Opening prayer of gratitude

TY TY...

Heavenly Parent Who Promised the Resurrection of Life, please restore the original internal seongsang and original external nature hyeongsang, which You Created at the time of Creation.

Just as You felt Joy at the time of Creation when You first made us, we earnestly desire and hope that You would call us Joyful once again and establish us as sons and daughters who You can proudly present before all Creations in Heaven and on earth, true children who can put into practice the holy minds and bodies established by Heavenly Parent. Please awaken the Will of You our Heavenly Parent to all people of the world, elevate the foundation of Re-Birth of true life, so that eternal Heavenly peace may appear on earth.

Please enable us to receive Heaven's Blessing while bowing and praising with a humble heart. Please bring about the work of Re-Creation so that we will possess the beauty of the Love and Glory You have Blessed, and proudly announce and profess the Glory of True Parents Who have invested Their BS and Ts to restore the cosmos, bring about world peace and save humanity, so that we will greet the new morning of the new nation of Cheon Il Guk.

Please work through us, and as True Parents have instructed, enable us to shed tears and invest ourselves for the devotion that moves Heaven. Please grant us H Power and Authority and Lead us with H Wisdom so that we will advance without ceasing until the Day of Victory.

Heavenly Parent, through Cheon Shim Won Devotion at this Hour, enable us to be Re-Born through Spirit and Truth, and as we shall become Re-Born as H Warrior who can blow away evil energy of disbelief and division and offer up the glory of victory, please be comforted, and please work through us.

As all the Blessed Families of the Mother Nation of Japan are becoming one with True Mother and being resurrected vigorously with even stronger faith and Love, please work so that we will achieve final victory. Please work.

As all Blessed Families from around the world are crying out in prayer at this hour with all their hearts and devotion, please Respond and Work so that we will offer the results of victory before Heaven, so that all the good multitudes who are working to established the Will of the world of peace that Heaven has so longed for and all the righteous people who You have prepared will be gathered and united as one centering on this Cheon Shim Won. Please work through our prayer and devotion.

Earnestly hoping for True Parents's longevity of well being and health...

Kim Jong Jin

Chanyang

HJ Report

Kazikuri Masate

Director of the Mission Department of the World Mission HQ

BFs who formed the 4PF of true family, Inheritors of Heaven's Love and Blessing and True Parents Family of 4PF, I believe that the Great Grace of Heavenly Parent and True Parents will be with your families and participants who are attending the 1,550th Cheon Shim Won special vigil devotion to fulfill the duty of Hyo Jeong to Heavenly Parent and True Parents. Applause

Since taking off as General Director, Tu Sin myeong gave these words from True Mother:

'Do not be a General Director who only sits at a desk. Meet the world members in person and convey My current situation and My Heart.'

Following the Words to comfort members who miss True Mother and are offering devotion even in far-off lands, the world tour began. Starting with H Japan at the end of last year, we passed through H Africa in Feb and H South America in March of this year. And in April it has reached the 4th Continent, H Asia Pacific.

Today I would like to share the grace of the tour in Malasia and Thailand of the H Asia Pacific Continent. Malasia is a nation that recognizes Islam as its official religion, so that witnessing becomes an impossible kind of environment. Nevertheless, starting with True Parents's world tour in 1965, they hosted events 6 times since 2006, building up their devotion over many years. And upon that foundation, the FF of Malasia stands today. In particular, young members under 40 make up 40% of the total, making it a community that stands out for its vitality and potential for the future.

During this tour the General Director delivered Mother's Message at a gathering of about 200 members: 'Don't worry. Don't worry. I will meet you soon. I will meet you in person. I hope you will become BFs who can take responsibility for all things.'

The moment those Words were read, the members lowered their heads and wept. The longing and worry that had piled up in them for a long time, burst out at once. One member confessed:

I had much worry and fear, but now I have the heart to return to my place and do the work I must do.

In this service, personal appointments across all of Malaysia were also conducted with new church generation leaders established in 3 out of 6 church, which is half, and they stood before the members to greet them. It was the first step of 'Generation Future' in Malaysia where the 1st and 2nd gen are opening a new era together.

My brothers and sisters, this is by no means a small change. In this Era of Cheonwon Gung Entrance, please give applause to encourage the fact that first and second gen continue on together. TY

There was also a Crane's Club Gathering. Members from Singapore and Malaysia gathered in one place that had already formed communities and were working steadily in their respective country, and in this meeting those currents were connected as one. The Seeds Mother planted were taking root in each region, and continue.

My brothers and sisters, there was a matter in Malaysia in the last few months that was by no means light. Books were published (Baru Terbit Buku, Ekonomi Kultus and 'Bayang Moon' Di Bumi Malaysia') that distorted the FF activity. As witnessing activities continued the opposition party used us politically to pressure the FF. However, the Malaysian members did not waver.

The core members of FF and lawyers immediately took action with the Association of FF, and Malaysian President, a CheonBo Family University Professor, actively provided the public interests of the FF during police investigations, leading to a positive change in the atmosphere of the investigative agency.

The Malaysian minister of home affairs who has maintained a friendly relationship with the FF, officially announced during a press conference, that the FF is an organization harmless to national security. The situation is generally entering a phase of stability. applause (TY)

This was not simply a legal victory. It was possible because members who became one with True Mother, fulfilled their responsibilities in their respective positions, with faith and earnest devotions toward

Mother. (applause of encouragement to Malaysian members)

While confirming the flow of generations together in Malaysia, similar appearance was appearing in Thailand, which is called 'the Land of Smiles'. People greet you with warm smiles wherever you go, and Buddhist culture is deeply rooted. At the same time it is a place that holds a history of tears, imprisonment and persecution amidst political upheavals, since missionaries first conveyed Heaven's Will to this land in 1965.

During this storm we witnessed one scene that had not occurred anywhere else. Board Chairman Dr. Leck? a senior leader in Thailand, is a symbolic figure who has guarded the center of the Thailand Federation for over 30 years. He is a person who True Parents personally commended for completing 430 couples of Heavenly Tribal Messiah for the first time in the world. Such a person with the occasion of the General Director's visit, voluntarily stepped down from his position as Board Chairman and joyfully handed that responsibility over to Moon No Yoi, a Blessed 2nd gen Association President in his early 30s, who is from an international Blessed Family of Thailand and Japan. He is a talented person graduated from a most prestigious Thailand university. He leads inclusive of the entire Indo-China Diacids.

While handing over the position, Dr. Leck said:

'As a CheonBo Family and as a true child, he fulfilled the responsibility entrusted before Heaven until the end of his life'

That appearance reminded me of Moses in the Bible, who looked forward toward the Promised Land and opened the way for later generations, the history of the 1st and 2nd gen walking together into Cheon Il Guk with True Mother was beginning. Currently all the leaders in the Indo-China District are in their early 30s and are taking the lead.

Myanmar, which is currently at war, 2nd gen is continuing mission centering on refugees and compatriots in border areas. Amidst chaos and war, she has witnessed 12 children who cultivate a warm community of faith. applause

Even in a place of despair, Heaven is beginning a new history. My b and s, because there is resolve and devotion, the history of Heaven continues... applause with your hearts gathered around for this precious

dedication

As the gathering neared end the warm eyes of Thai's turned red with tears of longing, thinking about how Mother embraces Her children, even while She is in such pain and hardships. And the members saying, 'I who could not sufficiently repay that great Love, but at the same time that Love became the strength that makes me stand up again.'

Those tears were not of sadness. They were tears of resolve to accept Mother's Love and stand up again. The World Mission HQ confirms the fact while touring, that the similar tears after members heard Mother's Words, with their heads bent and then lifted again. The meaning of those tears is Love for Mother and resolution to repay that Love.

At this very moment the members in Malaysia and Thailand and all of you in this Place today are offering the same Devotion with the same Heart. We are already connected as one. That is the appearance of BFs around the world who are one with True Mother. Isn't that so? applause

We will become a bridge of hope that connects the field that connects member with member, offering all our devotion so that BFs around the world can be connected on that bridge with all the devotion moving Heaven. TYVM.

Words of Lady Pastor Kim Jung Hyun

She bows

big applause

B and s who joined in this precious Place, TY and I love you. I feel that God's deep comfort has already gathered in this place. Is it simply to pass the time? No. We have gathered to pray, to hold onto God's Garment amidst the fierce storm of life.

The Bible says that the very appearance of coming to this Place of Prayer is the most beautiful sight in God's Eyes. I pray that this prayer gathering goes beyond a simple gathering and becomes a time of Blessing and comfort fills your spirit.

I stand here today as a Christian Pastor affiliated with KCLC. The traditions and background we have made are slightly different. Recently Pastor Oh In chul, because of the invitation of leaders of KCLC and Pastor Oh In chol, were able to attend Service together. Through the Sunday Service we held together, as a Christian pastor, I realized the fact that Heavenly Parent is working much stronger and much wider.

Our Service we held was a prayer for the peace. It was a joint Service where Christians and Unification Church members gathered together. In this sense, the grace that Pastor Oh In chul invited us to attend, I would like to take this opportunity to show my appreciation to the pastor. (applause)

Our traditions and backgrounds may be slightly different; however, we have an undeniable commonality. It is that we human beings are infinitely fragile in the face of pain and anxiety. Therefore, there is the fact that we cannot stand for even a single moment without the help of the Creator, God.

What is this era in which we are currently living life? The whole world is groaning with war and division. Clashes of ideologies and tension between religions deepening day by day, instead of peace, anxiety has taken root in people's heart. In this chaotic time, what must we hold onto? Psalm 46:1 answers clearly:

'God is our refuge and strength, an ever-Present help in trouble. My b and s, the peace that the world gives is conditional upon the situation being good. But peace promised by JC is different:

'Peace I leave you. My Peace I give you. I do not give to you as the world gives.'

I Bless that this peace that transcends the environment may be with all of you gathered here today. (You can feel her sincerity of a motherly heart)

Today, I would like to deliver this message with a particularly heavy heart thinking of One Person. It is Dr. Hak Ja Han Who is currently facing health issues amidst many difficult situations. Upon hearing the news, I could not hide the deep regret in my heart.

We sometimes face moments in life when we cannot understand, 'Why is this happening? Why is this occurring to me? However, look at the great people of faith in the Bible. Joseph was unjustly imprisoned without having committed a crime. David wandered through the valley of the shadow of death while being chased by King Saul. But at the end of all those sufferings, God said,

'I have been with you.'

This current trial is by no means the end. God knows everything and is the One Who leads us on the best path. Even though our positions of faith may have difference, compassion and love for those who are suffering is a heart where we must all become one and share.

As the Word in Romans 1 says,

'Rejoice as one with those who rejoice and mourn with those who mourn.'

Now is the time for us to gather our hearts and intercede. Please gather your hearts. Please gather your devotion. Beloved my brothers and sisters, when we truly love someone--You have truly loved someone before, right?--When we truly love someone and their hearts are shaken, our hearts are easily shaken too. But that is precisely the time when we must hold onto true faith. It is not to believe in my feelings but in God's Promises.

Right there where you are, cry out to God with your voice. You've gotta shout, 'Lord God, God! listen to my prayer!' Your prayers will never vanish into thin air. This prayer will build you into a more mature person of faith. It will become the priming water of peace that heals the division of this land.

Let us fix our eyes on God not on people.

Our ultimate help comes only from God Who made Heaven and earth. God is Alive. God is Working even now. God is hearing your prayers right now. Let us all declare and proclaim together through our mouth,

'God is our refuge. God is our strength. God is our help.'

Now, we must pray fervently, 'Lord have mercy on this land. Lord, send rays of healing to those who are on sick beds and difficulties. Lord do not let our faith crumble. Grant us new strength to stand up again.'

My b and s, I believe, if you heart is shaking and frustrated, not to linger only on these things (but lift up from it to know the power and hope that) God is looking at your prayer. God is looking at your loyalty. I believe God will grant us the Truth revealed. And if you believe it, let us shout out with 'Amen!' 'Aju!' Kamsahamnida

big warm applause for KCLC member and Korean Pastors Association leaders gathered together here with us (Some of them stand)

about 7th Attendance Workshop

It is about going back to the purity.. All water in the ocean began from one and that beginning doesn't dry up, doesn't stop but flows creating all the flows, and now we have met with the Origin.

With gratitude and joy we will attend Heavenly Parent and True Parents as we go back to our Original Selves

'Save the World with Cheoonsim'

HJ Report

HJ Cheonyon Publishing Company

I Gyeon Ho, President

Gratitude to Heavenly Parent and True Parents Who watches over the company and to True Parents Who guide our path, and to the members who send unwavering support and Pres. Lee Gi-seong for allowing this precious time.

Our new name in 2019 by True Mother Who gave us the mission to create Contents for visitors coming to Cheonwon Gung... from former Sonhwa Publishing, was established in 1961, a year after the Holy Wedding of True Parents

It is the very first Providential Institution that True Parents established. We work like jewelers, turning the raw stone of the Word into gems, and as soldiers in an arsenal forged into the Sword of the Spirit and the Armor of God with loyalty and hyojeong.

Today I will report on the recently released Book, the transcription notebook for the praise of the Life of HMH, True Mother.

PL:

'We sincerely thank You for allowing us to praise and testify before the entire world and all humanity and the SW, the Life and Achievements of the OBD, HMH, the Protagonist of the Providence and history. At this time when both Heaven and earth are watching'

The 'Praise of Life' was read by PL at the Entrance Ceremony on April 13th of last year (2025). During approximately 14 minutes of the reading, 6,000 years of history unfolded like a panorama. This is imbued with Mother's Life and the BS and Ts Contained.

The Great Epic is engraved in the hearts and can move the world. I believe that only when this great Epic is applied to my life can it begin to change the world. Do you agree? applause

We pondered how to make Content out of this Precious Praise of Life, which contains Mother's Will, Her Life and Achievements. It is centered on transcripts by hand, rather than just reading. It is composed of 3 main parts.

Part 1: After taking a deep breath and inviting Heavenly Parent to be by our side, with all our heart, rather than speed through what is contained in sentences, trying to read the Heart and Hard Work of Mother between the lines. As you press down with your pen, rather than just reading with your eyes, you will surely encounter the Words for your own life and be able to resonate with True Mother's Heart. You will be able to relate with Mother's Life.

The Events of Mother's Life can come to you as if they were your own life. The Meditation Corner consists of about 20 questions, and it can become a bridge that brings the great Spring of the Providence to daily life as you honestly write down your emerging thoughts content, pledging very small practices.

The last pages of Part 1 are arranged so that you can reflect on the Entrance by Mother, Who proclaimed that the Gates of Cheon Il Guk have been widely opened.

Part 2 is Mother's Prayers, including 12 Prayers from the time of the Japanese Tour in 1995 to the Benediction at the Cheonwon Gung Dedication in the year of Mother's 80th Birthday when She resolved to further expand the environmental sphere of the Beginning of Providential Conclusion on earth.

Is it good to read prayers aloud or to murmur them as HD. Through Mother's Prayers you can deeply feel the HJ Filial Heart, always comforting Heavenly Parent first, and the Earnest Desire to Fulfill the Will in Her Own Generation.

It will be a deep time of resonance with the Course of Mother's Life.

Part 3 is Letters of Love from True Father and correspondence from Mother.

In 1960, as True Father toured around America, this is the letter sent to True Mother:

'Whenever I know that You are carrying the heavy responsibility alone and are anxious, (I picture You with a reassured Heart [guessing what he said]). The loyalty and filial piety with Your Heavenly responsibilities will be remembered forever. I hope You will be a truly respected Mother, and that Your Life as The Mother will reveal the height and preciousness of Mother even more than that.

And this is Mother's response:

'Because You have Great Will and are looking over the world, great must be Your hardship in both Spirit and Flesh. It is a night when I miss Dad so much. Here, thanks to the grace of Your Concern, we're still moving forward, wishing to become the Mother that Dad wants, hoping for Your Love, I will end this letter here. Please stay healthy and uphold Your Great Will.'

How was it? applause It really sounds like Father and Mother's voices, right? It was created with AI technology, which will get better as the AI technology improves. And I believe we are truly living in an amazing time.

Through this letter, we can see and feel it, how True Mother and True Father respected, yearned for and loved each Other.

The second part of Part 3 is the Letter that Mother gave to me. I recommend you write it at the most quiet and peaceful moment, just as True Parents wrote Their Letters at night or at dawn. Think about what kind of Letter would True Parents would want to write, to say to you. So, I hope you imagine Mother gently calling your name and handing you Her Words in a quiet, peaceful moment of the night or dawn of day. I believe this can be a new beginning for you.

Now the transcribing is a trend, with a lot of notebooks where you can transcribe the well-known Quotes and Words. I believe it is the most necessary thing in the Eyes of Heaven in this Era.

The books recently published, the Cheoni Chest of two Books 'The True Parents Status and Value from H's Perspective' and 'The OBD as Seen through the Words of True Parents' (purple and green Books)

4 Books published to testify about True Mother/True Parents... 'The Heaven Parents' Dream and One Family for Humanity. Just as Father wrote down the Words from when He was in Salomon Prison, I believe it is important to understand True Mother's Words. So far there will be a novel about the OBD and (he stands and bows) and also the Epic and Rev. Yan Sung Sok has made his own series, published 22 times, and based on his story we will publish a Book called 'The Wave of the Holy Spirit, based on the history and heart aspect. Also talking about the CheonBo Message and the HJ System Workbook... and CheonBo Education Center is scheduled to give it and can be purchased. It is about how to live your life centering on Heavenly Parent and True Parents, please look around during the break.

True Father and True Parents always tell us to not waver and move forward. How to realize True Parents Request. When we become the substance of the Word and Cheonshim, the Works of the Holy Spirit can occur and I hope we all become it...

Break

Report of HJ

A business analyst and a Cheonpyeong baby, and testifies that the life of devotion is the secret of his success and he returned the Blessings he received as a tangible victory and formed a connection with the person (grew US, grew up in the US most of his life) currently working for Amazon as a business analyst... Usually after 3rd year getting an internship and then maybe a full-time offer to return to that company and I was stressed having transferred into the school and others seemed smarter and more ambitious and capable and went one year previously but luckily got internship with Amazon with Cloud computing part of their business and did well enough with the internship that they asked me back. A lot of my classmates had very difficult time with even getting an interview, but with me it went smoothly, and I attributed a lot to having been taught to tithe and be relaxed about giving money to Heavenly Parent and True Parents whenever I did get money, being lose with giving it to others, so grateful for that.

Came to CP for 21-day in the summer of 2024, after precious Workshop in 2019 and then because I grew up very interested in CP, and my mom was here when pregnant with me and as we were singing the Grace of the Holy Garden. But for a lot of international church members it's difficult to get to come because of the price and I was able in 2024 by taking off from work. Luckily my work allowed me to take that time off, and my manger was okay as long as I set up a plan how someone else could help with the work when I was gone... and when you think about the cost of coming and how much you might lose on lost wages, for me it might be about 4 or 5,000 dollars... but I found it very enlightening when I did come and so worth it, because our spiritual life is priceless, how to get a good Blessing and spiritual life... so to think about it that way...

International church members, I think one advantage that it is so far away, it is an even more special experience, easier for us to see the value in it and go deeper with the healing and spirituality. When I came last year, my main focus was the Marriage Blessing, but I ended thinking a lot more about the 2nd and 3rd gen and their difficulties and when I went home, how could I connect with their heart and attend to them to have connection. I appreciated that and important to connect with sorry, relevant at this time with True Mother Who asks us to connect with Her Heart of Sorrow to relieve Heavenly Parent's Sorrow, and how to make lives of those around me better as well, and we should be able to do both in fulfilling our potential here on this earth...

Received the cosmic Blessing, and we were able to meet, introduced by a church leader, and it's been a (he struggles with words) emotional journey. I've had to tackle what the Blessing really means, and how to commit to one person, but the more we talked I felt that she could understand me deeply and create a future... It's not just about me or her but how we do together with our families and even when not on this earth anymore, what kind of foundation to create for our descendants, and that makes me grateful for her.

We hear that our Blessing is for the greater good, but do we really understand what that really means, which makes it more difficult for the Blessing. It means we have to make sacrifices and think about what we may not think we want to do, working for the Providence, we might lose that vision along the way, especially when it comes to finding someone, and how difficult it is to live that saying that the Blessing is not just for me but for creating a happy family...

A week before the Blessing, I believe he showed a good example, piling up devotion for H Japan and for True Mother in an earnest voice... Cung Jun Ho. Pastor... greets and 1998 to 2001 called by True Parents, serving the Japanese members and ran diligently, though lacking, wanting to fulfill True Parents's Will, and upon hearing the news of the 6th Resonance Prayer Workshop, my heart's voice said that this time me and my wife must go together. You are a couple that have received so much Love from Heavenly Parent and True Parents and since receiving the Blessing, but after True Father's Ascension to SW (tears and hard for him to talk) every time I hear PL's Words that M shed tears looking at the moon alone and not able to sleep without sleeping pills, I think to myself, 'You only know how to receive love, but truly what have you done for True Mother? And I wailed all day long thinking how heartbreaking it must be for Mother to receive that report. I walked the path for the sake of Japan, but with what kind of heart are members in Japan enduring while living their life of faith right now.

Our family went to H Japan as missionaries and thinking about members having such a hard time, but HyoJN visited me and showed me a vision of himself climbing a large tree and bleeding profusely. Seeing this vision, I decided that in order to do pastor's work in Japan I would lay it down with a joyful and grateful heart. When I asked my heart's question, when Mother was suffering, how much devotion did you offer for Mother Who was having such a hard time, and desiring that She return and so difficult in my heart that every time I continued to pray that during the Blessing on May 2nd that Mother recover Her Physical Body and that we can attend Her and how happy would Heavenly Parent visiting that Place be?

Looking back PL told us to offer Cheon Shim Won devotion at the risk of our lives. The times when I look back, whenever my physical body was tire, I couldn't always set a perfect standard and my conscience felt burdened. At the 1,533 vigil PL suddenly asked me to lead 3 cheers of oeg monsei and because of that, I made a firm resolve here at Chinju Church...
