Inaccurate Automatic Translation

I hope you're doing well

**1547 Back to Tianxin Garden all night sincere**

### Summary

There are times when you have worked hard, and there are times when you are blessed, when a month passes and you are not feeling any favour, but even in the midst of the pain you are fulfilled in numerous ways, heaven will take charge and you will experience amazing affairs. I hope even in difficult situations we believe and keep on conditioning without thinking that it will last. Sincerity is more powerful when two or three devoted than alone. There is a saying that when two or three people pray, God is present. In the Tenshin Kononance Prayer Training, three or four people have time to gather and pray for each other, and when they do so, they feel love for each other and develop an urge to pray for the other. The blessings received at that time were so great that even churches gather independently and engage in prayer meetings enthusiastically and gain strength.

Proof of spiritual practitioner: He was in middle and high school and dormant second generation, but his

father was consecrated with lung cancer led to him attending church. Fathers attended worship everyday with adoration and oxygen tanks until consecration, without forcing their children to faith, believing that they will surely return. The spirit world must be crying tears of excitement when they see their daughter back. While he had been a nurse for five years, he had trouble and participated in Chiba 21st and General 40th, but he decided to take part in 40th Shu with the motive of wanting to maintain the feelings of his father and mother. At the time of Tenshin Konoku Kunjoku, I understood how much Heavenly Parents loved me and devoted themselves to them, and without knowingly, I prayed and beat my chest, and did the kunjoku at the risk of my life.

I decided to end my clan reinstatement in my own place, just like my mother did. I have a mentally challenged mother in the house and two older brothers away from church. Asked what the underworld fathers look upon their earthly families and on the 36th day I got the answer. I was deeply moved by my mother's words that Heavenly Parents were not silenced and still alive and acting, and I was able to start a new beginning. I realized that the purpose of my life was to unite with my mother and walk in the Spirit and Truth through Tenshinki Seishin, and to bring each family member back and give a victory report. He decided to carry the faith established by his fathers in the spirit world to the third and fourth generations.

Regarding the testament of 40 Shushi: While he continued his faith in not being subjective but just following him, he developed a deep conflicts when he approached Japanese media reports, and decided to participate in the spiritual training group in order to get an answer. All doubts were cleared in the first half of the training. After that, I desperately sought help from my ancestors and Heavenly Parents to change my way of life. As I kept praying and praying for the name of the mother, I wondered why I couldn't feel her feelings more deeply, and on the 36th day, I felt like my spiritual eyes were finally opened, and I felt

sobbing. You have to experience that will wash away all the wounds and crumbs in your heart with tears of joy and gratitude.

The tears shed in repentance and resonating with heaven cannot be replaced by anything in the world. If you understand the taste of these tears, it is possible to continue Tenshinkai Seishin, and continuing without understanding is nothing but painful. When problems arise, it is important to be willing to interact with the subjective celestial world. When there is a resonance with Heaven, you will be wrathing yourself in prayer. If you lack it and you don't become like that, it's not a resounding prayer. This trainee realized that 40-shu was not simply to solve questions of faith, but to learn how to look back to your mother and what to accomplish for the purpose of the second generation.

A patrol confessed that "The true father and mother are mine." We need to have a true father in our hearts. In order to welcome the great true father and mother's love, you must be a relaxed and big-hearted self. If you have time to reflect on who you have become this hour today, you will receive great blessings from heaven.

A letter from Kami Nippon Tenshin Chocho: "Thank you for restoring the divine spirit through Tenshin Kyonoi 3-day training so that we can overcome the difficult situation of the dissolution of religious corporations, and furthermore, we can become one with Holy Mother Han through the Spring Daijiji, and that Kami Nihon can come back-to-back victories." In order to allow all food to participate in the benevolence of Holy Spirit Holy Mother Han through the spring major role, Kami Nippon held a net workshop on 4/15 in which 800 people in charge of training for Tenjiku participated. Among them, the chairman of the Katsura clan said, "This is the time when the culture that participates in everything with voluntary joy is developing its power," and encouraged him to participate in the spring major role. As a result, the current number of reservations has reached 50,667 people, and even in a short period, I am confident that the heavens are already preparing the target of 120,000 people participating in Japanese food. Shokuchi of Japan is one with the true mother with gratitude and compassion, and will perform miracles. I will work harder to serve as a spring seasonal administrator, which serves as the basis for complete release with my mother's Seonsumugan. 令 Despite the dissolution order, some churches have reached their record highest number of reservations within just five days after applications opened.

Kun-doku only words: "Practice and practice in order to expand the foundations of heavenly kingdom." For that we must find the righteous. We blessed families have a responsibility to expand the environmental sphere of heaven. For that we must proceed confidently in all aspects. You have to meet your friends and your leaders with confidence. When we think of the accomplishments of our parents, we can carry on with confidence. There is no one in South Korea as great as your father and mother. Who can be respected by the world and have done as much work for world peace as your father and mother. Since it is the golden age of providence while your mother is here on earth, it is necessary to fulfill the implementation that we should expand the environment of the heavenly kingdom. Do your best and Heavenly Father who is alive will serve you all. Through your lips the heavens can speak. I pray that tonight will be a prayer meeting to experience the office of our Heavenly Father alive.
