Opening prayer of gratitude

Most Beloved Heavenly Parent

Beloved True Parents of HEH

At this hour we have gathered in this place with swelling anticipation and the results of the day. Even though so lacking, we offer gratitude for this hour of vigil tonight. I earnestly desire and hope that our

devotion may become snow white for solely the providential governance of our Heavenly Parent. In this Office of True Father and Mother's Womb, how grateful do we need more to be that we can be connected to our True Father's Heart and the umbilical cord of our Mother, HMM.

The path to be one with Mother is here at Cheon Shim Won, and we keep the Word to go forward with Spirit and Truth.

I believe that we can be reborn and absolutely welcome this time of vigil devotion. Please allow us to have the absolute faith and add devotion upon devotion, offering perfect devotion that True Father must substantially work through us and Heaven Parent must inevitably be Present on this earth, revealing Heaven alive and breathing and working through True Parents.

I will welcome this time with an earnest heart and as with the Principle of all having the same beginning and end and hastening even by one day the completion of Providence and welcome this time together with the subjective SW and with the well-being and vindicated release of HMM and this devotion centering completely upon True Mother...

gratitude

2nd daughter...

Two years ago, I participated in a 40-day Workshop of much grace and made faith resolve, but gradually I was swept away by the social atmosphere. While living a normal life in Tokyo, working as a registered dietician, I was chased by my busy life and was living a self-centered life.

As negative evaluations and failures at work were repeated, I reached a limit and took a leave from work due to an adjustment disorder. In consultation with a coordinator, I was recommended to offer devotion, and on the 120th day I overcame my loneliness and anxiety and entered a new work environment under the guidance of Heavenly Parent. However, still prone to wavering, I wanted to establish a center of faith that would not shake in any circumstance.

I decided to participate in the 20th Yeongseong Workshop with the heart to offer the utmost devotion for True Mother. During the praise song 'Let Us Return to True Mother's Embrace,' the faith of my family and my husband and family who are away from the church came to mind. Thinking of their circumstances, a temptation arose, '

What can I do for them. And the witnessing I thought I could not do it, but that turned into a resolve that I must do it. When I consulted with a coordinator, they said that feeling fears is not the only way to be earnest. It is important to continue praying nevertheless. Through these words, I felt a lot of comfort. Until then I had been obsessed with how much I feel, but what heart I engage with is more important, and I was able to lay down my heart, feeling that Heavenly Parent rejoices more in the heart that wants to move toward Heavenly Parent, rather than whether I am doing well.

During the Workshop I heard from my mother that there was a 60% chance that my father may have cancer. Facing the thought for the first time that I might lose my father, I began to pray for him with a desperate heart. While praying my father's past life and hardships came to mind, making my heart feel heavy, and I could not stop my tears, feeling also that my father is a precious child loved by Heavenly Parent. For the first time, I was able to pray from the other person's perspective.

I also reflected on my own fallen nature, being so lacking, but then praying like a young child and heard 'I love you'... I realized the importance of continually asking and praying for someone else.

Through the Workshop, I tasted the devotion and became diligent to take notes for the teachings I used to just let go by and feel reborn in True Mother's Womb.

Soon I will return to Japan and start my family and I will not forget and build a family overflowing with love and being grateful more and more by every single thing Heavenly Parent has prepared for me and become a person who can bestow and share love.

gratitude to Heavenly Parent and True Parents and church members and my husband who supported me although so lacking.

'Even The Time Goes By'

Kim Young Chun

Testimony

2nd son

I applied because of a video I saw in the Cheon Shim Won vigil. I saw young people doing overseas mission work in Europe about my age, and a complex mix of emotions flooded. It seems I was overwhelmed by the bright appearance working so hard and wanted to be like them (so different from me).

I entered the Workshop with difficulty with the intense schedule and someone like me who would zone out during prayer times. But I was told that to just keep going, it would work out somehow. I felt from the Course of True Parents solely for Heavenly Parent and risking Their Lives. And when I heard of Heavenly Parent looking for sons and daughters while covered in Blood.

A sense of guilt came for only learning about Heavenly Parent now, and I offered repentance so much regretting the days of being a 2nd gen and never thinking of True Mother's safety and not caring whether the members around me left the church or not. Still, I doubted myself because I did not feel tears or become earnest for Heavenly Parent and True Parents, and wondered whether They even truly needed me. I pondered what kind of life I could live to dedicate my life to True Parents, I who had criticized myself my whole life and who still had nothing to give.

More coming to know Their Lives, I thought I too wanted to live like Them. I learned it is important to keep centered on others and see through the Eyes of Heaven wanting to be better than yesterday. I realized what a limit there is to only centering on myself, but how joyful if I could focus on Heavenly Parent, affecting Heavenly Parent.

I had been a person afraid to talk to others and even go into the convenience store near my house alone. But I realized this was not necessary to fear, and I resolved to live for the sake of others and Heavenly

Parent. I will practice this through the next Workshop.

When I go out to the mission field I will accomplish this. applause
gratitude to Heavenly Parent and True Parents

HJ Report

Lecturer of the Korean Workshop Team

Today, 'Commemoration of True Parents's Holy Wedding and the grace of CP TC

True Mother's Words: The Providential history was like a long winter. We have come to the time to realize the Dream of Heavenly Parent and the wish of humanity. This is precisely that time. The Cheonwon Complex will change year by year and you can come here to learn and change.

True Parents's proclaimed the project to construct an environment of the Ideal World and for that True Parents walked a day like a thousand years. Just coming here the H spirit is stronger. True Parents said, 'Seeing is better than hearing a hundred times. So, I will show you the visible Place like what Heavenly Parent desires, a beautiful Place people want to visit... video of beautiful scenery of CP...

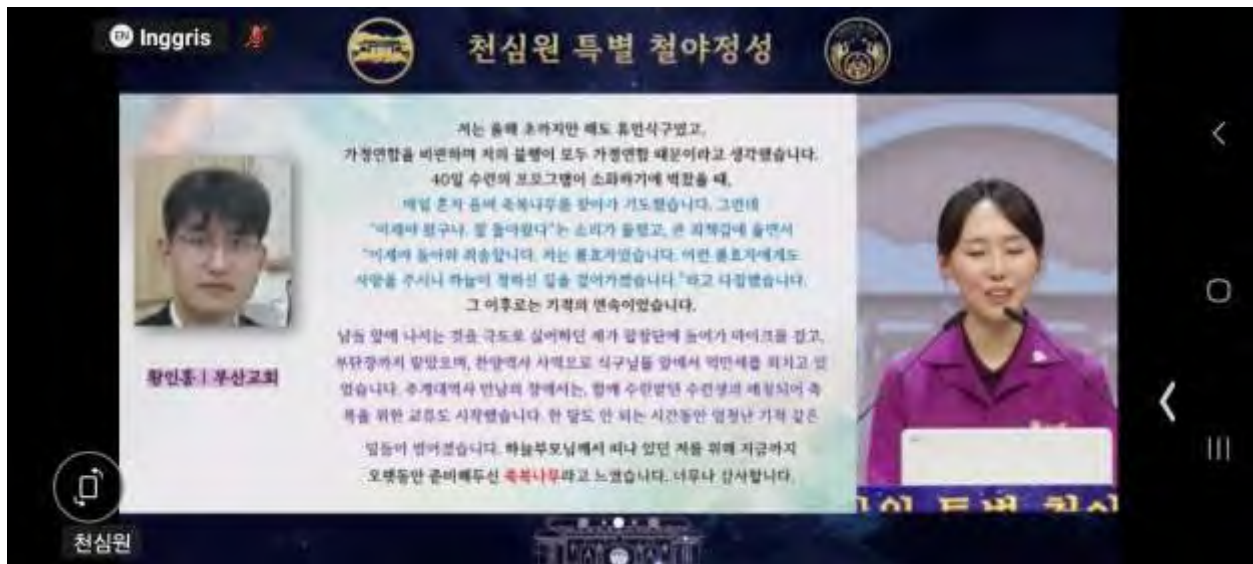

For the future gen, True Mother has prepared and created it, a Place where Heavenly Parent's Love comes down, emphasizing the Holy Ground of this perfected Garden of Eden.

This corresponds to the Completion Stage. After DMN's Seonghwa Nov. 3 1999, True Parents's gave instruction to travel between SW and PW to construct the sites. After True Father's Ascension the SW and PW work together and if one comes to offer prayer and devotion, on can be revived in such a shorter time.

True Parents came and created this all by Themselves, not just externally but internally allowing us to blossom visibly, going beyond the individual level, we can offer as one family. This is the Place people long for, not to gather and fulfill numbers, but to build the love and see the nature and know the revival of heart for that...

We have the New Hope Festival for abundant grace. And with the HJ Holy Ground, 'The Holy Stamp Rally' and you visit major holy grounds and hit the stamp and then we have many gifts...

In the TC there are six trees that follow together and each has angels located there. And so, if members offer prayer and devotion, problems can be resolved.

Heavenly Parent creating in six days, on the 7th day rested... each tree representing each day and the 6th Tree of Hyo Jeong we resemble Heavenly Parent.

Tree of Love located at the Center of the TC which is a willow tree, to feel Heavenly Parent TL and recover Love lost.

testimony of a Buddhist nun after 25 years of practice, I asked, 'Are you really a tree of love' and then love entered my heart like telepathy and knew this was a special Place.

testimony... problem with her parents and poured out tears about the wounds of my childhood and it felt that Heavenly Parent had been listening and comforting me while confessing everything at the T of L...

I hope you can begin this talking

Tree of Heart, a mulberry tree... while praying with longing for True Parents and Heavenly Parent (and the mulberry makes a delicious fruit)... Many angels are there and there is water to drink that can heal illnesses...

testimony... problem with the uterus and she wrote a HJ Paper and committed to drink the water of life every day... CP is now an automated system to solve problems yourself, and I was amazed how swiftly was the effect, and I resolve

Tree of All Things, which is a chestnut tree... When I was a youth, we came here and had an assembly and DMN said to raise your hand if you are third class above in your school and not many could raise their hand, and she said if we liberated spirits, she would help and the angels would work for the good performance and grades in class...

Tree of Loyalty, the Pine Tree, green in all seasons represents loyalty to Heavenly Parent and True Parents

Tree of Blessing, tree that has Spirit to pray for all here to walk the righteous path of the Principle

testimony... I had been dormant and thinking my misfortunes were because of the FF. I went to the Tree of Blessing then crying with great guilt having heard, 'You have finally come back' and since you have Loved even such as me and I will dedicate and found myself taking the mike and shouting Monsei and receiving the Blessing. I thought this tree was about True Parents who had longed for me while I had been away.

sixth tree 64th Children's Day, named by True Mother... There are a lot of monuments from so many wars, and by 1970 there are not many trees taller than human beings, but this one is so high, surviving, I believe by the Blessing of Heavenly Parent...

In 2021 we checked how old this tree was and it is exactly the same years as Mother born 1943. True Mother came here Oct 14 2021... and She was born in January and which month were you born? And we found out the tree was sprouted in May and 4 month later, so younger than True Mother, and True Mother said those who offer prayer there will remain healthy. It can only be reached from far away but PL opened the way to it more... truly a beautiful and comforting tree...

testimony... a mythical story of a son who was riding a horse and fell down and skin on his butt came off and the mother had spiritual being come to her and asked her to peel the skin of the tree and grind it and put it on her son from the Elm tree, and the son could be healed...

Elm trees actually allows treatment of stomach disorder and rheumatism and many things can be healed... After Mother visited this Place a person who was not a member, who had received ansu from Kim Dok Su, and hearing that Mother had come there, he came with a child that could not speak, and to heal that child, their hands became circles of blood, and for the first time in five years the child spoke, 'Mom' revealing the power of healing the child had.

Also praying for young siblings with a disorder of ticks. At the Workshop and Holy Ground Trees, and the symptoms disappeared when praying during the CY sessions and was healed in just 7 days and a long time afterward still he does not show symptoms.

another had asthma cured. She had been hospitalized by the ambulance not being able to breathe. The mother offered the HJ Paper and the doctor was so surprised after using the medication only 3 times. This

great work manifested and so grateful...

Right next to the Tree of Hyo Jeong is a spring like the Mother's milk that saves the lives of children... Every time we find something so precious, the gratitude also needs flow...

Poem

Extending the path of hanwon H fortune, a legendary Elm tree that grew in secret. After 9 years, when a wind blew from somewhere the nostalgic sound echoes today, 'Mom's hand is the healing hand. When hungry, it tore off its own flesh to satisfy hunger. When hurt, it bound wounds to heal them. A life dedicated to peace, that legend was formed grain by grain and clustered over and over...

So, within the True Mother's Sacrifice and Devotion, our children are growing and breathing well. That is what we receive and let us flow the gratitude and keep giving the grace.

CP is the Place like Mother's Womb... In 1943 the Chung Pyung dam was completed to have high water... and CP is aligned with Mother's Life Course, and walking Mother's Path, you can experience rebirth and cling to the am bionic fluid like the CP River...

Behind the Hannon House, our TC staff with the heart of the early members created the Path so diligently and April 26, 2023, True Mother came here to visit and sat down on this table facing the Sonin Mt. and True Mother was so happy to come to this Place and congratulated us for working so hard.

Walking bare footed, and no matter what wind comes, you feel calm and can do mediation and have grace unfold... (Photos of making the trail beautiful)

testimony... While working on Mother's train for a week, I heard that Mother will soon be coming to this Path and I thought of Mother and members while working and my heart was joyful with continuous smile. Please feel the comfortable, warm Love of Mother on this path like a spring after a long winter... applause

283rd Korean Workshop trainees went to the Places and here is a video

On Mother Path, Rock of Hyo Jeong. True Mother said not to be a stumbling block on the Path I am taking, and the big rock like preparing for Mother's journey in advance, instead of a hard time cutting the rock out of the way, instead it is protecting this path.

Ash Tree, Tree of Father... the god name oden in the myth created woman through the ash tree and there is a big rock the tree is embracing. the important symbol in Providence, the Jacob's Stone Pillar, the tier rock of Bonacker, the Rock Spring of Moses of Tears, tears cried upon the rock. So, just like that it looks like Father's Tears and Devotion to embrace the world. And next to the Tree of Father, there is a new path to the Tree of Mother to go there directly, and move back and forward... and next to the Tree of Father, there is spring water and many TC staff are beautifying this Place, and it is a Present that Heavenly Parent bestowed to us.

After passing the Tree of Father, you'll see the Tree of Ginseng and many kinds of trees that heal our body and I asked... And the Elm Tree protects our stomach and joints and the Ginseng Tree warms the body and helps circulation, artemia strengthens mentality and dogwood for inflammation and protecting the blood vessel.

And there are also common polyberry? protects respiratory system and pongsong for restoring energy and ladybell moistens the lungs... arteries strengthen for immunity and vitality

So, I hope you can look around and have the grace to find these things...

Also, the rock of Heaven with two cranes on top and an Elm Tree is growing and until the time Heavenly Parent could send the OBD, this Rock can show how much Heavenly Parent endured... It looks like its breaking down with tears and the Rock of the Archangel

which was of Satan, but after repentance, we gave this rock more beauty and try to find the eyes, nose and mouth, and you will be able to tell the story of the Garden of Eden...

Then you can be able to find the table where True Mother sat and see the Southern Peak, sit down and resonate with the nature and comfort and energy comes.

500 meters deeper reaches Cheonon Peak and True Mother told us Hannon House is a Place where Heavenly Parent rests, feeling comfortable and True Mother bestowed this, always thinking for Heavenly Parent's Rest. And that is why True Mother made such a resolution to accomplish everything in Her Lifetime.

testimony... I lived for several years in a daze with pounding fear and my family struggling too, influenced by me, their mother... but offering papers and living a life of gratitude, I walked Mother's Path twice during the GWs and felt oneness with True Mother and my headache cleared and lightness with normal thinking and daily life. Now I see the answer to how to solve problems with the words to become one with True Mother and gratitude to HyoJN, HeungJN and DMN...

How struggling would it be for the family to live in a house filled with garbage as before...

another receiving the answers and special guidance on Mother's Path and I was asked to check the history of my mother-in-law and there were liberations awaiting payments and I immediately paid out the fees, and a man appeared in my dream who greeted me and left. I will become someone who can meet with even more good spirits.

True Mother said miracles can happen becoming one with True Parents... How long will you delay or depend on someone else. You must take responsibility for yourself and know you are the master of all things with that authority...

All of us are owners of CP Complex. If we leave our rooms without touching anything, the dust will cover it. We should maintain and manage it, so that many members make it the more beautiful and let Heavenly Parent be Happier, creating the Place where Heavenly Parent can directly govern.

After True Father's Ascension, after Entrance, True Mother said She wanted to make True Father known to the world and know that Cheon Il Guk is flourishing greatly in this Golden Age, and becoming one with Mother is becoming one with Father.

We need to pass this Place down from generation to generation and bring joy back to Heavenly Parent and True Parents...

TY

Break

Hoon Dok Hae

The path of those riding the H Fortune... The name Heavenly Parent does not signify Heavenly Father alone, but H Mother also Exists, giving Birth to all humanity with God's Desire to be the Parent of humanity and realize one family under God, individual, family, nation and world.

Due to the fall, the awareness of God was an Identity only as Father but now we can know the Heavenly Parent as the Oneness with H Mother.

Both Hebraism and Hellenism, which formed the foundation of Western civilization were thoroughly

male-centered histories. Consequently, the status of H Mother, the Woman Aspect Half of God was concealed and God could not become Desired Position of Heavenly Parent.

To ride the Heavenly Fortune, one must first know the path it takes. It is not defined as a Place everyone likes, enjoys, eats and drinks, but embraces a position that no one likes, all the while being grateful, always fulfilling your responsibilities, always offering glory to God and carry out the work of transferring the Heavenly Fortune to those around you.

If you do not reach to others to be Blessed also, your ancestors in the SW will have you indemnify yourselves. It is an act of rebellion. They will keep blocking your path and hindering you. They will be asking, 'It says so in the Pledge. Why aren't you acting on it. That is why you are told to share everything. If you do not do that, that is why you will be caught when you go to the SW. it is an important Contract Documnt. Aju.

'Let Us Plant Love in this World'

Pres. Lee Gi-seong's Speech

There are members who gathered other members to the devotion... Nagano Church 11 members

In front of the DC... 213th Day True Mother has been detained... At the DC... 'Our True Mother walked such a Path and wanting to embrace everyone and the Path She is walking now will be the testimony for the greatest Love and give Her more strength and attendance than ever... We will move forward with one heart and will

applause

Our Church will stand on the stone. Churches should not just let members come back from the Workshop as they are or they will lose their strength and sincerity. We should not let them lose their energy but gain energy by give and receive action. The members and pastors and leaders must have the passionate heart to guide them and work together. If there's no one beside them who wants to offer calling out or even compliment their devotion, with no response like this, they can lose energy.

When starting to make connection with others resonant with them, they can prosper. The determination was so great in the graduating ceremony, with their eyes burning... It was truly the kick off for them to revitalize their churches and be amazing leaders.

Also, many members have offered devotion, some sending the names, putting up the names to pray for. If all churches in Korea can send more than 1 person to the Workshop, how much energy would the churches receive, setting a condition to guide the graduates of the Workshop, and then the church will become lively...

When the trainee went back to Japan, she lost her passion for faith and started to walk the stressful, superficial life of centering on her job. If there is something going on with your life, you must connect yourself with the vigil. She was able to go into new work and strike her roots deeply. She realized to come to the Workshop, and I believe she has fulfilled Mother's Words. Every time when feeling lonely or difficult, coming the Yeongseong Workshop.

Many receive grace only in a few days, but she was worried about her work and what would happen. She connected with her own heart's deepest desire to be one with True Mother and feel Heavenly Parent's Presence...

After the Opening Ceremony, she experienced Heavenly Parent Presence in this Place realizing she was not really offering earnest prayer after hearing of her fathers diagnosis and that she might lose him.

You need to realize too the difference of this earnest prayer. How desperate is a mother to pray for a sick child. She would be a like a crazy person. You would offer devotion like that too.

The fact that you offer devotion for your family members, Heaven is trying to teach you what the earnest prayer is not just saying the words through your mouth, and you must check yourself, what standard you are at.

Our sister experienced offering prayer for the HMH, True Mother. With that Heart, I am certain you can experience the amazing, miraculous work of Heaven and when you say you want to offer devotion, you need also find how lacking you are, how earnest, deep and passionate your prayer is, so that you will go further to grow.

Also, pray like a little child looking for Parents and talking about lacking parts and feelings. That is how to enter that state, that position. This sister said she had the taste of devotion.

Because some find out the taste of kimchi, they go back to their other nations missing it. And you must be mesmerized by the Spirit and Heart resonance with yours that devotion is, much more than the taste of the cell phone and movies...

The young people are testifying and under that change and resolution from Cheon Shim Won, it is the

motivating force. Many, many members go from the vigil and watch their cell phones and even some who watch pornography until 2 or 3am. Even if they attend Workshop 3 times, the spirits are never liberated, even if we took the cell phone. We offer vigil to separate resentment spirits and separate from the secular world.

To do so, you will not be able but to fall asleep before the next day you want to fully participate in to accomplish in this important life-giving, rebirth Workshop. Once reborn, that can create a beautiful family experience in the future and revive the church, not going back down with it...

This brother had a phobia toward meeting people. What was fortunate was that he offered devotion of Cheon Shim Won online and saw b and s the same age and wanted to be like them. This gradually came into his heart enough to want to attend... He was zoning out at first but didn't run away, but thought to put himself into it so that something would happen, not just stay the same.

He became comfortable to talk to people and can now go forward with his life of faith.

Kim Guy On... our sister gave the presentation... Many contact us to ask if they can bring Ambassadors of Peace and contacts to the TC to see the spring growth, but I hope you also look around and explain everything that this here like the 6 trees, the 6th the Tree of Hyo Jeong... When we look at the Tree of Blessing when True Parents were here, it was small, but now so much bigger and the Elk Tree is the Tree of Mother, and I believe this tree will live the longest... In Korea, I hope we offer a lot of devotion for the Tree of Hyo Jeong to live a long time and we will offer a lot of prayer and devotion... And our jeongseong Academy offered a lot of devotion and received grace...

There was the Tree of Hyo Jeong to receive the energy of True Mother and the daughter who didn't speak for 5 years, spoke, and we have opened that power to everyone...

This Tree is a chance to connect with the Mother's Voice and Love... born the same years as True Mother and it's base is huge that cannot be embraced completely... All those Places had been blocked by nature, but we went around and discovered ways... The big rock that is cut in half, the other half is on the other side. And Mother said we should not become like the rock that blocks the path.

On top of True Father's Tree, there was a pond. Water was streaming down bigger than the stream next to

the Tree of Hyo Jeong... A lot of snakes were living there that we moved away and we try to maintain that place, eventually creating a beautiful Place for all the see and visit well.

Whenever we have GWs, we resolved that we must change something to make the visible Heaven more, we must make that difference. The big things Mother did, building the Cheonwon Gung, but we must do the small things so that people will be so impressed when they come. People actually try to come here to take the ginseng and bring it out, but that should not be the motive for coming here.

If you have prayer and devotion here, you will have a comfortable heart of peace. We are also improving the path connecting Father's Tree, the Ash Tree to the Tree of Hyo Jeong the Elk Tree... And in autumn we picked a lot of chestnuts. And we can find the nature things. And if you do find a snake, do not be afraid. And this snake came looking like it had swollen up from just eating something. And Yu Su Hun leader said, 'Oh, should I kill it?' but don't you feel sorry for the snake who came out from the winter to eat. So we shouted out the snake, and if you see a snake, just be cautious not fearful...

During this GW, all of you must register and to receive the GW, you will see what has changed and receive the greatest grace.

We have seen the HD Words, the path for riding the H fortune, which is not a comfortable path that the secular world enjoys to have fun for themselves... If you ask a secular person to come and offer devotion, they may not come even if you pay them but instead run away, right?

This path is where you can be grateful, or else you are not walking the path to receive the H Fortune, being grateful all inside yourself no matter what others do, not by how you are forced or will be scolded or judged compared by others, but only because you're grateful, and those who ride the H Fortune through responsibility, putting everything into that...

So, we must think what our responsibility is. They are those who returned the H Fortune back to Heavenly Parent and True Parents, back to Heaven. The Glory you receive is Heavenly Parent's Glory, the grace Heavenly Parent's Grace and try to pay back more, but still feel lacking, and look to do more and be better to return all to Heavenly Parent.

Family Pledge is the most important Contract Document to return H Fortune to Heavenly Parent. And if you do not, your ancestors will cause you to indemnify yourself. Your ancestors will point to what it says in Family Pledge and ask why you are not acting on it, to fulfill Heavenly Parent's and True Parents's Words...

Please rise and soar through the Heavens with the H Fortune. I hope that all of you graduates, as they sang Way Make, I hope they move forward with their resolution and be the people to offer the victory through their lives. All of us as BFs and Family Churches must ride H Fortune leading to H USA and H Korea and H Japan riding H Fortune.

The time has come, this Last Day when the Hell realm is transformed to the Heaven realm of King Appa and Omma, and the moment when cosmic world peace is accomplished, the moment when True Parents allow us to change our lineage and you must clench your fist centering on the Words of Heavenly Parent and True Parents that this is that Last Day for Heavenly Parent's Will to be fulfilled.

And those who are 70s and 80s who joined in the early years, you can see that the foundation we made is like the Heaven all because True Parents have spread the H Fortune and we must know this is it, the Golden Age and put all our heart and effort and ascend to the position of having fulfilled everything and

our True Parents are waiting for us, and I hope all of you rise high riding the H Fortune of Heavenly Parent and True Parents.

Most Honorable Heavenly Parent

Most Beloved True Parents of HEH

Look at us, look please at these youth, they found out what kind of Heart You had for them. What kind of heart HyoJN, HeungJN and DMN, what kind of heart would they have and what would they want to say to us, 'Yes, you did very well to come here, but you must accomplish your responsibility' I believe True Mother would say the most beautiful flowers are the 2nd gen. True Parents do not worry, Your sons and daughter, Heavenly Parent, will go out to the mission field and testify to You.

We have Cheon Shim Won where our True Father is working and to be one with True Mother is to be one with Heavenly Parent. Let us move forward to show to the world that Heavenly Parent is living. Please mobilize and work through us to show the world that Heavenly Parent is Living and now we are one centering on the pastors in the church, all the members are offering devotion, and 2nd and 3rd gen will bring the miraculous work of Heaven. Let us achieve such work of Heaven. HyoJN... HeungJN... DMN... please work, work, work through us... And the GWs we will make the victory... All the brothers and sisters around the world, let us all be victorious and bring the numbers before you, offering all hearts to you
