opening prayer of gratitude

... Let us feel True Father as He labors desperately, and feel the Hearts of HyoJN and HeungJN and DMN and mobilize AGS...

Mother must not remain in that DC any longer... gathering devotion upon devotion, faith upon faith with Their Words, mobilizing the SW, please let hear True Father shout as He labors desperately and let us gather devotion with a more truthful and sorrowful heart, feel True Father work substantially on the earth through us, uniting with one heart... Heaven to move and for the righteous to rise all over the world and testify about the Mother of Peace, HMH, and let us move forward with Spirit and Truth... We pray for True Mother's unconditional release...

eldest son.. In 3 WSs I gained the realization that faith should be alive and moving, interpreting to the people around me, not just believing and attending Heavenly Parent and True Parents... it must be complete and practical beyond my head and why. That leads to action lived out by the body. That desire led to the decision to serve and I entered GPP, setting one goal to attend citizens of Gapyeong with devotion through the various volunteer services that were never easy alone but I considered it a time of attendance alongside the other trainees.

It was a process of putting our hearts and devotion and hope while preparing the Black Noodle dish, hoping for the heart of those we serve as we handed them to the seniors putting our whole heart in every bowl. Some smiled, but some stayed unmoved.

The question, 'Are we really serving them well? Did we actually make them feel uncomfortable instead?' My steps became heavier, even with the question, 'Why are we doing this work?' I realized I was doing it looking for results, and then I would become weary, not in examining the others' heart.

This service must begin with the right mindset and center with Heavenly Parent and True Parents as devotion accumulates, and with hope they would change positively and even if no visible right now, if we continued with sincerity, we would be moved forward little by little, and even if our actions were misunderstood, not to evaluate others, but evaluate my own heart and attitude, and doubt would make me suffer the most.

The seen effect varies but important is to maintain the heart of Hyo Jeong and that would be enough for now. If doubt comes that this service is the image True Parents's truly desires, and that I am the one coming to know the Heart of True Parents's more than looking to others to change.

I believe change begins with small things, while walking this path to the end with gratitude...

Testimony

Christian Masejo

One of 8 siblings in a Korea/Japan family... My mother suffered much while coming to Japan and with my eldest younger sister was diagnosed with cancer and my father worked so hard that we never even knew when he slept without complaint, and I did not want to talk about my own feelings wanting to be mindful of others and not to become a burden...

Because my siblings grew in that similar environment, we stopped talking and became estranged all with each other, despite being family.

Nevertheless, I was able to walk this way because of the devotion of my parents, but my brothers and sisters became distant from the church.

In the beginning of the 40-day and 3-day Workshop, the deep sorrow Course came to me and feeling Her indescribable Heart and my ignorance I had had of it, I shed tears endlessly.

In particular with the departure of 2nd and 3rd gen, I thought I must restore them before Heavenly Parent and True Parents's sorrow over this in particular, and I thought of my younger and older siblings. But they did not want to say anything, with a part of me pulled by past experiences and wondering if I could really do it.

But it really is about emphasizing the objective position, not working with my own strength and I need work together with Heaven. Then my anxiety not to be able to do it turned into a sense of relief.

I began to give devotions and felt the love of H flowing in, and felt the loneliness and pain behind why they were distant, and I regretted not being able to protect and love them as an older sister.

I realized how Parents loved and believed in me even in times when I was distant. I realized the depth of

accepting and loving me just as I was. I wanted to walk this path so that Heavenly Parent's and True Parents's Courses would not be in vein, and surely restore my siblings.

I prayed one by one with an earnest heart, and began organizing family issues I hadn't faced until now, and being together with others, I became filled with gratitude to have been given this situation to unite my family...

My fourth younger sister contacted me and began to go to a Workshop. Before she stayed with friends and didn't return home. At the Workshop, it was difficult for her. She even began vomiting. I felt that the dark side did not want to let her go.

Therefore, the whole family offered devotion with her, and she began sharing her feelings that she felt unloved and very lonely and thought she could be loved by going out into the world. She further said she wanted to receive the Blessing, and I felt how Heaven had been working and was guiding us.

By inquiring from Heaven and walking the path with the conviction that Heaven is with us, I began offering further devotion for my younger brother...

HJ Report

Special Missionary

Shin Dong Mo

'True children of Cheon Il Guk who practice the Cheon Shim Won Providence'

You must become true children of Cheon Il Guk, who practice the Cheon Shim Won Providence on the earth, going to Cheon Shim Won 365 days a year and being able to converse with the 4PF of True Father...

Cheon Shim Won is where one can always have the experience of living while attending True Parents. If you pray and offer devotion earnestly at Cheon Shim Won, it will be fulfilled. Loving each other and becoming one must become a daily habit.

Cheon Shim Won is a Place where devotion is offered so that True Father can be mobilized for national restoration. That is Father's Wish and the wish of humanity. Therefore, you should earnestly report to True Father at Cheon Shim Won saying,

'Father, I am going to this place today. Please be with me and show the power of Heaven.'

'National restoration should in fact have been achieved before (the Entrance Ceremony).' When I read this, I felt as if it were piercing through my bones.

True Parents's Words: The Blessing is the Blessing of our position, but we must not just keep with that position, we must grow. If we express growth, it is expressed as the portion of responsibility

How deeply you all put down deep roots depends on whether or not you fulfill the responsibility of H tribal messiah. This means you must do witnessing. You must broaden your environmental realm. A single family or a single family's root can be shaken by the wind. However, if the tribe and you puts down roots together, they will not be uprooted even if a fierce tsunami comes. The way for you to survive is witnessing.

From May 1st 2026, I was assigned as itinerant missionary to the churches and before that I received the assignment to go touring giving a special lecture.

So the five people with this mission, we had to give a report about the amount of lectures and I had 111 lectures, and I reported how I had condensed the lectures to 3 hours. And even the members have difficulty, they focus their devotion on True Mother so they are not wavered.

I felt that I was the one receiving more grace, and True Mother smiled at me proudly and said, 'It's been a while to see you'.

Our Mother's health is still so poor but She was given more time, another 30 days to receive treatment, but what we really need is for Mother to return to Cheonjeong Gung and we must pray more diligently to move the heart of the judge, and I hope we can use this time for such devotion...

(Did you hear that MOTHER HAS BEEN GIVEN 30 MORE DAYS TO RECOVER HER HEALTH. What a relief that is. YAY!

This is how our members are urgently offering devotion through the HJ Papers... specifically for success of the surgery and victory of recovery. Our members are writing this devotion this way, and I feel this around the world and hope through that.

Some churches still have splinter groups and I feel like it is disorganized and something would not work well, and I felt the spiritual difficulty. However, this time, every time She came back, things began to get better and better and they decided to practice Chanyang and that sound did not cease.

And the person in charge of the CY started, many things got wrong and he thought maybe he didn't offer good enough devotion but I realized that these Philippine sisters when they were singing, they burst into tears that they couldn't finish the song. And I received a lot of grace, and after consultation time, we gathered to take a photo, and each and every one of these ones I could stand behind... Although it's not a big church, the CY was so sincere...

Here, the testimonies of resolving problems and I told them they looked bright. They didn't believe me,

but after the gathering we made and a thousand came and they worked so diligently and then they were praying in a good atmosphere, smiling and laughing and they realized that devotion is very important and that is why they had problems before, because not enough devotion.

They put devotion for ancestor liberation, and she was in my fishing team, and True Father used to check how big the fish is, and to bring all those fish to East Garden, and I showed a picture of us on the fishing team for a good memory.

They wanted to take photo together and to listen more, and one took everyone to the tea shop and we were able to share more message. The tea was elegant and they said that their sons and daughters will come soon, and to give the sister a lot of money back.

One of the famous people lived there, and I went to the memorial to offer prayer. They fought back with the government, but this really shows one of the characteristics of the Han people, thinking that they are trying to establish one family under God, and such vision is deeply embedded in people's heart.

In order to raise the OBD, the concept is embedded in the DNA. They have led such revolution. The characteristic of the Han people is fighting back the forces of the invading nation. I went various different places, and the reason I'm sharing this is because the pastor is grandfather age. He was supposed to introduce me formally, but this is what he made for me.

This is the first time I received such introduction about my ancestor who was the loyal general of the Korean soldiers. I went to my ancestors tomb then and offered prayer. With my ancestors there are many generals and I liberated them and Blessed them. And I told my ancestors that they should go with me and protect me way. I asked them if they really followed me. I didn't see that well. But that pastor made this devotion to show these slides, just like the general came down to drive back the Japanese, and when they fought more, I and others began to call the people there bright.

By this staff I have, I liberated the generals and they went to a better place in the SW. To make sure I don't do just the usual, that I must liberate SW. And the pastor was able to give this shirt to the people with the back saying, Holy Mother Han, I love you, and all the members will come to receive that T-shirt and I hope they all will come to attend this vigil on Fridays. Such ideas were shown in the church...

This was a CY in the video, a few days before the GWs, and because they offered such devotion, many members joined and they were a CARP leader and others, and from this old pastor, I could feel such strong devotion, like a 20-year old. The moment I began praise, usually people sat to listen, but in this church everybody rose and offered praise in one heart for the burning atmosphere... the SW was moving.

The wife of the pastor shared testimony of how Cheon Shim Won vigil brought grace and liberation. I also experienced a big spirit coming out from her daughter during the main message time, with this gift from Heavenly Parent and True Parents... The fact that we can raise our faith is a precious time. Reading out loud is what we must do...

She will bring more than 70 people, and I said you must bring more than 100 people once a month, because you must have a bigger church, and have the goal for 3,000 people and use the church as a seminary. I see this possibility for them.

I usually share what I used to, and this member resolved to do devotion for their child... this time of resolution for the practice. And one even pointed out each section what they realized, as like if diligently offering CY, the body temperature rises. The effect of shouting out is very important, very specifically

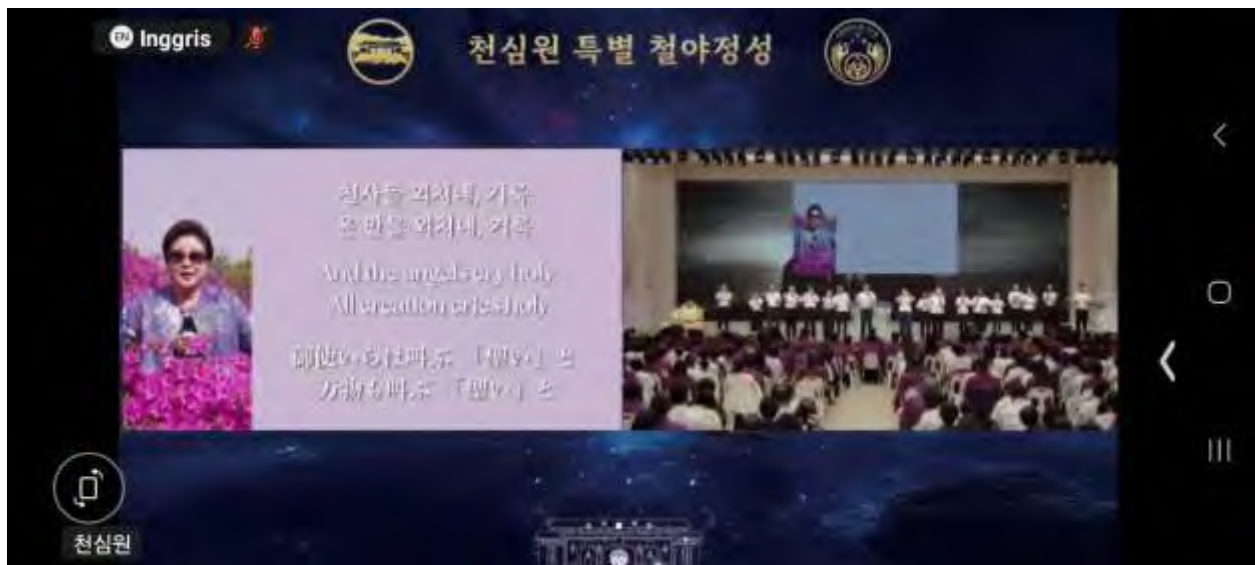

each one.

I felt that, even though I am inadequate, but this person is offering devotion like this. And Father told me, 'You must pray' and I could feel in the devotion that a Father was speaking as Jesus was in Mark 14 with Jesus trying to wake the disciples. And True Father's message, 'Now is not a time to be asleep but to be awake and pray, and I could feel that True Father has come to stay with us. And it gave me goose bumps to experience that time.

Cheon Shim Won is the greatest devotion one can offer and we must offer devotion and resonate, so members felt very strongly about SW, and through the words that devotion must be practice and show external result. Through this, this person resolved to practice.

Devotion is the core of life and faith. If not, the dark spirit will come. She also shared about her experience meeting True Father, and how True Mother is absolutely one with True Father and not wavering to move forward. She gave specific content, showing me what she wrote down. She also wrote the emphasis not to ever give up, which is the most shameful thing, at least a consistent effort more and more.

I was able to engrave absolute faith and truth that HMH is our Mother. Although maybe not a big thing, the practice of Her Heart to Love and unite. Those who want the gathering time, I felt that when witnessing True Father, when someone witnessed well, He would bring that person to dine with and share about witnessing, and True Mother also called this one to teach other people.

We should ask that person to also give lecture. This was the last church, and I said this church is such a happy church, and the pastor and his wife came, and they are young but very confident and bold. And they really loved the pastor, and I felt grateful to go there... I was also a CARP leader and the CARP leader's mom and younger sister came, and they stayed to the very end.

Another person with the apple farm gave me an apple juice and all the members came and gave an unprecedented farewell to me. This church really longs for each other's people. This was the church with the long history. I shared that they must accomplish in witnessing.

And one is a flutist that plays a lot of Mozart music, and she had two jobs because she needed the money, but her body became bad and she reduced the jobs but not the devotion. She resolved to move forward with it more...

testimony: We held this Workshop 2 times and for 54 days, members offered devotion (It is said to offer at least 40 days, but even some churches, even they offer 40 days, I don't feel the grace) But this church did 54 days two times and I felt the grace.

Through this time, testimony of receiving the answer from heaven (the pastor received to have breath and live and practice) The effect of witnessing is:

40% spiritual atmosphere

30% Principle

30% practice

30% witnessing

People need us to embrace them with the Heart of witnessing and the Heart of true love... with a church in harmony. The church must be in harmony. (with the root Heart and Direction) Only then people inside and out will stay with it enduringly and be protected...

Why did Father put colors in the Divine Principle? You must read and share Divine Principle, you must witness one-on-one witnessing. They understood and resonated with what I was saying.

About 50/60 people listened to my lecture for about 6 weeks. One sister even sold the True Parents's Theory Book, and she brought 30 or 40 people to the Cheonon Guk Event. She is also doing reading of the Divine Principle with about 20 people. She sent me a lot of photos. She holds a family church service, and the number is increasing. And sometimes they also attend Cheon Shim Won vigil.

I saw hopes like this when visiting and many pastors were also contacting me with good reports. It's not that this is the only method, but I believe the members were able to resolve to move forward more.

Until the time that Cheon Il Guk is proclaimed, we don't have to separate Heavenly Parent and True Parents. We don't have to separate True Father and True Mother. And that is pointless. Since FD, we have entered an era where we do not separate True Father and True Mother. And through a 7-year course, in order to accomplish the promise True Mother made to True Father, True Mother made a Vision 2020 Victory, and on that foundation, True Mother was able to begin the Cheon Shim Won Providence.

Internally, through the 1,095 days devotion, True Mother was able to settle the Cosmic 4-PF of the True Father.

And True Father has been emphasizing strongly about True Parents's Theory, saying we must create a Content to educate people centering on True Parents's Words. And one of the important things is Cheon Shim Won. It is the Central HQ and Main Hall where Cheon Shim Won devotion is made and Main Hall for solving all problems and the Main Hall of uniting all leaders and Blessed Families resonating with the Heavenly Heart of Cheonshim.

I read this part again. Cheon Shim Won is a Sanctum for direct dialogue with Heavenly Parent, as Adam and Eve had before the fall. We should not think of it just as a prayer room. True Mother, Who gave us this precious Present, I believe we will break Her Heart if we just think of it as a prayer. It is a Place that resonates with the Heavenly Heart of Cheonshim. (by a far greater, more essential value)

And Cheonshim is the Heart of the Perfected Heavenly Parent and True Parents. It says very specifically about Cheon Shim Won in True Parents's Theory:

Cheon Shim Won is True Father's Office. It is hope for everyone. It is the greatest Gift for everyone. It is a key to resolve all the problems. It is the place where resonance can occur.

So, this comes out in the Book of True Parents's Theory. When we become one with Cheon Shim Won Heavenly Heart, we will be able to make victory through witnessing, and we will be able to accomplish the H unified Korea.

The sorrowful history of persecution of True Parents was because the national restoration has not been met.

To be honest, True Mother's current situation, if we can offer more devotion, if we can do a little bit

more, gathering our hearts, I'm sure True Mother will not have to further face detention indemnity and could return and that would lead us to be victorious with our witnessing activity as well as H unified Korea.

We're not trying to blame others, but now is the time not just to endure, but put our hearts fully with Mother's in our heart's same desire to practice.

On Page 20 in the True Parents's Theory, Cheon Shim Won is the most effective Place to offer devotion so that True Father can be mobilized for national restoration. So, if we offer Cheon Shim Won prayer and devotion, this is the all-important thing to emphasize for True Father to work and us to accomplish national internal and external unification.

Sometimes if pastors call members, they don't like it, so that I hope that friends call their own friends to bring them... those of the similar age and background...

We should have restored the nation by the time we dedicated Cheonwon Gung Cheonil Sanctum

In 1997, after those who finished the 160 families providence, I was there. And I found these Words in True Father's Words Collection:

'We're doing this to find the nation. If I had a nation, I would not live in prison. I am persecuted because there is no nation'

True Mother wanted True Father's Accomplishments to be known throughout the world, and She gave the Offering of the 7 Cheon Il Guk nations and religious and 1 continent as the Present for True Father.

I hope we can understand True Mother's Heart and that this explains Cheon Shim Won is the Place that SW to mobilize and with PW to establish the nation. So all the members of the churches must offer prayer and devotion so that all the churches can revive to the greater level (like the early church). I believe this is True Mother's Request of emphasis that all of the churches BF and members attend Cheon Shim Won.

Also, True Mother said that Cheon Shim Won has two pillars of Spirit and Truth with members moving forward together more and more. Cheon Shim Won and HQ side by side, which is why She created a Cheon Shim Won Branch in every continent.

When becoming one, there's no such thing as who is on the top and who is on the bottom.

When Mother says something, all the Providential leaders and all members must come together to support this.

The person with the good ancestors, good providential foundation, I see this member realizing things by him or her self.

So, Cheon Shim Won is not just simply a Place to offer prayer. We must become one as family through Cheon Shim Won. It's not about 'position' or 'titles' in the church. It's about our Mother and Father of our family, and The Word and Direction of Who is directly Sovereign, Who truly is honored at our Center. (It's about one member compared/judged better or worse than another member, but all supportive to each other's first desire and need for the same Central Heart, Word and Direction to comply, to support each other that we fully respond to alone and together)

This is mentioned repeatedly in the vigil. But if we don't wake ourselves, Heavenly Parent and True Mother/True Parents will be so sad about it. Because of that, True Mother is also walking the course of more suffering.

So, CheonBo Family and our mission is that we must, through devotion show the results. The era of Cheon Il Guk is the Era before the Commandments. This is the page I always show when I tour around. There are still the people only knowing and living in the OTA or NTA and where is the CTA and where is the Cheon Il Guk Age? And this is what I always say:

We are coming into the Cheon Il Guk Era, when all BF's fulfill their R (their heart's true response), we must set a condition and register at CheonBo won where we do not have any shadows. And the CheonBo won... True Mother said:

'We still feel a lot of lack, but until our lives end on this earth, we will become one with True Mother, and with that standard, we will accomplish our title of CheonBo Family. So this is the mission True Mother gave us. Let us become one with True Mother and become one with the Cheon Shim Won that True Mother desires us to offer devotion at.

We must move forward in that way.

So we must have a life in resonance with Heavenly Heart to return to our original appearance, centering on Cheonshim.

True Father gave these Words in 1956, and True Mother gave the Word in 2020:

'You must know how to hear the true sound. You must know how to hear the voice of God.' (just as True Father said previous to that).

And so, we must attend Cheon Shim Won, because that is the Place to inherit what we need. I don't know what will happen to those who do not attend Cheon Shim Won. It is the Place to become the direct child whom Heavenly Parent can love with full love.

Through Cheon Shim Won, let us truly prepare for the Heavenly unified Korea, let us gather more members, let us revive our church, let us expand the territory of Cheon Il Guk true love, and through that bring the unified Korea and world Heavenly Parent desires.

True Mother's Words:

'You must command and unify the SW from Cheon Shim Won. As a result, you must solve problems on the earth. You must be able to go to Cheon Shim Won 365 days a year to see Father and be able to converse with the 4PF of True Father. You must live while attending Heavenly Parent. This Cheon Shim Won should become a part of your life'

True Mother taught us that Cheon Shim Won is the Place where True Father can be mobilized on earth for national restoration and True Parents have emphasized tribal messiah. And responsibility of tribal messiah and its importance to spread the Heavenly territory.

In front of True Mother Who asked us to become the filial sons and daughters, I hope you resolve for this today and tonight.

We pray for health of True Mother and Her swift return to Cheonjeong Gung, TY

Hoon Dok Hae

'Standing in the Position of True Children by Believing in, Attending and Following True Parents'

You must become one with the True Parents Who have victoriously put on the Substance of Heavenly Parent. It is when you are reborn through True Parents that you can go before Heavenly Parent.

Humanity must know of Heavenly Parent's Existence and what Heavenly Parent's Dream was. Therefore, by believing in, attending and following the Victorious True Parents, you stand in the position of true children who can go before God.

The way to make the world one is to teach the Essence. In other words, you must let them know God, and let them know what God's Wish and Dream was. Since the Owner of the Universe is the Creator God, there is no way to solve anything without knowing God. However, the only Ones Who can let that be Known is True Parents. Therefore, if you do not know the Words and Will of True Parents, you cannot become one.

You must pray every day and offer a tithe every day. You must pray for 2 hours and 24 minutes every day which is a tithe of ten. In My time I would lie prostrate and pray for 17 or 18 hours, usually 12 hours. While doing so I would not eat lunch and I would wail loudly. If I did not do that, I could not live. All sides were tightly blocked. There's no hole to go out. Only when you pray can you see a little hole.

It is through the process of trial that I found the Principle. Did you ever hold the Principle Book and cry? What you do and experience in this life time is important. This life passes and never comes again.

How will you marry and give birth to sons and daughters? How you do or don't, you will carry burdens, pull a hand cart, struggle, and then it simply ends. It is serious if you live a life that the world of goodness cannot come.

After receiving the Blessing, when you go the normal path as a family that offers devotion, those sons and daughters will be born with the great foundation of the Unification Church. No matter how lacking the father or mother may be, those children are born with the Heavenly fortune. So, how do you leave behind descendants who can be born with Heavenly fortune? That content is determined according to the standard of the parents' devotion.

In other words, the fate of the descendants to be born in the future depends on how much you are loyal to the country, to the world and to Heaven. How earnest was your heart and how much did you give your utmost sincerity.

Even if you try to move passionately, but by your own greed, Heaven does not align with you. When you seek to satisfy your own individual desires, God does not stay with you there. God is with you only when you are for the sake of the nation, the world and the people.

Therefore, the path of the BF is to establish a broader and higher love. Aju.

Pres. Lee Gi-seong's Message

gratitude... You are tired and weary, but you come without stopping, and I am sure Heaven will give you abundant Blessing

About 45,600 have gathered to offer devotion...

In H Japan, through You Tube, 50,400 places

testimony:

I didn't know about Cheon Shim Won Providence. I didn't realize deeply about the value of Cheon Shim Won Providence. I also didn't think I needed to liberate the central resentment spirit. I visited CP many times, more than the regular members, and in 2019 I finished the 430 liberations and Blessings, so I thought to myself I had completed everything and also thought it was by my own effort.

While living that way, the problems started to occur in my family one by one, and as I was progressing, suddenly an answer came from my heart. Until now, I hadn't attended Cheon Shim Won devotion and everything had to unfold from that moment. I had a vision, 'Go to the Cheon Shim Won every day. That is what we desire and need in order to support you. So, be absolutely obedient toward True Mother.'

Then I was able to go to CP and with this ancestors request offered a 3-day fasting devotion and the two were combined with the HJ Offering Paper and the problems began to be resolved. The problem with your family is solved that the conditions were set, and now offer for another family

Then I got the message that my father was acting weirdly and it looked like he already passed away, but I believed that Cheon Shim Won makes the impossible possible, and that the power of prayer is stronger than the power of ansu. So, I placed my hand on the heart of my father and with a loud pray I didn't give up, and then my father started to breathe again, and he came back to a normal state, and going to the hospital we found a cancer, but then that cancer did not spread and he didn't even have much pain.

With the support of medical angels and HJ Papers and other devotion made this result. Then my mother seeing this could not deny our church any longer.

Then I received to request to appoint me in charge of the safety of people in the local area and I asked in prayer, resolving to do it if it was Heaven's Will. I openly proclaimed that I was a member of the FF, and asked if they still needed me. Then I found out that that person had been looking at me for a long while

and knew my activities of cleaning up the area.

My role was looking over the families that had needs, a position as a government public official, and felt this would be a chance for our family to be established in government. Mother, please return right away. Please Mother do not worry. We will take care of our brothers and sisters there.

Looking at our b and s clapping naturally, I believe that brother is living a naturally Heavenly life.

For ten years of offering service to the local area, that person was recognized and they were able to accept that person as a FF member and because of it, so that our situation can change.

Today Cong Jeong Teh Workshop trainee shared testimony attending Yeongseong and Attendance and GPP WSs to create the environment in Gapyeong, making 120 days attendance.

GPP is for restoring Gapyeong and to establish Family Pledge Verse #1, this is a condition for that. We will establish the Heaven realm on earth and in Heaven. This is our Pledge. And True Mother has offered utmost devotion to fulfill this Pledge #1, and She had reached the standard to say, 'Come to CP and see what I have done.'

True Mother felt very sorry to Heavenly Parent to make Heavenly Parent and that leaders waited so long. True Mother moved forward with Spirit and Truth from the beginning. With the H mission from True Mother to restore the entire GY and go from there, and we have been working so hard. Gratitude to you and I'm sure True Parents will have compliments for you.

At GPP, our Board of Director Leader's Wife joined the GPP Workshop. She is here. Please stand She faced many challenges and overcame them. So, all of us should create this environment so that the people can welcome True Mother.

We meet Elder Pastor's Association and Wives Association and then they hold our hands and say, 'Please tell Dr. Hak Ja Han to be well and safe' and with that many members shed tears. We must create this.

Even our Mother lived such a Life, She is in the DC, and we must create the environment where we pound the ground and ask for forgiveness and move the people's heart.

We were told the method to do that... There are members who curse and swear and just left the room, and although that brings a stop to my heart, if I pile up the sincerity, things will change.

that is why the theme song of the GPP member is unconditional. No matter when and to where you call me, we will go. They will be the one to step up when others mock and criticize True Mother. And when a village leader was told to find negative things of the Unification Church, and that leaders shouted and told them to leave and said there are only good things. So with the Autobiography and other Contents, you must share...

The testimony today, they have given birth to 8 children. The father is the public official and the mother had to work so hard to maintain the family. When we think about the mother, there are those who have one child but say it would be too difficult to have a second or third... Of course, they would have difficulty more and may drift away into the world...

Our sister felt the sorrow of True Parents's Heart and resolved to restore her younger siblings as the older one... and one came back and attended the Workshop... I believe her younger brother will also come back

and they will shed tears together.

She experienced Heavenly Parent and True Parents's guidance and she realized that only through that prayer and faith deeply is the way.

Our brother Shin dong mo will be going to H North America as a Branch Leader and all the hardships and difficulties he has faced has been established so that he can go to H America and save America... Looking at the photo where he is like a general, truly fits him. He was born in a family that the members were public officials of the government, but his family did not quit going out and lecturing.

I heard his father's lecture, so heartistic, and that was the beginning of my understanding of the Principle. And our brother Shin dong mo followed him in his ways. And our brother Shin dong mo, lived through difficulties. He went hungry. But despite that, he never wavered and still moved forward.

And Shin dong mo, although he is a 1st generation member, I call him a 2nd gen member. He was a national leader, a CARP leader, a UPF national leader in charge of a nation, and he also served in Cheonjung Gung, right next to True Mother. And when he was appointed as Special Missionary, I'm certain he must have had great frustrations, but he worked diligently as a missionary. And he also attended at 40-day Workshop with Heongseong Workshop trainees.

At the Special Prayer Room, he received a lot of ansu Workshop too. He studied a lot. He studied very well. And now, he will be going out to the H USA as the Branch Leader to save the Elder Son Nation. Such an historical moment has come.

And when Shin dong mo comes to the America nation, I'm sure that the Heavenly wave will rise. The atmosphere and environment will expand. True Mother gave him such mission for this great Dream. applause of congratulations

The pilgrim fathers of America, they will come and work. I believe they will work through our brother Shin dong mo. As long as he can make the right relationship, now the time has come when the SW can work any time as long as we set the right standard. If we can do it that way, we will see unprecedented Heavenly work in America.

When we realize, 'Oh, my faith has been lacking. My faith has been on the wrong course. By really repenting, we can strive forward to become the citizens of Cheon Il Guk. Such work can occur in America. In order to do that, we must offer prayer.

We read True Parents Words today that we must pray every day as True Father practiced and gave the Words. He would normally pray 12 hours and sometimes 17 or 18 hours, forgetting to eat lunch, and wailing loudly. As He did that there could be a hole in the walls tightly blocking.

So, you must live your entire lives centering on the Word and on this Providential age. You must not waste time and then life simply ends. The early members who knew the Will, they didn't live with such difficulty just to settle a family, but in order to fulfill the Providence, they sacrificed the family to walk a path of BS and Ts...

When we put this kind of parent on the podium, he will give the tearful testimony of that family's inevitable Blessing. We heard sharing of how much our Japanese families are enduring, and we can resolve that we Korean members should compete to do better than them, enter a position where we can meet with tears.

Our Workshop trainees have reached such state, as we see through the video. By such a standard, you must start your family for your family to become one of devotions continued. After receiving the Blessing, if a family does not offer this standard of devotion, the sons and daughters cannot be born with the great foundation of Unification Church by their special birth to come to know Heavenly Parent and True Parents's Heart. These amazing descendant are born despite the standard of the parents, but for them to inherit loyalty and earnest sincerity of devotion, parents must come to Cheon Shim Won and made offerings for the nation and world and for Heaven, and then the pure born will not be again corrupted but can align with Heavenly Parent so that Heavenly Parent stays with them. Heavenly Parent only stays with you when in the position of living for the sake of the nation and the world and Heaven.

We have read such amazing Words of Heavenly Parent and True Parents, and I hope you will shout out so that you will be awakened as a family that offers devotion. And if you do not offer devotion, you will leave indemnities and crying and difficulties for your children. Now is a time to make this devotion path the norm. Cheon Shim Won Providence has been opened, and that is why True Mother offered the Cheon Shim Won prayer room in every church and family, and as you attend and establish Hyo Jeong won, we can have the H fortune and rise higher than others of the world, and H will give you the vision, H will guide you and the miraculous events will come to our church and you will be able to open the path of the victory where a single day is like a thousand years. Such miraculous days are waiting for us.
