**Testimony**

My mother had iron-clad faith

... mission Malasia and Philippines

trauma with husband... realized I had been relying on my own emotions but had not real jeongseong... but my husband looked at the value of our Blessing, even his body was failing, he did not stop fighting...

I went back and offered sincere devotion and humbled my heart and Heaven opened the doors for me to be able to travel. I want to thank all who gave prayers and stood by us in the Philippines... I was able to visit my husband and he was able to recover. In Malasia, my mother-in-law sat down with me. She asked if I could take care of him forever?

This is an illness that can come back at any time. My husband had never given up on me, so how could I give up on him. My husband's struggle was my struggle... Our victory was True Mother's victory.

Last year he was tested again in the Philippines.. The sickness returned and I was the only caregiver. I was agonized watching him suffer. I wanted to scream, and I stayed awake to comfort him and felt my spirit grow weaker... In hospital I started an online vigil. My mother-in law told me to do the calling out prayer 1,000 times... and to have the Heat of Heaven... We have been so busy trying to survive that we forgot about our spiritual life. That is why we are here in CP 40-day Workshop, to purify our heart, but I did not expect the experience, being here in the land where True Parents have poured out Their Hearts, I no longer just feel the Words but True Parents's Heart... I feel the vibration of True Mother's Heart...

I realized that my past experience but not to make me suffer and doubt but grow my heart even when it hurts... I stand before True Mother as a daughter that has begun to feel even a fraction of what She endures...reflecting on Her loneliness Course... absolutely with the hearts of HyoJN and HeungJN, I realized not just to simply follow but walk with True Mother... with their same hearts, the same readiness...

To everyone, do not wait for a crisis to realize your deeper heart, when you offer a heart that screams for Heavenly Parent and True Parents, the mountains move... offering the jeongseong with the heart for Heavenly Parent and True Parents...

True Mother, I am the lacking daughter, but through the grace of this Workshop I have resolved to be a daughter who never gives up on You because You have never given up on me (tears) I have found the way through. I feel so incredibly fortunate to share my heart with all of you today. This is my first 40-day and I feel so fortunate, a grace I never expected... standing here together is such a gift from Heaven...

Finally deepest gratitude to my in-laws and my husband for walking this path together with me.

---

### HJ Praise

lyrics

'Don't complain  
Hold your tongue  
Even if they are there and they won't help  
Never stop praying

I know your situation  
I will turn it around  
I never take a break  
I am always watching everything I  
I will turn it around

(We will offer devotion now Heavenly Parent and True Parents  
Even if their power suffocates you  
You will see, I will turn it around  
Never stop praying

---

## HJ Testimony

First, gratitude

Taki Takio?

first son

At first I did not have intention to participate in the Workshop. I was preparing for my employment, and my heart did not move to my family's suggestion... I began talking to my family about my faith and education for 4 hours, and my mother earnestly pleaded with a serious expression I had not seen before wishing me to plant roots of my faith at the Workshop, and I felt so suffocated that there was no option but to go. Eventually, in front of my parents I wrote down on paper a resolution to go, but even on the bus my mind was full of thoughts of wanting to go home and pursue as before.

After the prayer gathering, I felt the desire to achieve victory over the central resentment spirit, and put all my strength as if calling out HMMH... I was so exhausted, but after praying to True Father, 'Please be with me so that I can make it to the very end' and then I could make it through and felt True Father for the first time... While waiting, a trainee from behind massaged my shoulders and I felt the warmth that could not be expressed in words. That trainee was someone very pessimistic about themselves, but through that trainee I felt True Father encouraging me and wrapping me in love, and a heart of gratitude overflowed and I was moved by him trying to comfort me, even his own situation was not good... (tears came on the spot)

We came to sing phrases such as, 'Let us go back to the Path True Father walked' and I felt True Parents's love and (tears of gratitude) and looking at True Parents's Faces on the monitor I felt to wonder how they could have such love to someone like me and thoughts of how I was guided until now, however it became difficult to breathe again so that I could not stand on stage, so I was earnestly calling our 'Holy Mother Han' and trusted and believed in finishing and confidence to finish arose and in that way I could finish safely with the heart of risking my life until the last moment.

It became the day I could offer devotion with the most grateful heart and cross a wall inside me... I became resolved to attend HMM until my life ends... applause

After the vigil I went to offer 40 bows and then a sensation of my body becoming light, and PL's Words, 'No matter how painful it is, when you take one more step, you can feel God's Love, and I felt the grace of HMM and convinced of the existence of the SW. Although that one step is small from the perspective of Providence from the view of Providence it is great. I will become a filial child of Heavenly Parent and True Parents.... applause

### HJ Praise

Japanese Workshop trainees

'The Wing of Promise'

---

**(Some of the song lyrics:) Everyone has wings**

so we can leap out into the distance

surrender and enter a wider world. The world will change, the future will change, spread our wings and ride the wind

When we look back on the days of doubt and tears, we realize it was all God's Love...

What lies beyond the clouds? Believe in your wings and soar riding the headwind, we can go even farther..... With prayers in our hearts, we can reach through...

to fulfill Your Dream...

## HJ Report

Jun Yu San

True Parents's Words... 3 nations must be one.. I hope you will take responsibility to restore... church must become one... not just Korea but Japan and America and all the nations around the world to restore Gapyeong... that other nations can be restored... We learned about restoration... that must be to the original state... receiving the authority to set laws and govern... Our present administration and inter-religious activity. This is the GY restoration, and the HQ... we can show this through Gapyeong coming to CP... we share the value of true family, creating one family with GY...

March 3, True Mother directed PL that we must revive Gapyeong Church... and made PL the President of the entire district... Many pastors say that Cheon Shim Won is a place to offer prayer and devotion and put ourselves into action, and PL is at the forefront to fulfill this. We were able to assign tribal messiah to all the villages and we can always reassign with service and activities going to Gapyeong and PL pushed forward with this goal and through there, endless service and activity...

The church pastors at that time less churches, and True Mother centering on Cheon Shim Won, centering on Her Words to revive the churches to restore all of Gapyeong and we established pioneer pastors. After PL because the President, we resolved to offer prayer at Cheon Shim Won and bring the Cain and Abel side to become one... The message I received that when our members are resolved and offer services, I realized that we must bring all the leaders to come to attend our event for Cain and Abel unity and all GY to accept... Through the event where we could meet including te student leaders and elder leaders... We had 500 people coming and 3 towns were able to pioneer and settle down church that could have taken years to establish, but in such a short time we could do it, and this itself is an amazing result...

Until now 1,100 services... How can we offer ourself with a heart of hyojeong... We have been looking around and based on all the foundation, we could hold the Hyo Jeong Cultural Festival... with GY County residence and could could reach 112,000 goal, centering on Pres. Lee Gi-seong, and members and participants could receive various awards... We also held the first lecture of Epic History...

All the central figures in all the villages were able to join and thousands in our church able to understand and became one with us. We could have harmonization ceremony and resolution paper, with the 500... Also, around 131 villages were education about the Epic, and every times with the resolution forms... With this 2nd Festival there was the significance of offering the resolutions to Heaven. And with the discussions, we must restore restore the sovereignty of Heaven. By offering the resolutions, we could spread our true love... We set a condition to restore Heaven territory...

to offer to HMH, restoring Gapyeong...

testimony... Coming to the grand opening of the... with the HMH, I offer my respects to the HM Who solved all the problems of the religions and cultures to bring peace, and established the Volunteer Corps and to inherits the lives of true love through Blessed families and I want to offer this to all Thai and GY residents... and we signed the MOU with GY and Ambassadors of KSouth Kora..... We could offer our services to more and they even wrote a Content about us and in a newsletter about our Movement, and the Ambassador went and shared each other's message, sharing about the Value of HMH and what kind of place the TC is...

One person is a former doctor and now she is the representative of Thailand community... Her testimony of feeling the sincerity of the Volunteer Corps and without myself knowing why, I shed a lot of tears. The reason was coming from my ancestors, saying how long they waited until this day. The first nation that that came to support Korea was the Thai soldiers that sacrificed for Korea... She had a concern for the monuments, somehow knowing that a Korean soldier was inside her body and as she came to Hanmon House and to attend March 290 Hyo Jeong Cultural Festival, afterward she shared her story, and I realized her circumstance and with the grace of Cheon Shim Won, I shared the contents of our church.

As soon as she heard, her body got rigid and she couldn't get up, feeling a thousand spirits holding her down. I thought, 'Oh, I will liberate you. Come to Cheon Shim Won' but she couldn't walk so I prayed for her and afterward she could liberate the spirits and then bring people to the Workshop. She could liberate the American soldier who resided in her son's body. Her spiritual eyes opened and she saw spirits during the weekend Workshop. She saw after the weekend Workshop she saw 3 in white robes, and I told her that during the Workshop, spirits would come down, and she shared that her body became very light.

To achieve what True Mother desires, we couldn't reach True Mother's standard but all the districts in

Korea came to have the sistership relation to progress our relation and that day and later in Hyo Jeong Town the great storm came. All the people were suffered there, but district leaders, pastors and members offered their whole heart and body in volunteer services... Members and district leaders supported us... and other district pastors came to support...

Even sometimes 4 or 5 times, our members offered donations, even in Japan they were so interested in what we were doing... A lot of members from Japan also visited the towns, and I want to offer gratitude... applause

At the first Anniversary of the GY Festival, the President of H Korea... PPL directed to go beyond our members to invite all the leaders to be educated with the Epic History... and for that the tribal messiahs offered great devotion and activities... They worked every day with us...

The leader told our members that we should give the plaque and presents to True Parents... Hok Chok Cha was so sincere for this... What cost 90,000 won she sold less and asked for a donation and one donated 13 or 30,000 won... She offered calling out pray to the person she was giving the book to and she could sell 45 books and made an amazing, victorious accomplishment

Many tribal messiahs worked so diligently... 500 leaders could have abundant grace... Every day the Volunteer Corps has been serving... video of that

PI is Board of Director and was able to give scholarships to and GY leaders didn't have to come but were able to offer appreciation plaques for those who worked side by side with us and there are many testimonies

... we could realize the spirit of service and peace.... At the Palace, we could hold this ceremony and learn of True Parents Life Cours, and that really moved my heart.. so today's lecture, I listened about Rev. Moon and the OBD Hak Ja Han, and I'm very grateful Heavenly Parent sent Them to this land and despite the hardship They faced, I really respect what They have done.

Now that HMH is alive, I had an experience to overcome the difficult time with Gapyeong leaders and for me Cheon Il Guk is the Place with this graceful atmosphere, we were able to hold the Festival and made the heartistic oneness with our Will together and all the pastors and tribal messiahs applause

The Festival was a resolution with Cain and Abel coming together and resolution in an offering ceremony... Also it is to give the Epic History, to settle the Vision of True Parents in the people's hearts. Through the education and culture, to spread the value of True Family... able to create an environment where local areas can live together and spread it...with peace... Also by families with many children inspire more families to have children...

I went to GY County and there was a woman there who remember my name... She said because there are not many who have had a lot of children. So, many and because of that the Sun Moon University did research on why we have many children... A family of 3 generations was shown as an example, and also to create an environment where we can live together as one.

---

**Break**

---

**Hoon Dok Hae**

---

Time has come to know and realize Heavenly Parent's Wish

time to substantially attend Heavenly Parent and we must fulfill our responsibility to create the necessary environment...

Now, (12th year of Cheon Il Guk) where we can attend Heavenly Parent and live together on earth... I will enter the Palace next year and first time in history... The Israelites built a Temple but Heavenly Parent is not there because TPs were not there... Heavenly Parent lives on earth through True Parents on earth.

A miracle-like time occurred for the completion of the Will and... It means that we have consecrated the

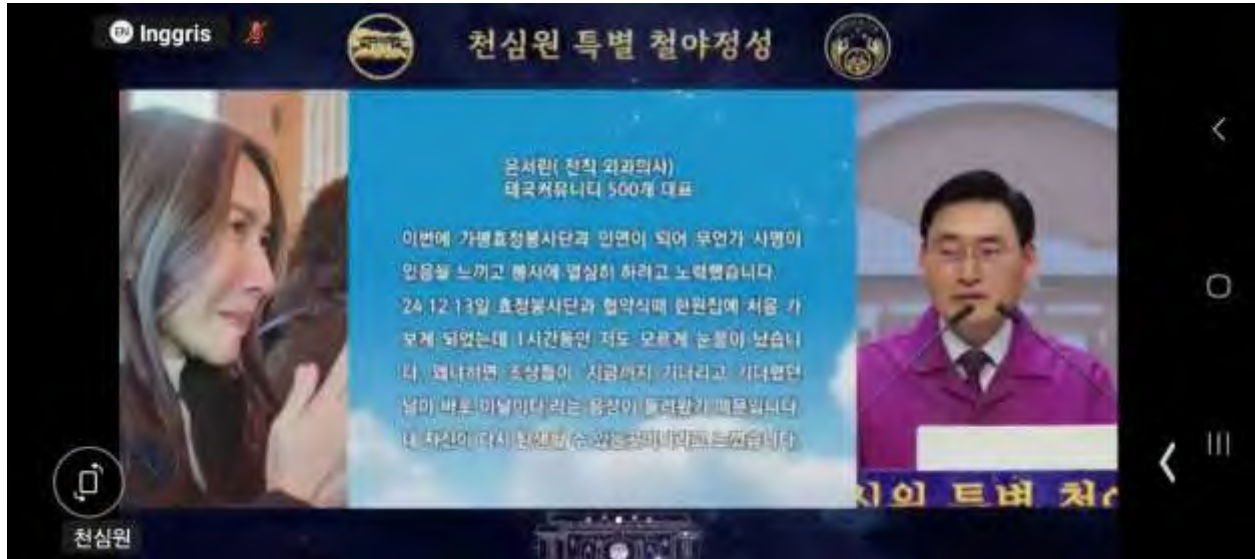

Sanctum where Heavenly Parent can live with us... Thro

## Pres. Lee Gi-seong Main Message

470 are here at the TC

In the Main Hall, and throughout the world 42,700 gathered

YouTube 15,500?

H Japan last Friday, a testimony member that after a long while in Korea, she was able to attend vigil in person. After March 4th, our churches were taken, and the most precious time to gather there in one heart, but our members are being patient and moving forward, and attending here in person, I felt as if receiving the water of life, and all the praise and prayer, shouting all together in unison for HMM's return. In the situation in Japan, we cannot shout loudly, and I was so happy. In the one-heart resonance prayer I cried out, 'Please save the Japanese members and members who cannot come to chur' and all I need to do is become one with True Mother.

True Mother's Wish is for Korea and Japan to become the nations that save the world. I could feel Them thinking about us to offer prayer. Attending vigil in Japan is fortunate, but to receive the spiritual wave directly is absolutely what we need.

---

Last Friday she came in person and received a burning energy through the vigil... H Japan is gathering and report the number from each church... They could have been able to gather 100s of people but because of the situation a precious ten...

Chanwon Church's 600 vigil... 95 members gathered...

and after 600 amazing things can unfold...

H Korea Special District 776

Sun Moon University 60

In front of the DC, in this weather, they are there, and no electricity... True Mother walking the path of cosmic course... They represent us (and we are grateful) ' I offer infinite gratitude to True Mother for such sacrificial Love... ((applause to them at the DC)

Young pil (so long name in Korean) She had a mother with iron faith, so strict, and she felt like she was living as a soldier. In the morning a cold show and fasting and Hoon Dok Hae for an hour. During that time, she complained, but it really supported her. She could feel through her husband, the Living relationship. He was at the brink of death and she was supposed to go to him, but she was denied to travel. She couldn't blame Heaven, but instead repented herself and realized her own devotion was lacking. I believe this is the very important lesson to take away.

As she tried again to go to her husband, she was accepted to travel. During that time, her mother-in-law asked if she was ready to live with her husband with the chronic illness, and she said she would never give up on him... even he had a chronic illness... She offered calling out and after 4 days, the bleeding stopped and her husband was able to recover and she realized what it means that sincere devotion moved the Heart of Heaven.

She didn't just listen to the lectures through her head, but with resonance with Heavenly Parent and True Parents. She testified that it was a course she had to take for the sake of the restoration. She said please don't wait for a crisis to begin a deeper level of devotion that can move mountains... She called out to us

to make devotion ahead of time to prevent crisis. She also said this is to share on the Blessing Anniversary day that she is the luckiest person to receive. (applause)

All of these problems are spiritual, solved through the Workshop and I hope the spirits causing this sickness can be liberated so that they can be more free as a family.

The brother gave the testimony that moved our hearts and he said about his parents saying for 4 hours why he needed to go to the Workshop, with especially his mother's deep earnestness as he had not seen before. He felt there was no other option then but to go, even he felt it was forcefully... but still by the 29th and 30th day he was so moved by the Director's Words and he realized he must establish the foundation to liberate the resentment spirit. He had even thought of killing himself and other things are from the spirit... He decided he will give all his effort, changing himself from who he was before, so that he would not regret anything, and would offer utmost devotion...

He came part forcefully, but one must offer faith and determination to the fullest to receive resurrection in the fullest with all faith. Even if receiving everything on the last day, know the work of Heaven can unfold. Even if Heaven does the 95%, without the human responsibility, nothing can be bestowed of the intended benefit.

Also, if you are living in the OTA, NTW, and CTA, and still people are believing in the Messiah Who would come down from the clouds and there are people saying Unification Church is a cult and stepping forward to persecute the Unification Church, but in the SW I believe they will so regret that... Do you think the central resentment spirits would stand still, no they would come against... For 3 hours he couldn't move at all like spiritual possession. So, with life-or-death determination, it can be done. Only by a standard like risking your life. If you sleep throughout the lecture, you won't be able to resolve anything.

You must put everything to attend all the programs. So, when everything was difficult, he started calling out, 'Holy Mother Han' and then he could overcome. By doing so, he could receive grace from another fellow trainee, and he couldn't help but shed a lot of tears. As he saw True Parents's Face, he felt the love of True Parents for a lacking person like him. Going up to the stage, he couldn't breathe again, but calling out HMH, he could endure to the end. If you cannot liberate the central resentment spirits, you will die attached to that spirit.

Usually, all would go down and just sleep, but people were putting the blankets out to sleep and turn out the lights, but he went to Cheon Shim Won to offer 40 bows, and afterward his painful body became light. No matter how hard and painful, when you take one more step, you can feel transformed with abundant grace and be able to find the SW and resolve... I'm certain when the parents heard his story they had tears...

Mother's prayer is amazing... First Anniversary of the Hyo Jeong Cultural Festival and how we conducted this activity for 3 years, after Mother told us we must restore Gapyeong County having failed to restore the nation. August 4, 2023 these words... and July 20th about a month before, 'For 8 months, you must finish this work.' So, until March, we had to accomplish. We thought, 'What should we do about this? We had to think how we could resolve to accomplish this. Devotion is not the way for us to fulfill our wish but to fulfill Mother's Words, in order to find the sense of victory, everything must be centered on True Parents's Words. You must settle down in all the villages. Many people have received... town leaders, members, everyone received their responsibilities. but we could fulfill Mother's Words, so True Mother gave us the words for all of us to go down and appointed me as the President so that we, all the Providential institutions must settle down in the towns.

Until December, we were able to finish and accomplish and hold rallies and events in the different villages and collect 23,000 resolution papers who were set to welcome us and Cheon Il Gung. In order to fulfill the word, one leader Jun Yu Son emptied himself and put everything into the activity. They have set the condition and effort, but we must not stay there, but move forward to fulfill True Parents's Words in this land.

So, last year all the churches made the bond with all the 131 villages, and finally when GWs struck GY, all the churches mobilized themselves to offer their volunteer services and love. This moved GY and we were able to hold this anniversary event/. And we should not just say all is finished with the churches, but go forward. Buktown is the hardest place. There are some members who did not go where they were assigned, and a Japanese member came and said she would go, and to be honest, if you go there, you will receive more love from Heavenly Parent than anywhere else.

The union president, I have sent him, and four of them he brought a hundred thousand to hold the event.

Soon the path will be open for Japanese members to visit. It has the highest mountains. Yesterday, I took Pres. Tsujingte to the mountain. And there is still snow and no leaves. GY Buktown has the most monuments to commemorate the Korean soldiers who fought

just going there allows us to be educated..

Even when you die you must come to keep fulfilling True Mother's Word... When Pres. Tsujingte goes to SW, he will continue with this effort... We must create this

What would happen if Jesus went to the SW but He was silent. He wouldn't be able to do anything. But because of Jesus' continued heart and effort, we could be here. And True Father is showing that He is working in SW and with us, living and breathing through us. That is the experience that people can have. We must realize how that is the greatest gift of Cheon Shim Won. To remember True Parents's Words, be able to give the testimony like this that you heard here. If True Parents's don't come down to you, you are going in the wrong direction. You must experience True Parents's Power and Authority from Heaven as the chosen people before you go to the SW. I hope this for you this vigil

---

### Calling out / Fight Song

Chanting

---

### Prayer and Praise

The more we think about our Mother's situation

work through our devotion and efforts to free this world, save the dying souls, so that our Unification Church can rise again with AFAL and AO, please work through us... Now for us there is no longer a path to retreat, no time for excuses. Let us pay like a war, risking our lives so that True Father can be freed to work on the same resonance as He has... Let this world and the SW be totally mobilized. Please intervene,

as we become one with the Inheritors and 4PF True Father and open a new era.

At this very moment, please bestow the infinite resonance and comfort to members throughout the world offering devotions and efforts with tears and smiles... True Mother return
