So, our elder members, please do not worry about us. We, the future generation will rise again, the future generation will rise again from this present situation

Through President Song Yong Chun's lecture on the Epic of the Chosen Han People, a graceful Place was prepared, and it was a time to engrave in our hearts the position the Korean people must hold as the chosen people of this era. And marking the First Anniversary of the Cheonwon Gung Cheonil Sanctum Entrance Ceremony, which established Cheonwon Gung as an even more precious Center of the Providence of True Parents.

President Lee Gi-seong: She (True Mother) is asking not to pray for Her but this country to not be despaired but without ceasing to practice true love and I have the conviction that Dr. Han's Heart will Embrace the entire world and this very Place will be the Holy Ground where all people from around the world will come.

(See the youth performing dance and the audience responding) The youth will practice love and sincerity and be the hope and return the victory for True Mother. Oeg Monsei together...

### HJ Poem Reading

Lee Song Mon

'Beyond the Cross'

There's a day that falls a thousand years unto one and opens a new millennium.

On that Day, the OB Son headed toward Jerusalem on a young donkey

And at the hands of the crowds surging like waves, Olive branches became green banners, dancing in the air.

Hosanna Oh, Lord, save us! The blood-splitting screams of people oppressed by suffocating years

With nothing left to lose, And the cheers facing liberation shock the very axis of the earth

The grassroots saw the King of Kings, in the years of power and hierarchy, only a crisis was seen.

The blinded high priests, instead of praying, plotted conspiracies in the corners of the temple.

And in the courts of authority, they sharpened the spears and swords of wrath

The last steps of the Son of Man stayed upon the Hill of Skulls, and the hand of the traitor rose against the Heavens

The hammer echoed. The nails were driven,, and red blood dripped onto the soil

The world saw the end. and shouted hoorah

However, the Soul cannot be nailed to a cross, and the Truth cannot be bound upon a tree. Love, burning at the threshold of death, opens the door leading to eternity. And a certain end becomes the seed of new life.

Heaven set out on a long journey once more. Searching solely for the One Son, searching solely for the Only Begotten Daughter

Kingdoms rose and crumbled, empires appeared and vanished, while stars of countless names rose and were buried beneath the earth, The Invisible Hand plowed the field of history.

A recreation to mold true sons and daughters -- overcoming eternal hardships, that dream has been fulfilled

As Heaven and earth meet again one day carried a thousand years, and a thousand-year path is upon a single day.

The life-long path of the Providential Will was as narrow and rugged as ever, but crossing the river of BS and Ts They changed the direction of the world.

True Mother of the universe, the OBD, on the day Heavenly Parent was attended on earth, the evening of the world began to fade, and the radiant dawn of the New Eden began to open.

Then one day, an uncontrollable tsunami of darkness surged forward. Caught in the trap of desire, those who sold their souls and the worldly powers hide behind the law as they did in the past, seeking to judge the H True Mother.

Law, law, law, they brandish the yardstick of the law, but the law sometimes imprisons justice and places Truth upon the guillotine.

The polluted media weighs the gravity of sin, and the crowd wearing the stars of the times erects a cross.

Oh how deep is the night of this land, but Heaven does not let go of its work. The cross is not the end but a new beginning.

And suffering is not defeat, but the door to a new era. The dawn always opens from the deepest part of the night.

Look beyond that red cross, stained with the Blood of The OBD's Love.

As Heaven lifts the cross high, the door of Truth opens, and the crown shines bright.

In that moment, the crown of the traitor falls to the ground. Laws like iron chains turn to dust, and the wind of the New Word shall awaken the world.

Folding yesterday and opening the New Millenium in one day, the night of falsehood vanishes forever, and the brilliant morning of Truth dawns.

Upon the heads of all people and all Creation, the sun of New History rises

HMH, the victor's new spring resounds from earth to Heaven, throughout the cosmos, and all existence opens as one in True Mother's Arirang dance.

The Garden of Joy, the door to eternity, opens.

Quote: There were countless times when I asked, 'I have no more strength to walk this difficult path. It's impossible for Me to continue. God, why are You asking me to follow this road?' In those moments I had to have unyielding faith, resolution and patience - and that is what shaped Who I am today.

## Dr. Ki Hoon Kim

The 2nd Kodan Japanese leaders' Workshop began today with a grand atmosphere... Following the previous success, many participated and we will continue.

3-day Workshop centering on American leaders has many registrants of 40, signaling a strong start...

Following the 40-day H America Spirituality Workshop, held from Feb. 28 to April 8th, the HJ Academy students from Korea and the American 2nd gen have become one. Alongside LV general members, LV missionaries have been offering sincerity with passionate practices witnessing in mall and on LV Fremont Street. They are bringing people to our witnessing centers, showing videos and teaching the Providence of Heavenly Parent, and holding onto HMH, True Mother.

Now at Cheon Shim Won we continue to offer deep sincerity while proceeding with witnessing activities. Starting this weekend with 3-day Holy Ground Pilgrimage Tour, following the Path where True Parents Walked, will begin.

Finally, I would like to introduce a testimony from a graduate of the 40-day Spirituality Workshop, Jamie Carlson, a 2nd gen from Indiana Church

'I deeply realized the arrogance that was within me, because I had met True Parents several times and had much experience, I thought my faith was already deep. However, seeing the pure sincerity and determination of my brothers and sisters, I felt that my pride had become a limit in how I treated others.

I was ashamed but I became humble. Now I want to sincerely see and respect the precious value within every person. Through the Workshop, I newly realized how deeply transformative a living relationship with Heavenly Parent and True Parents is. Cheon Shim Won became a place of peace and healing for me.

To the question in my prayer, 'What is the way to become one with True Mother?', I felt the answer is through jeongseong. Also, while feeling sadness and helplessness about the situation of True Mother and Heavenly Parent, I offered a thousand bow condition with the heart to help Heaven.

Following that, even in a? state, I offered another thousand bows. After the second condition, I felt a peaceful and bright presence at Cheon Shim Won and a Heart saying, 'Thank you.' Through this experience, my desire to deepen my relation with Heavenly Parent and True Parents and grow as a son of Hyo Jeong has become stronger.

### HJ Cheonshim Weekly Report

Kyon Son Su

He bows to True Parents and audience... Hello Cheon Il Guk leaders and distinguished members from around the world... There are those who keep the beauty more radiant than the spring flowers. They are the missionaries who have inherited the Will and bring light to the dark place, and miracles through the heart of sincerity toward Heavenly Parent, with immense power of heart.

True Mother's Words: Do not worry. Do not worry about Korea. Tell the members throughout the world, 'I am okay.' and tell them, 'Thank you.' Tell the missionaries, 'Thank you.' Because they kept their places, Providence is still alive. Because someone somewhere unknown to us was witnessing, we are still here today.'

Even in the darkest and most difficult place of suffering, Mother is conveying Her deep gratitude and love for the missionaries from around the world who have allowed the FF to strike roots. We feel that right now. She is showing beyond all human languages, through Her Substantial Life that She is the Substance of the H Mother and the True Mother of humanity.

In Korea, there are special missionaries. They are from Japan, Philippine, Thailand, Mongolia and more who have come here through marriage and are living lives as wives, mothers and missionaries, many serving as hyojeong, doing registrations as volunteers without any complaints, setting aside often their own families or taking a leave from their own work place.

God's sorrow is not being able to find a person who can sacrifice for their neighbors, just as God infinitely sacrifices and serves humanity. Because of this, I felt that the SW remembers the Hyojeongs.

testimony: On Feb 26, I visited the SW. With an experience with allergies. At 3:30am couldn't breathe, lost consciousness in the ambulance, and went to the entrance of the SW Gate. However, I saw many good spirits saying, 'Go to the SW.' They were moving at such a high speed looking at each other, looking at each person one by one, saying, 'You are allowed to go to the SW'. They came to me and said, 'You have a condition, so please return.'

At that moment I thought, 'It's because I am serving as a hyojeong.' I thought, 'I must work hard for the 144,000 registration goal this time' So, at our church 98 people registered. So, I told people from other churches, treating them like siblings, register, register, and adding two more, I will be reaching 100 people... applause... and I believe I am receiving much grace because of wanting to fulfill the role of a hyojeong.'

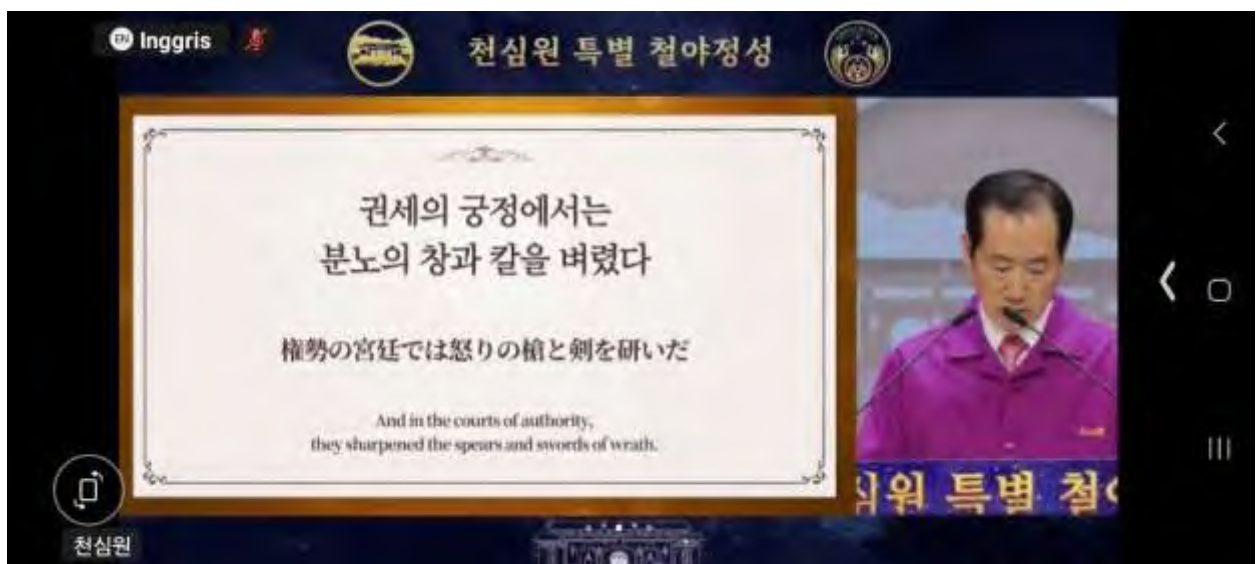

Yes, even the SW remembers us. I truly believe that, because hyojeongs are held so dearly in the SW, there was a Divine instruction to convey the Love of the H Mother.

sketch video

... PL 'At least once to participate in the Main Branch, so different from participating online... but a bigger difference from participating in the church and in the Main Great Hall.

SW said, 'Since you have a condition, you need to go back'... Those who offered such sincere devotion, even though you are in a place of death, you will overcome, and if the parents have sincere devotion, the children will overcome deathly situations.

I myself was in serious accidents... one while changing lanes... but for decades, it was because of my mother going to HeungJN's Wonjon Tomb making rice cakes taking multiple buses and head to the Padju Wonjon... Every month, 12 months through the winter, and she offered hyojeong until dawn, with no fear at all...

There are 21 grandchildren among my 6 siblings... My mother is still alive and there are 16 great grandchildren. It is important to be a hyojeong and not one time and just quit. It is storing treasure in

Heaven and establishing a condition in Heaven so that if you die, you go back.

If you receive a salary but fail to do more than the value of that salary or you will be in debt in the SW. Even in a company, if you cause a minus making the company a debtor and causing it to fail, that is unacceptable. Let us make a condition that we almost die but pull through like Isaac, like Moses when his son was not circumcised and he was gasping for breath and then his wife realized the issue and had the son circumcised and Moses came back to the path of life.

So, our missionary Hayashi has given us a great lesson.

Having pain and not wanting to show others, as the brother with hair loss. He hopes his own lense may be inspiration for others. What was my future? How to boldly show my faith with my family and to the world. I might cause immense confusion and suffering to my spouse. I took courage to apply for the Workshop. Thanks to the coordinators guidance and those who supported me with welcome and help. I entered the intense prayer meeting with the different atmosphere of burning passion for True Mother, and I reflected on myself...

'Why did you give me this suffering?' Why did Heavenly Parent give such great wounds to my parents, suffering in the countryside, unable to understand each other and they only fought. How can I release their suffering. I had done nothing properly for them? Why did I only think of my own pain? Then, I realized that I cannot comfort Heavenly Parent with my own emotions and thoughts alone but the reason Heavenly Parent sent me to go through all the processes here was to make my family a little happier and resolved to have a positive heart.

But revealing my baldness on the stage in the choir team and before unfamiliar trainees, but feeling Heavenly Parent wanted me to display myself proudly, and with the heart to provide even a small courage to someone else. And as going to the restroom, a person with similar appearance hugged me warmly, saying, 'Seeing you sing so proudly in the vigils gives me strength.' I also suffered with hair loss but have given birth to 9 children. I know you can overcome this, and I am routing for you.

I realized Heavenly Parent knows everything and wanted me to be confident and bold, and I can

overcome and give even a little strength and hope to many others...

testimony... Blessed when yet immature and unable to fully accept the partner... For three years no substantial exchange and I broke the Blessing thinking I had deeply hurt the other person. Because the partner was 1st gen, and because I felt I made a condition against True Parents, I was unable to attend the church. Realizing I had created the greatest pain for Mother, tears flowed and thoughts, 'Why am I living?' 'I have no value' and the urge to die appeared repeatedly.

My younger sister felt sorry for me and wanted me to go to the Workshop, and for some reason I felt I should go. The moment Mother appeared at the World Center, I broke down... pouring tears and my heart poured out, 'Mother, Mother, Omma...'

Then I looked forward to the vigil time so much, and I prayed for Mother every day despite of and forgetting personal problems, only for Her health and the Dreams of Father and Mother to be fulfilled and to be used however She needed.

However, I thought I was not in the position to be used for Mother. When I heard there was a GPP Workshop, I thought this is it, and my older sister paid for it. I entered the 14th Spirituality Workshop thinking I had nowhere else to go for the path of the will.

There was a strong atmosphere that I shouldn't go if I hadn't already met a partner, but I decided to throw away my own heart and believe that anything was okay if it was for Mother, and then I was able to receive the Blessing while still in the Workshop. It has been about a year and a half and throughout this time, loving my husband was difficult. Since I was a Jacob child and my husband was 1st gen.

Her husband speaks that I had a heart of distrust why isn't God working, Mother detained and the Blessing so difficult.

I felt there was great opposition to this Blessing being established.

Husband: I didn't really believe but I wanted to believe.

After the dissolution order, I bought a small Cheon Shim Won to pray at home and I felt that True Father

was Present and although attacks come, Father and Mother are present in Japan and at our home.

Husband: I wondered if this person was right for me? When I told the 2nd gen around me that I was communicating with this person, they said that this woman is a very good person, and I felt Heavenly Parent was speaking to me, and I was able to feel the Shimjeong of Heavenly Parent and able to accept the partner.

Through Mother's eyes, I could accept the person I couldn't before and was reborn through the partner to inherit the true lineage of True Parents. Tears that are not my own flow, said the husband, and I realized this was not my own.

Whether the partner is angry, conflicting or sad, everything is truly lovely. I heard Heavenly Parent say, 'I have wanted to keep loving this child for 6,000 years'...and the husband thought that Heavenly Parent wanted to continue loving through me, and I wanted to receive the Blessing with this person.

I felt a deep love in my heart during the Cheon Shim Won vigil and resonance prayer. As the 2nd gen cried out, 'Father, Mother' and the contents written on their Papers of HJ were almost all requests for their sons and daughters to receive the Blessing and prioritizing the HPs instead of their own hardships and pain, I deeply thought that Heavenly Parent and True Mother are currently praying with that same Heart right now.

It was a time to feel the painful and difficult circumstances of the 1st gen seniors who have suffered until now and have come here only to return the precious children to Heaven. The ones who came just to love and help Mother do not collapse. No matter what difficulty, our seniors are still moving forward.

Because I have no mother's love, I realized that even they have no church, they have gathered in a single house to still cry out for Father and Mother... Because I have no church or support of the world, there is Mother's Love, I cannot give up this path of the Will... Even no external circumstance, every second on this earth without ceasing to go forward to be the children to fulfill the Dream.

Land of Japan, Your children are praying as one, so True Mother, please trust us, we will not give up. Because I have no Mother's Love, I cannot give up the path of the Will. I ask that You pray for Yourself Mother, that You may recover Your health, rather than paying for the Japanese members. You are the

only One Who can fulfill the path of the Will, so we pray for You without sparing anything to secure Your return, doing our best so that Japan can protect Korea. Rather than Korea can protect Japan, we will pray for Korea...

Japan will not collapse. We will never lose. There are children who love You Mother, even they could not come here, every moment they Love True Mother

Husband: She has everything that I do not have. I truly feel a mother-like presence from her who makes me reborn, truly like a messiah, and from now I want to move forward loving you instead of Heavenly Parent... I look forward to our future... Kamsahamnida

The District Leaders have been the supporters of Cheon Shim Won... We had a meeting last night and I believe they are truly established to spread the Heart of cheonshim. True Parents's told us as long as we

are united, we can do anything...

More than 60, 000 are gathered.

More than 3,000 members have offered pray and devotion through Workshop...

Daughter of... told me she went to the Karaoke room to shout out her prayer... and you will receive energy without yourself knowing... And the poem gave us his poem to give us great strength and all the people will gather to dance around our Mother, and I believe this will be fulfilled.

Kim Myung wook was invited and took the tour of Taiwon and every place filled with abundant grace and I believe Taiwon will set a new record for the GWs registration.

Kim Gi Hoon brother also told us of the 3-day Workshop already filled up, and most members from USA, from bottom of his heart one brother offer the 1,000 bows twice...

Today is the first day of March in the H Calendar and the 66th Anniversary of True Parents's Day of HW, and we were asked why we are not celebrating today.

True Mother gave us the Word that the H Parents' Day must be held in the spring, by the H Calendar. Heavenly Parent began everything in the winter and the greatest day is March 16 on the H Calendar and everything will be held on that day. Are you happy? Yes. Are you grateful? Yes. And True Mother is fulfilling True Father's Words

True God's Day, Children's Day and True All Things Day should be celebrated at the same time, but has not been so. But that is the Day when Heavenly Parent wanted to celebrate is when Adam received the Holy Wedding, and True Parents's told us to celebrate the H Parents' Day on March 16th as well.
