this Cheon Shim Won and CheonBo Foundation. Despite so many saying that nothing could happen through the Cheon Shim Won work and True Mother allowed True Father to wear the King's Robe. TFs are royal families under the kings, right? True Mother established True Father as King of Kings and progressed the Providence with the value of that foundation. In order for you to know that value and status, you must at least offer prayer and devotion for 1,095 days without stopping.

And you should be able to know and realize whether you are perfect or not. What if someone started to judge you. 'Is that the devotion you are offering?' You should know in your own heart if you are setting that standard, making your heart same as True Parents's Heart, and your life will open to the path that Heavenly Parent and True Parents want you to live, becoming a filial s or d that True Parents love and a citizen of Cheon Il Guk, to be the one who substantially settles it.

And central resentment spirits try to block us, and controlled by them the families cannot overcome unless they organize and liberate those spirits. So, as you listen to the testimonies, you must organize yourself and start to overcome things one by one. Understanding and knowing this grace, please spend tonight's devotion with Heavenly Parent and True Parents grace.
