Opening prayer of gratitude

.. calling us into the infinite love of Mother... We have received the H grace of being BFs of the holy lineage chosen by H, whom the AG ancestors always protect. Allow us to build up the absolute attitude of gratitude, and work through us without fear of satanic... At this

time leading up to the Great Works Commemorating True Parents's Holy Wedding, let us engrave deeply the meaning of the Opening Ceremony of the First Anniversary of the Cheonwon Gung Cheonil Sanctum... Allow all families to reveal to the entire world that they have become completely one through the Great Works, with The Holy Mother Han, True Mother.

We earnestly desire and pray that You work through us so that the Providence of True Mother's

vindication and swift return to CheonJeong Gung be realized. Beloved Heavenly Parent, especially at this time, please rapture True Mother's Physical Body with Your Great Love so that You may work through Her to make this a miraculous time when She is completely restored and becomes strong and healthy...

gratitude

I was dormant until high school, but through the guidance of my cousin, I am Blessed and presently attending the Blessed wives Workshop in this beautiful environment and am feeling joy.

I was encouraged that this is a time when angels accompany you to organize and resolve family problems

for the foundation of your own family. I carried the specific challenge with an inexplicable inability to love my husband and I didn't know why I didn't want to meet with him at any time or spend time together...

I frequently would get angry and burst into pain at the same time. He would cry and say he was in pain because he was immature and could not understand the reason I was crying. Feeling that starting a family in this state was dangerous, I entered the Workshop to change who I am...

I tried to pray frequently at Cheon Shim Won and through the programs and lectures, I realized there was a reason in my family... my father suffers from an incurable disease and my 3 sisters have left the church. When I reported about not being able to love my family, it came that if you do not know the historical background, you cannot know the truth... or love and that I should pray for each one's life and the background began to emerge... (tears)

Since childhood I felt ashamed of my father and resented him, but as I prayed I realized that he initially held a public office but had a difficult time because of the church restructuring and then further complications, but he never resented the church, instead said he was blessed by taking this path.

My mother has lived as a nurse, working hard to pay for my father's death and I thought it might be better to just divorce him, but she said, 'I cannot abandon the father God gave me' and continue hard work every day. Regarding my own sister who left the church, I judged her for living selfishly, and as the eldest daughter, shouldn't she make an example. But as the eldest, there were high expectations of her and although she invested in the church, temptations of the world and then could not overcome her limits

Also, my siblings struggles because of my elder sister and there were things they could not surpass, and I also judged them without trying to understand more. When I looked at my father and mother and sisters from God's perspective, I felt they were my pride. My elder sister had been thinking of us all along and wanted to get along, but did not know how. And I repented.

Once toward the resentment of my family were resolved, my feelings for my husband also changed. I felt Heavenly Parent's Heart and I heard Heavenly Parent tell me, 'I want to know your heart. You must tell me everything.' I felt that my husband was like God and grateful for his existence.

Through the dreams and spiritual experiences I felt Heavenly Parent and I had a dream where my ancestors were bowing to True Parents and another when they were dressed like soldiers, asking me to go to Cheon Shim Won...

On day during CY my hand moved as if by an AGS to perform ansu on myself and I felt the joy of the ancestors that I was doing devotion after 15 years. I felt them say, 'Please finish the ancestor blessing and liberation quickly.'

Until now, I had taken responsibility for my mother's side of the ancestors, but began to have human thoughts about employment and stopped. My husband agreed that I should proceed actively with my father's side.

I realized that a in 40-day for the wives how so much can be organized and resolved, and I could learn in an easy to understand way, and I will continue to practice devotion when I return to Japan.

father of two sons and one daughter

gratitude to Heavenly Parent and True Parents

Listening to the testimonies, I felt half proud and half envious. Despite my shortcomings, I stand here with courage.

My older sister was involved in the Blessing despite fierce opposition from especially the maternal side of the family during her student years. While living in her mission post, she always struggled and cried with attempts to restore the family. One time she collapsed with some spirit possession and I went a path as never before of conditions to try to save her, barely able to be restrained. But then her consciousness returned and in several days returned to normal.

I realized that it was through sacrificial efforts

to restore the tribe beyond the family, and for that reason also I can stand here. Two years later, when I told my family that I intended to receive the Blessing following my sister, my parents called all the family and children and son-in-law and I was asked to sign a renunciation of the Blessing form.

However, for 5 years my wife devotedly nursed my mother who suffered from diabetic complications and required insulin injections and even manual urine extractions. Moved by this, my parents changed 180 degrees, becoming PR Ambassadors, and my Japanese daughter-in-law boasting about her to the Japanese hometown and relatives.

With liberations of ancestors, my eldest son's matching and Blessing that had not succeeded in 3 years was resolved for him to receive the Blessing. Three families across generations were simultaneously registered as CheonBo families.

Then the massive shock of Mother's Detention came.

Having served as a police officer in the field of criminal investigation and justice, I found myself worrying as if by professional habit, analyzing and predicting the situation legally. With one year of sabbatical leave before my retirement, I decided I must now do work for the Will of Heaven, thinking I had never done anything properly until now. I offered bowing for 129 on the first day and increased the count by one the following day...and devotion for Mother walking the path of the cross in prison, and to

participate in witnessing activities for the expansion of the environmental realm She so emphasized.

Strengthened that the time of difficulty was best for witnessing I went to distribute the autobiography and testifying with others... then participating in the 40-day with my wife, with goals of conditions for Mother and the Blessing of my children.

My knees and toes and other injury interfered with my bowing and I didn't let my knee touch the floor and avoided my toe to touch the ground and when my waist was injured, I adopted for that also. My wife performed ansu on me and I felt like acupuncture needles stinging, but the waist pain disappeared. I felt the power of ansu directly.

In the lectures, Director Kim Myung Ju's words stayed with me: God fills you only when you let go of greed. If you don't organize the shameful deeds you know are there, they will become trauma and lead to unhappiness. Therefore, you must engage in endless self reflection at the TC.

I attended the Cheon Shim Won whenever I had time and sought my original mind through bowing devotion. I received the message, 'Empty yourself and let go.' From then on, whenever my flaws, greed and shameful flaws came to mind during bowing, I recorded them in a notebook and looked back on myself to find my original mind, which would be what could not be bought by money.

I offered infinite respect and gratitude to HMH. I am currently the leader of the men's Hyo Jeong at the church. Through a program called, 'Monarch Butterfly Will and Therapy' where one writes a will and an epitaph, I died and came back to life that time.

I realized that living without fighting was due to my wife's prayer and love conditions. To my wife, 'I respect you. I love you' and he make a heart sign above his head to the big applause...

spring comes, happy to meet the participants

Already one years since Entrance...

True Parents's Words:

What God desires is human and what humans desire is God. If only one side desires, it cannot work... If God desires but humans do not, it cannot be reached. Coming to like each other comes first.

another: 'To create the environment on earth where Heavenly Parent can be attended so that the Ideal of Creation can be substantially realized, in the position where Heavenly Parent and True Parents are united as One.

True Parents's Holy Wedding was in 1960 and there are many Blessed families, yet the environment was not sufficient to attend Heavenly Parent substantially. Through a long period of 53 years, FD was proclaimed and Cheon Il Guk was settled. Until a massive Temple was built after 6,000 years of Providential human history, to attend Heavenly Parent substantially on earth, have you been one with Me?"

So far I have toured 75 churches... Usually we prepared together with them, and they did 21-day devotion before our coming and youth volunteer to lead the gathering.

testimony of the youth leader: 555th Cheon Shim Won session is reached and I will move forward with the members... starting anew through the missionary's visit especially during a time of difficulty. A seonghwa youth student led the CY vigorously and many felt hope. Dormant youth were transformed.

The atmosphere was wrapped in an extraordinary power during the CY and my daughter was moved to tears, felling True Parents had truly come in Person...

small church but big grace. In True Father's Words, there is a bridge over a railroad track and I read a letter once more, tore it up and threw it away. That was Jan 1951. After leaving the prison camp, Father passed through here, Jan 18 1955, going to South Korea. It is said He wrote many letters to the disciples He had written to, letters of more than 20 pages several times that He had written more than twice... but they were returned to Him.

Sitting on the embankment of the Yeongcheong Bridge, He thought of the past, He tore up the letters and made a new determination as He came down to the South, with the bridge signifying True Father's Indemnity and a new start. This is also the home of PoneJonmanju. Actually, our youth brought these

rocks that were originally placed at Father's Tomb and brought them to the church and they put it very preciously. And our Pyeongcheong Church member feel F's Presence through these rocks.

Looking at this, I was able to feel the Heart of True Parents. And when we sing Tangshimgan, The Song of Single Heart and Mind, I jeongman ju... We usually sing this song when we do CY yoksa.

'Though this body die and die
Though it die a hundred times
Though my white bones turn to dust
and my soul cease to exist,
my single-minded devotion to my Lord never fade'
With this heart, I believe True Father crossed the bridge...

This is the hometown of Jeongmanju, and when I went there, where the lyrics were written,

testimony of healing... the daughter did not want to go, but was offered a lot of pocket money, and then she went, and I felt the AGSs wrapping their arms around her say, 'Don't worry about her. We will protect her.' Just by her very attendance, so much amazing grace from the SW.

another... Before True Mother visited two years ago, at that time the yellow daffodils and flowers and in front of the restaurant to meet Mother, tears flowed. And in my dream my husband in SW reached out his hand to go together.

another... commemorating the day True Mother visited made this most meaningful, and for True Mother swift return and families to overcome the current crisis... I resolved to attend with deepest heart. 127 attended including dormant members and Ambassadors for Peace. I gained the conviction that H is surely present where members gather centering on True Mother, and I felt True Father also participating with deep interest.

I once again engraved in my heart that the sense of mission must become a new starting point with union of the SW and PW...

I realized again how True Parents stake Their Lives to save humanity, and to put the same heart to my husband and family for others...

another... I made more resolution to read the Principle... On March 28 of last month, we held the gathering of two churches. True Mother had given many Words and they kept the chair exactly where it was when Mother gave the devotion there...

Going into that Cheon Shim Won, I could feel how preciously they revere and love True Mother. They were also offering HJ Papers for Mother's return.

It was to be the same place as the Buddhist and they write down the names of the Masters as well as the kings of Shila. Every day they call out to the religious leaders of the past that lived in that region, and all the members wanted to gather there... The capitol of Old Shila

testimony... healing with hand clapping very gently to avoid the pain and then healed by strong stimulus vibration moving toward the center of her head...

We have ten minute and 25 during the session and the clapping during that time, if we do it properly, a lot of miracles occur, I firmly believe. It is a precious time of spirit and grace to heal the body, mind spirit and heart and inheriting Heaven Parent's and True Parents Heart. If you do it with a strong conviction that the H SW and PW are together and believe that your body will be healed, the works will happen.

testimony, E Taegu Church... Thinking I have been complacent and self-centered, I began repentance and my body became hot and wished our members could be as happy every day as today.

A 93-year-old sister was there. When I looked at her, she looked old but was working so hard. She sent the testimony...

I have attended for 40 years but came with a repentant heart, not protecting True Mother and what can I show True Father but a few spiritual children. Please forgive our wrongs and earnestly protect our church from the spirit enemy.

Because my faith and devotion are lacking, True Mother is still suffering. Because protect True Mother's health.

Yeongju Church has a female spiritual leader and her husband is Japanese, and there was a bright atmosphere with many choir members. All of them had some responsibility of their own... I heard the praise gracefully. Every member had a sense of ownership, and they attentively and passionately had a role in the service and every face was beautiful..

There is the place of mecca Confucianism

Praise occupied a very important place in their worship (and he shares them wearing the unique choir long robes of white and purple and singing with passion... We can see how CY praise can change a person and how bright their faces are. Through the CY, I believe we can change.

The course of the past wilderness era is the past. I have created through many ways the completion that comes through the OBD. The Lord comes to find the Mother of Humanity, The Bride the Lord seeks is not from the fall, but pure lineage unfallen. Mother had to be Born on the foundation of an able-type mother in the fallen world. Until now, we have lived forgetting the true Essence and Value of True Mother... Isn't this true?

When we clearly understand the Value and True Essence of Mother and True Parents, we can root a faith unshakeable by any wind or waves.

True Father on May 5th 2004 in Cheonhwa Garden in Yeongsu, True Father proclaimed the Era After Heaven Opening and the Victory of the Day of the combined two tens, saying:

Today the Era before and after Heaven are switched, centering on True Parents. The Era Before Heaven was of disharmony with war, antagonism, oppression and gender discrimination. The Era After Heaven is when 'yin and yang' achieve balance and harmony where God, humanity and nature harmonize through the True Love and Heart of Heavenly Mother. It is an era where fallen woman has been completely restored, finding the Position of the Principle of Creation. It is the Era of the True Father Representing the

Original Masculinity and H Father and the True Mother representing the Original Family of Heaven Mother becoming One.

This is the Core of the Combined Victory of the Day of the Tens. True Mother proclaimed the 53 years up to the FD in 2013 as the wilderness era. The Era following that is the Era of Cheon Il Guk where True Mother Completes the New Era, New History and New Culture.

While True Mother is still on the earth in the flesh, Heavenly Parent can work directly on the earth, truly the Golden Age and Era of Settlement of Cheon Il Guk centering on True Mother. Ultimately, True Mother has restored and established the Position of Heavenly Mother Parent and H Father Parent. To realize the ideal of One Family of Heavenly Parent through H Mother, She continues to lead the Providence. Through the substantializing of H Mother and True Mother, Holy Mother Han, Who Attend H Mother Substantially.

First year Anniversary of Entrance. We attended but did not fully grasp the meaning and a lot of people attended without knowing such meaning. True Mother stated that the meaning is the Completion of H Providence and of human history. If you look at the long 6,000-year period it can be seen as the long process of the fall and of restoration. How happy would God have felt to give them the 3 Great Blessing to dominate over all the Creation. How much expectation and hope must God have had but then True Life, Love and Lineage lost, everything lost, becoming a Parent without children.

The final day of victory when God comes down through True Mother is the Day Heavenly Parent has been awaiting, and how happy Heavenly Parent would feel to establish this Cheonwon Gung Cheonil Sanctum, the goal of the history... True Mother said it is the completion of human history. Everyone is born having their own parents, whether good or bad, smart or not. So all of us are the fruition of our parents and ancestors.

When we think about our parents and True Parents, we miss them, but through the fall, no relation to Parents of Creation and we connected only with false parents without knowing or conviction having received Satan's blood lineage, including everyone, but also not knowing what false or true is...

Through True Parents we were able to be reborn as true children. So, when we look at this accomplishment of True Parents, how to help but be grateful. Because True Parents like the first ancestors of this earth, the time to begin along with Cheonil Sanctum. We have come to live in an Era where Heavenly Parent can directly govern.

We live where the status of Heavenly Parent has been restored and we are living in this era attend the Heavenly Parent.

Cheon Shim Won is a Place where Heavenly Parent and True Parents are 365 days a year and you must pray there creating reasons and ability... Try calling out prayer 1,000 times. True Mother said we cannot move Heaven with our human thoughts alone so we must establish the H Heart through Cheon Shim Won devotion and even now Mother is strongly emphasizing Cheon Shim Won and is with us here at Cheon Shim Won.

True Father said we cannot imagine His desperation when there were no members, calling out each name as many as 400 time, hanging onto each precious soul. It would take an hour and a half to two hours to finish the prayer. If you live without knowing this, is it okay just now to know. True Father offered prayer with life-and-death determination.

The atmosphere in churches is changing to move toward Cheonshim Providence. We know that our root of faith is through Cheonshim. These are Words True Parents gave us, to become one with CS Heart and deepen faith, commanding the SW to move and solve all problems on earth and go to Cheon Shim Won 365 days a year to see True Father, and while always attending True Parents... If you offer devotion, your prayer will be accomplished and make a lifestyle of loving and becoming one.

Every day I attend Cheon Shim Won with a new heart, which I don't decide on my own, but it naturally comes out, especially looking at 2nd gen, that heart arises. I hope that all the members and I believe that all the members are deep-rooting their hearts at Cheon Shim Won, or else we will not be able to hang on to our faith.

It is the Place to inherit Heavenly Parent's Heart and live our lives... TY

Hoon Dok Hae

The Place that completes and shows the blueprint of Heavenly Parent Creator. This Place that was prepared and Birthed the OBD, True Parents appeared and a new history began, opening the path for all people of the world to be children of Heavenly Parent again through the Blessing. How amazing, yet how many people of the world still do not know.

I intend to build the Cheonhakwon that can show the people of the world the Providence to be known by people of the world today as well as descendants that must be found as citizens of Cheon Il Guk. I am educating to truly become citizens of Cheon Il Guk and HPs... We speak of the Heaven on earth, ut what does it look like? It is a people united with Heavenly Parent and True Parents.

The administrative office governs with no day or night, showing how citizens attending Heavenly Parent should live. That is why when I said I would build the Cheonwon Gung, the preparations could not be immediately but now through the perfected Adam and Eve living the perfected life on earth together with the children and then going to Heaven realm in Heaven, how intensely Heavenly Parent must have waited until Heavenly Parent's Eyes were sore.

Pres. Lee Gi-seong's Message

Message: inheritors and their warm letter was truly gave us great strength and speaking Japanese and

singing the Japanese song, I was very moved. The amazing work of the Holy Spirit is already changing. As brothers and sisters, forgive, love and the miracle will occur. Although we looked like we were dying, H's Providence will move forward greatly. We are not dead. We are greatly alive and will ignite the HS to spread throughout the world. PL give the message of life and all who hold the staff and lead this Cheon Shim Won vigil, gratitude to you...

And I hope all the members of H Japan have the same heart...

Parent and restore 3 dormant sisters of hers and all of them walk the path as a Blessed child. And her husband is also Blessed. Who would create a woman into a beautiful wife. He didn't know why his wife was crying. He could do anything. But by sending her to Workshop, she became new.

testimony... His sister offered the devotion until 3:30am and the spirit came to trouble her, but to find someone spiritually open, he did what he could with conditions and he could establish his own absolute faith, thinking of his sister's suffering as his own, he was able to understand the SW and going to many Ws, he received the Blessing and make a family. Only because of his sister becoming crazy and wild, he could transform and be with his beautiful and amazing wife. He has never fought with her for 33 years... giving credit then to his sister's devotion.

His wife attended the mother-in-law so well that she boasted about her in the town and they could make the brother's family naturally surrender seeing who she is. Our brother was so grateful, that after receiving the leave of absence for a year (if secular, he would have done differently) but he is spending such precious time. There are only a few Hyo Jeong in Korea and he could be a model family that others follow. And the Hyo Jeong should give him a plaque of a model family.

HJ Report... all the churches must 100% feel the work of Cheon Shim Won vigil. The Place that completes and shows the blueprint... through perfected Adam and Eve and True Parents... That is Cheonil Complex where the blueprint is. It was for the perfected children on earth and in Heaven... We are living in a moment when this is fulfilled after so long Heavenly Parent's anguish and endurance.

Now is the moment of the fulfilled Blueprint where an Adam and Eve establish the Providence for all the people of the world. Yet, the world still does not know this truth. Then we need to let them know by showing them. How? So True Mother prepared this Cheonwon Complex showing Their Love and Life Course, establishing this Place Cheonwon Gung. True Parents must show that Heavenly Parent's are directly governing and the Place of showing that is Cheonwon Gung.

The work I must do is to show how people attending Heavenly Parent's must live, True Mother said. In the 13th year of Cheonwon Gung, where children attend substantially. So, when you go there, not just to see how beautiful but showing Who True Parents are. The Attendance Workshop is established by Heaven. We need to prepare for the Entrance and with much dust in every area, how can we do and how much cost if we hired someone to clean it. So, the 40-day trainees cannot be absent from lectures to do it. So we made the Attendance Workshop to set a standard to communicate with Heavenly Parent through this cleaning practice...

All the members must learn and live a life of attendance... The last moment of our perfection is through our action at the right time and place, to be perfected. When you push yourself to practice where you could not, where others are mocking and denying you and making you sign a contract not to go to the Unification Church Church, when you offer tithing and with absolute faith, you will not give it up all the way to the cross. Only when you set such standard, you will be receiving absolute faith and set a condition out from a place where you could not have faith.

Those attending vigil are the righteous hearts that move the SW to listen to their prayer, giving power. We must live and attend Heavenly Parent substantially and then you will be receiving the eternal life of faith, where Heavenly Parent and True Parents can reside in your family. If that happens, automatically the community and entire world will be embraced.

So, True Mother's Words:

You must show the Heavenly Parent to the world, by how we attend as individuals, families... and not just reading HD quietly or you will not remember... I hope you will read louder.

True Mother said to show to the world, we must create that nations of individuals. Although True Mother explained many times, She said it is important to show how the Heaven nation looks. That is Cheonwon Gung. Our True Mother established this Place and held the Entrance and all must be H family so that each family can show that difference of those who live in the Heaven realm on earth.

All the churches also should be able to show such world to this earth. All creating an environment of practice how to live the Heaven on earth, to be the model by education from Cheon Shim Won and Cheonwon Complex...

True Parents allowed us and showed us how to liberated dark spirits to be AGSs... I am grateful to be here and I offer congratulations for you to be here. It is not just your parents, but True Parents first, and H will let you know and give you revelation how much devotion you need and how much you are lacking, not by your own decision of conclusion. What will happen if you inherit this hell-like world to your descendants. You should be able to know and feel where you are at.

The children sang Fight Song with great strength and Mother asked if this is the era of Day or Era of the Night. True Mother said we should not be able to recognize the difference. If you have the unexplainable emotion not to want to meet your spouse or hate your spouse, many members are speaking with vomit of the evil words, spreading that to cover the light. We must offer prayer as if at war with the dark spirits (to liberate them as the identity of children... in their truth purpose of creation place)

May all of you make the victory so the H force comes down and supports all of us... Please offer that prayer tonight

Heavenly Parent wanted to reach to and embrace the children and our True Mother risks Her Life in the DC still looking for the lost children... despite She cannot see anything, still telling us She is okay... to find us and establish us, and we should collect ourself as brothers and sisters saved by True Parents, let us become one in heart and will for our HMH True Mother, now is the time for us to offer devotion and let all the b and s around the world realize this. Only believing in True Parents, there are thousands of missionaries believing in only True Parents path, they have made countless testimonies that could not be read without tears...

So many children are suffering in pain and violence and Heavenly Parent and True Parents knowing this, had no choice but to go forward, with the Heart that desires children to come back, don't you think we should be the ones to protect our True Parents, we who received the life from True Parents and Their Life of Sacrifice Devotion. Our purpose of faith is for the sake of others, and we must go out and bring those 2nd gen, whatever we can do as a group and offer the praise and devotion only for Heavenly Parent and True Parents, now to stand and move forward, the work of Cheon Shim Won is deeply connected to Heavenly Parent and HMH's Heart and now is the time to realize this through devotion, with this opportunity to repent and let us move forward, let us rise to be such children.

Mother please do not worry, just stay healthy enough in this moment...
