Opening prayer of gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEY

I offer my gratitude for the grace and love of leading us to Cheon Shim Won where You True Father always wait and welcome us. I know that living a life even less than a handful of soil, it is an amazing miracle just to have met You, True Parents, and that being born as children of True Parents is an unspeakable gratitude and glory. Belove HMH, True Mother, our Mother Who does not abandon us who are immature and lacking, our True Mother Who walks the path of suffering with Love, can move even the Satan to break the chains of sin. Mother of humanity, I believe that this time of praying for such a Mother, is a most precious time and the happiest and most glorious moment for us.

True Parents Who believe that prayer is the most powerful thing, possess the power to move the standards of life and death, we know well that You are the Ps Who always crossed and crossed again the difficult peaks of the Providence through prayer and devotion. We will overcome this time of suffering with prayer and devotion, to resemble our True Parents. True Father, please be with us and work powerfully from the realm of the absolute SW.

True Parents Who went through the strategy of being struck and then reclaiming, it may seem at first that the satan who strikes first wins, but we who become one with HMH, no matter how much we are struck, I believe that we will meet an even greater victory and revival through Cheon Shim Won prayer. Because True Father always works behind our backs and HMH True Mother is with us in our hearts, there is nothing to stop us, nothing to fear.

We believe that the victory of a H unified Korea surely awaits our future as we mobilize the entire SW and unfold the due operation on earth and in Heaven. Today, at this hour, our earnest wish is for Mother's safety and health. All-knowing all-powerful Heavenly Parent, please protect Mother's Holy Body and please hasten the day of Her complete vindication and release. Praying for True Mother's Longevity and well-being,

In my name, Kim Ju Won I gratefully pray as a BF attending HMH

bows, gratitude

I wanted to understand the Heart of Heavenly Parent and True Parents more with my heart, not my head. In middle school as a 2nd gen daughter, but did not know the value of it, and I did not know Them deeply and I disbelieved and doubted. This is how I distanced myself from the church.

I was able to return thanks to my father who ascended to the SW when I was 8 years old. He was the only one who kept his faith and devotions every day without fail, even attending SS while carrying an oxygen tank. He did not force faith upon us when we left the church, but believed we would return. Through his devotion and prayer, I was able to return to the church again.

However, living a busy life as a nurse, my faith weakened and I could not understand what path my parents were walking. I desired to deepen the roots of my faith and attended the Yeongseong Workshop. Through the lecture, I felt True Parents Heart as my heart, and read the HD for Their Heart with my heart. I do it before starting anything else. How much great Love and devotion the Heavenly Parent and True Parents poured out to return the children, and I did HD as if staking my life on it.

The Image of True Parents Who pour out love until the very end and walk a path of suffering for children

who have eyes but will not see and ears but will not hear, walked the path of sacrifice and my tears came while I arose. Also, I came to learn how they struck Their own lives, sacrificing for Heavenly Parent's Dream and world peace, and that They are human like us.

I wanted to restore my family in one generation and establish my tribal messiahship. However, when I tried to make the resolution, there were moments I wanted to avoid reality and asked, 'Why am I called to this place. Why me. And that I am not enough.' I felt my father saying, 'Please do this in my place.'

In fact, I have a mother who has been suffering from a mental illness in our family, and the 2nd son caring for her is becoming exhausted and the 3rd son also is beginning to distance himself. I began to feel failure in my family, and shouting to my father seemed to have no response at all, and Heavenly Parent also seemed unaware of our situation. But Heavenly Parent began to give me answers through the people around me.

When I asked a member I became close with, said to try more and think how if I didn't try, I would never get my strength back and would not really ever know whether prayer works or not. And I re-read the letter my father left behind again that I hadn't read in a long time. And he said if I fail I can get up again and we will do it better together the next time.

I too will believe that Heavenly Parent is still working and not lose my center, hanging onto the Words of True Mother, and achieve my tribal messiahship and restore every person in my family and offer the report of victory before True Mother... I will offer a report of victory to True Mother, with deep thanks to all around me and my family supporting me,

Testimony

Yeongseong Workshop trainee

bow and gratitude

I am the eldest daughter from Canada. I had a faith that remained merely within the environment. But in a situation to balance my studies and work afterward, I was just doing faith maintenance level. Then as an exchange student in Japan I did not have strong faith and had doubts from the media coverage. I struggled as if my faith was in vain. My earnestness faded.

By the coordinator, I wondered why it was so difficult to feel Mother's Heart even with the prayer conditions. I came to see True Parents as mere human beings and my questions were resolved sooner than expected, and as if the times I had spent struggling until now had been in vain. Continuing, I then offered prayer with much more open heart, not just seriousness. I heard that the Yeongseong Workshop came as a result of spirits in the SW grabbing Father's pants legs and begging, 'Why did my ancestor bring me here?' 'Can I really live in this state?' 'Is this all of the result you wanted for me?' 'I don't know what to do with the remaining time, so please help me.'

Then, during intensive prayer for HMH's safety and well-being, while my eyes were closed during the chanting, I saw several spiritual figures, black and white coming out and out through an open door in True Parents's Portrait. Since I nor my family had never had spiritual experience, I thought I was just imagining it alone. I was still curious about they were that I kept seeing, and why Heavenly Parent might want me to see them and what role does the Cheon Shim Won role play spiritually. So, I asked several people. My mother said as soon as she heard this story that these people were my ancestors, and in a dream she once had, True Father appeared and said Shinuwon is very smart and sharp, so keep paying attention to her as you are now raising her well so she can become a wonderful child.

After that, I gained enlightenment during the intensive prayers and was able to hear sentences, utterly them poured out without realizing it, with people lined up in the vision were my ancestors and I cried out, 'Did you choose me as a child who could offer devotion for Mother during this time of hardship that our church is walking through and pushed my back while offering everything out. At that time I felt that my ancestors had trusted me with the task, believing that I could sincerely offer the prayer and devotion for Mother representing our family, which was the purpose and responsibility of my being here.

However, I had actually made no progress in feeling Mother's Heart after that, but Mother felt like a stranger after that. It became the anniversary of the passing of my maternal grandfather, and I remember the Cheon Shim Won Words of direction to call out the names of my ancestors when I prayed. I knew I had to ask my grandfather directly even though I had never met him in my life. And I cried out, 'Grandfather, you never believed in True Parents in your life, but aren't you right next to me now. Because of me, haven't you felt Heavenly Parent and True Father and felt their love? Since you are the one who

sent me hear to wear this CS robe, please let me feel Mother's Heart.'

As the intensive prayer began again, I realize that neith True Mother's children nor True Father were left by the side of True Mother, lying on Her sick bed. I began to realize the Heart of True Mother Who was so incredibly lonely. I could only repeat it over and over, 'Mother, how lonely You must be? How much have You come out looking for us like a needle in a sandstorm.

I experienced turning points of the heart, happy when my questions were resolved. There were The moments I fell into being like a lost child in despair but realizing a transformation and that my ancestors and Heavenly Parent were wanting me to come to this Place and bring desire for their devotion to attend True Mother to be continued through me. applause This Workshop time was not just a time for me to resolve my faith but realized being a 2nd gen and fulfill the responsibility of my family in this era.

For Mother's safe return and vindication I pray and with gratitude to my family and tell them that I love them. TY

## HJ Report

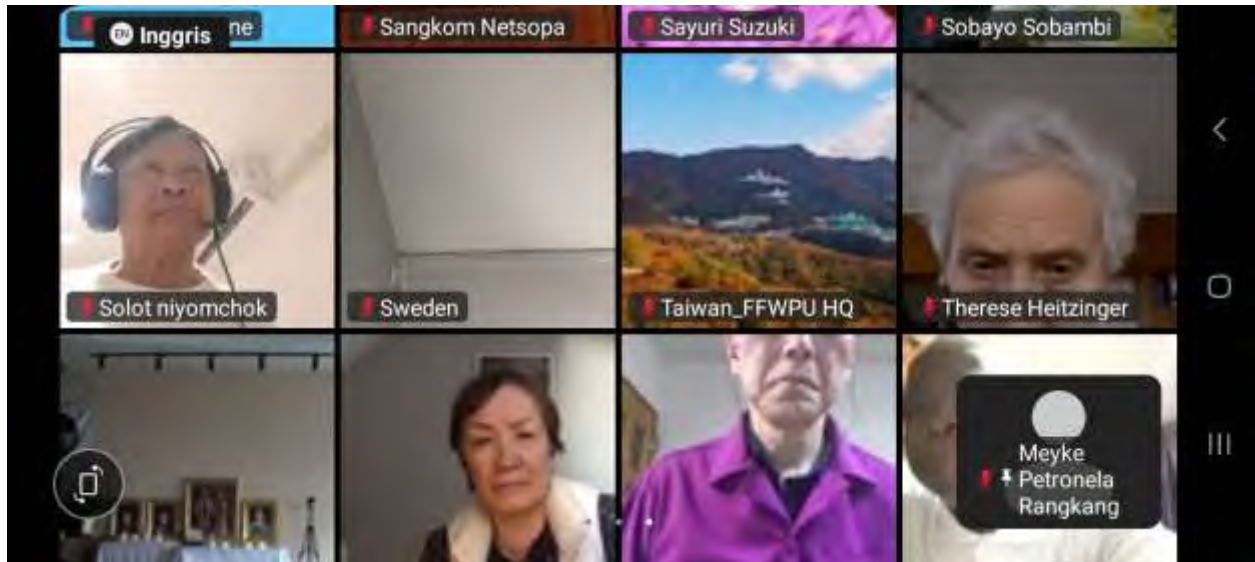

I Su Chul

Special Missionary

---

Respected leaders and members, hello everyone... I hope the Cheon Shim Won vigil will reach not just the branch but all family

'With True Parents's Governance, True Parents are Mine'

True Parents are absolute, uniquely, eternally mine centering on true love. God Born and Lives for the sake of Love, not for the sake of God. All things in Creation were born because of Love for the sake of love and living for one's own sake does not exist. The cosmos has heart logic like that.

So during the 6th tour, we are touring 7 places and here are photos to meet members. This is Namquanju Church.

As you know the National Rally for Victory over Communism began on Sept 14, 1983 at the Maza indoor Gynasium and concluded on Dec. 23 at the Quanju indoor Gynasium. The location was near the North Quanju Church, which has now been reconstructed as the Naju Citizens Cultural Center - Naju Grand Church. There are 3 pastors, Rev. Nogyong son, Rev. Noyungi and Rev. I Gyong hwa, who took turns giving Divine Principle lectures every week from 1pm after the Service. They were independently conducting two-day Workshop every 3 months, enlisting new members through Spirit and Truth, Love and True Parents's Words.

Next, the Muwan Church where the youth led the Chanyang, in the place where fervent Cheon Shim Won vigils were offered. There was an elder who would drive a truck to attend and a paster elder couple who would their hands warmly in the courtyard after finishing the vigil devotion.

Next the most southern church in the Province, more south than a village called 'End of the Earth' where Rev. Kim Dae Gu serves his current. The Philippine members were so joyful singing 'Way Maker' together and HJ praise mission, supporting the praise leader and singing the Fight Song of the Will. It was a church where senior members and international families were fulfilling their roles.

Next the church centering on the Words of HMH, and for the sake of HMH, sometimes like owls, they offered devotion until 5am, building a tower of devotion 1,000 times over

Next church established a vision of establishing an environment of vision and culture. They performed

spirit liberation. Recently, renovating the sound system, they were moving forward toward harmony and cultural performance, competition among members organized by ministry teams. And there were famous young, praise-singing hyodong.

Next is the Hyong song church, with the pastor's wife who caught my eye first who impressed me when she went down to the kitchen and put on the apron and served the members. Also, the Philippine members came to greet me and we took this photo, that I was feeling there was a meaning behind. They kept hours like my own, and after Sunday lunch, they would pray with one heart and tears, which was often for the restoration of their and each other's children, they told me when I asked.

The revelation came to the pastor that he must register for the GWs or else the goal of 33,000 could not be achieved. Please give applause of support and encouragement to bring joy to True Mother

testimony... Since my father's passing, I regretted not doing more I could have done... And for True Parents also I will raise my shame of not doing more and put more into practice.

testimony... She would be someone who seeks answers by praying... We must be reborn through Chung Pyung Providence and rely on Heaven, not my own thoughts...

next, realizing I am in True Parents's Love and then tears come naturally and turn into sobbing. I heard an anecdote about confession not living forgetting how I am so loved until now, instead of thinking, 'Why only me? or being a person who could not do anything. I received the answer and how much True Mother loved each and every one of us, and being someone not knowing that love, tears flowed again.

Also, after Entrance, how important that Heavenly Parent is governing and that that must be restored, not first be a person who can attend God individually... While listening to True Parents's Words, a time to truly attend and welcome Her.

My husband ascending several years ago, I felt both him and the minister there in a time when the SW and PW are perfectly mobilized...

She was someone who could resonate with the members, wanting to be a true source of strength (representing Parents) for the members. Phenomena occurred, following the missionary's example. 'How much have you been suffering all this time?' and the pain flew away...

After giving ansu to a sister I never met, 'Honey, you've suffered a lot. Hang in there' a situation where the sisters heart of devotion for the SW was conveyed a lot.

The moment of receiving the ansu, the missionary knew my experience so well, and I felt deep sense of Heavenly Parent and True Parents being with me, confirming once again that our family is in the love of True Parents and as a Philippine leader I will move forward with the mission given until the end.

From the first moment, tears coming even I didn't have any particular emotion, I could stop the tears, so I felt that God was touching my heart, and also the pain was relieved by the ansu. I was able to look back and resolve to live a life with even more devotion from now.

I was given to do the opening prayer and I pondered about it... I thought of the pastors' wife always being with him, and I felt to call her name and she said to me, 'Thank you' I work as a caregiver and a member in charge of the mother's meal could not do it, so I did it instead. This day was the first day all members gathered and preparing meals without anyone telling them to do so. Also, there was a missing child all

cooperated to find... I was not healthy, but now am living a healthy life. The wife who went to the SW made me in my busy life remember how grateful we need to be in touch with that we have a physical body and can attend HMH with it.

The sight of Philippines becoming one coordinated body and gratitude for breathing together with HMH and walking the path together is joy

I thought that if members like us resolve with life-and-death determination and cling to True Parents while engaging in every single task, there is nothing we cannot do.

I was able to set a new start... The day before I was shocked and disappointed that my husband could not attend, and felt the life we shared until now was being denied. The husband is attending now, and husband's please remember that if you don't attend, the wife will feel denied. True Mother has walked alone after True Father's Seonghwa, and I felt Her Heart. I reflected that I was following along and only looking at True Mother from my own perspective, True Mother Who had to walk alone regardless of others not with Her.

---

### With the title, 'True Parents are Mine'

On the day of 9 - 9... True Parents are Born for the sake of love and lives for the sake of Love and the concept of living for self sake does not exist.

And by the words, 'True Parents are mine' True Parents said that if a new era started on the 7th day, then on the 9th day a new era was ascended and the walls down so that satanic things will not become your own. The things that remain are family, blood line, lineage and conscience, and those who can claim that True Parents are mine can individually perfect themselves and going all the way to the cosmos, even one goes to the Heaven and answer the same way as Parents or else Parents cannot become theirs. Heavenly Parent becomes the Being Who can lead the Providence instead of being behind the Providence. This is such an era that can go beyond past, living in a world where we attend Heavenly Parent, the Creator, substantially.

The point at which I came to read the 9/9 words, were just before entering the church of 900th and 1,000 vigil reached on April 17th, the day of my tour. They offered devotion and Hoon Dok Hae until 5am after vigil. During this time I intended to offer up all the victories to HMH, hoping it will be a path for them to attend and freely govern, and I said that every family should liberate at least one central spirit on this day so that a great work could occur now, and they did, and all the members joined the gathering.

Through the Love and grace of Heavenly Parent and True Parents, and doing owl devotion without restoring on Saturday and Sunday. While the world is suffering in the shackles of fallen world, this Cheon Shim Won is truly a door open for liberation. It allows us to escape from those shackles and go forward all the more as a graceful church and families showing ourselves to the world for their sake...

HMH appeared in my dream and told me to go to the Cheon Shim Won Workshop. A week into it, I could attend and realized I could protect the safety of our family to great extent along with the ancestors and SW protecting us until now. Of all the members of our church I felt I am the one to do this devotion.

next, shocking and moving and put to practice by what comes to us... The day after seeing True Mother and receiving True Mother's Words, members from the 40-day were moved and also wanted to do the devotion. I felt I had to send my youngest son to Cheon Shim Won CP at any cost. I wanted to offer 40 bows and my third son found mental stability. We can resolve our worries and concerns. the faces of the members were so bright and liberated. We hope to have positive influence on the entire nation of Korea. applause

When True Parents made Their tour of the US, it is said that They would drive around the places of government officials' offices and preside over assemblies and meetings and events. I thought of us following and in the tour here 'stepping on the earth gods' so that True Parents can govern this land. It is the custom in Korea that on the first day of the lunar year, one steps on the earth gods and prays for the true Guardian of the Soul, and pray for the safety of each house, driving away the satanic things and for blessing throughout the year.

With the goal of deep rooting the faith of the members, and touring from the southern to the northern-most place, is based on the standard of touring the whole nation.

The same as touring the 99 places, the #9, if there's a victory in the national tour, I offer the victory with 3 days of devotion, beseeching Heavenly Parent and True Parents to receive everything and substantially governing this land, and while participating in the 999th vigil of this church, I prayed that it would appear as a work governing the land.

The Words given to us on 999th day, 'True Parents are absolutely mine' and I hope you will become BFs who become like these words.

'In the world of love there is no concept of living for one's own sake, so I believe in love. And I hope that all of us can become someone who is absolutely needed in the family, in the church and to Heavenly Parent. And only then, Heavenly Parent becomes mine. And I believe that Heavenly Parent's Realm of governance and territory is like that.

---

**Break**

---

**Hoon Dok Hae**

Practice the action of expanding the cheonshim environment realm. The day of the completion of the Providence Heavenly Parent has longed for is being led by the Cheonwon Gung Cheon il Sanctum of True Parents. You who live together on earth attending Heavenly Parent and True Parents can expand the environment of the Heaven realm on earth and in Heaven are the true healthy grains.

The true, healthy grain is to expand its species. Every BF must not be satisfied with their own blessing alone, but must bring about substantial results and fruits that return the environmental realm of the tribe, people, nation and world to Heavenly Parent. This is the time to do so. The Truth of Heaven's Providence has been revealed through the OBD, True Mother. At this time when we are expanding the Will throughout the world for the completion and expansion of H's Providence, I pray that the BCFs of the 3 central nations of Korean, Japan and America will fully attend Heavenly Parent, and from a position of oneness, fulfill their responsibilities in expanding the peaceful realm of Heaven on earth so desired by humanity on earth and that Heaven so desires.

At this time when True Parents's Wish can be fulfilled to live a life on earth together with True Parents and children on earth, the leaders of the whole world must become one with the OBD of Peace and call together the leaders and heads of state of each country. Through Cheon Shim Won, we must receive the cooperation of the SW and find the righteous people whom Heaven has labored for and raised up in the mean time.

The day is urgent. For saving humanity of Heavenly Parent, the FF must stand on the front line and lead and establish everyone leaving no one behind. I pray that all of you become such people. To do that, you must move forward confidently in all aspects. You must reveal the Truth.

In 2025, when the Cheonil Sanctum Ceremony is fulfilled, you as H families of Cheon Il Guk of loyalty and filial piety desired by Heaven, must practice the action of how to expand the environmental realm. I have said that you, the BFs living today, are living in the Golden Age. There has never been nor will there again be such a time as this era when the HMH True Mother is living and breathing on this earth.

## Pres. Lee Gi-seong

applause for all the victorious trainees

211th day since Mother's detention, and we offer our earnest heart in front of the DC. Representatives have gone even the cold wind returns to pierce through our clothing. When we think of True Mother Who is being treated in the hospital our hearts so ache. I truly hope that Mother's Body and Heart will be comforted and restored through this difficult, may Heaven's warmth and protection be with Her, and we will offer devotion as if at war.

I believe these devotions and prayers will reach True Mother.

(all the precious numbers of members)

In the beginning of devotions you may feel such grace and then just exhaustion, but at those times you will let Heaven work through you. Do not think this will go until the end, but set this condition in its changes to offer up, so that something amazing can happen as Heaven need it to.

42,200 have gathered

Always prayer with two or more people can be more powerful energy and Heavenly Parent can reside in that Place and we can bring amazing power at work. We group 3 or 4 people in prayer for another person, and as that person receives prayer they cannot help but cry and experience that love and go back to spread it. Members gather by themselves then in churches to continue what they have learned, setting this

standard to return...

H Japan, looking at the You Tube 50,000 places, so that Heavenly Parent can absolutely continue to work... applause as well for Middle East and West Branches, and they offer just as if they were here at the Korea Cheon Shim Won. Mozambique never stops their prayer... also Cameroon, centered on Pastor Moon Sang Pil, they offer devotion every night and 6am in the LA Church they offer devotion with us...

By the lecture and prayer that the pastor gave, suddenly True Mother said She must go there, and then the church can show the Living Heavenly Parent and revive greatly...

If the services move centered on Spirit and Truth, amazing experiences can unfold, and making so that the parents there and True Parents devotion is not in vain.

testimony of a dormant members who could recover faith because of her amazing father, who offered HD and went to service taking the oxygen tank with him. But he continued to trust, not force, his children. And because of his heart and devotion, our sister came back, and I'm certain he will shed a lot of tears to see his daughter now.

She realized that she needed more and more Ws, and to have such heart is such a blessing from Heaven... She was able to feel Heavenly Parent and True Parents Heart during the HD time and realize how much Heavenly Parent loved her and how much Heavenly Parent endured and was patient, and without herself knowing she started to do Hoon Dok Hae with life-and-death determination. Through that she was able to resolve to restore her tribe, and like her mother, she will finish the restoration of her tribe.

Now, she has her own mother and her oldest brother is trying to take care of her sick mother, and I believe her older brother must realize as well as her mom about the SW and prepare her mom to go to the SW by liberating central spirits. If the elderly are speaking angrily or strangely, you must know that is because of the SW. Amidst this situation she thought about how her father was seeing her family. What would he think when looking at our family. Eventually, she realized that Heavenly Parent is not silent but Living and working, as Mother said.

The purpose of life is to be one with True Mother. Through Cheon Shim Won devotion to live life centered on Spirit and Truth, and she resolved that she would offer the report of victory and pass down

the faith that her father had made. Even though her brothers are not yet of her faith, but they are the good people who are taking care of their mother.

The testimony of not having her own faith and then seeing the media and great, confusing struggle came. If she was connected to the fallen world friends, she may have been pulled away, but it was very well done that she instead came to the Workshop to resolve things of her questions and her anxious heart disappeared.

We all thought 'What is the purpose of my life?' 'Why am I living?' and without the answer, I'll just die. So, with that desperation or disillusionment. Then they can give the testimony. Many were living their life meaninglessly. The sister made the realization as she earnestly offered the prayer for HMH, was given the spiritual vision. When she couldn't feel True Mother's Heart, she called out the grandfather's name on the day of the anniversary of his passing.

There are many who can't feel True Mother's heart, and that person doesn't even try to experience it. But our sister earnestly asked and offered prayer. During the weekend, she could experience Mother's Heart and felt Heaven working and could not stop her tears. The tears of that prayer and experience are tears of happiness (of them and also of Heavenly Parent's happiness). It is their tears of resonance, repentance and gratitude that will wash you, and you will never want to experience other things once you taste that, shedding tears with Heaven.

Because people have not experienced this, they are saying they don't want to offer Cheon Shim Won. Is this my will, or your will, or my selfish will for you? When a problem occurs, you must communicate with the subjective SW and open yourself freely and talk to the Heaven Parent. And ask, 'Ancestors, why are you not here. Why am I not experiencing True Mother?' With that communication connection with them specifically about things, you can coordinate. Have you ever called yourself, scolded yourself, just as True Father would? If one cannot scold themselves when looking at their lives, if they are lacking and cannot scold themselves, that is not prayer resonance. Automatically, resonance will make you scold yourself from how lacking you are.

Our sister was able to meet the SW that was working and could not stop crying and was able to share the result, and become someone that could show the result. Heaven guided her, while not just attending, but when she made this time to be for that, and then she could receive the most grace. We are living to

receive enlightenment, realization to move forward to be the Temple of God. No matter how good your body is, when you go over 70, you cannot help but grow old and there are many grandparents who don't want to take photos, because they are too old. And they begin to see spirits when old.

So, if you begin at a young age, how much blessing can Heavenly Parent bestow. Today the missionary itinerant shared that True Parents are mine. He truly has a lot of things that he desires, but you must have the desire to make True Parents yours. True Parents Who are so big, for them to go into your own heart, how can Heavenly Parent and True Parents go into you if you are staying so small. So, one must create that big heart and place of room for Heavenly Parent and True Parents. How big should your heart be to embrace Heavenly Parent and True Parents, and I hope you reflect yourself if Heavenly Parent and True Parents are in your heart and if you have made the big enough place.

We are not stopping with our practice. And when you want to attend Cheon Shim Won, he brought ten members to attend the 40-day and the Cheon Shim Won vigil, and offering devotion with life-and-death, not just in the appointed times. Every night we see them with their robes.

One member wrote a poem and sent it to PL

Through prayer we made victory. Despite the storm the new spring will come. Even in this day, the dry branch is waiting for the new spring, keeping the hope within itself. No matter how strong your blow the wind and pour down the snow, I wait for the new spring. With the spring, when flowers bloom and the scent of the flowers spread, and the moment when birds and insects will come out and welcome the new day, let us all miss and keep hope (for the spring day with Heavenly Parent and True Mother/True Parents)

(missed a bit at the end)
