Opening Prayer of Gratitude

Most Honorable Heavenly Parent

Beloved True Parents of HEH

As the entire land is filled with life, going beyond looking at the flowers blooming, we are respecting April where we are revived in our hearts with Your Love... The beautiful blossoms, just like that in our hearts, let the flower to bloom and this energy to full up the entire cosmos and receive grace through this, the 66th Anniversary of the Holy Wedding of True Parents, on this victorious foundation, and on the First Anniversary of Entrance, TYVM for allowing us to open such a door.

66 years ago, the Light of the Holy Wedding with the Seal Heavenly Parent was able to bestow, that

Glory settled down as Cheon Il Guk on this land and we can truly, with our heart, with our body, with our spiritual body, so please guide us so that we can absolutely feel Heaven coming down.

During this GW, through Cheon Shim Won, please allow us to grasp the Grace and Love of Heaven so that we can cast liberate the resentment spirits, melting them down so that we can create the GW as a Festival of Joy both Spiritual and Physical.

HMH Who is the Substantial Holy Mother, She has carried the burden all by Herself, but now it is time for us to share that burden so that we can plant the Seed of the Substantial Settlement of Cheon Il Guk and become the hope for our True Mother, and through our victory hope to give our True Mother a Smile, a Laugh, a Happiness.

On the Path that True Mother is walking, please allow the shout of victory to resound, and as the King and Queen of Peace in this cosmos where She is Enthroned, please work so that the Day of Victory can come as soon as possible. Let the night have all our devotion with all our passion so that we can lead the Providence to develop to progress.

Please allow prayer and devotion tonight to serve to have us responsively progress that we protect our True Mother to move forward with health and well-being..

Holy Forever

(This song takes some verses from Holy Forever (the very popular Christian song) and makes it about

Holy Mother Han with photos and words proclaimed from the pure water trainees all throughout also... and changes the lyrics to 'Holy to the Queen of Queens'... This conforms with True Mother specific Direction about praise songs we choose to sing together... *** more on Mother's Direction about this below)

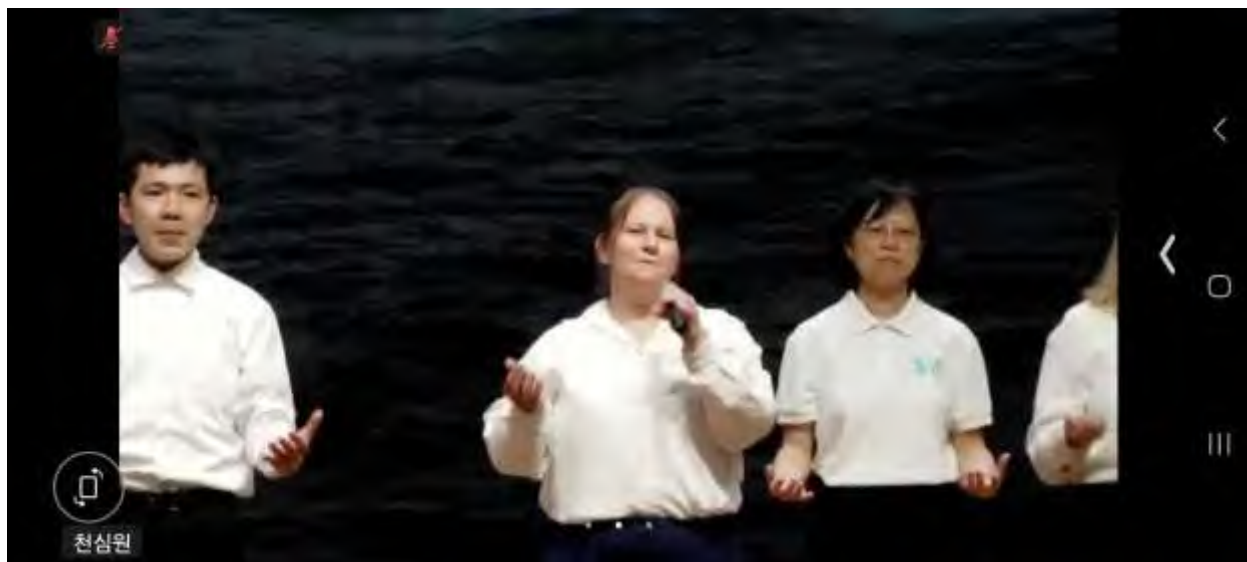

World Mission HQ

respect and gratitude for all with a single-minded devotion to Heavenly Parent and True Parents all around the world.

Our HQ reported amazing victories following Cheon Shim Won devotion and this is from the mission field:

Papa Musa Indowae... Bolivia Latin America where witnessing is so active... He was witnessed to in Senegal and received the Blessing in 2022... He was in the missionary program for H Central and South America.

At that time, his wife was 7 months into carrying a precious life, but news arrived that there was severe hemorrhaging and the lives of both were in danger. A harsh verdict was a less than 5% for survival.

Leaders said for him to return to Bolivia immediately, but he ran to Cheon Shim Won where Heavenly Parent resides, 'Heavenly Parent, True Parents, please I beg You. Save my child.' Heaven's Voice, 'Will you abandon your own child for those you are witnessing to' He said, 'Heavenly Parent, I will not abandon the mission You gave me. I will entrust my child to You.'

At that moment there was an emergency surgery, but just before it, the electric went out for the entire hospital. At that moment, our brother prayed at Cheon Shim Won. Then the baby was miraculously born through natural childbirth and was perfectly healthy, not even needing an incubator.

When the brother prayed at the risk of his life, Heaven responded to this, and our brother did not keep this to himself, but concluded he could save other souls as well, and he offered 400 bows and 10,000 calling

out prayer, and as a result unbelievable witnessing occurred and a total of 52 young people were witnessed.

He confesses that the miracle was not simply in those numbers but the Love of Heavenly Parent who believed in him until the end and bestowed such things was the miracle.

Our brother's devotion did not stop, 21-day fasting, offering himself as a sacrifice, for the desire to know Heavenly Parent's Heart more deeply and he realized Cheon Shim Won is not just a Place for Prayer but where Heaven takes R and where destinies are transformed and a Place to make the impossible possible.

The SW never yields to vague hopes and expectations, but only offering our most precious things as a sacrifice does H make miracles. When our appeals for True Mother are with life-and-death determination, Heaven will work and we can triumph over any Providential difficulty...

To build a tower of devotion here we continue and I conclude my report.

Our brother showed such faith

Testimony

gratitude

eldest son... I come from a fortunate family of Blessing allowing 3 generations with all of my siblings receiving the Blessing...

I extremely disliked the idea of going to 40-day Workshop and thought I would never go for that long of a duration, but at my mother's urging, with 120 days of Workshop, with the reason to cultivate my faith and actually feel Heavenly Parent and True Parents with us.

I had never sung praises or prayed while shedding tears, but while singing, 'Let Us Go Back to True Parents' my tears were unstoppable, even I did not know True Parents existed and even doubted Them. But in the lyrics, my own situation overlapped and I felt so sorry, but realized that these were not my tears but Heavenly Parent's Tears Who lost Their child, and I could feel Their Heart.

Still a feeling of discomfort remained, and I decided to go to the Attendance Workshop, with one question coming, 'Have I truly been living a life of attendance' I prayed only when I needed or wanted something or was desperate for that. I started making the standard, 'How would Heavenly Parent and True Parents think and what would They choose?'

There was a turning point in my faith. The problems I had been struggling with were addressed with hearing the Voice, 'Decide now.' And thinking this was the final opportunity to help Mother, I decided that most important than other things was to enter the Jeongseong Academy, investing in everything, even work I did not want to do, with thought I was participating in the Providence.

I was reminded of my mother many times, who pastors and others said is someone who always works diligently. I had never properly seen that side of her. But seeing the mothers who were receiving the Workshop here, I saw my mother like that. I felt so sorry to my mother. Talking to her before coming my mother asked if I believed in Heavenly Parent. I answered, 'How could I believe in something I couldn't

see.' My mother cried and also offered money to come to the Workshop. I came here reluctantly but came to know the reason my mom shed tears and reflected on and repented causing my mother so much pain.

I want to take this time to tell my mother thank you and I love you. I could come here due to my mother's devotion, and could grow with the graces despite my inadequacies, and I will invest completely and share the love and grace received thus far from now. I will enter the Blessing with my future wife dedicated to be a joy to HMM True Mother, with gratitude for being Guided to this Place.

HJ Report

Kim Ju Won

grace of 20th 40-day Workshop

I am the Director of the Cheon Shim Won Secretariat

Hello everyone Nice to see you all.

Before coming on here, a thought entered my mind. During the Osaka Rally in 2017, I dozed off and ascended to the SW. I met True Father, and He told me that He is in the SW searching for young children who can understand and resonate with True Mother's Heart in the SW. True Father said to go down and send this message.

So, I never forgot these words and share them with b and s. But when I think about it, at that time, I didn't see many young people to pass this message onto. And even I shared it, there wasn't any youth that could resonate with those Words, but coming up to this point I can feel how strongly True Father has worked.

Even if we didn't fulfill our R, SW has been pushing forward. I asked our coordinators to describe in a short sentence how to describe this workshop. They said it was like a daffodil that sprouted breaking free from the cold winter.

There are many dormant members or who left the church who arrived and miraculously returned. Many were just following their parents' faith. Among them, I am wondering how many could live by True Mother's desire. We always had a lot of fear whether we would have the same grace as the last Workshop, but True Father directly taught them, and HyoJN and HeungJN and they were able to change in one or two weeks many times...

To look at the trainees like that, and looking at this photo, you could see, by letting them go to resonate with Heavenly Parent and True Parents, this is expressed genuinely.

video

'As the cold wind passes by, the warm spring is coming. Embrace yourself that you have worked so hard and spring comes to embrace you. But we don't have time to feel the spring while stopping. The last steps up a hill require the most determination. We have come to that final moment to have greater strength no matter what and move forward as True Parents did. Now is the time to resemble True Parents boldness, inviting whatever would come with faith of a filial child opportunity for Providence, while behind us Heavenly Parent and True Parents reside.

You must testify to no fear and move with strength. There is no one who can block you, so stand bright and move forward. I truly hope you become such children.'

Recently, looking at the young people in the Workshop, such tears and earnest heart, wow... I always thought to myself that I could not catch up with even half of this faith. I thought it not possible. But with

Cheon Shim Won, I realized, 'Oh, our 2nd and 3rd gen can offer devotion greater than the 1st generation, and we have hope.' I really can feel this, and it is possible because of HMH True Mother's and True Parents's prayer and devotion with our elder members.

True Mother said to Yeongseong Workshop trainees about the small needle. Just like the small needle that sews clothes whole, this comes from the young gen. We must be able to read True Mother's Heart. And we must become one, hearing H's Voice and conveying H's Heart. Even if the lecture doesn't teach them, they start to realize how they are guided and what Heaven wants them to do, just as animals follows the laws of nature, our 2nd and 3rd gen find their own path and orient it...

PL: Put a strong drive in Cheon Shim Won activities where one can experience the SW, looking closely at how much devotion the churches are offering now. You must experience the root of faith that does not shake and become a pure person like pure, clear water. If you become one with a clean heart, you can win ten thousand things. The path is open and centering on PL's Words, with a pure heart and resonance, the youth work so diligently.

First, with the Event Commemorating the First Anniversary of the Gapyeong Cultural Festival, as well as the Epic lecture, more than 500 leaders of GY County gathered. And the core members and tribal messiahs gathered in this Place, and we had the Pilgrimage to Cheonwon Gung, filled with tremendous.

GY County leaders, without changing their heart, they routed for True Mother, supported True Mother. We were able to confirm that. We could see how the SW has been mobilized to restore GY. I realized that we can truly fulfill by investing together with great hope. And I saw when PL told us we must hold the prayer gathering at the Tree of Hyo Jeong, he consistently, but we did not fulfill. But with earnest prayer, one of them reported to me the same, that we must hold prayer at the Tree of HJ...

We held 3-day resonance prayer for H Japan. Our Academy trainees, inheritors of H's Love and Blessing, True Mother's Words Blessed us. 'Cheon Shim Won must establish a fence around 3 generations' and I've been seeing this. And we realize, 'Oh, I am someone who can contribute to the Providence.'

And we went to Seononbo and were able to realize something of the path of the Elders. We pioneered a path to there, and there was abundant grace. We couldn't find the place where True Father used to lean on the pine tree to take the photo, but then we found that exact Place, confirmed by the trainee coordinator,

the fact that they even tried so sincerely to find it had such grace.

I led this pilgrimage before, but it was beyond compare, with prayers and tears of a level of devotion for them to resonate their hearts with Heaven. We sang the song, 'All Things Shout Out' and all of them talked the same message and they could make a new start and give that testimony.

Shin chul nim offering praise with them allowed us to revive our hearts together with precious experience and grace-filled testimonies. About 21 members of 20th Workshop spoke out, and I felt it was foundation for Providence to move forward...

I believe all around the world would know about this brother...and someone called him a monk. He had hair loss and was only looking at his own pain, but with the heart that Heavenly Parent wants me to reveal myself confidently, I sang the songs even louder, and someone told me they gained strength by looking at your appearance. I will offer devotion for my family and move forward, even he had been a dormant member for a long time.

After his grandmother passed, he was able to come to 40-day and did a part-time job for the money to attend twice and has been working at the youth camp behind the youth center... Dates matched perfectly and he could attend. Just like in his testimony, he was standing after 3-day Workshop but someone came from behind to give him a back hug, and there was an older brother also with hair loss, and this Japanese member since high school living... but because you stood up to the stage to offer praise, I received such strength. I have received the Blessing and have 9 children and am living very happily. (But the brother thought, 'Oh, do I have to have 9 children as well? He thought maybe that would be such a burden for his wife.'

But he smiled and showed more confidence in praise and surely this Japanese elder brother was sent to our brother.

another: I set up various conditions, bows and prayer... and thinking that lectures and prayers were also devotion, I filled two notebooks... and I decided to eat only one meal a day and ran to the end without collapsing realizing the SW working together with me and determined to live a whole life attending True Mother

(showing the two notebooks packed with notes)

After abundant grace, he saw there was a lot of devotion in another one's family... I started a 3-day fasting devotion condition together with my family and I felt the deep bond in love with the family and for my younger brother, who was later able to be victorious by his devotion on the foundation of my younger brother's devotion. We saw that devotion is realized and Heavenly Parent is watching all devotion.

Her younger brother did not have faith but only after his mother had cancer, he was spurred, even his mother passed away. He thought he must make fruits from his mother's devotion and attend Yeongseong Workshop. Coordinators chose him as a person attending most diligently, presenting that to PL. So, to these trainees that the one with the greatest longing heart can develop the greatest and feel the most.

Also, the sister will receive Blessing this year. Throughout the world our members going to Academy, seminary, Top Gun, they are crying out loud. When did our churches offer prayer and devotion like before. I never saw such a thing before. I believe this tradition is settling down in our church and there are pastors and members who offer devotion through the night at the DC too. applause

another: This trainee attended with her younger brother. She was moved by the testimony of her mother, and felt the power of prayer of her mother. She prayed every day at the CP for my siblings, and realized the entire process was Heavenly Parent's Guidance, with this trainee, during the one-heart prayer, offering the wish for her son and daughter to attend Workshop together and the other members were sharing that prayer with such passion. After this prayer, as soon as the trainee heard her mother's desire, she was very moved and able to offer devotion for her younger brother. He had school and distractions and no faith.

The brother said, 'I will take leave from school and go to the Workshop and put this picture up on the group chat for his family. He said he did it as a proclamation so that his heart wouldn't change. And it happened that he got into the job he wanted a year earlier, actually. He receive gifts for his faith, school and work (He could attend school without being physically present)

another brother had the difficulty breathing and situation where he could breathe but continued to stand on stage and gained confidence and could complete the Workshop to the end and make resolution for my whole life to attend HMH True Parents...

He had the anger from the resentment spirit and was a troublemaker, but from the word that he had to overcome a spirit, and it was not him really, but a spirit. Everybody started to support him, one time 30 minutes straight and saying, 'You can do it.' and the spirit when it couldn't do what it wanted just left my body. I was knocked backward, and I became conscious but my body was paralyzed and they wanted to call 911, but after that I could control myself much more that people noticed as a miracle.

This trainee caught the mandate to defeat the spirit and fight... The trainee was lying down and getting the anso and massage. And he was saying, 'HMH, True Mother, True Parents, I am victorious... and he felt his accomplishment and clear mind and body' He felt such abundant grace and could testify...

We made a new program, Director Kim Jung Jin came to teach us about the songs. I thought he will just be singing the song briefly, but he taught specifically the background, the history, and about all the elder members and how they sang this song as their food to move forward. And nobody fell asleep but were fully awake. And it was my first time to hear such loud, unstopped clapping. It was also a best moment for me. Then the members felt such grace from that song.

I asked him to come and sing together at the Praise of Resolution. And we sang the song, 'The Men of the Wilderness'... And several trainees came up to me with excitement about that song.

Let us raise our heart with the elder members and sing to resonate with them...

video

'The man who runs the wilderness, the man of North Gando today, Mongolia tomorrow, floating and drifting like a wandering weed...

At the 20th Workshop, there was a trainee who became most famous. Many say this is the only person I remember. He said about the song, 'Men of the Wilderness' or 'The Oath', I sang them thinking about the heart of the missionaries at the time, receiving the persecution in the mainstream of the society at that time, because they resonated with the hearts of the members who served our True Parents with such hearts of conviction and pride to walk the path of the Will, it seems that such earnestness naturally manifested externally as well, to look at his face.

It seems he not only inherited the heart of the elder members but became the elder member. Behind his testimony, his younger brother ascended, and he attends on behalf of his own brother. He cried every day and had a heart that transcends the heart of our elders. The practice of praise with a longing heart, you can know the grace of singing with the SW.

PL mentioned to go to the Tree of Hyojeong. Mother said, the people who go there to offer devotion will be healthy. My child was diagnosed as possible to be born with a disability and received the grace of our child born normally. With the Heart of Loving Her children, True Mother Blessed this Tree.

With the conviction to offer prayer for the health of True Mother, the trainees went to that Tree, holding hands, and I was in the very front, and there were people putting their hands on my shoulders, and I thought I would lose my hearing senses. I believe we received grace 3 times more than any other prayer gathering, with that energy of hyojeong flowing through all of us and touching all of our hearts.

During opening and closing, PL said, 'What is hyoseong, what is yeong seong? What is spirituality of yeong seong? It is to Love Heavenly Parent and True Parents. It is the Essence of the Heart and Love. Heart is the Root of Love, right? the impulse that cannot stop from true-loving. That is why hyeongseong centering on true love is actually the very important course for the Workshop.'

So, what is the motivating force to hold the Workshop? It is in order to complete the H Kingdom. Cheon Shim Won must become a Place where we raise young people, young people who are like pure water, who can connect with Heaven, youth talented for Heaven. To plant this and move forward with this is very important.'

PL

'TYVM for completing the Yeongseong Workshop where you faced many trails, but going through it, you were able to step forward for attending Heavenly Parent and True Parents. Even if in the Workshop you could not feel Heavenly Parent more, do not be discouraged. The time when you practice 40-day is very short. We have to go to the SW, so do not stop here. Every day put yourself into practice. (See from SW perspective) Every day is to know more about Heavenly Parent and True Parents.'

Do not forget what you have learned here. Engrave the lectures in your heart. When you find yourself

difficult to move forward, the things you learned here can re-emerge to give you strength. But do not be arrogant because you attended 40-day, but make yourself more humble and return the grace to other members.

Now you are children who know more the Heart and circumstances of Heaven and True Parents and Truth of Heaven. That is why you must completely become different and spread that Truth to the world, not just be bystanders. You must continue to study. And when tears block your path, just by keeping going with life-or-death determination living a life that attends Heavenly Parent.

Do not lose your identity and I hope you will be children who bring a beautiful Smile on the Faces of True Parents...

Our young people are rising... I showed my before and after photo and again here are more photos.

True Mother said that through Cheon Shim Won devotion, if you can make SW to move, all can be accomplished with blocks disappearing. You should be able to mobilize the SW and call out to True Father until your desire is fulfilled. I believe it will.

For the 20th Yeongseong Workshop, I hope you can offer devotion for the trainees as well, so that they can be true pure water and talented to bring joy back to True Mother...

21 is the # of perfection and we have resolution to make it victory...

Break

Hoon Dok Hae

If you attend HMH, it brings development. If this nation fails to recognize the HMH True Mother Who is

leading the providence, it will drift away. Because this situation is so urgent, the 1st, 2nd and 3rd generations must become one, speaking with one voice, not divided.

You must feel the cheonshim and the truth. I hope you will not hesitate to do so. In this final era, you must leave behind a record that says, 'I so and so was at the center of the Providence, leading it together with the OBD, True Mother.

I have felt that this period, this time, this hour in which we can offer filial piety before Heavenly Parent and True Parents of HEH, is a GA. It is a most precious time in our lives to be remembered for eternity and boast of our victorious Heavenly achievements.

It is a question of how long Heavenly Parent has waited for this one era. 'I offer a prayer of gratitude in my name so and so, a BF gratefully attending HMH

Christianity and all religious spheres fear (bow before) HMH. HMH, H Mother, gave Birth to everything. Without HMH life cannot be born. When you attend HMH, peace comes to the family, the nation and the world. You are truly fortunate Blessed people.

I said that I would set up all the names of all the people in the Hyojeongwon who participated on the path of the Providence with Me in this era. That are names that will be remembered forever for generations to come. How proud and respected to will be by future generations in the position of saints. How is it for them to say, 'Our parents participated in the era when HMH lived.'

Cheon Il Guk FD is the creation of the environment where HMH Serves and Attends Heavenly Parent Substantially (and perfectly). Therefore, you must become One with Me. The Person Who has put an end to the history of the Providence and the history of the humanity is HMH. In this era it is a time to become one with Me. It is a time to become one with Me and live while attending Heavenly Parent on earth.

The 13th Year of Cheon Il Guk did not just become 13 years. The Center of the Completion of the Providence is HMH. Only when politicians, Christianity and people of this nation attend HMH, can there be Heavenly unified Korea. Now, the Blessing is with HMH Substantially. The Era is different. You must not miss this GA.

'I'll Love You with My Life'

President Lee Gi-seong's Message

1,552nd devotion of Cheon Shim Won...

42,400 have gathered around the world

Through Cheon Shim Won devotion, through perfect devotion, you must set the standard for Heaven to give you Blessing, so I hope you become such children.

In front of the DC our members are offering prayer and devotion. It's been 219 days since True Mother has been detained and Pastor Seong In myeong sent this message:

Celebrating the two Main Events, we are able to engrave the Path that Heavenly Parent and True Parents walked. The Path True Father walked (with True Mother), our True Mother continued that path in order to fulfill the Dream of Heavenly Parent, fulfilling all Her Body and Love. Her Love cannot be expressed with any words. It was just amazing, so great.

At this time of 1,552nd Cheon Shim Won devotion, HMM's Foundation will no be left lonely, but we will glorify it. In order to do that, we must move forward. So, we will offer our resolution tonight through this vigil.

Amidst such devotion of many members today, H Cheon Shim Won Director I Bom Som shared a testimony of a member Saito... It's been 52 years of my life of faith. And now, at 72 years old, I'm still

having conflict and concerns about relationship, but since 2 or 3 years ago, since attending the Cheon Shim Won vigil, I resolved to put all my life toward it, and no matter how difficult the person who opposed me in Cheonjeong Town...

I would fall asleep, so I would stand up and put a towel in my mouth so that no matter how much I screamed, no one would hear. Of course, we offer prayer for True Mother's health and swift release, but also I repented myself for violating my brother and sister's heart and for Heavenly Parent help me out. I will let people around me know about HMH and that is the resolution I made to testify about HMH.

After the assassination of Abe, I told I was with HMH to all the people around me, and all I could do was for me to read True Mother's Autobiography... and it's been 61 days since reading and even I speak about these Hoon Dok Hae Contents, older people are not very moved, except from the Autobiography...

I sent letters of my faith, 50 letters and going to C Churches, every month happily 3 churches and becoming one with HMH's Heart, I will proudly testify.

So, for 3 hours, besides ten minutes of break, towel in her mouth, our sister Saito and True Father witnessed and said, 'You have a Place and time to offer prayer. Even just having this time is the greatest Blessing and please offer as if at war. And I hope you become the victors.'

105 members were at the opening ceremony with leaders and parents and members... and looking at the banners with 12 people they offer prayer for that came to the Workshop. Another church 9 members that all the church prays for. If all the churches do this, I am sure of explosive result.

Branch Leader Moon Im Pyo came and I met his children on the elevator who were so happy that his father has come, but he came here to the Cheon Shim Won, and I hope they will not feel any pain. But they love their father so much... applause

The registration was 137,072 members have registered and soon we are going to surpass the record of the Winter GWs for this Spring GWs.... We are moving toward the victory. I am truly grateful...

Our International Team offered the praise. Truly I could feel that they are showing what it looks like to achieve one family under Heavenly Parent. It is truly the praise of the International Workshop and please help praise and move many hearts.

Today the message of the power of devotion that saves a life. Papamusa Undoseh, our leader from Bolivia, facing such a difficult time away from his home and his wife in the process of giving birth to the child and it was announced that the child only had 5% survival rate (along with his wife)... but even he was told to go immediately, he instead went to Cheon Shim Won and made the condition of desperate prayer and heard from True Father to find out his heart of what standard (to give his child and wife over and not place them more important than the people he was witnessing to)

Brother Anhoyol said he was thinking, 'How long do I have to offer this prayer and devotion?' and received the answer, 'Until you die.'

True Mother is still at the DC threat and we must offer devotion standard to (change ourselves, repent and purify ourselves and make the results that) the will move that situation

Cheon Shim Won is the Place to change your destiny and make the impossible possible. The fact that we could not revive our church, I believe is because we did not follow True Mother's Direction, substantiate

True Mother's Words.

By the brother's mother giving the internal devotion and giving the external money all for his attendance, making that all-important... and for 160 days he has been at Workshop. He realized that this is how his mother offered the pray, as also looking at the testimonies, and became one with his mother's heart and HMH True Mother's Heart as well.

We learned about individual perfection and family perfection... What would happen if you children did not know. When the mother asked and her son answered, 'How can I believe in something that I cannot see?' And that was the mother's tears. How much devotion and kept on appealing to him for the most important things, not giving up...

Then he made resolution to break through and make victory.

Brother Kim Jun Won fell asleep and True Father said He was looking for children who could understand True Mother's Heart. You saw the people in the photo shedding tears in their prayer. The one brother resonated with the younger brother in the SW sharing such deep brotherly love, and crying ever day in the Workshop, and I hope he keeps that heart that will make him victorious (by that longing heart) and investing and investing while emptying oneself, being a state of absolute obedience and children who have inherited that love, naturally the H Korea will come and be revealed in this land.

I have very high expectations for the trainees and I hope you will take interest and encourage them. The hardest thing in your life is raising a child properly. Among the early Blessed Couples, even the 43 Couples, they couldn't Bless their children... As parents they requested them, but their children are denying them and having unfilial heart to their parents.

How difficult is it to revive that person... Reviving someone to become like the person before the fall, a person of hatred to change to be a person of love. There are husbands who abuse their wives because of hatred. There are Japanese wives who hated their husband even after living together for 23 years.

Those living in hatred are not living in Heaven's Sovereignty. You must become the one who can love the other, in order to be on Heaven's side. Despite the persecution and all the people shouting to kill Him, He kept His standards until the last moment on this Life. And that was passed to His disciples and they were able to later meet Jesus after the crucifixion.

Jesus was not Someone Who screamed out of pain, but remembered as Someone of Love. Especially with spiritually open eyes, how fearful would it be to suddenly see things. Our members have been persecuted, but they kept their standard of essence. We can receive and inherit their heart. No matter how evil the spirit, once they enter HMH True Mother's Heart, they can be reborn.

This grace can only be bestowed by One Being and that is the HMH, Mother of Peace. The chosen people have come, but they couldn't meet the HMH True Parents, could bring people to salvation. As in the time of Jesus going farther, this is the greatest Gospel. True Parents have revealed the Truth of Heaven, to know the Truth about Heavenly Parent. We must educate about that, and once we do, then SW will take the responsibility.

Our church has experienced the miraculous work of Heave. Our R is to go out and introduce and then do the devotion for them and Heaven will work and I hope you can offer prayer and devotion knowing what is give from Heavenly Parent and True Parents at this time.

Calling out / Fight Song

Chanting

Prayer and Praise

We offer gratitude to You for presiding over this 1,552nd Cheon Shim Won devotion that moves Providence forward for the swift release of HMMH... The disciples knew how to hold onto the cross and weep in sorrow of Jesus shedding Blood, but they did not know the cross of circumstances and desire. Even Jesus' disciples betrayed Him and Satan mocked Him, His Heart did not change for the responsibility entrusted to Him alone.

It seems that even the trusted brethren has betrayed and we are being mocked by Heaven's enemy... It is the Unification Church that has crossed over the sorrowful, steep path of indemnity but if this has been cast upon us to shed BS and Ts and living only while attending Heavenly Parent and True Parents before the fall, let us regard our appearance reflected in a mirror and forgive ourselves. Let us move forward. Please let us wash away with tears and repentance the ways that we were not worthy of the life that True Parents gave us throughout Their Lives.

Let us be reborn as the Unification Church that can truly love, even as Jesus sought the forgiveness for those who slandered and mocked Him and even after the steep path of the cross was able to be resurrected and continue Providence for such a time as now.

Even as Jesus sought to find those who could hear and know Him, please work (so that we can hear the Words of True Parents and carry out Their Direction at such a time as this... Let us be what we need to be at this time unlike the mistakes of the past from the fallen history...)

Bow

Oeg Monsei

TY (and we love you)

***Mother said create new songs that reflect After Entrance, (which we are now celebrating the first anniversary of) or if we use older, beautiful songs, or popular songs, change the words, change the words, to reflect After Entrance, (both to) change the words by our sincerity to love and attend Mother and our sincerity to further Providence... and this is the major, powerful praise tool to witness so powerfully, as Mother said...

This is so doable, this is a choice, this is Mother's Direction (HMH, True Mother, OBD, Center of Providence, that Mother, Who is in detention mostly because of how chosen people, us, (not others) we chosen people made failures to hear and honor Her and Heaven's Sovereignty through Her. Do we know how profoundly vital to Providence and particularly to educating, giving example and protecting youth in the Spirit and Truth environment of After Entrance. It makes a trusted Center of our unity and harmony to honor, HMH, True Mother. It is the difference to not go by our own perfectly fine, justifiable, likeable idea, but by Mother's Direction...

As mentioned, with this song at this Korea Cheon Shim Won, they also changed the words they sang to "Holy to the Queen of Queens"... which is a main way to change the lyrics of before Entrance songs to always reflect the Heaven Mother, with 'Her' pronouns, not just leave the song to have only 'He' and 'Him' pronouns, or changing 'He' for God back to God to avoid the Masculine-only reference, or if it only says 'King', add one verse to say 'Queen'.

Does this actually comfort Heavenly Father and Mother's Heart, comfort and honor Holy Mother Han's Heart and Witness to the spirit world and physical world, doing what we can to obey that the hidden Heavenly Mother revealed to us, be further revealed to others. That is what we absolutely need to do, as Mother Directed, with 'older songs' or songs that are not newly written for After Entrance...

Do we know that Jesus is most honored and happy by our doing this, even, as in 'Holy Forever' they do not use the lyrics that speak Jesus' Name (even we certainly could go ahead and speak His Name also)... and do we know that Jesus is pained when we do not bother to change the words? Mother gave this definite Direction about the all- important matter of praise songs, especially at Cheon Shim Won devotion vigils, and you always see this obeyed at Korean Cheon Shim Won...

In the simple matter of song choice, don't we need to be entirely for Heavenly Parent, True Father, True Mother, Heavenly Parent, Jesus, losing myself to truly centered on Them, not my feeling, my inspiration, not our own idea different from Mother's Direction? Go ahead and choose popular most exciting, inspirational music that we like from world's songs, go ahead and use English worded songs, but don't leave only 'king', don't leave only past Christian understanding of Jesus sung by people who don't know Heavenly Parent and HMH and True Parents Essence, don't know this is After Entrance... use the song you and most in the audience like, BUT 'change the words to obey Mother's Direction'... even change one verse with 'Him' to include another verse with a 'Her' can make all the difference to invite the Heaven Spirit World,--- whether we do that or not makes all the difference... one honors True Mother's Direction and After Entrance Providence, one does not---when we want to help participants prepare our hearts' and/or deepen our hearts in Cheonshim Won vigils) It makes 'trust' and 'oneness' with that Center honored by all.

(President Lee Gi-seong himself took time at vigils more than once to share how he and his team had beautifully changed words of songs in response to Mother's Direction. May we please focus only on Mother's Direction and Value Position way above any of our own titles or lack of them---not make it about any of us, but about honoring Mother, honoring Mother's After-Entrance Direction we trust each other to first and most honor... or else how can our prayers be sincere, shouting that we are one with Mother. How are we not instead in the way of Cheon Il Guk and Her swift return... It reminds of how Eve went by her own idea instead of God's Word of Direction to her... and again with her justified motive of returning to God, she did her own idea choice of Satan's idea to tempt Adam, not trusting nor asking God...)

(I prayerfully communicated/asking HyoJN, True Mother, True Father, Heavenly Parent, Jesus

separately... Are you wanting me to express these things here? 'Yes' even some cannot receive it? 'Yes' Shall I shorten it? 'No.' Are You pleased that I take a stand about this? ((Still, please as always, tell me directly, show me, correct me some way that I am wrong in my own heart. (No answer))

Here are is new verse for that song 'Holy Forever'

(There are new words for the song 'Holy Forever' that teach and witness, matching the music exactly, if anyone is interested, just ask for it

6,000 years

6,000 years

2,000 years churches, falling down in worship, sang the song of ages to the Lamb

and all who've gone before us, and all who believe, sing the song of ages to the Lamb

Thrones and dominions, powers and positions, True Love is over all

The Name highest, the Name Greatest, Lord Messiah is over all

Heaven angels cry, Son Jesus

All creation cries Son Jesus

You are lifted high, Savior, holy forever

And if you been forgiven, and if you've been redeemed, flow the love in freedom from the Lamb

All is for Omega of one Alpha Plan, through the Marriage Supper of the Lamb

We'll sing that song forever and amen

As we live and die, sinfully

All creation cries, that we be

a humanity, mind and body... Godly forever

Heaven Homeland brings... holy...

Mother Queen and Kings... holy...

Family now seen... holy... holy forever

Mission Son highest, twice come greatest,

Christ gone farther as earth Groom and earth Bride

Their Love realizes, Only Begotten Holy Mother Han First Day

Ohh... Genesis of Jesus, the Highest

We bear greatest Truth of Wed Man and Woman

God Bodies.

Wine in Them is our engrafted Vine

Lasted Pure over all time

As the Daughter Womb... holy

Rebirth fallen bloom... holy

For Posterity... Parented... holy forever

5,000 years, Han ages...

For Lineage with Jesus...

That we always be... holy... holy forever

With Genesis of Jesus, we will always be, holy... holy forever..
